****30' THEFT OF 1928 BANNER IS UPHOLDS****

Myskania Also Declares That Rivalry Is Not Null and Void

FALLOON IS ANSWERED

Senior Honor Society Denies That Rivalry Is Not Null and Void

The freshman men announced yesterday afternoon that a picture of the sophomore banner which has been placed by the Falls Park, senior year's banner.

Myskania, senior honor society, has refined the request of Thomas A. Fall, president of the sophomore class, for the undoubted rivalry banner for the fall semester and null and void that the sophomore banner, "King Care", was not destroyed.

"For four or five days ago, he returned to the sophomore class and fell in love with the banner.

The decision of Myskania is made today through the News by the editor of the News and the News.

Myskania sent Tuesday evening to Ross in a communication from her.

Point by point, the reply of Myskania answers the arguments set forth.

The two letters follow:

"I hereby ask that the banner rivalry for the fall semester be declared null and void and that the banner be dropped.

This decision has been reached after discussion with J. Brubaker this morning. The reason for such a decision is that due to some unknown reason you did not announce banner rivalry open until Wednesday, January 12. This left only one week and three days to keep the banner one week in the College as required by the inter-rival rules. Consequently, we have decided that the banner rivalry be dropped because we could not find a solution to the banner rivalry problem for the fall semester.

If either banner had not been produced, we would have avoided the situation for not opening rivalry. However, the banner rivalry was dropped because of the reason for not opening rivalry. I think we were forced to drop the banner rivalry because there were no known solutions to the banner rivalry problem for the fall semester.

I hope that this answer is helpful in clearing up any confusion about the banner rivalry for the fall semester."

"Right To Enact Uniform Banners"

"My class, the Russian class, has no right to enact uniform banners for the coming semester.

You are right. No uniform banner for the coming semester.

Your prompt attention in regard to this situation will be appreciated.

Myskania to Fallon

Myskania hereby notifies you that banner rivalry for the fall semester is not declared null and void and that this banner rivalry is designated to be displayed.

This decision has been reached by Myskania after consideration of the banner rivalry.

1. The 'unknown reason' to which you referred has never been announced.

2. The class agreement not to open rivalry is still in effect.

3. Myskania did not receive your written communication notifying that you had dropped the banner rivalry, which was in possession of a banner holder's name.

B. Myskania did not receive the communication that you had dropped the banner rivalry."

Myskania also makes it clear that this class was in possession of a banner holder until the afternoon of Tuesday, January 12.

"EXAMINATIONITICS"

With finals ten days off the usual preliminary symptoms of examinationitis are already apparent, particularly among the freshmen, for whom the last ten days have been filled with peculiar terror. In order not to make matters worse to tell these students if they have prepared for work they need not fear the examinations, but if they haven’t, tell them.

It only makes matters worse to tell these students if they have prepared for work they need not fear the examinations, but if they haven’t, tell them.

Students, looking at their upperclassmen brothers and sisters, and, of course, looking at the sophomores—should take a word of help from “examinationitics” to quenched those monsters of examination. Why not?

INTERSORORITY COUNCIL OUGHT TO REVEAL ITS ORIGINAL PURPOSE

By BERTHA ZAJAN

INTERsority council’s new rule, which will make it impossible for more than two sororities to gain entrance in the freshman hall, has given rise to considerable criticism. The new regulation means that, on an average, only the new organization every five years, is a short-sighted attempt to prevent future growth for possible future groups.

PROFESSORS BATTLE STATE INTERFERENCE IN EVOLUTION STUDY

(\textit{By N. S. S. K.}) Anxious to avoid the spread of anti-evolution legislation the state education department is preparing to battle this growth in the name of freedom of teaching. Meeting for the American Association for the Advancement of Science, the department decided to defend its position on the separation of church and state in education.

This is a fight to separate church and state, not which are right or wrong. The department explained Professor Louis F. J. Wilder, registrar of the department of curricular instruction, is determined to defend the separation of church and state in education.
