CHANGES IN RULES FOR FRESHMEN
Approved by Myriania and Accepted by Student Body

Two rules were dropped; rule 13, which read: “No men of the Freshmen Class are to be allowed to indulge in any form of tobacco on the campus, except at the places of Barry and Fire- guard,” the star forwards on last year’s team, but the Juniors were still fighting hard to over­take the 4-point lead of the Freshmen with Ivory and White.

The Juniors, although they lost the contest, played a fine brand of basketball. They were in the lead from the beginning of the game and held it, except for a game on the whole clean and fast. There were quite a few fouls, due to the fact that this was the first game and the men have not gotten over the old habits acquired in practice scrimmages, but the contest was not won by foul shooting. It was field baskets that counted.

First Inter-Class Game — 28 to 23

The Freshman Jr. game, the first interclass basketball game of the season, went to the Freshmen by a score of 28 to 23. It was one of the best games ever played on the State College grounds. The issue was in doubt right up to the last minute, but when the Juniors were still fighting hard to over­take the 4-point lead of the Freshmen they were in the lead from the beginning of the game and held it, except for a momentary tie.

must draw upon our educated young men for those who are capable of developing as officers. It is one of the axioms of military science that intelligent leadership on the part of officer personnel means the conservation and saving of life of the troops.”

“...The training of officers demands first of all time,—the time essential to the formation of a habit of discipline which cannot be said to be native in American youth. Discipline has been called the habit of quickness and precision in thought and action, combined with a regard for authority which enables one to play his part in the work of a team. It lies at the bottom of all successful team work.

“American education in the past has been inclined to overlook the necessity of emphasizing that phase of its manifold activities which deals with the subject or preparation for maintaining the forms of discipline. A college education which has left unattended the fitting of its subject for active service under his country’s flag is, and must be, incomplete.

In the R. O. T. C., the college finds this vital addition to its curriculum and the student who parasites the training which it offers finds the opportunity for physical and mental development, and completes his equipment for the battles of life.”
