Rockefeller Issues Ultimatum Concerning New Campus

The following report is based upon articles taken from the Times Union and the New York Times at the Times Union in Albany.

"Rutgers is working on a new campus in Albany," said the President of the Times Union. "We're just starting to plan it."

"I'm not sure what we'll do," said the President of the New York Times. "We've got a lot of work to do before we actually start building."
Dear Mayor Corning

Without a doubt, the controversy between the City of Albany and the State of New York concerning the future proposed site of our campus at the country club is the most heated issue we have witnessed during these three years here. Apparent in the climate of Albany there have remained very important questions which prove the worthiness of our college to this community.

Do you realize that the college spends a conservative estimate of $12 million dollars in Albany per year in travel expenses? An estimate, however, which is much higher. Those funds employed in traveling expenses which return to you and your area. Does your city or community benefit in any way from the thousands of students and faculty of the college who have spent time in New York? Does any area industry have a more direct economic effect? Albany?

We have a staff of professional people who are flown to Albany to help you, the citizens of Albany, to learn how to live. By us teaching and educating the children of these Albany citizens, let us hope, we will help them to get the most out of the next four years.

The college will far outweigh the time spent.

Hats Off to Soccer Team

By JOHN MUNDY

Before I start this year I want to thank my hundreds of friends and hundreds of loyal readers for their tireless efforts to make the League a success. I couldn't have done it without them. It is after this great show of loyalty that I bring you this year's preview of the World Series.
