Campus Interviews on Cigarette Tests
Number 3...THE FLICKER

"One question...Where do I hitch my wagon?"

Don't think we're paranoid! Hand with the香烟 doesn't know the score! So, play it by the board rules, and the board rules don't know the score! If you're in the gutter, you're out of luck. You don't know, you don't know, you don't know, you don't know... you don't know! You can't possibly tell by a quick sniff and sizzle, a whiff or a puff!!

The sensible test --- the one that gives you the proper answer --- is a day after day, park after park, treat after treat for 30 days. It's the Cigarette 30-Day Mildness Test. You judge cigarettes for 30 days to your own taste and kind. Then take notes of your findings and let us know the result. The more you smoke, the more you'll know...

More People Smoke Camels
than any other cigarette!"
I Can Mean...

Serving the needs of a body of students through a student government is not an easy task. It is a matter of dedication and responsibility. The Student Government at State College is the only organization on campus that has students as its members. It is the only organization that can truly represent the students' voices and interests. It is also the only organization that can hold the faculty accountable. The Student Government is responsible for many things, including the organization of events, the promotion of activities, and the representation of students in the decision-making process. It is a complex and important role, but it is also a rewarding one. By serving on the Student Government, you can make a real difference on campus and in the community.

[Letter to the editor expressing frustration]

To the Editor:

I am writing to express my frustration with the way things are going on campus. I feel like there is a lack of communication and cooperation between different groups. It is frustrating to see things not getting done because of this lack of cooperation. I hope that something can be done to improve the situation.
