Alfred's defense spent a lot of time in the Zone and Albany had to get off the mark before the first half was over and they did it with a high level of competition after losing the first half.

The story of the game was the defense Alfred's defense spent a lot of time in the Zone and Albany had to get off the mark before the first half was over and they did it with a high level of competition after losing the first half.

The goal line was at the 20-yard line and it was there that the Danes made their first attempt to score. They were stopped by the Alfred defense and the ball went out of bounds.

The Alfred defense did not allow the Danes to score and the game ended in a 2-0 win for Alfred.

**Women Booters Capture Fifth in State Tourney**

Finish At 11-6 In First Varsity Year

By Mark Quinn

The one thing that always comes to mind when people think of booters is the fact that they are more than just a sport. They are a way of life for many people. For those who are not familiar with booters, it is a sport that is played on a court with a small ball and players use their feet to kick the ball into the goal. The game is fast-paced and requires a lot of skill and strategy.

The women's booters team has been on the rise for the past few years. They have been able to capture several state titles and are currently looking to capture a fifth title in a row.

The Campus Military is Making its Sales Pitch

In the past, a law of 10,000 students was in effect, requiring registration. By 1984, the ROTC has had over 20,000. The current military is making a push to enlist more students.

Congress has the Army market in its sights with the National Guard. The new law requires that any student who qualifies for ROTC must take part in the Army National Guard. The new plan replaces the old one, which was in effect through 1979.

The new emphasis on money matters aims to help push campus recruitment. It includes radio spots in college towns and advertisements in the newspapers. The new program also includes the National Guard's three college loan repayment programs.

The new program also includes the National Guard's three college loan repayment programs. Under the Army National Guard, a student can borrow up to $1,000 per year. The National Guard will also loan a student up to $1,000 per year. The student must be a member of the ROTC.

Aid Cuts Hitting Black Colleges Hard

Congress passed cutbacks on student-aid programs that will affect predominantly-black colleges and universities disproportionately. Under President Reagan's plan to have the federal government cut aid to schools not meeting its standards, 200 other Alabama State students would be allowed to run if the decision is appealed to the Supreme Court.

Election Appeal

The student council of the University of Alabama has "no confidence" in the members of the Student Government Association who are seeking to amend the student handbook. The council is not following the suggested guidelines and is not aware of the Friday deadline, according to the Student Government Association.

Bottle Bill Issue

Clean Up and Conserve

Katie Angel

No doubt you have heard of New York State's latest legislation, the Bottle Bill, which will go into effect in January 1970. The Bottle Bill will force consumers to pay a ten-cent deposit when purchasing a container of alcoholic beverages. The deposit is refundable when the container is returned to the store. This will hopefully encourage the drinking public to return their glass containers.

The need for the Bottle Bill is due to the serious and grave problem of the accumulation of glass containers in our landfills. According to the New York State Department of Environmental Conservation, 100 million glass containers are discarded every year, causing a $10 million dollar disposal problem. The energy used to heat 125,000 homes for a year could be saved if the bottles were returned.

The energy used to make new containers from recycled materials is much greater than from virgin materials. About 70,000 barrels of oil are saved every year by using recycled materials. The Bottle Bill will also increase the efficiency of the glass industry, as this industry consumes 10% of all the energy used in the United States.

The need for the Bottle Bill is further emphasized by the fact that 60% of the drinking public are college students, and most of these students are college students. The students of SUNYA will benefit from the Bottle Bill, as it will encourage them to conserve. The students of SUNYA will be given the opportunity to participate in the recycling program on campus.

The students of SUNYA are performing a job that benefits the environment. The students of SUNYA will now have a voice in the area of environmental conservation. The students of SUNYA will be able to help make the world a better place to live.

November 5

To the Editor:

Mr. DiClerico's story of the student leader Ken Skokem challenging the incumbent Alderman from the city's 15th ward, which includes the SUNYA campus, is a good reason for a student voice in the Albany City Council, the governing legislative body. Students and concerned citizens from Long Island, New York, and other counties have voted for change in Albany politics. The students of SUNYA have a golden opportunity this past election day to send a student representative to the Albany City Council, the governing legislative body of the city of Albany.

Diploma Dilemma

Steve Colucci

Dear Editor:

I recently graduated from SUNYA last May. I am in Rome, Italy, pursuing my master's degree at the University of Rome. I am writing to you because there was a very serious problem that has plagued me ever since I graduated from SUNYA.

I received my diploma in December 1969, but I did not receive my degree until February 1970. This delay was caused by the fact that SUNYA did not have the necessary documentation to complete my degree. I was notified by SUNYA that my degree would be awarded at the spring 1970 commencement.

I am, and most other SUNYA graduates, very disappointed with SUNYA's handling of this matter. SUNYA has failed to live up to its promise of providing a high-quality education. The SUNYA Graduate School has failed to meet the needs of its students. I urge SUNYA to improve its services to its students.

Your truly,

Fred Aliberti

Java Jive
More complaints, false, باعث الاستياء. What we've witnessed together, we had to truly say it, and in our own ways. It's not fair to say, "The only thing is, let's not talk about it, or it's the only thing."

You would tell me that the truth would be found in you. We're living in a world where the truth is not as easy to find, and we're all a little bit cross.

Are we the only ones who think this way? Isn't it the way we've been taught to think?

Empty Insides
Hubert-Kenneth Dickey

There he was staring at a mirror and nursing a cup of coffee.

And then he wondered why he did.

When we do commit our little gaffs, we're reminded of the words of wisdom from the "Images of Women" centerfold, and Will Yurman took the shots of Director Jerry's Kids.

"A cup brandy and coffee."

"Somebody with a mouth, and Hubert gives us a favorite drink."

Risen From The Dead

A message from the city to the people of Ulmer's music is a powerful statement for those who follow his trail. Some critics compare his guitar and vocals to spontaneous improvisation within the song structure. The production of Daryl Hall's underrated solo album 'Bands of Gold' has been heavily influenced by free jazz. Ulmer's style is unlike any other recent production. The music has been difficult to categorize.

Blood On The Wax

Music critics are often dealing with the task of categorizing music within the genre of free jazz. It is a difficult task because the music is often a fusion of different styles. James Blood Ulmer's music is a strong example of this fusion. His sound is a combination of blues, jazz, and rock.

New Crimson Courts Success

The final act of the band's tour and the opening set opened the show. Jerry Garcia showed his musical diversity, playing the guitar, the harmonica, and the synthesizer. Jerry gave it his all, and the crowd was left wanting more. The second song was the title cut from the album 'Red.' The band showed so much energy, it was as though they had never played before.

Lt.'s Woman" Fowles Out

After a year and a half, Sarah and Charles have finally decided to call it quits. The two characters that Fowles went to great lengths to create are now separated by circumstances. Their interactions have been less believable since they last worked together.

"Mock War" Rossier

The typical story of a soldier's life, with its ups and downs. The soldiers are not just fighting for their country, but also for themselves. The music is a reflection of the soldiers' thoughts and feelings.

Tom Foolery

This is a complex and entertaining piece that shows Ulmer's skill as a songwriter. The music is a combination of blues, rock, and jazz. The story is about a man who is trying to make it big in the music industry. He is constantly trying to get back together with his former flame, but she is not interested.

A Lack Of Character

Rob Edelstein

The production is a masterpiece of Ulmer's style. It is a combination of blues, rock, and jazz. The music is a reflection of the characters' thoughts and feelings. The Economics of Sexism

The concept of many of us a few few give a valid explanation of strategy and a definite balance. Setting aside policy-making behind the backs of people and issues, we must make the point that sexism is perhaps the most effective method.

First of all, we are not talking about any small change, but is a symbolic message to the international community. It requires money and personnel.

Secondly, the sex gap is not going to be filled by some easy way of removing that barrier. Don't worry, sexism is not going to disappear if we diversify the areas of control and diversify the spectrum of representation.

The point is that while women can be an important part of our society, we should also make an effort to bridge the gap.

Southpaw Stance

To the Editor: When I played up my memory of the Southpaw stance, I was not thinking of the one that everybody could remember, but rather the stance that I used to throw a curve ball. I am right-handed, but I used to throw the curveball by putting my left hand behind me and throwing with my right hand. I don't know if this is effective, but it worked for me.

Suns to Shine on NBA

The NBA team has been estimated to be a single-championship team in this decade, when the last 51-13 Seattle Supersonics were named the title. The Magic, with the redheads in that era by Larry Bird, according to the local press, essentially a team from Boston. For the first time in over a year, every man in their starting five has been healthy. The Celtics, in this year's first game, were one win away from the title.

The Pacific Division provides the greatest challenge to the Celtics, as no NBA team has won consecutive league championships since the Boston Celtics of 1959-60. The Celtics are the best team in the ABA, but the Magic, according to their coaching staff, will be the toughest opponent they have ever faced. The Magic have a much deeper bench, and have been able to maintain a string of quality players throughout the season.

The Philadelphia 76ers have been the Celtics' main Atlantic Division opponent. The 76ers have a much better record than the Celtics, and have been able to maintain a string of quality players throughout the season. With the addition of Vinnie Johnson, the Celtics have a much better record than the Magic, and have been able to maintain a string of quality players throughout the season.

The Los Angeles Lakers are the Western Division's top team. The Lakers have a much better record than the Celtics, and have been able to maintain a string of quality players throughout the season. With the addition of Vinnie Johnson, the Celtics have a much better record than the Magic, and have been able to maintain a string of quality players throughout the season.

Spikers’ Personality Aids Them in 30-5 Season

by Michael Carmen

Personality goes a very long way in any sport, and particularly in volleyball. Albany despite losing the starting setter in the middle of the season, continued to find the right mix of players to fill the void, and it paid off in a 30-5 season.

"We would have lost Vonna, but someone else just stepped up and filled her shoes," added Coach Pat Dwycr. "We have the right attitude, which has been the key to our success."

In one of the three games in which someone stepped up to fill the void, Sandra Tom scored a record 45 points in a come-from-behind victory over New York Tech.

"Our players are very dedicated and determined," emphasized Miller. "We have the right attitude, and that has been the key to our success."

Danes Face New York Tech in the Home Finale

By Gayle Hall

The last home game of the season for the Danes, who have a 30-5 record, will be against New York Tech, who some weeks ago were ranked as high as 10th in the nation.

"We need to get up for every game," added Coach Dwycr. "We have the right attitude, and that has been the key to our success."

Scientists have said that the only way to make a great game of volleyball is to have the right attitude, and that is exactly what the Danes have.

Prison Bond Issue in Doubt as Votes Still Roll In

The SUNY Board of Trustees has decided to put the prison construction bond issue to the voters, but it may not pass.

"We need to get the right attitude, and that has been the key to our success," said Chancellor Clifton Whar."
