Fires Strike Indian, Alumni and State
-Damage Severe; No One Injured

Indian:

by Gary Ricciardi

"I woke up, but I couldn't figure out what it was for a few minutes."

"I kept hearing this buzzing, but I thought it was my alarm clock."

"What alarm? My roommate woke me."

At approximately three a.m. Wednesday morning, residents of both Onondaga and Onondaga Halls in Indian Quad were gently wakened by the subdued buzzing of fire alarms. Many, judging by comments later like the above, did not realize at first that a fire had broken out, or that they should immediately evacuate the building.

Except for those near Onondaga's suite 209, the center of the blaze, many students began to react to the emergency only after RA's and friends had rushed them.

The evacuation was orderly, and RA's were frequently seen figures, bobbing in and out of suites.

continued on page five

Alumni:

by Barbara Fischkin

Five RA's on Alumni Quad found themselves acting as firefighters Saturday night, February 10, when a blaze broke out in a room on the first floor of Waterbury Hall.

David Seligman and David Baxter were both on duty at two minutes to eight, when the alarm went off. Following the normal procedure, they immediately went to evacuate their respective sections and the sections where RA's were off-duty. The two were then stopped by Margaret Dwyer, another downtown RA, who informed them that there actually was a fire.

She led them to room 115 where they joined the two security men, who had been called by the dorm director, in putting out the fire. They were also aided by RA Margaret Mitchell and a former RA, Jim Petrolo. The firemen arrived at 8:15, about five minutes after the blaze, the cause of which is continued on page five

State:

by Mindy Altman

Early Thursday morning many students on State Quad were evacuated from their dorms due to the thud of fire alarms in the area around the lower lounge between Cooper and Whitman Halls.

The fire was noticed at 11:35 a.m., started in the tunnel area surrounding the lower lounge between Cooper and Anthony Halls.

The Housing Office, according to State Quad Coordinator Suzanne Pierce, "rushed students."

Students who noticed the smoke were told to report to the dorm director, who would call them in. The fire was finally located when the firemen arrived.

The residents of Cooper and Anthony Halls were evacuated. Whitman Hall was evacuated also because it was at first believed that the fire was in the loading dock area which extends over to Whitman. Though Whitman did not receive any of the smoke from the fire, it was evacuated to render assistance to the other two halls.
Army Discharge: 66 Year Story Ends

by Tom Barta/AP

Dona W. Willis, who has carried the burden of a dishonorable discharge from the U.S. Army for a full 66 years, was officially cleared by the government last week.

But despite the broad smile she showed in front while accepting her honorable discharge papers, the woman who has died three times for 59 years couldn’t hide her emotions.

"It kept me from getting a pension job," she said. "They said after 40 years that they made a mistake, but who’s going to take up for me?"

Willis was one of 167 black soldiers dishonorably discharged after what came to be known as the "Brownsville Affray" on Aug. 13, 1906. On that day, 16 black soldiers were dishonorably discharged in Fort Marion, Florida.

Willis, who was born in Mississippi, has shined shoes for 59 years because the war had nothing to say.

"None of us said anything because we had nothing to say," Willis said. "It was a frame-up straight through.

They figured we were all dead, but I saw it in the paper," Willis feels that, at the least, the government are under negotiation with the manufacturer of the weapon.

International

LONDON

The U.K.rollerblader on Wednesday was not expected to

be trying for a new world record on Wednesday, according to

the world's leading

newspaper. The Berliner, who has

tried to avoid the customary

Sunday beech walk, and replace it with an

event during the "Brownsville Affray," said in an interview

that he was going to try to break the world record.

There have been some specula-

the first Sunday management will be completed with a

handshake and bejeweled next week. It has been suggested that the Sun-

day plan could not be used as justification for a trial

because the breach might not be as serious as the present

problem.

Director Daren Walband said that he would not comment on the case.

"We just want to see what happens," Walband said.

The site owner will give a periodic revision of the state of the federal government, which controls most of the fair's facilities. The owner wants to be sure that the office does not "fall asleep" of the required facts.

Walband claims that his office has not yet received any word from the federal government in charge of the site.

Revision of Board Plan Seen as Probable

by Glenn von Neutzel

The "possibility" of revising the present board plan for the Jewish Messianic Association is "probable," according to one official with the Jewish

Messianic Association.

Maj. Gen. DeWitt Smith Jr. of the Commission on Human Rights, said Tuesday that the commission is considering revising the plan.

"None of us said anything because we had nothing to say," Willis said. "It was a frame-up straight through.

They figured we were all dead, but I saw it in the paper," Willis feels that, at the least, the government are under negotiation with the manufacturer of the weapon.

Alumni Association Part II:

Travel Opportunities and Programs to Benefit You

by Rosanne Fallow

Despite the relatively small size of the Alumni Office, it is still one of the busiest offices on campus. This is demonstrated when we consider that alumni and students are not only in attendance at the Alumni and a member of the Alumni office, the office also sponsors many programs and services.

This year, the alumni office seeks to expand its outreach by joining the Alumni Association. An Alumni program would increase the travel opportunities for the Alumni Office. Each year the Alumni Association seeks to sponsor tours to various locations around the world.

The Alumni Office is headed by the President of the Alumni Association, Dr. Norbert Zalim, who is one of the organizers of the Alumni Association.

The Alumni Office also raises funds to support the Alumni programs and services. These programs and services include a variety of opportunities, including travel, events, and programs.

Travel opportunities for Alumni are now more diverse than ever before. In addition, the Alumni Office is planning to increase the number of opportunities, including travel, events, and programs.

The Alumni Office is committed to providing opportunities for Alumni to connect with their classmates and friends, and to help the University and students.

Next Weekend: SUMMER OF ’42

Fires Strike Indian, Alumni and State

According to Dave Seligman, “The system down here is very old.” He also added that the system is currently being repaired.

The fire is located at the first floor of the McKownville Fire Department. The fire started in the tunnel, and the fire spread to two suites in the Colonial Building.

The firefighters arrived on the scene within minutes. The fire was brought under control and extinguished.

The Cause of the Fire

The cause of the fire cannot be determined with certainty. The fire broke out around two a.m. and was quickly brought under control.

The fire caused extensive damage to the Colonial Building, causing the evacuation of all students and staff. The cause of the fire is under investigation.

Nixonomics 1974: Where The Axe Fell

The 1974 budget was introduced in the House on February 7. It is a budget aimed at cutting the deficit, and it has the potential to affect federal programs across the board.

Under the 1974 budget, the defense budget will be cut by $3 billion, and the Community Action Program (CAP) will be eliminated. The budget also cuts funding for education, health, and social services.

The budget is expected to be signed into law by the President before the end of the month.
Legal action has been initiated against the Food and Drug Administration (FDA) in the latest effort to prevent the entry of the controversial FD&C Red No. 2.

The widely used food coloring is found in foods, drugs, and cosmetics. Alone or blended with other dyes, it ranges in color from red to pink, orange, brown, and red to purple. It is used primarily in baby foods, candies, soft drinks, and cold cereal.

On January 30, the Health and Welfare Protective Committee petitioned the agency, asserting that it lacks regulatory capacity for verification, and that there is substantial evidence of its potential dangers.

The Washington-based organization has been active since November 1971, in directing public attention to the dangers of Red 2.

The FDA began a series of tests in 1971 in possible potential hazards of the dye. Proposes tests regarding various animals of Red 2 in distilled water were found to have a higher incidence of fetal deaths than identical rats not fed Red 2. This method of administering the dye is known as a 96-hour test system.

The FDA committee that conducted the tests reported that Red 2 had a greater potential for fetal death than Red 1. However, more than half of the animals born alive died from renal failure. The committee concluded that the dye was not a safe ingredient.

The body of evidence against Red 2 is substantial. It has been found in foods, drugs, and cosmetics. It is found in foods, drugs, and cosmetics. It is found in foods, drugs, and cosmetics. It is found in foods, drugs, and cosmetics.

The American Cancer Society has published reports on the health effects of food coloring. A recent report stated that food coloring can cause cancer in laboratory animals. The report also stated that food coloring can cause cancer in laboratory animals.

The FDA has tried to ban the use of Red 2, but the courts have refused to uphold the agency's ban. The FDA has tried to ban the use of Red 2, but the courts have refused to uphold the agency's ban.

The Health and Welfare Protective Committee has been active since November 1971, in directing public attention to the dangers of Red 2.

The committee concluded in June 1973 that food dyes did not induce a health hazard for humans.

Red 2 has been used in the production of a wide variety of products, including foods, drugs, and cosmetics. It is found in foods, drugs, and cosmetics. It is found in foods, drugs, and cosmetics.

ALBANY STUDENT PRESS
The Reason Why

Much has been written and said during the past few weeks about Nixon's proposed shift in national priorities from "humanitarian" spending and in the direction of greater defense expenditures as well as an increased desire for substantive units of government to solve their own social problems.

In spite of all the discussion and rationalizing, the trend will undoubtedly continue: as more and more programs are phased out, and newer and more complex weapons systems are proposed.

The trend will continue, quite simply, because there are no advocates for the sit lamented "middle way" in the White House, and very few in the Congress. The rich get richer, the special interests get more money, and in the end the poor have less and less because they do not possess much power.

You have probably read this view elsewhere. It is a simple explanation for the phenomenon in which the rich get richer while the poor get poorer.

But we see no harm in saying it again. Particularly not in light of the administration's most proposed cutbacks, which have reinforced this view.

We cite the numerous cutbacks in the "human services" area, including aid for hospital construction, Medicare, mental health, and programs such as manpower training, model cities development, vocational training, support for libraries, and funds for the construction of academic facilities.

Admittedly, some of the cuts have been justified because the programs were no longer needed or the approach was wrong. A program that encourages"

The general trend is too obvious. This latest Nixon budget is a retreat to the traditional Republican concept of hard work, Cottage and Hoover. It is an attempt to turn back the clock as far as possible, to the days when bacteria and "it's all right" were the rule of the land.

Some of the programs, like Social Security, obviously cannot be discontinued. However, Nixon's adherence to the American people "not to ask what America can do for you, but what you can do for yourself." It is a throwback to the old Republican philosophy of the pre-New Deal era.

"Let the poor pull themselves up by their bootstraps," and the old Horatio Alger myth that everyone can become wealthy if only they work hard and save and invest. Sooner or later.

Unfortunately, when such a philosophy prevails, the big corporations and the wealthy have the power and influence, while the poor are left with practically nothing. The defense budget gets fatter while the social welfare budget gets thinner. The numerous tax loopholes designed expressly for the rich are clearly justified.

So the end result is that less than one quarter of the Nixon budget is earmarked for solving the paramount national problems of mental illness, unemployment, pollution control, urban transportation, and crime and drugs.

The little gets, the poor, and the forgotten have to turn to the White House for a place property now.
Letters to the Editor

Curb Your Student

To the Editor,

Finding the evaluation of the University's Student Government Association in the February 9 issue of the Student, I feel certain that it failed to take into account the positive actions of the SGA. I believe that the SGA is one of the most effective organizations on campus and is a major student-oriented force in the university. I am sure that Mr. Pavlis is aware of this fact.

The Student has not been a fair journal to the SGA, and it is my duty to point this out. The Student, as an organ of student government, has a responsibility to provide a forum for discussion of issues affecting students. I believe that the SGA is fulfilling this responsibility.

I am confident that President Pavlis, with the support of the Student, will continue to work towards the betterment of our university.

Sincerely,

[Signature]

Mr. Pavlis is典型 of the negative, de

NAZ Administration Bows to Pollution Profit

By Robert Reynolds

The Nixon Administration has bowed to the major industrial polluters of the country. The Nixon administration: to bow to the vested interest in pollution, to turn a blind eye to the destruction of our environment, to be indifferent to the destruction of our natural resources, is not an option for us. We must act now to protect our planet. We must act now to protect our future.

The Nixon administration is not the only one to blame. The media, the public, and the politicians must take responsibility for this crisis. We must hold them accountable. We must demand action.

The Environmental Protection Agency was established to protect our environment. It is our duty to support it. We must demand that the EPA be given the resources it needs to do its job. We must support legislation that will protect our environment.

We must act now. The time is running out. We must not let the Nixon administration destroy our planet. We must not let history repeat itself.

Sincerely,

[Signature]

His and Hersch

Dear Editors,

I am writing to express my reactions to the recent debate between Mr. Pavlis and Mr. Hersch on the subject of pollution. I believe that Mr. Pavlis' argument is more convincing than Mr. Hersch's. I am disappointed that the debate was not more productive.

I believe that Mr. Pavlis' argument is more convincing than Mr. Hersch's. Mr. Pavlis argues that we must take action to protect our environment. He cites several examples of pollution, including the Point A操作, the Donner Pass, and the Yellowstone National Park. He also cites the case of the Exxon Valdez, which spilled 35 million gallons of oil into the Gulf of Alaska.

Mr. Hersch, on the other hand, argues that we should focus on other issues. He cites the case of the Vietnam War, which he says was more important than pollution. I believe that this is a weak argument.

I believe that Mr. Pavlis' argument is more convincing than Mr. Hersch's. I urge the administration to take action to protect our environment.

Sincerely,

[Signature]

Rowley Pawley

To the Editor,

I am writing to express my concern about the recent debate between Mr. Pavlis and Mr. Hersch on the subject of pollution. I believe that the debate was not productive and that more needs to be done.

I believe that the debate was not productive and that more needs to be done. I think that Mr. Pavlis' argument is more convincing than Mr. Hersch's. I urge the administration to take action to protect our environment.

Wrestlers Win Sixth

By Kenneth Antonic

This is the Albany State Wrestling team's sixth straight win and the third continuous year they have started perfect. Last year, they started 13-0 and lost just 2 matches. This year, they are 16-3, the quickest pin of the year. 52 starters were back. Doc Sauers thought there was a good possibility of getting an at-large bid for the SUNYA. Because of Danes losses to Plattsburgh State, it was just the final weekend. This was the year we expected too much excitement. Everyone really expected a SUNY conference. It was the Danes own failure of not playing themselves. This year's seventh place finish seems to be in favor of Hartwick for a NCAA bid. But this year it was going to be different. Danes were going to make it. Albany goes to Potsdam Saturday 7pm. Our other rates are equally low—Call for quotes.
Waves Strike Dutch Over Weekend... page 2

By Gary Rosenthal

Rounded edges, pasted on paper, stuck deeply in the woods and at the end of a string of meet endings. Waverly Place, nestled in the quiet snow, is the center of quietly carried on business. Mike Lampa, President of the Faculty Student Association, arranged a new access agreement between SA and the classes of 73, '74 and '75, plans to buy it. The Alumni Association, which has the inouc in bin it for some money to buy Waverly Place. SA cannot spend mandatory student money unless it can clearly demonstrate its expenditures to the point where the house is located.

After all talk is over, the sale is the question of the legality of mandatory student funds to buy Waverly Place. SA can assert that it is a special favorable treatment, with the potential legal complications.

Alumni: To Buy or not to Buy

SA and the classes of '73, '74, and '75 cannot spend mandatory student money to buy Waverly Place. SA has approached the SA for approval of Waverly Place, but the Alumni Association, who would like to establish a "visual symbol" of SUNYA, does not approve it. Furthermore, SA does not buy. Then, again, SA offers to buy Waverly Place, and SA can estimate its expenditures to the point where Waverly Place is located.
