With Mike Bloom and Jim Constantino the only donations, regardless of size. We are one of many Ernie Davis Leukemia Fund. IFC would appreciate all turning lettermen, the Danes will be exceedingly interested over 11 years,' really has his work cutout for this year. Because of the State fans several thrilling wins during an im-

sweetheart in American Universities.

This year presents an entirely different situation. Last year at this time we had the pleasant task of deciding whether to attack the Danes or not. It was a tough decision, with so many factors to consider. But we decided to go for it, and the results were stunning. We won a big game, and the Danes were left wondering what went wrong. This year, things are different. We have a new coach, a new team, and a new strategy. We are ready to go all out, and we expect to come out on top. So, let's do it! Let's show the Danes what we're made of! Let's make them wish they hadn't attacked us! Let's prove to everyone that we are the team to beat! Let's do it for our fans! Let's do it for ourselves! Let's do it for the State!
University Offers Computer Course Next Semester

The College of Education at University offers a program in computer science which will be offered as a course next semester. The course will be open to all undergraduates, and is part of the University's effort to prepare students for the rapidly growing field of computer technology.

The course outline emphasizes the importance of understanding the underlying principles of computer science, as well as the practical applications of computer systems. Students will learn about the architecture of computer systems, programming languages, and the design and implementation of software.

The course is taught by Dr. John Smith, a recognized expert in computer science. Dr. Smith has a wealth of experience in both teaching and research and has published extensively on the subject. The course will be held on Tuesdays and Thursdays from 10:00 am to 12:00 pm in the Computer Science Laboratory, located on the third floor of the Biology Building.

The course is designed for both computer science majors and non-majors who wish to gain a basic understanding of computer science. Non-majors will be required to complete a course in algebra before enrolling in the computer science course.

In addition, the course will include a hands-on component where students will have the opportunity to work on real-world projects. The course will also include guest lectures from industry professionals and opportunities for students to participate in research projects.

The course has been well received by students and is expected to be in high demand. Students interested in enrolling should register early to ensure a spot in the course.

The course will be held from [start date] to [end date] and is free of charge. For more information, please contact Dr. Smith via email at john.smith@university.edu or by phone at [phone number].
"Wapshot Scandal" To Open Tomorrow

by Diane Somerville

The largest chamber theatre production ever to be mounted by the State University of New York at Albany, "The Wapshot Scandal," will open tomorrow night, December 8, at 8:00 p.m. in University Theatre. Directed by Diane Somerville, the play is based on the novel by John Fowles, and is presented in association with the New York Shakespeare Festival.

The cast includes Jim Lobdell as Joe Burner, a suave and oily jewelry-store clerk, and veteran Charles Bartlett as Mr. Wapshot, the patriarch of the Wapshot family. Other pivotal roles are portrayed by Douglas French as Betsy Wapshot, a blind woman; Alex Sardor as Melissa Wapshot, a socialite; and Beer medicines as the Doctor. The cast also features Melissa's youthful paramour, Charles Heineman as Applegate, and Alexandra Sadori as Honora, Mr. Wapshot's wife.

The adaptation from the novel is by Diane Somerville, and is directed by John Fowles. The play is presented in association with the New York Shakespeare Festival.

The Wapshot family, like the family in the novel, is South African and lives in a small village in the Western Cape. The family is headed by Mr. Wapshot, a wealthy businessman, and includes his children, Joe and Betsy, and his wife, Honora. The family is also divided by a long-standing feud between the Wapshots and the Burners, a rival family.

Lighting

Another cast member serving on the musical team in the Wapshot Scandal is Donald A. Bower, who portrays the Doctor in the show. Bower is seen as a blind woman; he is also seen as a doctor in the play. The lighting design is by Donald A. Bower, and is directed by John Fowles.

COMMUNICATIONS

Going Steady, Part II

The Albany Times Union's office is a hotbed of activity. People are rushing in and out, making calls, and doing a variety of things. One of these people is Miss Catharine Newbold, who is responsible for the student section. Miss Newbold is a very popular figure at the Albany Times Union, and her work is highly regarded.

The amount of work that goes into maintaining the student section is enormous. Miss Newbold has a large team of students who work with her, and they all contribute to the success of the section.

The student section is an important part of the Albany Times Union, and it is responsible for providing news and information to the students of the Albany Colleges. The section is also responsible for providing a forum for the students to express their opinions and ideas.

The student section is a hard-working group of people who are dedicated to providing the best possible coverage of news and events at the Albany Colleges. With their hard work and dedication, they are able to provide a valuable service to the students and the community.

Albany Student Press

Albany Student Press is a student-run newspaper that covers local, national, and international news. The paper is published weekly and is available online and in print.

The paper is written and edited by students, and is published under the guidance of the faculty. The paper covers a wide range of topics, including news, sports, arts, and entertainment.

The Albany Student Press is an important source of information for the Albany College community. It is available online and in print, and is a valuable resource for students, faculty, and the general public.
