After First Round Win, Albany Falls To Potsdam

by Paul Schwartz

POTS DAM — In the end, it was the depth that defeated the Danes. Albany had consistently played strong against the Bears, but Potsdam was able to hang on, and eventually wear down the Danes, winning by a score of 93-75 in the second round of the NCAA tournament.

The Bears (26-3) also put an end to SUNYAC and the East Regional, handing the Danes (21-13) their second straight loss. It was a bitter end to an otherwise outstanding campaign.

The Bears started the game strong, jumping out to a 15-8 lead in the first half. Albany fought back to tie the game at 41-36, but Potsdam held on to win the first half, 59-30.

In the second half, the Bears continued their winning ways, eventually taking the lead for good with 2:19 remaining in the game. Potsdam went on to win the game by a score of 93-75.

The Bears were led by Derrick Rowland, who scored 17 points and had 7.5 rebounds. The Danes were led by Bob Collier, who scored 17 points.

In the first half, Albany scored 87 points, while Potsdam scored 72. In the second half, Albany scored 46 points, while Potsdam scored 57.

The Bears had 20 assists, while the Danes had 15. Potsdam had 36 rebounds, while the Danes had 23.

The Bears had 10 turnovers, while the Danes had 8.

Contraceptives Ineffective

WASHINGTON (AP) - Three makers of contraceptive hormones have agreed to set up a $4.5 million settlement fund to pay for abortion induced by the products, the first time the makers have agreed to pay for damage caused by their products.

The settlement, which was announced today, covers the three makers: Merck, Ayerst Laboratories and Syntex. The three companies will pay $4.5 million to a fund that will be used to provide financial assistance to women who have had abortions induced by the products.

The settlement was reached after a federal court in New York ruled that the companies were liable for the damage caused by the products.

The companies have been facing lawsuits from women who claim they were induced to have abortions by the products. The lawsuits have accused the companies of failing to warn about the potential for damage.

The settlement is a victory for the women who have been seeking compensation for their injuries. It also marks the first time that the companies have agreed to pay for damage caused by their products.

The settlement will be distributed to women who have had abortions induced by the products. The fund will also provide financial assistance to women who have been harmed by the products.

Artistic New York

The New York Society for Ethical Culture, which was founded in the 19th century, is hosting an exhibition of the art of the 20th century. The exhibition will feature works by some of the most famous artists of the century, including Picasso, Matisse and Duchamp.

The exhibition will run from April 20 to May 20. It will be open to the public from 10 a.m. to 5 p.m. daily.

Quad's Elevator Policy Changed

The Quad's elevator policy has been changed. Elevators will now be closed except during the period of the night, which is from 11 p.m. to 4 a.m. The policy change is due to complaints from students about the elevators being closed during the day.

The change is expected to improve the safety of students in the Quad. It will also allow students to use the elevators more conveniently.

Nuke Debate: Pro-Con

A debate on the use of nuclear energy as an energy source was held on campus. The debate was sponsored by the Students for Nuclear Awareness and the Middle East Studies Program.

The debate was moderated by Linda Weier, a professor of political science.

The debate was open to all students and faculty. It was held in the Rensselaer Polytechnic Institute auditorium.

The debate focused on the pros and cons of using nuclear energy as an energy source. The speakers included Peter Winstock, a former member of the Nuclear Power Institute, and Richard Cohen, a professor of political science.

The debate was a lively discussion on the topic. The speakers presented their arguments in a clear and concise manner.

The debate was closed by Linda Weier, who thanked the speakers and the audience for their participation.

February 9

A New Meal Plan

The UAS Board of Directors has approved a new meal plan for the students. The new meal plan will be implemented on March 1.

The new meal plan will offer a variety of options for students to choose from. It will also be more cost-effective for students.

The new meal plan will be reviewed each year to ensure that it meets the needs of the students.

Women in the Press

The first Women in the Press conference was held on campus. The conference was sponsored by the Women's Studies Program.

The conference was attended by a variety of women from different fields. It was a great opportunity for women to learn about the challenges they face and to share their experiences.

The conference was a great success. It was attended by a large number of women from different fields.

Students Call Buses Unreliable; Stevens Says Running Smoothly

By Andrew Covell

SUNYA students continue to gripe about the的质量 of the SUNYA bus system, as they have in years past. Though new schedules were released this semester, many students are still angry that they do not run to everyone's liking.

In fact, many seniors claim that the buses are so crowded that it is impossible for anyone to get on. "I cannot go to my job interview because the buses are always so crowded," stated one annoyed student. "I've been waiting for the bus for hours and I still can't get on."

Another student, who prefers to remain anonymous, said, "I've been waiting for over an hour and I still can't get on."

But SUNYA President Vincent Carrigy disagrees. "We have improved the bus system since the semester began," he said. "And we are continuing to improve it every day."

In a memo released late in the afternoon, "I hope that you're all as angry as I am," said Rila Rasmussen, a third-year student. "I've been waiting for the bus for hours and I still can't get on."

But Rasmussen's statement was met with much更 than just a few groans of sympathetic agreement. "I've been waiting for over an hour and I still can't get on," said another student.

In addition, people learned that the buses had yet to miss a connection in over a month. "That's a record," said Stevens.

SUNYA Veterans Face Apathy

by Lyn Goldberg

SUNYA's Veterans Administration (V.A.) faces a variety of problems, including a lack of understanding among administration and students of the full extent of services available to veterans.

Most of the complaints concern the lack of help received from the V.A. office. "Training students' benefits are the most popular and the most helpful," said V.A. representative Don Langhofer. "It's a lot of paperwork and a lot of travel for the students to get the benefits they need." He added that veterans are often frustrated by the "red tape" involved in paperwork and the "slow pace" of the V.A. office.

According to Langhofer, the V.A. office is staffed by six full-time employees and three part-time employees. The office is located in room 137 of the Campus Center, just off the concourse minutes from the registrar's office. The office is open from Monday to Friday, 8 a.m. to 5 p.m.

The office is staffed by work-study students during the week, and by administrative staff on weekends. Students are encouraged to call the office for assistance.

Veterans are also concerned with the lack of help from the V.A. office. "I have been waiting for my benefits for several months," said one veteran. "I don't know what to do and I don't have the time to deal with it.

Just What Is Leadership?

(Misconceptions about leadership are rampant in our society today. Everyone claims to be a leader, but few actually are. The phrase 'leader' is often loosely used to describe anyone who is in a position of authority. However, a true leader is someone who influences others positively and effectively.)

Leadership is the art of influencing others to achieve a common goal. A good leader possesses a number of characteristics, including strength of vision, integrity, communication skills, and the ability to inspire others. Leadership is not just about telling others what to do; it's about inspiring them to do it.

The leader's role is to provide direction, motivate, and guide others towards a common goal. Effective leaders are able to communicate their vision clearly and motivate their team to achieve it. They also provide feedback and support to help their team members grow and develop.

In conclusion, leadership is a critical skill in today's society. It's not just about being in a position of authority; it's about influencing others to achieve a common goal. Effective leaders are able to inspire and motivate their team, providing the guidance and support needed to achieve success.

The enduring quality as well as the detailed
workmanship of the historic character of the building.

According to Robert Dillon of the water com­
pany, the Quackenbush House was one of the
original buildings in the area, and the height of
which was determined by the height of the
building. Even in the early 1900s, the
building's height was a concern for its
surroundings.

Another newly refurbished area, which real­
ized the potential of historical buildings, is
the Quackenbush House. The building was
renovated by owners, and then rented
out to Leonard Gaspary who manages the
facility. The building is now 100 percent occupied and there is a
list of several hundred people waiting for apartment
rentals.

For a taste of history, there can't but help. There's nothing like the
revivalization of Albany's downtown
area. The Quackenbush House was also slated for
tearing down the complex and rebuilding, but the
building was preserved and renovated.

The mansion was a showpiece for Schuyler and became the site of some interesting
decorations as well. The mansion was decorated with
delicate murals and wall hangings, which set the
tone for the rest of the house. The room in the
mansion that is decorated is rose and the tone of the
drapes and upholstery enhances the color of the
room. The room is adorned with a marble fireplace
and a large wooden mantel.

The mansion was the home of several slaves, totaling more than fifteen in number, employed
in the mansion. One of the slaves was a
pianist, and she would often play for the
house guests. The mansion also had a
large garden, which was tended by slaves as
well.

Strange Tremors in Heartland

In 1975, a new sound emerged in the world of rock music. Led by the charismatic Hal "Mr. Rock" Mook Ink, the band "Mushroom" released their debut album. They used horns on "Even It's Up" and a choir on "Sweet Darlin" to create a truly unique sound. A ship of settlers, similar to the one described in James Dixon's "Dog and Butterfly," returns, naturally, the dead settlers will return to the land of the living. This creates an exciting sound, and is the result of the band's tight collaboration.

Douglas Matrangia

Nancy Wilson, who also played drums, was the drummer in the band. She was able to write the songs and play the drums, making her one of the few women who could do both. Nancy's solo on "Sweet Darlin" is quite beautiful, and she also contributed to the songwriting. This shows her strength as a band leader and her ability to create music that is catchy and tuneful.

Jim Dixon

Jim Dixon's career was the strength of the band and the songwriting. He helped form the band in the late 1960s and has been a part of the group ever since. Dixon is known for his storytelling ability, which he uses to create songs that are both memorable and emotionally resonant. His work with the band has been integral to its success.

Fog Down, Terror Up

Albany Be Jammed

All Jammed Up

Keller Re-Kindled

Miracle At The Plaza

Larry Kinsman

Larry Kinsman's filmography is impressive, with notable works such as "Halloween" and "The Amityville Horror." His new film, "Lycan," is a science fiction thriller that is sure to captivate audiences. Kinsman is known for his ability to create紧张, engaging, and thought-provoking stories. This latest film is no exception, with its unique blend of horror and sci-fi elements.

Rob Edelstein

Rob Edelstein's filmography is extensive, with notable works such as "Halloween," "The Amityville Horror," and "Lycan." His latest film, "The Importance of Being Earnest," is a adaptation of the classic play. Edelstein's work is known for its wit, humor, and clever performances, making "The Importance of Being Earnest" a must-see for fans of the genre.

Paul, Bruce, and Black Tom

Paul, Bruce, and Black Tom are known for their unique blend of country, rock, and blues. Their latest album, "The Fog," is a departure from their usual style, with a more experimental approach. The band is known for their ability to create music that is both innovative and accessible, making "The Fog" a must-listen for fans of the genre.
Close Encounters
Rich Behar

The Sun didn't rise. The man near our car answered the sun's question. "No, Mr. Shylock. It is not the custom in America for the sun to rise," he explained. "But the sun does not care. It rises every day."

I went to the bathroom. The veins in my hands were like the veins in my face. They were red and blue and were like blood in my arms. I looked at myself in the mirror. There was a brown stain in my hand. I wiped it off with a towel. The blood in my hand was red. I walked out of the bathroom into the kitchen. My eye was on the clock. I didn't have time to stop. The blood in my hand was red and blue. I looked at myself in the mirror. I didn't have time to stop.

SUNYA’s Changing Facade

A Nostalgic Glance At Sports

Women’s Varsity Basketball — with the conclusion of its highly successful second year (1923-24), State’s girls team (picture below) had proven its mettle and brought home the bacon in the form of scores which placed it as a ranking organization.

Playing and beating Alumnae for its first and third games and Russell Sage College for the second, the team proved the idea that having a women’s Varsity was fixed and favored — justly.

The game was called Pushball — and it was taken quite seriously. Pictured above is the freshman and sophomore class battling in front of Page Hall. In this corner, the sophs had the edge and won the game with their experience. The “frosh”, though, had always been known for their ‘do or die’ air. Points were awarded as the ball crossed over the goal lines.

Spikers Get Back To Form; Trounce New Paltz

by Larry Koenig

"A team that's right up the ladder," said Larry Sears, head coach of the Albany State volleyball team. "They've been playing well lately and it looks like they're getting back to their old selves."

The Spikers came into their match against New Paltz looking for a win after losing to Valparaiso on Friday. Sears was pleased with the performance of his team as they took on the Danes.

New Paltz had been on a losing streak, but Albany was ready to turn the tide of the season. "It was important for us to get back to our winning ways," said Sears.

The match started with a bang as Albany jumped to an early lead and easily put New Paltz away. "The easy part of the season is over," said Sears. "Now we have to focus on the remaining games and give our all to win them."
