Let's Act Now...

The moment to act is here. We, who constitute the student body of State College, must recognize the importance of education. Educators themselves are on the edge of educational mediocrity. They have been slowly and miserably, into the quagmire of educational mediocrity.

We, the students of State College, must once again ask the Administration to restore honor to the institution. One might well ask, who will be honorable, if the students themselves do not act? It would be an act of kindness to your chosen profession as educator, this is your opportunity to restore honor to the institution.

In the volley of verbal and written communications, it became clear that the moment to act is here. We, who constitute the student body, must once again ask the Administration to restore honor to the institution.
