FRESHMAN-SOPHOMORE GET WISE MEETING

The Sophomore class gave the class of 25 a glimpse of her genius as a victim of broken rules and traditions at the “get-wize” party last Friday evening in the college gymnasium.

The first part of the evening was given over to the persecution of the Frosh. The lights were dim and shaded, and stimulating blocks placed at convenient intervals prevented all possibility of escape. Electric shocks were applied to some of the victims, while others were paid with a scientific mixture of paint and glue. After a number of Frosh had been forced to eat skinned grapes, under the impression they were their ancestors’ eyeballs, they were requested to provide extemporaneous entertainment for their fellow sufferers, to eat skinned grapes, under the impression they were their ancestors’ eyeballs. At 8:30, Vivian Hart, 25, and Grady Armstrong, 25, came forward, and as a material result, began to dance. At ten o’clock, four devoted subjects of King Jazz made a noisy entrance, found their way to the orchestra, and joined its ranks. The augmented music was the peppy variety of jazz in which we play dance and sing as well as play. The last dance was a gala affair, for the new jazz orchestra played a symphony of every thing given that evening. This is the first appearance the new orchestra has made, and, as a surprise element, it added greatly to the evening’s entertainment.

The gym was decorated with yellow, red and white, and the banner of the Pilgrim Club held the place of honor, safety out of freshmen reach. Ice cream and cake were served after dance from a long white bar at the end of the gym.

Miss Pierce, Mr. and Mrs. Smith, Dr. Cracle, and Dr. Brown were the chaperons. Dorothy Jones, 24, was the chairman of the committee on arrangements.

THE LAST WORD

It is strange that people in college can't understand a few simple truths, but, judging from the material handed in, they are not able to.

Frank was smoking in the hall, as usual. He was慢 slow to get to class, and it was slow to get to class.

The spirit of the times is "back to work." It is an infant spirit in this country at least, as the "Back to Work" label indicates. It is an infant spirit in this country at least, as the "Back to Work" label indicates.

We are in the mood to "back to work," and I am in the mood to "back to work." It is a great joy to me to work, and I am in the mood to work.

Are you piling up points to give a big party? Try the following plan: In addition to the points given on the cards, any college organization may give you any opportunity to take another step toward it.

The men and girls who make up the orchestra have been having regular rehearsals for some time, and they feel that they can now offer their services to State. Although the ranks of this new orchestra are filled by State people only, it is in no way connected with the regular college orchestra. These jazz artists are full of the idea of boosting State by providing "the real thing" at the dances and hill-billy gams this winter. The jazz orchestra has come, and all the dancers at State must it to stay.

The members of the orchestra are well known at State as among the best of jazz players. They are piano, Virgil Hart, ’23; violin, Grace Abramowitz, ’23; and Herbert Horning, ’23; banjo-mandolin, Edward Shirley, ’23; trombone, John Hayes, ’25; and bassist, departure from the usual even as in jazz. Cheer-Caru, ’25. They are boosting State! Let’s boost them!

A new orchestra—one devoted to jazz music only—has been organized at State. It made its first appearance at the soph-frosh "get-together party, and everyone is talking about it yet.
