A New Leaf

Looking back over the past semester, especially the second half, there is no disputing the fact that the Student Council has been working hard to make student life better for all students. Committee chairmen and council members alike have been busy in their efforts, and this new council is doing more than any previous one.

One of the most important things this council is working on is the budget. With the increased number of students and activities, the council has been trying to keep up with the demand for money. The council is planning on meeting with the Treasurer, Mr. Brown, to see if they can work out a better budget for the next year.

Another important issue is the conflict between the Student Council and the Student Association. The Student Council is trying to work out a solution to this problem, and they hope to have a solution by the end of the semester.

The council is also working on other issues, such as parking, student safety, and campus facilities. They are working closely with the administration to try to improve student life at Siena College.

The council is made up of enthusiastic and dedicated students who are committed to making Siena College a better place to be. They are working hard to achieve their goals, and they are making progress.

If you have any questions or concerns, feel free to contact any of the council members. They are always happy to help and answer any questions you may have.

The council meets every Thursday at 3:00 PM in the Common Room. They are always open to new members and ideas, so feel free to come and join them.
