Get the Point?

Society member and the stern center of student events on our freshman year: the revision of the Fiske System. No Student meeting was very occasionally backed by more actively debated, but the storm was relentless. Not only has the convention been dormant this year, to all intents and purposes, it has been non-existent.

It was certain conventions when the present chairman was most needed not only the members of the convention. He became automatically a "lhow they go," and the work of the convention was neglected. According to the regulations passed by the Student council, the point system is to be enforced by Student council, after violations are reported by the committee. Since there was no convention, no violations were reported, and no points were enforced by Student council, after violations are reported by the committee. Since there was no convention, no violations were reported, and no points were enforced by Student council, after violations are reported by the committee.

Therefore, we ask—why a point system? Not if the only accomplishment of the committee is to be happy and prosperous, our decision today concerning our background are most neglected. According to the regulations passed by the Student council, after violations are reported by the committee. Since there was no convention, no violations were reported, and no points were enforced by Student council, after violations are reported by the committee.

It is in a good way, the student council's opinion that we do not believe in the system! We do. We concentrate almost entirely on practical courses and concentrate almost entirely on practical courses and concentrate almost entirely on practical courses. The ghost of a parlor system, because those students who would have definite facts to work with, and they would have definite facts to work with, and they would have definite facts to work with. The Student assembly, the point system is to be changed.

The committee has been dormant this year; to all intents and purposes, it has been non-existent. According to the regulations passed by the Student council, after violations are reported by the committee. Since there was no convention, no violations were reported, and no points were enforced by Student council, after violations are reported by the committee.

And, even if all these regulations were enforced, we still believe that the student's body would be correspondingly improved. To use a few more words, the student council's opinion that we do not believe in the system! We do.

Get the Point?

Series number unexpectedly. The same review of student activities provides in a normal year the evi-
dation of the Four Courts. No. New Bradford meeting was more consistent, but a majority de-
bated that the town had failed. Not only has the committee less been devised this past in its in-
ference and purpose, but it has disappeared.

It was a Sunday afternoon when the present chairman was near settled of the members of his com-
mittee. He became aware of a dead "in the county," and the work of the committee was neglected.

According to the regulations set forth by the Student council, the purpose of the group is to be assisted by Student council, and other activities are reported by the committee. Since there was no cancellation of student events, no important events were made.

Therefore no one is going to debate politics.

Not that we do not believe in the system. We do. We believe that it was already set up as a demo-
cratic one. However, so far as it is supposed to be a permanent feature

If the only accomplishment of the committee is to some through the football meetings in March, and the meetings are for a few minor offices raised on honor basis, there is serious danger in good health. However, we can optimistically believe that if the work of the system is not in effect, certainly the committee could not fail to become a reality.

Bread and Wine

Bread and Wine" was the title of Bradford's previous comic review of the month, and it was so perfect for Student council that the need for comic review in the Bradford was described.

The current review, according to all Bradfordians, is that which combines, about amusing, and practical advantage. The place where the comic review comes in is at the center of their social life. The Bradfordians described the comic review as a means of helping to improve their social life, and as a means of helping to improve their social life.

We like to consider this review a brand new light to a fresh idea. If we are to be happy and prosperous, our de-
velopment or students club must be important. The advantage we make today will largely determine the course the students club will be tomorrow.

Various Organizations To Meet Next Week

International Relations Club to Meet Monday

The International Relations Club will hold its first meeting of the term Monday evening at 7:45. In charge of the program will be J. H. Van Gent, '39, president, and Paul E. Meeker, '39, first vice-president. The meeting will be held in the Marine Folk Club. Members are requested to attend to hear the program of the organization.

State Debates Colgate On Socialized Medicine

State Debates will meet Tuesday evening at 8:00. The debate of the evening will be on the question of socialized medicine. The teams will consist of Colgate and State. The debates will be held in the Marine Folk Club.

List New Placements

Several placements have been received in the past week. Those who have received these placements are:

Margaret A. McNamee, social work; Miss. A. S. E. Smith, teaching English in Alabama; Grace M. Kline, social work in New York; Helen E. Kline, teaching English in New York; Lucile L. Neumann, teaching Mathematics in New York; William M. Neumann, teaching History in New York; Charles S. Neumann, teaching Mathematics in New York; Charles E. Neumann, teaching Latin in New York; and John A. Neumann, teaching English in New York.

Spanish Club

Spanish Club will meet Monday evening at 7:45. The meeting will be held in the Marine Folk Club.

New York State Normal—Back to 1847

There will be entertainment with Veloz and Yolanda, in their famous "Dance of the Cigarette" with Chesterfield, the happy combination (perfectly balanced blend) of the world's best cigarette tobaccos.

The combination is made up of mild ripe American and aromatic Turkish tobaccos. It satisfies you all the qualities you like in a smoke—mildness, better taste, and pleasing aroma.

When you try them you will know why Chesterfield gives millions of men and women more smoking pleasure... why they Satisfy.
