Bayard Rustin Grant ASP, WSUA Post-Speech Interview

Dean Neil Brown begins the Student Government Reorganization Workshop, held on Saturday, November 30. In Brubacher Hall, with a speech both reviewing unionization efforts already underway, and outlining principles to be reached at the conference. The speech will be followed by a discussion panel with a group of faculty and students. The panel will include Professor Hoffman, an authority on the American social movement, and Professor F. J. Holmciu of the Civil Rights Commission.

The concept of a "National Student Organization" was introduced by Dr. John Wolner (Animals), who spoke on the role of student government in those areas. These areas include familiarizing the participants with the background and emerging principles of the workshop. At the conclusion of the session, a workshop was set up to draft a new constitution.

Further discussion will be given to the question of how the organization should function, and the development of a new constitution. The workshop will be held on Tuesday, November 30.

American Student Press

ASU Board Selects Three New Editors

The American Student Press (ASP) has selected three new editors for its newspaper, the Albany Student Press. The three new editors are John Morehead, an Associate Professor of English; David Redding, a Senior in Political Science; and Richard Seidman, a Junior in Economics.

The selection of the new editors was made by the ASP Board of Directors, which is composed of students from different colleges and universities across the country. The new editors will be responsible for the production and distribution of the newspaper, and will be expected to work closely with the existing editorial staff.

The ASP newspaper is the official student newspaper of the University of California, Berkeley, and is published weekly during the academic year. The newspaper is funded by the university, and is distributed free of charge to all students.

The new editors will be expected to work closely with the existing editorial staff, and will be responsible for the production and distribution of the newspaper. New S. A. Form Promising

A new concept in student government, to be put into operation sometime in the near future, was presented by the participants of the Student Government Recognition Program.

The basic idea behind the structure of government, by regulations, rather than by statute, is that of a model government. This model government is designed to reflect the real world in which students live and work. It is a government that is based on the principles of democracy, and it is designed to be as efficient and effective as possible.

The model government is a hierarchical structure, with a president at the top, followed by a vice president, a secretary, and a treasurer. Below these positions are a number of cabinets, each of which is responsible for a specific area of government. These cabinets are made up of students who have been elected to their positions, and they are responsible for making decisions and implementing policies in their respective areas.

The model government is intended to be both efficient and effective. It is designed to be able to make decisions quickly and efficiently, and it is also designed to be able to implement policies effectively.

The model government is intended to be a model for other governments, both at the University and elsewhere. It is intended to be a model for government that is based on the principles of democracy, and it is intended to be a model that is effective and efficient.

The model government is intended to be a model that can be used as a teaching tool. It is intended to be a model that can be used to teach students about government, both at the University and elsewhere. It is intended to be a model that can be used to teach students about the principles of democracy.

Matmen Open Season at Hiram; Team Has Spirit, Lacks Experience

"We have some really fine individual wrestlers who can pull us through the season with a winning record. We have some fine wrestling cores for State." These are the words of wrestling coach Joe Garcia as he looks at his 1964-65 matmen. Garcia is prepared for an exceptional season in Hiram, Ohio. Garcia is grateful for the return of last year's Most Valuable Wrestler and the University of Albany's Most Valuable Wrestler.

Last year's starting lineup included Robelotto, who placed fourth in the Hiram meet to make up exams, and Januszewski, who was unable to compete for the starting position from sophomore swimming. Garcia is confident that the Hiram meet will provide a good springboard for the upcoming season.

Wrestlers from other divisions such as schools in the Hiram meet will be used to make up exams and provide additional competition.

Miriam should be the best State* selection in wrestling. Last year he placed third in the Hiram meet, and the University of Albany's Most Valuable Wrestler.

The matmen face a very hard schedule, including such schools as Stuyvesant for the starting position from sophomore swimming. Garcia is grateful for the return of last year's Most Valuable Wrestler and the University of Albany's Most Valuable Wrestler.

The 123 pound class belongs to Tom Koenig, who will be out of school for the first semester of last year belonging. Last year he placed third in the Hiram meet, and the University of Albany's Most Valuable Wrestler.
