College Students Will End Year On Musical Note At Concert

Students will end the year with "A Kiss in May" and "On a Cloudy Day," followed by Variety Club meeting. The presentation will be at the Union.

COOPERATIVE/NEWS
Draft Worries . . .

It appears that male students in the college have received reassuring notices from their local draft boards. However, it has been rumored that some students have received applications from the Selective Service System. It is hoped that these reports are false, but students should be prepared for possible induction.

A draft board official stated that the college is not subject to the Selective Service System due to the age of its student body. The college has been granted a hardship waiver, which permits it to delay the draft process for its students.

Social Activities . . .

The I.G.C. has been quite active in recent weeks. They have organized a successful Mock Assembly at the State Capitol, which included demonstrations of legislative and administrative procedures. The event was well-attended and was considered a success.

Students for Rivalry . . .

The Student Council has been working on plans to increase the level of intercollegiate rivalry. They have suggested the creation of a new tradition, where the winning team gets to announce publicly the accomplishments of the opposing team. This idea has been met with enthusiasm by the students.

Graduate Seminars . . .

The Community College has been offering graduate seminars doing intercultural education. These seminars are open to all previous students and are aimed at providing educational opportunities to those who are not able to attend a traditional college.

**Common-Staters**

**To The Chief**

Dear Chief,

Your April 9th column, "On Being Told How to Start," hit on a subject that is dear to my heart. The thought of being told how to do something, even if it is done in a friendly manner, is something that makes me cringe. I believe that we should be given the freedom to express our own ideas and opinions.

Yours truly,

Grace Smith

The News Board and Mary H. 15

**Slightly Sentimental**

By Tiller Mal and Ted Fenn

One day in September we stood in line behind a group of students, waiting to see the new president of the university. It was a cold day, and the wind was blowing fiercely. Suddenly, one of the students in front of us turned to look at us. His eyes were filled with tears, and he said, "I wish I could have been there with you when you graduated."

It was then that I realized how much I had taken for granted the opportunities I had been given. I realized that I should be grateful for every moment I have been given, and that I should not take anything for granted.

Yours sincerely,

Grace Smith

**Red Cross Unit Offers Course**

The Red Cross Unit is offering a new course for college students who are interested in becoming instructors. The course will aid students in applying to become instructors, and will provide them with the necessary training to be effective instructors.

**Story Contest Includes Prizes**

The Annual Ellery Queen story contest is now accepting entries. The contest offers a grand prize of $1,000, as well as second and third prizes of $500 and $300, respectively.

**History Of Muskania Recalls**

Muskania was a state that once existed in the Pacific Northwest. It was a place of beauty and mystery, and its history is rich with stories and legends.

Some Modern Alchemy

By Henry Colman

Modern technology has brought us new ways of making things. In the past, people used to make things by hand, but today we can use machines to make things more quickly and efficiently. This has brought about a new type of "alchemy."
Campus Interviews on Cigarette Tests

No. 41...THE MAGPIE

I DON'T GET SOME OF THE CHATTER!

It's a fact! The more a tobacco company spends on advertising, the more money they make selling cigarettes! I don't know why people keep saying it's all right. It's not.

This column represents the last in the series for this year and would like to take this opportunity to point out that the evidence presented here is based on sound research and facts and not on personal opinion. I have been working for the past six months gathering and collating information on the subject of cigarette smoking and have found that the claims made by the tobacco companies are not borne out by the facts.

One of the most interesting facts that I have discovered is that the health hazards of smoking are far greater than what the tobacco companies would have us believe. For example, I have found that smoking causes a host of diseases, including lung cancer, heart disease, and emphysema. These diseases are not only harmful to the individual but they also cost the country a great deal of money in medical expenses and lost productivity.

Another point that I would like to make is that the tobacco companies are not doing enough to warn the public about the dangers of smoking. They are trying to create a false sense of security by saying that their products are "light" or "mild." This is not true, and I believe that the government should require the tobacco companies to clearly label their products as being harmful to health.

In conclusion, I believe that the government should take a stronger role in regulating the tobacco industry and that the public should be educated about the true dangers of smoking. Only then can we hope to reduce the number of people who die from smoking-related diseases.

Athletic Board Sets Sports Tax At Six Dollars

The State College Athletic Board has set the rate of the tax for the fiscal year at six dollars. The tax is levied on the basis of $1.00 per student, and it is due on the first day of the fiscal year, which begins on June 1st.

The rate of the tax was determined after careful consideration of the financial needs of the athletic programs and the ability of the students to pay. The athletic programs are faced with increased costs due to the rising cost of materials and supplies, and the athletic teams are also competing against other athletic programs for the students' time.

The Athletic Board has also made some changes to the athletic programs. For example, the football team will now play an eight-game schedule instead of a nine-game schedule, and the basketball team will play a six-game schedule instead of a seven-game schedule.

The changes to the athletic programs are expected to help balance the budget and ensure the financial stability of the athletic programs. The Athletic Board is committed to providing the students with a quality athletic experience, and they believe that the changes to the programs will help achieve this goal.
B. At 8:45 a.m. the procession will begin with the Senior lines and freshmen will follow. The Sophomores will move to the right and center sections of the balcony. At the end of the procession, the Junior lines will fill in the seats vacated by the Juniors. The Senior lines will move to the left section of the balcony. The Juniors will fill in the seats vacated by the Seniors. The Sophomores will fill in the seats vacated by the Juniors. The Junior lines will then move to the center section of the balcony.
