For hundreds of years the Persians have known the secret of fine flavor. In the dead of night a Persian "melon-diviner" may wake up his wealthy master to enjoy the perfect melon—picked by lamplight at its exact moment of full maturity.

The Secret of Fine Flavor...

Like the Persian melon, the Turkish tobaccos used in Chesterfield are watched day and night.

There is just one right time to take off the leaves...that's when they have ripened to their fullest flavor.

Often the tender ripe leaves are gathered just before the dawn...to preserve the full "spice" and aroma for Chesterfield.

Chesterfields are made by Liggett & Myers Tobacco Co.

...and you can depend on a Liggett & Myers product.

From our own Southland we take mild, ripe tobacco chock-full of Southern sunshine; then we go two miles to the fertile shores of the Mediterranean for the fine flavor and aroma of Turkish tobacco. These tobaccos give Chesterfields their milder better taste.
