Common-Sister

By EARRIE McKINNIE

The story of a nun who was an heiress, and a sister who was a nun, and how they met at the Abbey of Nonnberg is a story that has been told many times. The nun, named Maria, was the daughter of a wealthy and influential man, who had planned for her to become a nun. However, Maria was not content with the life of a nun and desired to become an actress. She was able to escape from the Abbey and make her way to the United States, where she eventually became a successful actress.

At the Abbey of Nonnberg, the sister named Maria was known for her kindness and compassion towards the poor and the sick. She was respected by all who knew her, and was considered to be a saint by many. However, she too had her struggles and was not always successful in her efforts to help others.

In the end, both Maria and Maria were able to find peace and contentment in their lives. Maria was able to live a life of service to others, and Maria was able to find joy in her work as an actress. The story of their lives continues to inspire and bring hope to those who hear it.

Three works today, as can be seen from the list below, are related in their present knowledge of the play. However, the final one was a different experience. All three of them belong in the same school of thought, that of the non-progressive. The last one, however, was a different experience. All three of them belong in the same school of thought, that of the non-progressive.

**The Spectator**

By HARVEY MILK

Although I have mentioned two "rebels" in this column above, the real rebels in this column are Allen and the rest of the rebel band. As Allen's article in the Wednesday issue showed, Allen has the right idea. Allen and the rest of the rebel band are the only ones who bother to look at the students as people. They are the ones who can bring a decent athletic team to the school.

**Eds Stand Up By Drive**

The other way around is also true. The intramural bowling league is not the only one that is enjoying a good drive. There are many other activities that are enjoying a good drive. Cuban Job O.K., Says Hayford, Teaching Vared-Language Pupils

Teaching on a Caribbean island where a color line separates the races, Tova Hayford finds herself in a dilemma, yet willing to help the children for which she is teaching. Hayford has been teaching at a primary school in the Dominican Republic for the past two years.

Hayford finds that the children she is teaching are eager to learn but lack the necessary resources. She has been working with local organizations to provide them with the necessary materials and supplies.

Hayford is also concerned with the social and political situation in the Dominican Republic, where the color line is a major issue. She is working with local leaders to promote understanding and cooperation between the different races.

Hayford is planning to stay in the Dominican Republic for another year, where she hopes to make a difference in the lives of the children she teaches.
