Central Council Splits AAB Power With New Committee

By Stephen Danko

Western Association (WA) has introduced a new committee to investigate giving students more control of their sports programs, including intramural sports, intercollegiate sports, and intercollegiate athletics. The committee, known as the Administrative Committee (AFC), will be composed of students and faculty members from each school.
Grads Succeed in Winning Lounge

the front door at the demand of the Dean that those graduate students who are not members of the graduate student union or graduate student voted for the merger of the graduate students union with the undergraduate student union. The merger has been ordered by the university administration.

Another concern for the students is the question of the future of the lounge. Some students fear that the lounge will be closed or re-routed, as has happened in the past. The students are calling for the university to provide a new location for the lounge.

In conclusion, the students have achieved a victory in winning the lounge. However, there are still many challenges to be faced, including the question of the future of the lounge and the issue of representation in the university administration.

An Evening Out With Jimmy Breslin

By Betty J. Smith

Jimmy Breslin, the Pulitzer Prize-winning author, was the guest speaker at the annual Gala Dinner. His talk was a success, and the audience was impressed with his insights into the world of journalism.

Breslin urged all to work within the system

Breslin urged all to work within the system.

Thursday night in the Student Union, Breslin told the students that the only way we can change things is to go into the political system. He emphasized that we should not rely on the government to fix our problems, because it is too slow and too inefficient.

He also mentioned that we should not give up on the political system, even though it can be frustrating. He said that we should keep working within the system, even though it may be slow.

**OCA Tries to Make Living Easier**

by Sandy Voit

The Off Campus Association (OCA) is a student organization on SUNY Albany's campus that represents off-campus students. One of the main goals of OCA is to help facilitate off-campus living. Here are a few ways they can help:

1. **Support Services:** OCA provides support services such as a housing database, a food pantry, and a community center.
2. **Events:** OCA organizes events such as a Halloween party, which is a popular annual event.
3. **Information Gathering:** OCA collects information about resources on and off campus, including housing, transportation, and entertainment.
4. **Advocacy:** OCA advocates for the needs of off-campus students, and their efforts can lead to changes in campus policies.

Bill Spence
Jack of All Trades

The top hundred yards were the hardest. We were following a small stream down a narrow path that had been overgrown and obscured by the high grass. The shepherd who seemed eager to prove himself as a guide was sketchily drawing a map and leading us down an overgrown, pot-holed driveway up to the back door of the home of Bill and Andy Spence.

When we arrived, we were following a map that seemed to lead us deep into the uncharted wilds of New York State. The door was made of heavy, dark wood and opened slowly, revealing a interior that was as warm and welcoming as the weather outside.

The Spence family welcomed us with open arms and invited us to come in and relax. We sat on the couch, sipping on a pot of hot tea that Andy had made just for us. The aroma filled the room, creating a sense of comfort and relaxation.

Bill and Andy are both accomplished musicians, with Andy playing the guitar and Bill playing the dulcimer. Their music is a blend of traditional folk and contemporary sounds, creating a unique and captivating experience.

The hammer dulcimer, which dates back to the 17th century in Germany, is a plucked string instrument that produces a rich and full sound. It has a unique way of being tuned, allowing for a wide range of notes and creating a unique timbre.

Bill and Andy have a collection of almost every type of hammer dulcimer, and they are always eager to share their knowledge and experience with others. They often give workshops and lessons, teaching people of all skill levels how to play this amazing instrument.

The hammer dulcimer is not just a musical instrument, but a way of life. It requires practice and dedication, but the rewards are immeasurable. The sense of community that comes from playing together is something that cannot be replicated with any other instrument.

Without too much prodding, Bill will tell you about the time Don Mclean helped him pull apart a piece of antique furniture and replace the missing parts. And he and his wife will point to the exact spot Bob Dylan stood on. And they will talk about the time they recorded an album in their living room and sold out a show at The Bottom Forty Recording Company. The Spences are a family of artists, and they are always looking for new ways to share their passion with others.
**Scenes From A Marriage**

By Peter Tamburino

This Friday, Albany State Cinema will present Ingmar Bergman's journey into the psychological depths of a young Swedish couple caught in the middle of a crumbling relationship. Essentially, the film is a drama about the emotional and intellectual conflicts of two people.

In fact, it is a powerful study of how love and good intentions can ultimately fail. Bergman portrays a marriage that is doomed from the start. The young woman, played by LenaNyman, is a successful businesswoman who is unable to escape from the marriage. However, her husband, played by Ake Strandberg, is a man of many talents, and the two of them are forced to live together despite their differences.

Throughout the film, the emotions build to a very definite climax with Marianne. A development occurs by which Bergman reveals the character of the marriage. The film ends with a scene of the two individuals attempting to communicate through the marriage, but it is a scene of mutual dissatisfaction and the attempt to resolve differences through conversation. Johan and Marianne are both despairing characters. One must question the latter's role in the film, as she seems to be the cause of the difficulties of the marriage. In the end, it is seen that Bergman believes his characters with conversation accomplish the impossible.
The setting for Monday's concert was jointed and lacking in force, yet their motifs. The voices of the University orchestra had more difficulty with bright, with little of the sloppy rests opening work, O.F. Handel's "Hallelujah" followed. It too had much noititr.

Four men, all Mr. Graham contends that blacks cannot get elected to Central Council because blacks hate whites. And he is certainly not the first to make this argument, I have heard this before. Mr. Graham's argument is based on the idea that blacks hate whites because whites hate blacks. This is a classic example of a self-fulfilling prophecy. Mr. Graham claims that if blacks hate whites, then they will be less likely to be elected to Central Council because they will not want to serve on a council that they perceive as being hostile to them. This is a dangerous argument because it perpetuates the myth that blacks and whites are inherently hostile to each other. It is also a false argument because there is no evidence to support it. The fact is that there have been many blacks elected to Central Council in the past, and there is no reason to believe that this will not continue to be the case in the future.

Mr. Graham's argument is also fallacious because it assumes that blacks hate whites. This is a sweeping generalization that ignores the diversity of the black community. Not all blacks hate whites, and even those who do are not necessarily motivated by a desire to seek revenge. There are many reasons why blacks might have negative attitudes towards whites, and these reasons are not necessarily motivated by a desire to seek revenge. For example, blacks might have negative attitudes towards whites because they have experienced discrimination and prejudice. They might also have negative attitudes towards whites because they have been taught to do so by their parents and teachers.

In conclusion, Mr. Graham's argument is fallacious and inaccurate. It is based on a self-fulfilling prophecy and a sweeping generalization. It is also a dangerous argument because it perpetuates the myth that blacks and whites are inherently hostile to each other. It is important to remember that not all blacks hate whites, and even those who do are not necessarily motivated by a desire to seek revenge. The best way to deal with negative attitudes towards whites is to address the root causes of these attitudes and to work to build a more inclusive and just society for all.

J.V. Booters Nip Union, 3-1

by Bob Old

The Junior varsity soccer team defeated its season opener with a 3-1 winning streak by defeating Union, 3-1. After some early play by Albany, scoring against the Union, the game continued with Union leading 1-0 early in the first half. Albany scored first, when Clinton MacFarland (assisted by Ebberson) scored at 10:30. This seemed to change the momentum of the game in favor of Albany. Union's Alex Schaffer finally broke the shutout at 34:00, until Arden McPherson scored the second goal, scoring seven goals against the Albany defense.

Sticks of the Week: RPI, 8-3

by Ken Stone

The Albany varsity lacrosse team improved its record to 7-2, including their last six games. "Look at the statistics of the team last year," Battaglia said, "We had a satisfying fall season, looking forward to spring as we always do, but we need to continue to work hard and stay focused on our goals for the spring season." The Albany Varsity lacrosse team has been practicing hard for the upcoming spring season, looking to improve on their fall season performance.

WIRA: 'Successful' Grid Season

In the 1975 WIRA flag football season, there were 12 teams registered, with only one game forfeited. The flag football season in Albany State took place over the fall semester, starting on October 1st and ending on November 30th. There were no injuries reported during the season, and there was a very successful season. "Our team has been working hard throughout the season," WIRA councilperson Pat Hall said, "and we are looking forward to next year's season." The Albany State flag football team ended their season with a 12-1 record.

***GOALS BY SELEA AND ROLANDO FOR NAUGHT AS DANES BLOW 2-0 LEAD***

by Nathan Vane

Cory Jeffreys scored off a John O'Callahan pass for the first Union goal in the first 37 minutes of the game, and the Union took command of the game. Jeffreys later scored off a pass from John Murphy. Albany's best chance came in the second half, when the Danes were able to get the ball near the Union goal. However, Albany was unable to capitalize on its opportunities. Albany had 21 shots on goal, while Union had 15. Albany was able to hold Union scoreless for most of the game, but Union's defense held strong, allowing Albany to score only one goal. Union is now 3-1-1 on the season, while Albany is 2-1-2. The game was played in front of a sellout crowd of 3,500.
