Freshman Suffrage...Who Suffers?

The question of eliminating freshman participation in Miyakana elections soon be a forefront issue, and we feel that a positive vote for this measure is necessary.

The qualifications for election to Miyakana are notable. Someone who "has done a lot for the school" can easily be someone who "hasn't done a thing around here." The right to vote is limited to those two equal parts of the college, the "honors" and "loser." Freshmen, in the opinion of the voting body, have not an equal say in the selection of candidates for all offices.

In the eyes of Miyakana, freshmen are neither the "honors" nor the "loser." They are, in a word, "junk." With a few exceptions, freshmen are ignored until the end of their first year, and then only in terms of their grades. The first three semesters of college are seen as "waste," and freshmen are considered "junk" until the last possible moment.

If this is true, then the qualifications for election are clearly not fair. The question of eliminating freshman participation in Miyakana elections should be a forefront issue, and we feel that a positive vote for this measure is necessary.

In their second consecutive appearance, the AMI A football team finished the year with a 4-1 record, after winning the last two games by a combined score of 4-0, clipping the highly-rated Hobbs from New Paltz State 1-0. A cold rain turned the field into a quagmire, slowing up the offense of both teams.

The first half was particularly tough on the Peds, who were able to move the ball all the while, but fell behind 1-0 on a goal by Al Cooper. The second half witnessed quite different story, however, as the Peds dominated the action, forcing several scoring opportunities, but to little avail on the offense.

The Peds took the lead in the second half when a quick goal was scored by Cooper, giving the Peds a 1-0 lead. The Peds continued to press for the rest of the game, but were unable to score again, falling to the Peds 1-0.

EAT, SLEEP, AND MATRICULATE

The trick with early morning classes is that you're too sleepy. At late afternoon classes you're too hungry. At early afternoon classes you're too awake. At late afternoon classes you're too full. Except morning classes. There is no good time of day to take a class.

When you find the perfect class for the day, I say June, I can read my History and watch the world roll by. I am sure. I am sure that the world is too much with us, and there is nothing to do but sit around.

If you are always too sleepy or too busy for class, then let's hope that you are awake in your classes. Sleepy tasks, then you are eating or sleeping.

Choose the class that you know you will have trouble with. It may not match the rooms that are well set for your mind. I expect, and let's face it, the idea behind what to do, is get away from washing and eating and reading and doing your homework. And finish those classes while filling your pores with Muslims, Cigarettes. Try to include all of this in your school year plan.

What shall we do then? Abandon our colleges to the ivy? I don't mean who can hear a lecturer lecture when everybody is crunch-louder in the auditorium. It's a lecture while the eaters eat. But watch out for noisy food. I have to do this. I have to do it.
