Senior Class Prepares Annual School Play

Rehearsals are underway for the coming senior play. This year's production is The Glass Menagerie by Tennessee Williams. The play will be presented in Page hall Saturday, November 21 at 8:30 p.m.

Each year the senior class puts on a play with a cast consisting solely of seniors. The crews which build, paint it and are responsible for the presentation of the play are composed of seniors also. Mr. William Kraus of the English department will direct the play and Mr. Charles Weed, a student teacher, will be the technical director.

RED CROSS ELECTS, PREPARES FOR DRIVE

New officers of the Milne Junior Red cross are John Breeze, president; Paul Sabol, vice-president; Joyce Johnson, secretary; Roger La Mora, treasurer.

Assembly Starts Drive

Members of the organization between its annual membership drive with a Junior Red cross assembly. November 6. Katie Wringhead the committee. A constitution committee has also been formed. The constitution of the Junior Red cross will be completed for ratification soon.

Milnites in County Chapter

Jim Austin, Les Hoffman, Joyce Johnson, Lorraine Maynard and Gay Simons are members of the Milne County chapter of the American Junior Red cross. These Milnites hold office in this chapter. John Breeze is president, Warren Abele is secretary, and Paul Sabol is parliamentarian. Eric Yaffee is assistant editor of "Newletter," the chapter's newspaper.

FHA Begins Year

Milne's Future Homemakers of America have just completed their first major project of the year. Programs for a state FHA rally in Schenectady were designed.

F.H.A. Helps Children

Making stuffed animals to be distributed in the Albany Home for children is FHA's next goal. A Valentine's party is being planned for these children.

F.H.A. also participated in the annual UNICEF drive. Interested students had a chance to collect money for the United Nations children's fund on Halloween.

Juniors Enter Contest

Two junior girls are among the contestants in the Myers table setting contest. Barbara Corbat and Judy Fisher in the homemaking department are to represent Milne.

Biology Classes Find Specimens

Tenth grade biology classes have gone on three field trips in the past month. They have made two trips to the Six-Mile waterworks and one trip to Washington park.

Flora and Fauna Identified

One trip to the waterworks consisted of an identification of land plants. The other was an aquatic field trip; students collected and identified different types of plant and animal life. Such things as bullheads to dragonflies were found. Because of the large commodity of sunfish and bullheads, a record was established. The expedition to Washington park consisted mainly of tree and shrub identification.

More Trips to Come

This is only the beginning of a series of interesting field trips for students of biology. They will be tested on recognizing trees and shrubs from various parts later this year.

More Trips to Come

This is only the beginning of a series of interesting field trips for students of biology. They will be tested on recognizing trees and shrubs from various parts later this year.

The senior play cast, 1. to r., Vicky Brooks, Steve Whaley, Ken Hoffman, and Cathie Henrickson practice a scene from the production.
Hark! The Mark

Out of nowhere this year, was suddenly hauled the prospect of having homerooms graded like any other credit subject.

Well, if one can be flunked for being neighborly at the wrong time, perhaps by the same token homeroom can also be a credit for college. Tests could be given in homeroom. I just imagine the ghastly prospect of being given a pop Regents exam for homeroom. Just imagine the ghastly prospect of getting a letter for sports than if one joined other hand, advanced placement homeroom homeroom and advanced homeroom. On the given in series like languages. Or, how about intramural competition.'

Letter to the Editor

Dear Sir,

I have just received issue number one of the 1959­1960 series of C. & W.'s. A very well done edition. The only fault I have to find with the paper is it's title, Crimson and White. They are fine colors with which to adorn our school flag, but as the name of a newspaper virtually meaningless. The use of this

name dates back to 1925. Let's change some of that ivy-covered tradition and be original. A new name would mean a great deal to our school's lagging spirit.

Barbara Leach, Carol Hogadam, Marcia Pitts, Joan Mokhiber.

The first ninth grade party of the year was given by Rae Axelrod for Sue Sher, Jimmy Vaughn, Carole Huff, Jimmy Lange, Gay Simmons, Jimmy Olson, Sue Weiner, Jimmy Hengerer, Jill Kapner, Jimmy Naylor, Karen Giventer, Leo Mokhiber, Ellen Karrel, Jack Balder, Nancy Feldman, Paul Galb, and still more.

Sue Ashworth, Gay Simmons, Lorraine Abajian, Sue Scher, Peggie Olvier, Karen Thorsen, Sue Garman, Peggy Robin, and Penny Robin all had wet faces after they had bobbed for apples at Jill Kapner's Halloween party.

Another spectacle was the first Junior High dance of the year. Those around the refreshment table at Ed Spath, Sherry Press, Tom Lange, Peggy Crane, Tom Grogan, Doris Hafner, Jeff Rider, Liz Cantwell, Stanley Lockwood, Judy Montague, Peter Einhorn, and Margaret Lanner.

Barbara Leach, Carol Hogadam, Marcia Pitts, Joan Griffith and Karen Hoffman enjoyed lunch at Max and Jerry's and desert at the Boulevard the afternoon we had no school.

Linda Van Zandt and Judie Fisher gave a surprise party for Jane Siegfried the other night. Present to wish Jane a happy birthday were Sandy Berman, Keith Satter, Mike Clevanah, Kenny Lockwood, Sue Crowley, Janice Humphrey, and Judi Safaranko.

Pam Press, Jan Walt, Lois Goldman, Steve Whaley, Bobby Cantwell, Dotty Hoyle, Eric Yaffe, and Gail Spitz all had a good time dancing and listening to music at Steve Einhorn's party.

October 28, the girls in the junior class had a "going away" party for Elaine Alpert who is moving to Warwick, New York.

The leaves, red, yellow, sometimes brown, From the boughs come floating down.

Parents Confer With Teachers

The parents of all Milne students were invited to attend the first all students parents' night of the school year Monday, November 19. A preliminary meeting was called at 8:00 p.m. by Dr. Theodore Pessieck, principal of the school. After the meeting, the parents attended conferences with their students' teachers. The purpose of these conferences is to establish a stronger parent-teacher understanding. This method has been so successful in the past, it is expected to be used often in the future.

The Inquiring Reporter

by AL

Question: What do you think of intramural co-ed football? I'd kick, scream, and scratch and give the tree such grief.

Dave Blayes: Tackle.

Sue Unger: I'm thinkin! I'm thinkin!

Penny Fritsch: Girls against the boys.

Janice Humphrey: Can I play against you?

Dave Rubenstein: It gives me a kick.

Linda Van Zandt: I like it! I like it.

Steve Whaley: Great sport man!

Chad Grogan: Why not?

Jeff Wallock: Sounds great.

Stu Horn: Let me tell you that I'm all for it.

Buddy Parker: Would you say a nard with traumatic injury should be psychoanalyzed, or is he definitely a case?

Keith Shaver: Sounds like fun.

Alfred P. Neuman: Ask "Big Brother."

Jill Kapner: That'd be fun.

Jim Hoff: I refuse to answer on the grounds that I might incriminate myself.

Frisby Schlook: Quote, "We will fight them on the beaches, V for victory," unquote.

They are fine colors with which to adorn our school flag, but as the name of a newspaper virtually meaningless. The use of this
**Rice Elected President**

Steve Rice has been elected to the office of president of the M.B.A.A. (Milner Boys Athletic Association). Other officers are Steve Einhorn, vice-president; Ken Lockwood, secretary; Stuart Lewis, treasurer. The organization is composed of one representative from each homeroom in addition to all boys earning nine or more credits for participation in interclass sports.

**M.B.A.A. Movie**

The Solid Gold Cadillac has been chosen as the movie to be presented by the M.B.A.A. on November 13. It is a comedy about a woman who owns a few shares of stock in a large corporation and raises will be used for the purchase of equipment. The money raised will be used for the purchase of equipment.

**Shaker On Rampage**

Shaker High school’s football team, led by former Milnite Chuck Lewis and Dave Miller, has clinched first place in the Suburban Football Council.

**Close Contest**

Although the team’s impressive record is 0-6, the others with their record-breaking performances. Captain Ted Standing, the squad has had 94 points scored against it without scoring a single point of its own. Though no official records have been kept, it is believed that the squad leads in the following departments: Points scored, points scored against, incomplete passes, passes intercepted, and net loss of yardage.

**Squad Dedicated to Losing**

During the first few weeks of competition in intramural sports during gym classes, squad three of the senior class has been astounding the others with their near record-breaking performances. Captain Ted Standing, the squad has had 94 points scored against it without scoring a single point of its own. Though no official records have been kept, it is believed that the squad leads in the following departments: Points scored, points scored against, incomplete passes, passes intercepted, and net loss of yardage.

**Ezell Lost**

John Ezell, Shaker defensive star, is through for the season due to a broken leg. Ezell stands six feet six inches tall and his weight will be sorely missed next year.

**Smile Awhile**

A middle-aged woman had just returned from her first attempt at bowling. “How did you do?” her husband asked.

“Well,” she replied, “I didn’t lose a single ball.”

**Support the M.B.A.A. Movie, Nov. 13**

**Baskets Begin**

Milk will open the 1959-60 basketball season against Mohanason November 24, in a game to be played on the latter’s court. Milk last played Mohanason two years ago, winning on the Page Hall court with a record-breaking 90 points, and losing the rematch in a heart-breaker by one point when a last-minute comeback was squelched.

**Rivalry Continued**

Highlight of the season should be the games against the Academy, whom the Raiders haven’t defeated since the 33-34 season in basketball. No student now in Milne was on the team that defeated the Academy in the 33-34 season.

**Coach Tests Boys**

Milk boys have been tested on throwing and kicking a football during the first week of November. The longest throw was achieved by Jim McClelland, who tossed the pigskin 46 yards, and Bob Cantwell kicked it 42 yards to lead in that department. Top kickers in each of their respective grades were Mike Daggett, Pete Drechsler, Leo Molchek, Steve Rice, and Bob Tebbutt.

**We Goofed**

In our last issue of the Crimson and White we mistakenly reported that Lorna Carroll was the secretary of the chess club. This was an error. The secretary of the chess club is Ellen Karel. We would like to apologize for this mistake.

**Sue’s News**

Newspaper Campaign Succeeds

Probably you’ve all seen somebody at sometime in some place walkin’ or sittin’ or standin’ with a V.F.P. button pinned on. Well, that’s not very important. A few days ago it was announced to the student body at sometime in some place that the total sales of newspapers and magazines amounted to $2,713.40.

Congratulations to each and every Milne girl who was helpful. As one of our faculty would say, “Bravo!” We’ve gone over last year’s goal by approximately $100. That makes our total profit exactly $597.13. W-O-W!

**Bowing Intramurals Begin**

M.G.A.A. volleyball has come to a close for another year. However, two other activities are here in its place. Bowling for junior and senior high students has been started. Seniors are scheduled for Tuesdays and Thursdays. The junior high and their senior assistants are to bowl on Wednesdays and Fridays. These intramurals are held at Rice Alley on Wednesday, November 13, directly after school. Be PROMPT! Anyone who arrives after 2:45 will not receive credit. Each girl will pay for her own games until the end of the bowling intramurals.

At that time that she has earned her credit, her money will be returned by M.G.A.A. council.

**Dancing Introduced**

Anyone for folk dancing? The gym classes, 7th-12th grades, have all joined the fun. Murray has started a new unit on folk dancing for the purpose of developing rhythm and muscular coordination. The girls are all very enthusiastic over the new work. The girls have also understood that the physical value of the new schedule is very important to them. Let’s see how much fun we can have!"
**SENIOR SPOTLIGHT**

*By PAM and BILL*

Variety in visage, Dorothy Hoyle and Marianne Maynard smile, Bob Cantwell flowers and Jed Allen shows obvious contempt for the photographer.

**MARIANNE MAYNARD**

If you see a dark shadow creeping stealthily down the halls, please don’t call the police; it’s only “Moneybags Maynard” trying to find a safe place for her money. Poor girl, it’s been this way ever since September 21, 1952. There, that’s a millionaire, it’s just that people keep electing her treasurer, and all that silver is beginning to weigh her down.

For example, for the past two years Marianne has been treasurer of her class, which was nominated for treasurer of the Student council and M.G.A.A. council. She is one of two people in her college math course and is literary editor of the year book. She has been secretary of the Senior Scout Planning board in Albany for the past two years and spent a few weeks in Colorado with the senior scouts this summer.

Marianne is a very busy girl as you can see, and we will probably see her flitting through the halls of State next year, trying to find a safe place for her money. Marianne is going to math in a major, of course.

**JED ALLEN**

Jed Allen is a merciless Milne tyrant. Although he has not yet published his malicious inclinations, just wait until some innocent underling fails to turn in his Bricks and Ivy assignments. Jed, who is editor, will suddenly develop a most vivid pea-green face and threaten everyone he will have to watch out! He consumes recalcitrant contributors.

His activities indicate many other interests besides the practice of this high art. He writes poetry, plays the piano and paints. He doesn’t do all these at once—of* *course I said distinctly—he had to be Handy Anthony.

Jed’s interest in the arts was intensified during the summer, when he took a trip to Europe. There, he saw through Paris, London, Brussels and the Rhine Valley. Next year he plans to wander down to Egypt and continue his studies in the humanities.

Before you see a person with a pea-green face staring through the halls, for not only does he bite, but as the B & I deadlines draw nearer, he will have an advanced case of rabies.

SENIOERS VISIT

**Art Museums**

Seniors in the humanities class took a trip to New England Wednesday, October 29, to see two art exhibitions.

At nine o’clock, the group left Milne for the Berkshire museum in Pittsfield, Massachusetts. Here the group viewed contemporary paintings. Some of them were done by artists living in the area.

After lunch the group went to the Clark museum in Williamstown, Massachusetts. This museum was started by the Clark family after Mr. Clark’s death and features the collection of the Clark family. It includes paintings by Monet, Gaumbeorough and Pissarro and a collection of thirty-two Rembrants. A new section on Degas has just been opened. The site for the museum was chosen because it is believed to be from on aura drone.

The class also visited the library at Williams college where they saw books, including a First Folio edition of Shakespeare’s works.

The class returned to Milne at five o’clock. Dr. and Mrs. Roy York, Dr. and Mrs. Spear and the art editor, Cordie Cowley accompanied the group.

**Frosh Observe UN Week**

Meeting in Richardson hall, the fourteenth session of the United Nations General assembly came to order. Here are a few:

One ninth grade social studies class, in observance of United Nations week, put on a mock General assembly meeting.

**Hengerer Leads Assembly**

James Hengerer, the delegate from Peru, was president of the assembly. Some of the other important delegates were Sue Scher, United States; Richard Luduena, Russia; Sue Weiner, Great Britain; Jim Dunn, Canada. Mrs. Phyllis Ainspan supervised the meeting.

**U.N. Supplies Data**

The class received its information by writing to the United Nations in New York city. The delegate of each chosen country mentioned how his country felt about the disarmament problem.

**New Course Teaches Scientific Method**

Members of the second section of the eighth grade science class are involved in an experimental science course given Wednesdays during fifth period. The theme upon which this laboratory course is based is what a scientist does in gathering material and asking a question. Namely, what a scientist does in gathering material and recording data.

**Scientific Method Practiced**

Participants in this special class have an opportunity to try to practice the scientific method in their attempts to solve some of the mysteries of life. Problems chosen will help the students to understand the scientific method in its application to these subjects. As a result, the students will gain a better understanding of the scientific method in its application to the subjects. The class has been working on a project to solve the mystery of the zeta sigma rush. The students are using the scientific method to solve this problem. They have been working on the project for several weeks and have made good progress.

**Prediction True**

In the previous issue of the C.W., the staff made a startling prediction. One of the students, who had a very interesting events column, was this shocking item, the world would end November 1. Well, it did, so there. Our prediction was true to the very day.
