The fair will consist of books on display that are favorites with Milne students and supervisors. Many of the books will be loaned by the State College Co-op selected by Miss Roy, Miss Eaton, and Miss Wheeling.

Members of the senior class will act as attendants during the fair. The admission is ten cents for a season ticket. This includes the privilege of visiting the fair grounds as often as the owner desires. Student Council Decides
To Buy Ping Pong Table

The Student Council decided in its last meeting that the greater share of money for the murals should be raised during the first semester due to the crowded social schedule of the second semester. A card party similar to the one given last year, and tea dances were suggested.

They requested that a ping pong table be purchased for the students use after school. Twenty-five dollars has been allotted for this purchase if the homerooms approve it.

A discussion concerning the radio revealed that it may be used at any time. A request must be issued to Miss Conklin and a member of the Council must be present.
Are we proud of ourselves? Our behavior? Let's consider the reception last Friday night before we answer. Recall a few incidents that happened on that occasion, and judge your decision on those standards.

Milne students have been recognized for their politeness and manners. When outside of our school we try to be inconspicuous and courteous to everyone. Why not exercise some of this effort here at Milne? Let's treat our friends with respect, and regard the rules for correct behavior at social functions.

Last Friday night we were conspicuous for our poor manners and rowdiness. Common sense tells us that it is a social error to play "pitch and catch" with pumpkins, especially at the expense of the dancers. Of course, this inconvenienced everyone, and was a direct insult to the decoration committee.

A short time ago it was stated that Milne students lacked a sufficient amount of privileges. Do you really think we deserve them? So far we have abused these opportunities, and shown no appreciation for them. We don't realize the liberty our principal and faculty afford us. If we haven't the ability to observe these rules, how can we expect more freedom if we aren't capable of using it to a good advantage?

Let's make our conduct the envy of all, and show them "we've got what it takes!"

THE CHRISTMAS PLAYS ARE HERE!

The Christmas plays are under way! To many students these words bring a glow of pride as they recall past achievements in former Christmas plays. To some they bring a chuckle or an enjoyable thought as they remember the high spots of past productions. This year may very well be a banner year if backing and cooperation are given the three very enjoyable plays chosen for this year's program. Every student should pledge himself to help in some way-at least plan to be present when the plays are presented.

We want our own actors and actresses to play to a full house, don't we? Well, let's all give them encouraging backing by selling enough tickets to fill every seat in Page Hall. With enough pop and cooperation as a starter it can be done. But remember, it can be done only if each and every student accepts his share of the responsibility and helps willingly.

EIGHTEEN YEARS AGO THE ARMISTICE WAS SIGNED.

Eighteen years ago the Armistice was signed. The nations of the world were once more put at peace with each other. At this point, however, countries are fast forgetting peace.

Germany, under Hitler, is arming at a speedy pace. It has many organizations and camps for military training. The dictator is alarming all Europe by his moves.

France, frightened by Germany's actions, is arming for defense. She is making connections with her allies.

Great Britain too has the war "bug". She is making a check of her means for defense. She is prepared to spend money to strengthen her forces.

Other countries are also war conscious. This is a serious problem as it is from our generation that the fighters will come. Do your part and for the sake of our nation strive for peace. If a peace movement would be initiated now, I sincerely believe that the horrors of war could be averted. Remember that a war may lead to the destruction of civilization.
