EXTENSIVE PLANS FOR SENIOR BALL

CHANGES IN MYSKANIA SUGGESTED

SENIOR BALL TO BE HELD IN ARMY

Change Made on Account of Anniversary

Last week's "News" made the announcement that the Senior ball will be given at the Vincenian Institute. However, after a convincing talk by Dean Horner in class meeting, Friday morning, the class voted to hold this big event at the Armory.

The Alumni Association is planning on the return of three thousand alumni. There will be many of this number who will want to return, and many who will want to be spectators. Furthermore, the alumni of the graduating classes and undergraduates must be taken care of. The number is expected, the Vincenian Institute would be too small to accommodate it.

The Alumni Association has pledged itself to try at least five hundred guests, although it expects to sell many more. This gives to the Senior ball committee the necessary backing for a big undertaking. The committee has already started elaborate plans so that the affair will be a success in every way. There will be booths for the different societies, fraternities, and the alumni.

Seniors are urged to sign up immediately for the dance. A special alumni assessment will be one dollar. This entitles each person to a paper program without the necessary hacking for a big under­taking. The committee has already started elaborate plans so that the affair will be a success in every way. WORCESTER TECH DEFEATS STATE

The State College nine lost its first home game in baseball history last Friday afternoon at Ridgfield park.

State failed to score a run, as the pitchers of Hunt, and fielding of the players, was too much for the State nine. Nevertheless, the old State College fighting spirit was evidenced throughout the game; and we have good reason to be proud of a team who fought so bravely, and played so hard, as did our nine at last Friday's game. Next Saturday State meets Mass. Aggies at Amherst. Mass. Aggies were beaten by Worcester Tech, earlier in the season. State is out practicing hard every day for they're out with a vengeance.

HOOVER

Continued from Page 2

He favors universal physical training through extending the work of such organizations as the Boy Scout movement. He does not favor military training under the supervision of army officers. However, as well as General Wood and others of the candidates, stands for a budget system.

His attitude toward socialism is sociologically sound. He regards it as a European theory of despair caused by cause and economic wrong. Our social organization is entirely different from that of Europe, for we have a system of open classes which is the basis for equality of opportunity. We need not fear socialism. He has said:

"My emphatic conclusion is that socialism as a philosophy of possible human application is bankrupt. He favored the League of Nations, though his own conception of a league was far more simple than that of President Wilson. Mr. Hoover has handled his job. We need a man of good common sense and fearlessness as the head of our nation for the next four years. We should be glad that Mr. Hoover will consider a nomination.

He is not looking for personal honor; he does not care for party politics—he still wants to serve. His motto may well have been: "Live pure, speak true, fight wrong, follow the king—blue, white, hawthorn boy."

A friend of Hoover’s has said:

"Hoover has succeeded because he would never touch an enterprise that did not appeal to his imagination as a great constructive job. He has always wanted to do things in a new way, and he won’t bother with anything else. And when he is set to solve such a problem, he invariably comes back with a plan that scores little men to death by its comprehensiveness and that delineates big men by its imaginative appeal and its sound constructive vision." The United States has a great constructive job on its hands—it appeals to Mr. Hoover’s imagination. Let us give him a chance to work!" 1, V., ’20.

Senior—"Have you heard the story of the street car conductor?"

President—"No."

Senior—"His father was a conductor—his son is a conductor."

President—"Well, it’s fare!"
