STATE COLLEGE WELCOMES THE CLASS OF 1925

CHANGES IN THE STATE COLLEGE FACULTY

Edward LeRoy Long, Instructor in Physics since September, 1918, has resigned to become principal of the Schenleyville, N.Y. schools. Mr. Low graduated from the 19th College with the class of 1917, receiving the B. S. degree. Immediately after graduation he accepted appointment as assistant principal of the Schools. This was his last year with the College faculty. Mr. Low has taken an active part in the general work of the institution and during the greater part of his work here as instructor was a member of the Athletic Council. He received the master's degree from the Albion College faculty in 1921.

Marian Card, instructor in Physical Education since 1917, has resigned to become supervisor of Physical Education in the Albany High School. Miss Card is a graduate of the Sargent School of Physical Education. Before coming to State College she was engaged in social welfare work in Montreal, Canada. Her work in the college has been very successful. She has left many friends among the students and faculty, whose best wishes will attend her in her work in the Albany High School.

Miss Besse High Hert, who has been instructor in Household Economics in the last two years, has resigned to become supervisor of Household Economics in the city of Newburgh. The position of the practice school here will be taken over by Miss Graves, who will assume her part of the work here as soon as possible. Miss Graves understands student problems and will speak with authority on all matters of education. His position he held until 1903. From Continued on page 4

GENERAL NOTICE TO ALL STUDENTS

1. Entrance examinations for students who have made arrangements in advance will be held in Rooms 215 and 219 at 2 p.m., Monday, September 19th.
2. Registration will occur on Tuesday and Wednesday, September 20 and 21.
3. Freshmen will be expected to register on Tuesday, September 20, from 9 to 12 and from 2 to 5 o'clock, in the College Gymnasium. Freshmen whose entrance credentials have been approved will go at the College Gymnasium. Freshmen whose entrance credentials have not been approved will first see the Dean.
4. Freshmen will note special directions concerning registration on the Class Bulletin Board.
5. All students who are assuming work after an absence of one or more semesters, students seeking advanced standing from other institutions, graduate and special students will register with the Dean.
6. Class cards will be presented by students to the instructors at the first meeting of each class.
7. All laboratory fees must be paid at the Business Office before instruction begins.
8. Changes in the schedule, except in cases where students are permitted by the Dean to register after that date or to change schedules, will be held in Room 219.
9. Changes in the schedule, except for extraordinary reasons, will not be permitted after Monday, October 3.
10. No changes in schedules filed in May, 1921, will be made after an absence of one or more semesters.

SATURDAY, SEPTEMBER 24

The students of State College are to be congratulated on their good fortune in having the new Commissioner, Frank Pierpont Graves, as the speaker at the first student assembly of the new college year. Coming from the University of Pennsylvania and having held the presidency of the University of Idaho and also of the University of Washington, and having been instructor and professor in Tufts College, Commissioner Graves understands student problems and will speak with authority on all matters of education. His address on Tuesday morning will be in the nature of an introduction both as Commissioner of Education and as President of the Board of Trustees of the College. The State College students may not know that the Commissioner of Education is ex officio President of the Board of Trustees of the State College for Teachers. It, therefore, comes as a surprise to us as our own and we are glad to welcome him. It is extremely desirable that every student be in his or her seat promptly at 11:30 in order that Mr. Graves may have the necessary time for this important opening address of the year.

THE FIRST STUDENT ASSEMBLY

The students of State College have been welcomed by their President, Dr. Graves, with the address on Tuesday. He is, therefore, the first speaker of the session.
PRESIDENT CARL E. WURTHMAN

State presents its heartfelt, warmest reception to you in pleasant anticipation of several years' association with us in work and in fun. We are anxious to see you get along so well in college and to be so prepared to lend you a helping hand over such obstacles as may arise in your path.

In addition to extending our warmest congratulations to you in the pleasant anticipation of several years' association with us in work and in fun, we are anxious to see you get along so well in college and to be so prepared to lend you a helping hand over such obstacles as may arise in your path.

FRESHMEN

The junior class is the sister class of 24. Our present freshman class, and we, your junior class, have been connected with State College for over ten years as the father, mother, sisters and brother, of the first class. Our sister class has never failed to retain the sincere quality of that friendship.

To those whose loss is greatest, whose grief is deepest, to his father, mother, sisters and brother, to the ideal Father in Heaven, we send our sympathy and comfort.

IMPRESSIONS OF SUMMER SCHOOL
(Contributed)

An impression is defined as “the immediate effect produced upon the mind by a sensation, passion, emotion; an instinctive or vague notion, impression, belief.” One cannot, however, have exposed himself to the various impressions of life at State College Summer Session for four summers without generalizing those impressions into a definite, deeper significance.

What are they expecting to gain, these eight hundred odd “intellectual children” (excuse, please, Mr. Philosopher)? Is it merely a little mental lumber to replenish a depleted stock to see next fall perhaps as scaffolding by which little builders of new mansions? Is it a degree to lend professional prestige? Or do these eyes, old with ages of desire, see a promise of Peace in the distance?

There have always been philosophers to interpret for us the experience to tell us how to adjust to life with the least, or perhaps greatest, inconvenience to self. “Eat, drink, and be merry,” says one. “Utilize an indifference to everything,” says another. “Sack cloth and ashes,” says a third. Some are so far above the ordinary, weak little accidents of nature that they seem even to give advice and look with some pity from the safe height of “Weissnichtwo” upon the dumb show of life.

But none of these old-fashioned philosophies will our experiences at State College supply data for support of their theories. The play, the thought, the feeling, the ideals point a way through the turkey of the body, the mind, and the spirit of the promised land. We catch a glimpse of the path that leads to self-teaching, how to live, “to live joyously, fully, completely, on an active responsiveness to life at every point.”

ATHLETIC PROSPECTS

At the start of another college year the athletic outlook seems to be problematical. It is entirely up to the men who make the teams which State will have a record breaking year in sports. The biggest factor in favor of the optimistic side is the fact that we have a coach who is all his life means. Mr. Suavely is the man who can lead us through the fire and the flames to victory. The biggest sport at State has always had loyal support. Last year's learning set a record in the public. This year, however, there is a wealth of material from the old teams will be partly overcome by the fact that there is a great deal of “star” material to be taken from the scrub teams of last year.

FOOTBALL

Football is coming into its proper place at State College. While it is not likely that a varsity eleven will be trained this year, if the support is sufficient class teams will be formed. This is still a stage of development, but if the entire student body gets behind the idea and boosts, in the not far distant future we will have a regular football team to represent the college.

BASKETBALL

Basketball has always been the biggest sport at State, for it always has had loyal support. Last year’s team set a record in athletic history. Because of its strong offensive, it attracted the attention of the public. This year, however, only one letter man, Captain “Jack” Johnson, will be at college. But there is a wealth of material from last year’s reserve team. With Coach Suavely hopes to form a strong team.

BASEBALL

The baseball outlook is a little clearer than is the case of the other sports. Several letter men will be at college and will be eligible for the Varsity. This season has been a record one for just one year, but its popularity is growing. The season this year should be “the best yet.”

AT HOME

in the

HOME ECONOMICS DEPARTMENT

Friends, new and old, will be welcomed by students and members of the faculty of the Home Economics Department on registration days.

Freshmen and other newcomers are especially asked to make themselves known to those who are dispensing hospitality on this “Open House” occasion.

Three to five on Tuesday and Wednesday.

TENNIS

There can be no doubt but that the 1922 season of tennis will be a record breaker. It is fast becoming one of the most popular sports at State. In the past year the whole college became tennis fans. It is most likely that this interest will continue. Tournaments will be held this fall and in the spring, to which all are eligible. Then, there will be intercollegiate matches with nearby colleges. With Warren Gray and John Cassavant, two veterans of former teams at college, the 1922 varsity should be a strong one.

HOCKEY

Last year's hockey season was not very successful on account of the mild winter. At no time was the ice very good, and so hockey had no chance to amount to much. But this coming winter, according to weather prophets, will be a cold one. That means lots of ice and lots of hockey. There are numerous good skaters and hockey players at college so that with sufficient support a good season can be realized.

TRACK

Of late track seems to have fallen from grace. Whether it will be revived this year depends on the interest shown in it. There are many good track men at college. It wanted, there can be a regular college track team to compete in the Federated League.

Now is the time to start to support the teams that represent our college. At the first opportunity come out and root, or better yet, if you can, come out for the teams. It is up to you.

NEW COMMISSIONER

Continued from page 1

1904 to 1916 he was a member of the faculty of the Teachers College, Columbia University.

Commissioner Graves has written extensively, being the author of articles on Greek Literature and Greek Antiquities. In more recent years his publications have dealt with problems of Education. He is the author of "A History of Education During the Middle Ages" and "Great Educators of Three Centuries." Since 1920 he has been editor of the "Educational Review," the most widely known educational journal published in America. Commissioner Graves comes to the State Department of Education at Albany at a time when problems of great importance are pressing for solution, especially in the Rural School problem. This includes the question of Rural School Supervision, Rural School Coordination and Equalization of the Tax Burden in all Communities. He will be on the faculty of the Teachers College, Columbia University.

Changes in Faculty

Is planning to take her Doctorate in Vocational Education for Women.

Admissions to the State College Faculty

Yet to return when the girl winning the most number of points at the end of the year wins a cup. All those winning 60 or more points will receive S. C. T. Letters. These numerals and letters will be different from any others you may have worn in basketball or elsewhere, so it is up to everyone to try out for this. At the end of the year the girl having the most points receives a cup given by the G. A. A.

The following are the points given for each event:

For each basketball practice attended, 1 point.
For each football practice, 2 points.
For shorter hikes, 1 point.
For each swimming party, 1 point.
For each skating practice, 1 point.

S. C. T. LETTERS

The New Point System

This article is merely a gentle reminder to former State collegians that last year we adopted a new point system by which every State College girl can win her S. C. T. Letters. Let this little bit of information serve as a "pusher" to girls in "freshman" to "try hard." Get your class numerals and letters sometime, and the year "21" is preferable to the year "25." Think how nice it is to be able to wear a big purple and gold S. C. T. on your sweater and let people know you belong to State G. A. A. now has a way by which you can earn your class numerals and letters, that is, if you work hard enough.

Last year a few girls won their letters by playing basketball, but now we have a system by which every girl can win with a little perseverance, she can say: "I won these at State College." G. A. A., under the supervision of Miss Benedict and Miss Card, worked out the following "point system:" By coming out for different events you get so many points, and upon gaining 40 points you win your class numerals, and the girl winning the most number of points at the end of the year wins a cup. All those winning 60 or more points will receive S. C. T. Letters. These numerals and letters will be different from any others you may have worn in basketball or elsewhere, so it is up to everyone to try out for this. At the end of the year the girl having the most points receives a cup given by the G. A. A.

The following are the points given for each event:

For each football practice, 2 points.
For shorter hikes, 1 point.
For each swimming party, 1 point.
For each skating practice, 1 point.
For each tennis practice, 1 point.
For each soccer practice, 1 point.
For each hockey practice, 1 point.
For each athletic practice, 1 point.
For each volley ball practice, 1 point.
