The Albany State baseball nine split a pair this week. On Tuesday they dumped New Palts 5-1, behind the strong right arm of Carl Galla. Then on Wednesday they held them to a 1-1 tie.

The Albany State nine was a real good team, and the New Palts could not get on the scoreboard until the ninth. The Great Danes came back to tie it up 1-1. Neither side could get on the scoreboard, and the game went on to extra innings when the Great Danes scored in their last at bat.

Three more Great Danes came back to win the game 2-1. The Great Danes scored two runs in the first inning and held on for the victory.

On Sunday afternoon, New Palts met the Danes for the second time this week. The Danes came up with seven runs and defeated New Palts 7-0. The Danes scored three runs in the first inning and four more in the fifth. New Palts could not answer and the Danes held on for the victory.

The Albany State nine will be in action again on Tuesday against the University of Albany. It is expected that the Danes will be able to come away with another victory.

Election Protest

The results of last week's election of officers for the 1967-68 Central Council left us frustrated and defeated. It appeared that the elections were a farce, a sham. A few healthy protests are being held, but Cleveland and Miskin grabbed the top two offices - and in so doing to a string of issues. They presently hold office.

Bill Cleveland and Miskin are members of CUNY, which has come to be the most effective political force in CUNY. They are now some members of the Central Council, as well as a couple of "near" Council, members. The elections have been extremely unfair. I, and I hope many others, will never vote in these elections again. It seems obvious to us, hearing the 6:00 p.m. chiming 'Away in a Manger' at last Thursday's Central Council meeting, that there is not the slightest chance of a judicial distribution of power. A large part of the neutral Council will disallow their own election. They wem to Oh Student Congress. We hope to see a judicial distribution of power. A large part of the neutral Council will disallow their own election.

The problem seems to be that this university desires it to have a longer academic year than any other university in America. Everyone has heard about the planning for a 32nd election. The problem is a complicated one, and is one of the more important issues facing us. It is necessary that we be aware of the implications of this situation. It is also one of the most important issues facing us.

Students To Present Referral On Elections To Supreme Court

Evidences points to the fact that William Cleveland, President of the Student Association, violated the rules of the student body. At one time he had the idea of the MYSKANIA and class office held Mar. 1-3.

On Feb. 27 Vincent Aravena, Vice-President of the Student Association, found over 150 marked ballots in the drawer of Cleveland's desk in the MYSKANIA office. The ballots all which have Cleveland's name were marked in different 4, and in different manners: some ballots have checks for other candidates.

At the time Acuna reported he found the ballots at 6:30 a.m. the Secretary for the Student Association. Marcia Abramo, who was at that time election coordinator, was allegedly informed by Thomas, Aravena, and Cleveland that they had a good rapport between the Student Association and the Student Union.

The election propriety is being challenged by Cleveland on the grounds that no one heard or saw the student body. The Student Association is being boycotted and there is no check on the student body.

On their referral they will say:

1. To distribute and gather the evidence regarding the violation of the Constitution,
2. To mimeograph and retain it.
