Tips to search in online catalogs and databases

Keywords are terms considered to be “key” to finding information. **You might find them useful for your catalog and database searches.** Some examples:

- **Keywords in different languages.** tourism, turismo, touristic, turístico...
- **Synonyms.** ecotourism, eco-tourism, eco-travel, ecotravel, ecological tourism, environmental tourism, green tourism, nature tourism,
- **Related keywords.** sustainable tourism

EXPAND your search by using

- **Keyword searches** for quick searches on broad topics
- **Boolean operators** (OR)
- **Truncation.** A symbol at the end of a word to retrieve variants of that word. For example: searching for **tour*** would find "tourism", "tourist", "touristic"...
- **Wildcard.** A symbol to be embedded within a word to replace a single character or a string of characters. For example: searching for **wom?n** will find “woman” and “women”.

	Truncation	Wildcard
Minerva (Online Catalog)	?	! (for a single character) # (for several characters)
Worldcat	*	# (for a single character) ? (zero to nine characters)
HAPI	Just leave the word root	Not available

NARROW DOWN/LIMIT your search by using

- **Subject searches** for a more controlled search
- **Boolean operators** (AND, NOT)
- **Limits** (by date, language, format, specific field, electronic full-text availability...)
