

## **University at Albany**

### **Standard Author Agreement**

I direct that the work I am depositing (the "Work") be stored and made available publicly in the University at Albany's open access repository, as it may evolve (the "Repository").

I grant to the University at Albany ["the University"] the irrevocable, non-exclusive right to preserve and reproduce the Work, and to display, distribute, and make the Work available publicly, without charge, from the Repository, in any format.

I represent and warrant to the University that:

- I have the right to deposit the Work in the Repository and to grant the University the rights granted above.
- The Work does not infringe or violate any copyright or other rights of a publisher or any other party. Distribution of the Work from the Repository or by others as permitted above will not infringe or violate any such rights.
- If the Work contains any material for which I do not hold copyright, I have either obtained all rights necessary to permit the Work, including that material, to be distributed and made available from the Repository, or it falls within the scope of the fair use doctrine. Permission may also not be necessary if the materials are in the public domain.
- If the Work is based upon work that has been sponsored or supported by an agency or organization other than the University, any right of review or other such obligations of the sponsorship or support agreement have been fulfilled.

If I have specified an embargo date where allowed in the deposit process, I understand that the University will delay making the Work publicly available from the Repository until after that date.

If the Work was prepared jointly with other authors, I am signing this Agreement on their behalf as well as my own, and am authorized to do so.
