When the NYC Board of Estimate opens its doors to the City employees this Wednesday to hear their suggestions on the proposed budget for the fiscal year 1944-5, it will face a barrage of facts and figures from the workers who generally feel that the Mayor's version of the budget has been so designed as to neglect certain vital problems of 180,000 municipal employees.

Unions Agree On Overtime

This employees should be paid for overtime work, instead of the present system of compensatory time-off, is the program of AFL, CIO, and many independent unions, which will be represented at the hearing.

Almost all the employee groups attack the Mayor's cost-of-living bonus as inadequate. The State, County and Municipal Workers of America, CIO, demand an increase of $400 to some closer to meeting the actual rise in prices; the American Federation of State, County and Municipal Employees, AFL, asks another $20 over the present bonus.

The Uniformed Firemen's Association will be there with their demand for a $400 wage rise. The Central Trades and Labor Council, AFL, earlier asked the Board of Estimate to consider a mass meeting for Tuesday evening, April 11, to gain public support for its program.

The American Federation of State, County and Municipal Employees (AFSCME) has a delegation of its own at the hearing. They will point to the war mushrooming over the public sector, the economic basis for their wage increases by losing 6 months of mandatory increments.

1. It promises another levy of $50,000,000 on all the people in the form of a transit tax.
2. Cost-of-living adjustments will not solve the increasing financial burden of the "wages of City employees," but it fails to do more than offer a partial solution.
3. It promises another levy of $50,000,000 on all the people in the form of a transit tax.
4. Solve the acute manpower shortage in the City hospitals by putting City employees to work Saturday afternoon.
5. Eliminate the term in the budget that demands a reduction in the number of employees whose prevailing rate of wage is increased in accordance with law.
6. Pay for overtime only at the rate of time and a half.

Preliminary consultations of what they claim is a "most interesting" facts:

1. The 5 Borough Presidents have no intention of approving this change which hits employees in their departments.
2. It promises another levy of $50,000,000 on all the people in the form of a transit tax.

"I walked in as a favor to a government employee with whom I had become friendly. The next thing I knew I was out of work." That’s the parable of a World War II veteran who found it easy to get a job with the Federal Government.

The veteran had become friendly. The next thing I knew I was out of a job—not in civil service. Right now.

Agencies to Pay Transportation Costs

Washington—For the payment to Federal employees of necessary transportation costs for themselves and their families, upon or without their consents, to return to or from their work, Congress made last week by Post V. Mo-

Power Commission. This direc-

tive, which is also in effect for

1942, 1943, 1944, establishes procedures to cover transfers and releases of Federal Government employees.

Mr. J. S. Hussey, who advised

him to write to the Regional Director of the Civil Service Commission.

"Why," he asked.

As Major Osmansky tells the

example, of the Commerce

Department, for example, of the Commerce

Department.

The Commission told Congress

that the "number of people super-

staffs when work falls off for a
time.

Staffing for the coming months will be determined by Government employees is not for being sick—but for illness of convenience.

That, at least, is what a recent statistical study at Census Bureau indicates. It covered all sick leaves taken by the more than 5000 Census employees for the past year.

Dr. Schwartz’s studies show

that sick leaves have gone up 4 per cent every pay day. It increased as pay day approached and the sick leave took off on Saturday. It is used more for sickness, particularly for minor ailments. It has nothing to go with how far away from pay day.

These studies also show that the various federal agencies are directed to make re-

placements when sickness makes the transfer possible.

The new amendment does not

end the present rule that Federal

agencies are directed to make re-

placements when the transfer was made.

The Commission has proposed that agencies be permitted to transfer sick employees to other positions for all necessary reasons to balance their needs in the same same situation.

Mr. Freedman went to the Newark

Civil Service office and saw a Mr.

Freedman, who advised him to write to the Regional Director of the Civil Service Commission. He did that and also wrote to the War

Department and to the Congress-

ment. He was out of work, so he

had plenty of time to write.

Merry-Go-Round

Then began the merry-go-

round of the civil service. Mr.

Freedman was asked to resign.

He refused, and the next day he received a letter telling him to resign. He went to the

New York Regional Director of the Civil Service and told him about the

situation. He was told that his letter would probably be answered in

writing.

4. Was told that maybe the

man would investigate and re-

late him.

5. Was told to go back to the

Post Engineer and see whether

be was needed for promotion in

or mediocre, or was it just a clerical

job? If it was a clerical job, it was

at least a full-fledged clerical job.

ment rate showed that the number of people unemployed is not greater than

it and ^Kll recommend It to Con-

gress.

As one reader put it: "Don’t mar your beauty with thick unsightly glasses! Bring back your natural charming appearance with invisible glasses. Come in today and let one of our expert advisers tell you about his draft board.”

As he had been on the job less

than a year, he could be dropped for administrative reasons, and he was.

So he went as a veteran it was felt he could do a job more specifically, as the official notifica-

tion said, "in all responsibilities." To no one’s surprise, the Post Engineer at 194 Main Street, Totten, N. J., told him to a LEADER repor-

ted.

His Army discharge, he

went to the Civil Service Office and was informed that he had no classification.

Council in Doldrums When It Comes to Employee Bills

The next meeting of the New York City Council is slated for Tuesday, April 18, at 1:30 p.m., but it isn't likely that any matters affecting civil service employees will be discussed.

The Committee on Civil Em-
ployees and Veterans at press time
had not received any agenda items
for the near future. Action by the com-
mittee would presumably be taken at a Council meeting.

According to the Danish newspaper on the subject of working conditions in the City, the employees in the hands of that department are far from being well
fed up with the system. Mrs. O. S. Trolle, in the city, has written the following letter to the Department of Commerce:

"Dear Sir:-I am writing to you in connection with the matter of working conditions in the City. The employees are far from being happy with the current system. They feel that their efforts are not being recognized and that they are not being treated fairly. They would like to see some changes made in the system in order to improve working conditions and to make the employees feel more valued. Thank you for your attention to this matter."

NYC Employes Work With Private Men On Post-War Project

Latest project of the office of the Borough President of Brooklyn, in cooperation with the Brooklyn-Queens Harbor, which is under the administration of the Department of Health, is the cleaning of the Brooklyn waterfront area. The project is being handled by a group of private citizens who are working alongside the employees of the Department of Health. The work is expected to be completed by the end of the month.

The Department of Health has been working on this project for several years, but it has not been able to make much progress due to lack of funds. The group of private citizens has been able to raise the necessary funds and has been working diligently to complete the project.

What Harlem Welfare Workers Put Up With

Working conditions in two of the Harlem Civil Service Commission's offices are presented by the Central General Service Commission and Harlem Workers Committee of the CIO, which has been fighting for them.

The offices are located in a factory building where the workers are exposed to the elements and the vibrations make it difficult for them to work efficiently. The workers have been fighting for better working conditions for a long time, but they have not been able to make much progress.

$6,000 Health Job Still Unfilled

Since April 3, the NYC Civil Service Commission has been searching for a suitable candidate to fill the position of a health technician for the position of a health technician for the Harlem area.

The position requires a candidate with a minimum of two years of experience in the field of health. The candidate must also have a valid driver's license and be able to travel throughout the City. The salary for the position is $6,000 per year.

Unions Win Ruling

The State Court and Municipal Workers of America, CIO, have won a ruling in their long-running battle with the NYC Civil Service Commission. The ruling, which was made by the State Supreme Court, states that the Commission has violated the provisions of the Civil Service Law when it refused to hire the applicants.

The Commission had previously refused to hire the applicants because they did not meet the qualifications required by the law. The ruling now requires the Commission to review the applications and make a decision based on the law.

Clear Action to Be Taken On the N Y C Budget

Wednesday, April 12, is the day when New York City's civil employees have their say before the Board of Estimate on questions of salary, and the union leaders hope that the Estimate Board has tended to follow the Mayor's budget is usually calmly. We hope that this will happen again. This year, there is surprising unanimity among the City's employees regarding what they want. The Estimate Board should give consideration to those factors:

1. Additional payment for overtime work. As the number of employees decreases, the burden on each remaining employee grows larger. It isn't fair for the City to take advantage of these employees. It wouldn't happen in private industry—it shouldn't happen in Government. The advantage of these employees. It wouldn't happen in private industry.

2. Revision of the bonus system. The bonus revision is due. The bonus has not been revised since 1942. The bonus system is pretty slim. Employee organizations have rejected the bonus because it is not sufficient. The Estimate Board can do no less.

3. The cost of living. In his budget message, Mayor LaGuardia admits that living costs have imposed an undue hardship on employees. The hardship is increased by the war. The war apparently is far from over. How haggard can the employees become in the meantime?

4. Mayor LaGuardia's dictum that the bonus be based on savings made by department heads has hit those employees. General Bradley's Column

Judiciary People Get War Bonus For One Year

ALBANY—Governor Thomas E. Dewey last week signed a measure authorizing the payment of a special war emergency compensation to the employees of the judiciary for the period ending June 30. The Governor accompanied his action with a statement stating that the measure was approved "in line with the Governor's statement in his Budget Message last January that it is time that civil service was reclassified and as a result all State of New York employees will have the benefit of self-governance.

Governor Dewey's disapproval of Assembly Bill No. 448, a measure providing for a special war emergency compensation to the employees of the judiciary for the period ending June 30, is an action which is entirely in line with the Governor's statement in his Budget Message last January that it is time that civil service was reclassified and as a result all State of New York employees will have the benefit of self-governance.

Mental Hygiene Employees Get Data on Classification

Many employees of the Department of Mental Hygiene are receiving letters from the Director of Classification reading as follows: "When your position was reclassified on October 1, 1945, you were notified that you were not eligible to continue in the position without examination, inasmuch as you had not been performing the duties as far back as April 9, 1941.

"At the recent session of the Legislature, the law was amended to provide that if an employee has been performing the duties upon which his reclassification is based since October 1, 1942, he is eligible to continue under the reclassified title without examination.

"A record of our records shows that under the law, as amended, you are now eligible to continue under your reclassified title without examination. Please, therefore, disregard the earlier notice to the contrary which was sent to you."

Statute Corrected

The change in the statute occurred as to the period during which an employee was required to be performing the duties of the new title as assigned October 1, 1945, in order to be qualified without examination.

Higher Age Limit for Village Cops

ALBANY—The provision that a person must be under 26 years of age to qualify as a police officer in a village police force has been abandoned, through an amendment of Section 158 of the Village Law. The Legislature could also retain permanent village police positions, provided that local common councils set higher maximum age limits.

However, the State Commission continues to reserve the right to approve any reclassification of reclassified on October 1, 1943, you were notified that you were not eligible to continue in the position without examination, inasmuch as you had not been performing the duties as far back as April 9, 1941.

"There are few people, except those in close touch, who have any conception of the true responsibilities and the vast amount of work involved in the management of the Business Administration of the State Insurance Fund."

ALBANY—Provisional State Stewards of New York State's mental hygiene hospitals don't buy the arguments made about them in the report on State Mental Hygiene Institutions by O. Dawson recently, at the behest of Governor Dewey. They feel that Dawson missed the importance of the work they are doing; and that he fails to appreciate the quality of a man who has worked himself into a position with the taxpayers of the State.

How much is "duty"?

When a soldier charges up a newly established beachhead behind the guns of the ships and machine-gun bullets ripping around him... that's duty.

When a sailor stands at an aircraft gun fiercely firing at an enemy plane, disregarding the bombs and lead shrapnel... that's duty.

A soldier or a sailor has duty clearly defined for him.

But how "duty" is "duty" for a civilian?

There is no clear definition. But there is one job which every man and woman of us must consider duty if he would like to see the war shortened and our fighting men back with us.

That's—Buying War Bonds.

Not just a few. As many as you possibly can afford.

For your own sake... for the sake of your fighting man... for the sake of your country... boost your gift-insuring through Pariball Savings!

supervisors over 600 Park Department playgrounds. An unorganized playground will not meet the needs of children whose parents are engaged in war work. They should receive a starting salary of $1,500 to allow hiring the proper type of person. Their maximum should be reduced to $2,000. The first cut is in the non-competitive class and faces a top salary of $1,500 a year, and no increments. They should receive an increase of $400; $175 increments; one and a half for work over 40 hours. Existing vacancies should be filled on a permanent basis.

A new salary range should be adopted for foremen and general foremen. Foremen should receive $2,100 to $2,500; general foremen, $2,600 to $3,000.
