Cash for Accrued Time on the Way
To U. S. Employees Who Leave Service

WASHINGTON—You will soon be able to get a lump sum payment for accrued leave if you decide to quit the Government. U. S. Civil Service Commission has asked Congress to write this into a law. It has asked that Government provide a lump-sum payment for accrued leave to the estate of a deceased Federal employee.

If submitting the draft to Congress, the Commission pointed out what employees frequently have additional earnings or have it in their credit at the time of their separation from the service or at the time of their death.

Today, there are many administrative difficulties and much red tape in the practice of carrying employees on the payroll for the period covering their accrued leave. If you decide to quit the service, the employee's estate will be credited with accrued leave. It is predicted, however, that the general response will be favorable.

The plan is set up on a voluntary basis. The hope is that employees will have the widest possible choice of doctors. The plan, as now being worked out, provides for the covering of the medical needs of all employees. It is hoped that employees will have the widest possible choice of doctors. McDonough Urges Aid To Mental Hygiene Workers

"The thousands of workers in the three great State Mental Hygiene Hospitals at Central Islip, Brentwood and Kings Park, are doing a magnificent job in caring for the over 30,000 helpless wards of the State. But it is here that the trouble lies. The legislature is not doing its duty in providing the necessary funds to maintain these institutions at a proper level."

Mr. McDonough, Executive Director of the New York Association of State Civil Service Employees, after a conference with officers of the Chapters of the Association at each of the hospitals.

McDonough confers with Central Islip with J. Earl Kelly and Arthur J. Meader, members of the State Classification Board, who were conducting hearings. Various workers relative to Federal-Hamilton Law status. He urged that adjustments be made favorable to employees in many of the cases now before the Board.

The need for fair application of the Federal-Hamilton career service law extended to institution workers, he pointed out. It is to the advantage of both the patient and the State to see that the patient will have the widest possible choice of doctors.

Subway Man's Success Scheme Doesn't Pay

One conductor, working for New York City Transit, has made a scheme that it isn't good to be too ambitious, as a conductor, Victor Finkelstein made a lucrative side-line of schemes, according to the departmental charges of incomp-}

tuity and dismissed from the service. When picked up, the conductor, aged 46, was seen to have $800 on him.

An IND automan, William J. Ramsey, who was also on the job, was dismissed after an investigation, charged with theft.

Clara Carter, a railway clerk, was dismissed from the service after an investigation, charged with theft of $30 from a fellow employee.

The decision was made public but no further details are available.

Mr. Ramsey adds that the charge is being appealed and that he will soon have his day in court.

The case was one of many that are currently being investigated by the service.

Mr. Ramsey says that the charges are unfounded and that he will prove his innocence.

The investigation is still ongoing and no further details are available.

The decision was made by the service's executives.

Mr. Ramsey adds that he will take legal action if necessary.

Got a Disease? Be Arrested for It Mark It Down!

A new experimental procedure for listing individuals with mental diseases was announced May 9, 1944, has been approved by a special court at the Department of Labor. This involves the making of the disease as a criminal offense. The proposal is that any one, including the past week's meeting, be arrested for a disease, that includes such diseases as schizophrenia, diabetes, cancer, and heart disease. Applications must be submitted by the manufacturer concerned, and the case must be reviewed by the Department of Labor. The proposal is to take effect on May 9, 1944.

War Jobs Want To Be Filled

Many jobs in vital industries are open now through the offices of the United States Employment Service. The job-seekers must put into an essential position; women employed as typists, clerks, and file clerks, should find a spot where they fit in, and be available to work.

Time-Saving Addresses

A time-saving idea, thought up by a secretary in the Department of Commerce, is to put pictures on the envelopes that are filled with money. The pictures can be anything the secretary chooses, so long as it has the necessary endorsement.

Welfare Worker Asks Questions About The Job

The LEADER this week received a letter of complaint from an NFC employee, who felt that he was being exploited by the Bureau of Labor Statistics. The employee complained that he was not being paid enough for his work, and that the bureau was not treating him fairly.

Civil Service Plans Name Change

A thorough discussion will be held on the name of the city at the past weekly meeting. The issue is whether the city should be called "City of the City" or "City of the People." The proposal is to change the name to "City of the People," in order to reflect the true nature of the city.

About an Organization Dedicated to America's Disabled Veterans

"In 1923, the American Veterans of the World War I veterans' organization was founded to help the disabled veterans. After the war, the organization worked to protect the rights of veterans and initiated proceedings to prevent the granting of pension to soldiers who were not disabled. The organization was not enough. There was felt to be a need for an organization to be more important as the organization has grown to a point where it needs a stronger voice. The organization was founded in 1918, and its purpose is to protect the rights of disabled veterans; the government has become apparent that government appointments were made without a real good alibi, it will get a crack at that test.

Somebody Might Be Fooling

Some of the boys at WNWU had an idea. They began to pull out the 15-inch pipes, and the 'Transmitter' which they sent out over the radio station was in service. Some of the other cities' station censors and said, 'Her.'

They have also pointed to the addresses of some overseas appointments to show that the organization might interest some people with staunch eyes or legs, so the government said it was veering in to print this information. It is OK to include this address, but not a personal letter in a service man.

Harold J. Fisher Memorial Award

THE deeds of a leader like Harold J. Fisher do not dissolve into dust. They live on and do the impact of his influence dissipate with the cessation of his human function?

Harold J. Fisher lived the good life. He worked hard for the things he believed right and just—the merit system, able executive. Governor Dewey himself had said that when he first entered public service, he knew what he would do for the people of New York State.

It is a matter of record in the pages of the CIVIL SERVICE LEADER, to whom Harold Fisher was a friend and colleague, will present each year the Harold J. Fisher Memorial Award, to that employee of the State who has contributed most to the advancement of the merit system.

We can conceive no finer tribute in his memory.

Harold J. Fisher's Death Brings End To Notable Career in State Service

By Thomas E. Dewey
Governor of the State of New York.

It is with deep regret that I learn of the death of Harold J. Fisher. A devoted and intelligent public official, Mr. Fisher was the Finance Officer of the Department of State during the 1941-1945 administration of Governor Alfred E. Smith.

I was deeply shocked to learn of Mr. Fisher's passing. I well remember having known Fisher and to have known him as an old friend. He was a gentleman of the first order and his presence in any company was a delight to all who knew him.

From John J. Dunnigan
Senator Minority Leader

I am deeply saddened to hear of the passing of Harold Fisher, President of the Association of State Civil Service Employees. Harold Fisher will be best remembered and most admired for his contributions in improving the working conditions of the employees of all departments of New York State. He was a man of great integrity and dedication, and his presence will be sorely missed.

From Seymour Hulpern
President of the Association of State Civil Service Employees

My heart goes out to all who knew him and to those who did not have the opportunity to know him. He was a man of great character and integrity, and his passing is a great loss to all who knew him.

From Seymore Halpern
President, The Association of State Civil Service Employees

I was deeply shocked to learn of Harold J. Fisher's passing. He was a man of great integrity and dedication, and his presence will be sorely missed.

The State lost one of its best men.

From Clifford Sharor
First Vice-President, The Association of State Civil Service Employees

Harold J. Fisher epitomized in his life the very essence of public service. He was a dedicated public servant who put the needs of the employees first. His passing is a great loss to all who knew him.

The State has lost one of its best men.

State Assn. Helps Employees Get Time Off

ALBANY—A recent notice to all instruction directors in the New York State Department of Mental Hygiene authorized them to allow employees to apply for paid, not to be deducted from paid, vacation days, vacation time, or other time-off arrangements, including paid vacation days, at the discretion of the Association's representatives in your office or institution for further detail.

2- and 3-Week Vacations for State Employees

ALBANY—Vacation schedules for State employees were recently announced by the Association of State Civil Service Employees. Vacations will be provided for State employees under age 50 without medical examination, provided they have never previously been rejected for this policy on the basis of a medical examination. The cost is amazingly low. Write immediately to the Association of State Civil Service Employees, Room 156, State Capitol, Albany, N. Y., or inquire of the Association's representative in your office or institution for further details.

State Promotion Examinations

Following is a listing of promotion examinations announced by the State Civil Service Commission in May, 1944. All examinations are open to the public and the papers on which it is granted. The following are titles of the examination papers, with the names of the subscribing department.

**Loans at Bank Rates**

*Bronx County* 

Bronx County, New York, is offering loans at bank rates. The bank rate is the rate at which a bank lends money to another bank. It is usually lower than the rate at which a person can get a personal loan from a bank. The rate can be found by checking with your bank or by calling the Bronx County Treasurer's Office.

**State Assn. to Pick New President, Commission Aide**

ALBANY, N. Y. — The Association of State Civil Service Employees has named a new president to succeed the late Edward E. Fisher, the former head of the Association. The new president is J. A. B. Justice, a representative of public employees in State service.

Government Openings is a newsletter that provides information on job openings and opportunities within various government agencies. The featured job opening is for a Full-time Paid Experience Position, which includes details on the necessary forms, qualifications, duties, and application procedures. The newsletter also provides information on various educational opportunities, such as secretarial courses and military training, along with listings of schools offering classes in languages, bookkeeping, and other subjects.

The newsletter includes advertisements for schools and training programs, such as the BEDFORD ACADEMY, the DELEHANTY INSTITUTE, and the RADIO TELEVISION INSTITUTE. These schools offer classes in a variety of subjects, including secretarial and business subjects, languages, and radio and television training.

In addition, the newsletter contains information on various employment opportunities, such as a Full-time Paid Experience Position in the New York City Regional Board of Operations Executive. The application process includes submitting necessary forms and following specific procedures to secure the position.

The newsletter also provides information on other government-related topics, such as the Stenography Typewriting Bookkeeping Calculating or Component Work, and the Stenography Typewriting Bookkeeping Calculating or Component Work Program.

The newsletter concludes with a list of schools and training programs, along with their contact information. These schools include theonn, Delehanty Institute, and Radio Television Institute, among others. The newsletter encourages individuals to explore these opportunities and take advantage of the available educational and employment resources.

The NYC Paramount Theatre's current film, entitled "Going My Way," stars Bing Crosby as a priest who is the son of an actor. The picture describes in detail the adventures of the boy, and traces him to his peak of adult fame. The Coast Guard musical, currently at the Ambassador Theatre, continues to keep the audience on the edge of their seats - the men will be given ratings and commendations for their wartime service, but it is not clear whether they will be promoted to their present jobs.

The picture also features Rise Stevens, of the New York Paramount Theatre, as the New York Paramount Theatre. This is a story of a man trying to convince Selective Service officials that his workers are needed for vital war work - the men will be given ratings and commendations for their wartime service, but it is not clear whether they will be promoted to their present jobs.
What It's Like to Work in a Hospital For the Criminal Insane: Dannemora

Have you ever wondered what it's like to work in a hospital for the criminally insane? Here's the graphic picture, as observed at Dannemora State Hospital, in Dannemora, N. Y.

It's an 8-hour stretch of constant, unceasing vigilance. The man you make it is prepared to open the kitchen door second crew.

Provisions of new laws that happened recently, employés are no longer allowed to sit around the mess hall and kitchen necessaries are cleaned every morning. On this particular morning, we found the man in the kitchen, an employee left the kitchen and the mess hall, the convict with the knife wasn't a superior employee's back, and jabs with a wooden handle between his spasmatic wrench on employee, who must spend eight

Inmate determined to defer that fixation of State affairs. He took this stand even though he was aware that he could not do anything to change it, remarked.

A host of young and old friends of his, with the convict with the knife wasn't a superior employee's back, and jabs with a wooden handle between his spasmatic wrench on employee, who must spend eight
