announced the postponement of hearings on his pay raise bill, which was held over by the Senate on Monday. Representative Jack D. Clark, chairman of the House committee to hold hearings on the proposal, was returning from a trip to Europe to discuss the war in the Near East. The house committee has not yet decided when or if hearings will be held. 

No Change Expected
Advisers to President Truman were reported to have decided on a pay raise of $7,000 per year to pay for the new Civil Service personnel. The increase will be $7,000 per year, and will take effect on April 24. 

The government workers pay bill, which is expected to give raises to Federal employees, is not likely to be considered by the House before May 1.

Fifteen per cent pay increase which would boost pay of white-collar Federal workers 15 per cent, and grant true time and a half overtime for extra time worked after 40 hours a week. 

Pays the Federal Workers
Workers in all Federal agencies have been noted to "easy on" and administered to remove any doubts about pay raises, which were approved by the President before the hearings. 

Federal service under Truman is not expected to be radically revised as a result of the report to the policies of his predecessors, although some changes may be made to extend to efforts of Mr. Roosevelt and other Presidents.

While the government's financial strength has been shown, the move to grant raises to Federal workers is expected to have a significant impact, with an estimated increase of $500 million per year on the Federal budget. The raises will be phased in over several months, with the first increase of 15 per cent to be given on April 24.

A word of caution is offered to the public to not expect a sudden increase in Federal pay, as the increases will be phased in over several months. The raises are expected to cost the government $500 million per year, and will be phased in over several months. The first increase of 15 per cent will be given on April 24.

Pay $35 to $40
Pay raises for Federal workers are expected to range from $35 to $40 per month, with the average increase expected to be $35 per month. The raises are expected to cost the government $500 million per year, and will be phased in over several months. The first increase of 15 per cent will be given on April 24.

Five Dept. Welfare Committee Almost Killed as Patrick Walsh Gets Disgusted

NYC's Fire Commissioner Patrick Walsh last week was prepared to discontinue the department's Welfare Committee on grounds that it was a political organization. He has lately had a bitter time with the 23,000 paid civilian employees, or pensioners, who hold the Welfare Fund of the Department and help the firemen in their fight against the destruction of property by fires.

The Uniformed Firemen's Association of the City of New York, and the presidents of the firemen's wives' associations, had actually proposed to discontinue the department's Welfare Committee. The order laid by Walsh to "politically-motivated" minds.

A telegram signed by Vincent Faccin, president of the Uniformed Firemen's Association, was sent to the Welfare Committee, asking that the department's Welfare Committee be continued, lest the present value of the fund be lost.

Here’s How NYC Employee Health Plan Would Work

Just one year ago, on April 30, 1944, Mayor LaGuardia announced the creation of the Health Insur- ance Plan for Employees of the City of New York, which is now known as the New York City Employees Health Insurance Plan. This plan has been designed to provide medical insurance for employees of the City of New York and to assure them access to quality medical care for themselves and their families. The plan is based on the premise that access to quality medical care is a fundamental right of every citizen and that it should be available to everyone, regardless of their ability to pay. The plan operates on a sliding scale, with lower premiums for those with lower incomes and higher premiums for those with higher incomes. The plan also offers a range of coverage options, including basic, intermediate, and comprehensive plans. The plan is administered by the New York City Employees Health Insurance Plan Board, which is made up of representatives from the City Executive, the City Legislature, and the City Labor Organization. The board is responsible for setting premium rates and coverage options, and for ensuring that the plan is financially sound. The plan has been successful in providing affordable health insurance to City employees and their families, and has been widely praised for its innovative approach to health care financing.
NYC Civil Service News Briefs

NYC Firemen lost a round in the Courts last week, when Judge Kenneth O'Brien of the Supreme Court denied the plea of firemen who had been kept over for an additional week, after their seniority from the date when they were notified of their recall. Firemen who appeal to a higher court are expected to start soon after Albin R. Siverson, District Judge of the City for overtime pay on behalf of army servicemen who extended hours without any pay. Firemen Committee Chairman, will present over a petition, hear- ing on the Carroll Bill (to re- peal the Civil Service Law) to Congress, which would lose its membership in the courts. There's a chance for the boys in uniform to speak up.

WILFARE and friends who have been transferred to the Board of Education, cannot accept the transfer, and if they were on any promo- tion list in Wilfage, they'll be put back on the list. They'll be hired as Education eligible residents according to their grades.

66 candidates will vie for spots on the eligible list when Civil Service Commission, to be held the examination on Sunday. Only three candidates have been interviewed in the Nassau fire department for Queens to take the promotion. Two more promotions are expected. Two-flight changes in the broad stairway were made this week. Acting Deputy Chief Frank A. Tierney has been assigned from the division of the chemistry. Acting Deputy Chief Frank A. Tierney was the local school board from the division of Health, who can get training from the State school for Police Training and the school for Fire. The Municipal Civil Service Commission has adopted the motto, "In Unity There Is Strength," is able to re- ceive applications from the Fire Officers Association, which will fill vacancies in the PAL. Saturday, NYC employees come across with their one-dollar voted for its representatives?

THE FIREMEN's Wives As- sociation will hold its joint meeting at the Hotel Pennsylvania, on Thursday, April 24, at 3:30 p.m. A report on the effective presentation made by the dele- gates of the Board of Uniformed Federation's Association of Labor for the city will be presented. "The group's motto, 'Our membership in the PAL,' will be presented.

New Fire Officers Group Reports

Progress on Issues

The newly organized Uniformed Federation of Fire Officers, has adopted the motto, "In Unity There Is Strength." The association has the chance to present itself to the membership. The Association took the stand that it was necessary to get workers in the U.S. Federal Civil Service Commission for the long run. "Our present situation is with the Federal Civil Service Commission," the Association reports. The Association is working for its own interest in the Federal Civil Service Commission. According to State Civil Service Commission, the Association is working on the same list. Also, the Board of Estimate has started a newsletter to be sent to all of the Federation's members. A newsletter, including the whimsical "Go to Health," is scheduled to be sent out. After consideration of many titles for the paper, Including the whimsical "Go to Health," the Association's newsletter was decided upon.

Era of Good Feeling
And Employee Pay

The "era of good feeling" which now pervades the Congress of the United States is a good time to push to fruition two important pieces of employee legislation, both of which have been long pending. The first is the postal pay bill H.R. 2071. The second is the salaried-employee pay raise bill (S. 807), introduced by Senator Downey, providing an over-all raise of two per cent for Federal workers.

At a recent hearing before the House Post Office Committee, no one appeared in opposition to the postal bill. We have heard no arguments against it. The arguments for the bill—including the fact that there has been no basic increase in pay for postal employees in over 20 years—are strong. Yet the news from Washington indicates that the bill is not assured safe for passage. The postal workers need help to push it through.

The Downey pay raise bill covering salaried Federal employees, not only has the support of the employees themselves, but is based on a measure originally written by the United States Civil Service Commission, and introduced as an administration measure. At present, Federal employees (still working under the old time-and-a-half) can operate on a 48-hour work-week, and earn about 21 per cent additional in overtime pay. The Overtime Pay Act expires in September, but is based on a measure written originally by the Commission. The Commission's bill provides for a uniform 30-hour work week and an increase to the regular rate of pay when he works overtime. The bill has gone through the House last year and the resolution then passed extending the present overtime pay provisions.

The Commission would be palpably unfair, and the members of Congress should give careful thought before permitting such an eventuality to happen by default. Present overtime pay arrangements in the private industry, where an employee earns time-and-a-half for extra hours, are no better than the civil-service fixtures, such as the Downey bill provides, is in line with the Little Steel Formula in private industry. Moreover, most Federal employees work in positions where they have to be out of a job tomorrow or the day the war is over, for all they know. And while a Federal job is thus the essence of insubstantiality, the employees at the same time "frozen" in under manpower regulations can't go into private industry where they might earn more.

Quick action is indicated. Congress should brook no delay on the bipartisan. It is heartening to learn that President Truman may use his influence in furtherance of higher pay.

Veterans—No Runaround, Either!

The young sergeant with the tired face who asked me—not a question but a complaint—"Where can I get a ration book?" was surprised when I told him, "That guy sure taxes me." Morris says, "Somehow or other the service is never going to come through and see how smart they were and use the results come around with a chip on their shoulder. There are raring at the chance to oust the programs, for instance, when they're in the clear you flip the pass. The boys line up against Butch, you take the ball, start to the right behind McGoldrick and he trips and Coaches Curran and Crews pick him up and say: "Now you're a good player—this is only practice—they're note—the coaches huddle—they agree it's only practice—i..."

He was still in high school when the war broke out, and he's been interested in making the Civil Service more efficient. He made up his mind to go into civil service back in the States. In fact, he's a veteran of World War I, and he's not the only one. There's an empty political plum in the NYC Department of Civil Service. The mushrooming says, 'That guy sure taxes me.' How many veterans for psychiatric care have to continue making payments out of their retirement allowance to pay the rent? Do veterans pay the municipality more than the City tests as a game. Others just liked to test themselves, but they were interested in taking a job. The State Employee

by CLIFFORD C. SHORE

President, The Association of State Civil Service Employees

In writing "The State Employee" as a regular weekly feature of The CIVIL SERVICE LEADER, the writer is, as an employee of the State of New York, in sympathy with the problems of all employees of the State. He is writing the column with complete and unreserved conviction that the maximum efficiency of the State's public service can only be maintained and improved by the fullest possible cooperation and understanding between the employees and their superiors. He is writing from the standpoint of the employee, with the object of helping his fellow employees to understand their legal rights and duties and their employers to understand their responsibilities.

No More Hopping Around One Job to Another

ALBANY—At a meeting of the Civil Service Commission held April 11, 1946, it was ruled to discontinue the so-called "walking day," a device by which employees could change jobs during their probationary period.

State President of The Association of State Civil Service Employees, Mr. Clifford C. Shore, speaking in favor of the rule, said that the practice of having employees change their jobs during the probationary period was attended with the approval of their appointing officers. The rule is to continue during the probationary period, to have their names restored to the list of employees, and to apply for another job with the approval of their appointing officer. The rule is to continue during the probationary period, to have their names restored to the list of employees, and to apply for another job with the approval of their appointing officer.

Government Openings

This is general information which you should know about United States Government employment: (1) There is no regular admission to the civil service of the United States. Applicants to the government's employment must be citizens. (2) Applicants for employment must be legal residents of the United States. (3) The federal government does not use paper currency or checks.

What You Should Know About Preferred Lists

(Continued from Page 3) relating to layoff and reinstatement of employees. Under Section 23 of the Civil Service Law, a veteran's employment is protected. For example, when an employee is discharged, the employee's seniority status is preserved. Under Section 24, the employee may be reemployed in a similar position.

NYC Commission Begins Work on Promotion Tests

Work on four promotion examinations was started by the Mayor before the Civil Service Commission last week. However, the examinations must be approved by the Budget Bureau before the Commission can accept applications for candidates for the tests.

Three are the future tests: Promotion to Commissioner of Transport; Foreman of Labor, at the Bureau of Water Supply; Gas and Electricity, and Assistant Commissioner of Transportation; and Chemical Inspector, Department of Hospitals.

Medical List OK'd For Use in NYC's Correction Dept.

The NYC Civil Service Commission last week gave approval use of the Medical List for that correction department, making a temporary appointment in the Medical Inspector's Office, under Dr. F. A. S. N. Davis, at the New York Hospital. The lists for City Medical Officer (Fire Department) and Research Officer (Department of Health) were approved last week, with the temporary appointment in the Office of the Commissioner of Public Service to be confirmed in the Department of Labor.

The post pays $3,000 a year.

Exam Ordered to Fill Mulholland's Park Dept. Post

A promotion examination in the NYC Parks Department for the position of Superintendent of Recreation was ordered by the Board of Estimate and Park Commissioners last week. The examination will be given to over 50 a year, according to the Brooklyn Daily Eagle, to fill the assistant superintendent's position, which was noted as a position of the most importance in the Department of Parks. The post pays $5,000 a year.
