NO EDUCATIONAL OR EXPERIENCE REQUIREMENTS

Age Limits Are 21 to 29

The NYC Civil Service Commission has ordered the examination for Firemen (F.D.) to be held, and will begin to issue and receive applications this month.

There was mention at the Commission's offices of the probability of the filing being opened on Thursday, Nov. 15, at 11 a.m., or Monday, Dec. 15 at 4 p.m.

There are no educational or experience requirements for eligibility to the examination. No decision has yet been made on granting extra credits for college training.

It is expected that applications will be accepted in offices in the five boroughs, as was done in other Fireman tests, for the convenience of the very large number of applicants. In the previous examination for Fireman 28,994 applied. That was in 1941.

March Discusses Standards

Harry W. Marsh, President of the Civil Service Commission, said that the Commission will decide on the exact Firemen standards that will be applied and also take action on the examination notice. He added that the new notice will probably be very much shorter than the present one, that certainly there will be no lowering of standards.

The age limits are fixed in the Administrative Code, but there is a bill in the Council to raise the upper limit for veterans to 35 years. Otherwise those who passed their 40th birthday on the date of filing for the exam are barred by age limitation.

A detailed plan is announced by the Commission they will accept and to serve their 6-months probationary period and attain eligible lists are or were in the eligibility list, that the time they spent in the service of their country is to be rated as the substantial part of pay. Also, the terrific increase in pay and accumulated sick leave is to be rated at 2 dollar categories.

It is expected that applications will be made on granting extra credits in the service of their country.

There was mention at the Commission's offices of the probability of the filing being stopped on Thursday, Nov. 15, at 11 a.m., or Monday, Dec. 15 at 4 p.m.

Harrison Upholds Accused Employee

Westmoreland C 390 of the Civil Service Forum has concluded that Edward D. Drapkin, Director of the Division of Social Service, made one error in refusing to fire a former employee, but the Commissioner has issued a statement denying the validity of the charge.

The Commissioner's statement reads: "I am satisfied that the Commissioner has fulfilled all the requirements of the law in handling this matter. The Department has, in my opinion, failed to prove beyond a shadow of a doubt that Miss Drapkin has committed any illegal act.

"Miss Drapkin has been shown to be a faithful, honest, efficient and capable employee of the Department. Her service has been of the utmost importance to the Department."

TREND TOWARD SECURITY IS PLAIN

The trend in the direction of offering security in Federal employ is plain enough. President Truman recently signed an order whereby veterans of the present war or of the last war are being offered to veterans, who don't want them, either, and for which the credits are applied to those more or less disabled, or to those who are disabled by disease and injury. The Federal Government isn't offering enough, despite rapid recruitment. Hence the jobs that the non-disabled didn't want during the war, hence the jobs that the non-disabled and others must be subject to open recruitment without undue delay.

Real benefit is the veteran gets, and well deserves, is the greater confidence in the Federal employment system, more specifically, because he knows that, the probationary period satisfactorily completed, he should have appeared inconsistent with reality.

In the NYC Transit System is much needed. It starts at an hourly rate of 70 cents, with all kinds of job opportunities, offering a steady rate of their former job. The real benefit that the veteran gets, and well deserves, is the greater confidence in the Federal employment system, more specifically, because he knows that, the probationary period satisfactorily completed, he should have appeared inconsistent with reality.

He played hard, but the playing field was well marked. More career opportunities could open up in the NYC Transit System, for veterans, and veterans' spouses, and veterans' widows. In the NYC Transit System is much needed. It starts at an hourly rate of 70 cents, with all kinds of job opportunities, offering a steady rate of their former job. The real benefit that the veteran gets, and well deserves, is the greater confidence in the Federal employment system, more specifically, because he knows that, the probationary period satisfactorily completed, he should have appeared inconsistent with reality.

Mr. Walsh is interested active, and work as urban planning consultant, and he will give his advice that to get ahead in the city's service, or anywhere else, do two things and stick to them for many years: Study hard and play hard.

In the NYC Transit System is much needed. It starts at an hourly rate of 70 cents, with all kinds of job opportunities, offering a steady rate of their former job. No doubt opportunities for veterans to get some in the civic service, and the M.C.S.C. has approved application with the Public Service Commission.
Bill Covering Return Of DPUI To State Aids U.S. Employees

(Continued from Page 1)

bureaus affected, and to some

State employees returning to or entering

State service, there is a certain modifica-

tion of the employment service by the

Federal Government.

Shortly after the employment service

was transferred to the Federal Govern-

ment Service Act of 1946 (p. 2441) was

enacted by the New York State Legisla-

ture, to State and Federal employees working

in New York State. This act, in addition to

providing for the employment service under State

jurisdiction with persons who had been separated from it,

also included provisions for the employment service

under the Federal Government, which has made it pos-

sible for many of such Federal employees who had

been separated from the employment service in the United

States to return to the employment service in the United

States. Before their return by the Federal Govern-

ment, they had temporary appointments. Upon their

return, temporary appointments shall not be granted to

employees mentioned under 1.

4. Provisions are included in the

State law which relate to the

State employees returning to

State service. Under the

provisions of the law, the

State employees will be placed

on preferred employment lists

by the State Civil Service Com-

mission. This provision enti-

tles such State employees to

be placed on State employ-

ment lists, otherwise their

prior service would not entitle

them to their former positions.

The proposed bill envisions con-

trol of continuance of the employ-

ment service under State

jurisdiction for the same per-

sonnel which performed these functions imme-

diately before such event. As

in the case of the Federal

employees, the rights of those

who were indelibly included in

State service are safeguarded.

The bill further safeguarded the rights of

employees who had been

removed from their positions

by the Federal Government

because of the national

emergency, were in Federal

service, but were re-employed in State service

by the State, and those who

were not re-employed by the

State. This bill is proposed to

repair any possible inequities

herein.

How Veterans Should Protect Their Insurance

State employees returning from military duty to active State service may have their Group Life Insurance Policy, covering Group Life Insurance and Hospitalization and Continuation of State Civil Service Employees' Benefits, invalidated when they entered military service if they failed to apply to the State for permission to continue the policy when they entered military service.

State employees whose accidents and sicknesses occurred prior to the time they were employed by the State of New York, or whose illnesses continued after the time they were employed by the State, are eligible for coverage under the group life insurance plan. To be eligible for coverage under the group life insurance plan, the veteran must have applied for the premium reduction within 30 days of the date of his or her discharge from active military service.

The group life insurance plan covers death benefits for the veteran and his or her dependents. The benefits are paid to the veteran's beneficiaries in the event of his or her death. The beneficiaries include a spouse, children, and other dependents.

Middletown Employees Ask Pay for Hazards

Employees of the Admission Service of the Middletown State Hospital have written to Director Thomas E. Buron, asking for 19 percent additional pay on the ground that the work they perform is hazardous. In the letter, they explained: "We feel that our position involves exposure to organic and inorganic substances which are highly toxic in nature. In addition, we are exposed to a number of communicable diseases which are highly contagious. We are constantly exposed to the risk of contracting these diseases from our patients."

The committee also pointed out that the number of admissions has increased significantly due to the COVID-19 pandemic, and the staff is dealing with a higher workload.

State's Ass'n Moves To Aid Armory Employees

Speaking to the ALBANY, Nov. 6—Armory employees will be specifically aided if the Association of State Civil Service Employees can put into practice a plan outlined by its officers. A special meeting held recently was adjourned by a resolution adopted by delegates from all chapters.

"Resolved that the State Association urge upon the Governor and the Legislature immediate attention to wages now paid to State service employees, and that per diem salaries of all State officers below legislative rank be increased at least $1 per day, and that the limitation as to the maximum be removed from the statute."

World War II Group Opposes Amendment

Any statement that the veterans of World War II favor amendment 36 of the Constitution of the State of New York is incorrect. The World War II veterans of the State of New York have never expressed any interest in having a constitutional amendment that would abolish the state legislature. This amendment, if passed, would result in the election of a constitutional convention to write a new state constitution.

The A.V.C. (American Veterans Committee) of the State of New York, which is composed of veterans of World War II, has opposed this amendment. The A.V.C. believes that the current state legislature is capable of writing a new constitution that would be more effective and efficient than a convention.
