ALL THE QUESTIONS, ANSWERS IN LAST NYC FIREMAN TEST

The first newspaper publication of the complete official questions and official key answers in the last NYC examination for Fireman (F.D.) is made today in The LEADER, by permission of the Municipal Civil Service Commission.

The questions and answers are the most important study aid obtainable for the forthcoming Fireman examination. No date for the opening of the period for issue of forms and receipt of applications has been officially announced, but it is expected that the opening won't take place before January.

The complete questions and answers follow:

U.S. PAY BILL VOTE THIS WEEK

WASHINGTON, Nov. 27—The Senate is scheduled to vote this week on the 20 per cent increase for U.S. employees, which has been reported out by the Senate Civil Service Committee.

From all parts of the nation, Federal employees organizations are flocking to Washington with delegations and petitions urging a favorable vote.

A proposed increase in Federal basic pay would bring the raise since the start of the war to 38.9 per cent, and provide approximate balance with the rise in living costs, the United Federal Workers of America (CIO) said today. It reiterated Senate.

Exams to Start in '46 TO FILL 2,000 STATE JOBS

The Uniformed Firemen's Association of the regular unitig, adopted resolutions urging that the Civil Service Department in the State of New York should have a civil service examination for the job. Most of these are veterans of the armed forces who are being discharged daily and would be preserved in rating these claims.

ALBANY, Nov. 27—The State Department of Civil Service has started the wheels moving toward the holding of examinations to fill competitively about 2,000 jobs in which persons who did not pass formal examinations were placed during the war.

This move to replace provisional workers with competitive civil service employees, including the correction of competitive status on those provisional who earn it by formal examination, has been the subject of discussions at meetings of the State Civil Service Commission over which President J. Edward Cuyler presides. No new examination was ordered taken, but the field was thoroughly explored, and

A general policy is in the process of formation.

Campbell Gets Word

There are about 400 titles involved in the 2,000 or more possible vacancies, so that the Commission is faced with a heavy task. Not all the examinations can be ordered at once, but Charles L. Campbell, Administrative Director, has received word to be ready to set the gradual process under way early next year. This is he reported to be more than paid to do, because as Personnel Director he has been greatly interested in having as many employees as possible earn their way into the competitive class.

"The bulk of the men and women are expected to be out of the armed forces by early 1946, and plans will be made accordingly," said Director Campbell. "We can't fill all the resultant vacancies overnight, but we are preparing for a gradual plan of operation. We expect to start some examinations early in 1946 and follow up with others as fast as possible, in a gradual filling-up process."

Hint of Policy

There was no official word on the policy being formulated, but it is expected that it will be based largely on the accomplishment of the examinations to the expected number and quality of candidates. For instance, the examinations (Continued on Page 1)

Postal Workers Renew Drive For Pay Increase

Abe Shapiro is Elected President of Joint Conference

A renewed campaign to gain increased earnings for postal workers, who have suffered a 30 per cent cut because of reduction of the work week to 40 hours and are now earning less than they did last June when Congress granted them an increase, is now in progress.

Abe Shapiro, newly-elected president of the Joint Conference of Postal Employees, representing 74,000 postal workers in the metropolitan area, who are organized in 24 AFL locals, is leading the fight.

Mr. Shapiro, who is secretary of Branch 36, National Association of Letter Carriers, succeeds Everetts G. Gibson, now fifth vice-president of the Council. Mr. Gibson relinquished the Council presidency on his election as national president of the National Federation of P.O. Motor Vehicle Employees. His term was one of the Council from 1941 to 1943 and the Williamsville Station.

Other Officers Elected

Other newly-elected Council officers are: Max Krarreich, presiding; Louis A. Polansky, executive; Mr. Shapiro, president; Louis L. Magid, vice-president; Mrs. Morris, treasurer; and Jerome J. Strambler, secretary.

UFOA ASKS SPEED IN FILLING JOBS

(Carried from Page U)

The Illinois State Police has gone on record as favoring the promotion of provisional police officers to the rank of the City of New York in order to relieve the manpower shortage currently existing.

Whereas: It has been reported that the Illinois State Police is facing a manpower shortage, the Illinois State Police has been asked to take steps to relieve the shortage and to improve the efficiency of the State Police.

Whereas: The Illinois State Police has a shortage of police officers to fill the vacancies created by retirements and resignations.

Whereas: A serious manpower shortage exists in the Fire Department, and there is a growing recognition that the Fire Department is in a critical situation.

Whereas: The Fire Department has a problem of severe shortage of firemen, and the shortage is growing.

Whereas: There is at present a Firemen Eligible List of over 1,000 men; many of whom are disinterested in the position.

Whereas: These veterans are facing a critical situation due to the shortage of firemen.

Whereas: There are at present 9,000 eligible firemen on the Firemen Eligible List because of delays in filling the vacancies.

Whereas: Men on this list in the armed forces are being discharged in rapidly increasing numbers and are deserving of immediate appointment to positions for which they passed civil service reviews.

Whereas: Your recent action in reducing the pay for firemen’s salary of $2,000 for firemen will be distributed for the acceptance of appointments to the Fire Department.

Resolved: That the Firemen Eligible List be made PERMANENT as soon as possible consistent with the cost of living.

Meeting of Eligibles

In a move to help the recruitment drive in the Department, the UFOA plans to call a meeting of all men on the eligible lists for Firemen and Firemen’s eligibility. The UFOA has announced the session, but no date has been set by press time.

Pay Plea Made for Engineers

A plea on behalf of engineering employees who have been penalized because they receive merit increases has been presented to Budget Director Thomas J. Pendergast, president of the Municipal Civil Service Commission, by a group of men available on the Patrolman eligible lists for immediate appointment to the Police Academy.

However, at press time, the problem of adding additional men to the police force was still unsettled. While public statements of Police Commissioner Arthur W. Wallace showed that plans were made for a total of 1,000 new police officers, no applications were being denied either by the Civil Service Commission or the Police Department.

The LEAGUE is keeping watch on the situation and will publish information when applications are issued.

Patrolmen are the latest group of men certified to the Police Department.

OPEN-MARKET POLICE HIRING IS NEEDED TO SAFEGUARD CITY

The need for more Patrolmen, especially to cope with present crime conditions in NYC, is freely admitted. The normal civil service process of recruiting from the eligible list is too slow or the publication of the notice of examination, to the date that the number of eligibles and the number of possible appointees.

from the existing eligible list, but this isn't fruitful either, besides, far too few men able to accept appointment. Military point of view, it's possible to do a splendid similar job in military work.

The city itself could grant them credit for provisional experience, in the coming examination, the date of which is fixed.

Chairman Keogh spoke on the progress of the association. The

The career is a very long one, but the salary.

The next item makes all police appointments from the existing eligible list, but this isn't fruitful either, there are too few names remaining on the list, and besides the few who are accepted for service are not necessarily suitable for police duties. The list is being used as fast as possible, but that isn't nearly fast enough.

A remaining course is to transfer men who were appointed from the Patrolman list, but to jobs other than in the group of subway police, Board of Transportation, now referred to the Chief of the Patrolmen list, but to jobs other than in the group of subway police, Board of Transportation, now referred to the Department to which they originally aspired. The Board of Transportation would have to bear the brunt of any such scheme, but certainly it could not, without assurance of permanent appointment to the entire present police force, at once. Some arrangement for that, however, was a matter of fact.

Provisionals Could Do Fine Job

Employees Win Fight Against Cut in Pensions

ALBANY, Nov. 27—An attempt of the State Civil Service Employees Association to persuade the State Legislature to increase pensions to disabled veterans who are disabled as a result of service in the armed forces was defeated in the State Senate yesterday, and the association decided to appeal the decision to a lower court in Mr. Delaney's favor.

The opinion, written by the Appellate Division, Third Department, upholding the decision that the State want to end the automatic quarterly cost-of-living increase of $5 a month to disabled veterans' pensions, was that the law did not authorize the automatic increase of $5 a month.

The State Legislature, in the various localities, the Extension Service filling these positions were read before the Commission at the Board of Supervisors, and the county Board of Supervisors could appoint and remove such Directors at will. The Directors will be appointed by the State Civil Service Commission.

"Under the provisions of the Civil Service Law, eligibility to any position in the State will be made under the Civil Service Law, and this is in the State creating the agency, which has been in existence for over a year and a half in length. In the conclusion, says the Information Department, the State and the Bureau of Public Information, that the State will get the best type of employees, non-veterans will be able to compete in the examination for instance. The next step is in progress.

Mr. Delaney, who had been in the armed forces for over 30 years, filed his application for retirement to be effective as of November 1, 1944. He had continued to work in the State Hospital Retirement System.

"Under Section 173 of the Mental Hygiene Law (hereafter called the 'Hospital Retirement System')," the opinion continues, "an employee of the New York State Hospital for Mental Hygiene who was hired prior to September 6, 1944, having accumulated a service of 30 years, is entitled to full retirement with pension, provided that the application for retirement is filed with the Director of the State Civil Service Commission in the beginning of his service.

"The legislature in the same section and Section 61 of the Mental Hygiene Law also provides for contributions by the general salary and maintenance and the State's share.

"It seems clear that the entire compensation system for State Hospital Retirement System employees involved was transferred to the State Hospital Retirement System in that the interest retirement of the terms and conditions of employment of the former law are substantially the same as the latter.

"All the Justices concurred.

Eligible Lists

APPOINTING OFFICERS who wish to receive the benefit of the Civil Service Law should make a request for such a list and a request for the benefit of the Civil Service Law should be made within 30 days after notification of the appointment. This opinion conforms to the requirements of the State Personnel Board in accordance with the terms of the law (Chapter 763 of the General Laws 1945.)

While the military law now authorizes the reinstatement of a veteran could demand reinstatement of his job after the date of his discharge, the date of the last day of his service in the armed forces is the date of his discharge, and the date of the reinstatement is the date of the last day of his service in the armed forces.

The commission was continuing its efforts to include officers and non-officers in the State Civil Service Retirement System.

2,000 Jobs To Be Filled By State

The State

Employee

By FRANK L. TOLMAN
President, State Civil Service Employees Association

A Word to the Committee Chairmen and the Members

The Committees of the State Civil Service Employees Association

A large responsibility for the Association program rests on these important committees, who are special committees appointed from time to time to deal with special problems. Each committee has a specific phase of association work.

What can be more important than good legislation required to establish new governmental units, humane personnel administration and equal pay for equal work. What can be more important than cooperation of the State employees and citizens?

The State Personnel Board has considered the desire to work closely with the Education Committee in planning for a permanent in-service training program.

I urge every committee chairman and every committee member to increase their interest in in-service training programs monthly and in addition spend four hours at many special meetings of committees. I urge every committee to consider the welfare and the special problems of the State employees, and the State Civil Service employees.

My personal thanks are due to each committee member and to State Civil Service employees.

I wish you every success and I promise you every cooperation.

RETURN TO SERVICE

There is a familiar stanza that shows the need of active, intelligent and continuous work for the committees to make up for the limitations of your President's term of office as follows:

"Your Preston is an awful man. He does the things you cannot do. He does the things you ought to do. And then they all begin to praise him; Out of the mess which he did brew."

I am sure you now understand why committee work is of the highest importance.

Dr. Connelly Dined On His Retirement

DANNEMORA, Nov. 27.—A testimonial buffet supper in honor of Dr. Charles F. Connelly, Director of the Dannemora State Hospital, was held recently in the main dining room of the institution. The supper was given by the State Hospital Association to Dr. Connelly in appreciation of his years of service as Director and his assistant at various hospitals.

Dr. Connelly was born in Owego, N. Y., in 1877. He received his early education there, and in 1902, he entered the medical school of the University of Ottawa, Ontario, Canada. He was graduated from the Canadian Army Medical Corps in 1914, and was commissioned a captain in the Canadian Medical Service. He served in the Canadian Army Medical Corps in the First World War, and was honorably discharged in July, 1919, in France. He did private practice in Dunkirk, Susquehanna County, and was a member of the association for a period at Owego State Hospital. In 1927, he went to the Dannemora State Hospital as a Medical Intern. After three years, he was appointed Assistant Physician, a position he held for five years. In 1932, he was appointed Assistant Physician, and on March 5, 1937, he was appointed Director, a position he held until his retirement from State service.

Dr. Connelly has a son, Charles, and two daughters, Alden, and Winifred. We wish him and his family many happy years of peace and happiness.

Thomas J. Diamond, Chief Assistant Secretary of State, presided at the testimonial, and Dr. Connelly was welcomed by Dr. Connelly.

The testimonial was a pleasant one. We wish Dr. Connelly much and that we want to wish him and his family a happy life. We will miss him greatly.

Surgery Insurance

Ceases on January 15

During the years, some members of the Association of State Civil Service Employees expressed a desire for some form of Surgical Indemnity Insurance. This form of insurance pays a specified amount for operations only. It does not pay doctor bills, it does not pay hospital bills, it does not pay indemnity for loss of time—it only pays a specified amount for operations.

Ter Bush and Powell, who handle the Group Plan of Accident and Sickness Insurance for the Association, agreed to write such a coverage. They prepared a policy, filed it with the New York State Department of Insurance, prepared circulars, applications, etc., and made a direct mail campaign for this type of insurance in connection with the Group Plan of Accident and Sickness Insurance, and this type of insurance was inaugurated May 1, 1945.

After mailing out about 30,000 circulars, only about 100 Association members carrying the Accident and Sickness Insurance expressed their desire for this form of insurance, as after a period of time, the Agency, Ter Bush and Powell, Incorporated, and the company, the Commercial Casualty Insurance Company, decided that the participation in the Surgical Indemnity Insurance was inadequate.

The Surgical Indemnity policies were written on a cancellable basis and the letter so stated. This does not, in any way, disturb any policy of Accident and Sickness Insurance carried by any State employee or member of the Association under the Group Plan of Accident and Sickness Insurance.

Ends January 15

In view of lack of participation that was shown, the Company believed it best for the Group Plan of Accident and Sickness Insurance as a whole to terminate the Surgical Indemnity Insurance.

The Surgical Indemnity policies were written on a cancellable basis and the letter so stated. This does not, in any way, disturb any policy of Accident and Sickness Insurance carried by any State employee or member of the Association under the Group Plan of Accident and Sickness Insurance. These policies remain in force and are non-cancellable as an individual policy.

Quiz for New Yorkers

How much do you really know about your own city?

New York makes almost everything... will need every skill... will afford every kind of job opportunity. With its rich and varied industry spread among 27,000 plants, a hold in any one line doesn’t send Father Knickerbocker into a tailspin.

Not only do the city’s factories, stores, and services employ nearly twice again as many people as the country’s next largest city; but the very stuff of which future jobs are made exists here in generous quantities now.

For here in the leading industrial city of the land, we have tremendous manufacturing facilities; a pent-up demand for goods; business with ambitious plans for expansion... and—supplied by alert and enterprising management—ample, dependable electric power to carry out those plans.

No wonder they call it “Greater New York”!

The United States Employment Service's Counseling and Placement Office for nurses and persons enrolls in the armed forces, including nurses, and other men and women returning to civilian life from the medical branches of the armed services. The objective is to facilitate the smooth transition to a new and productive role in society.

Hospitals, physicians, laborato ries, and other health service agencies can be assisted in meeting the need for trained personnel by the placement service in this field to be established at the new office. The United States Employment Service committees are prominent phys icians, executives of nurses' associa tions and hospitals, and social workers. These leaders in the medical and nursing field are especially concerned over the present shortage of nurses. At least 5,000 nurses are needed each month in New York State.

And the shortage is even greater in the armed forces of the United States. On time that they be given the preference service as they return.

The personnel of the new Counseling and Placement Office is 118. Among them are 44 men, 31 women, and 43 men and women, looking for employment in the nursing and related fields, are invited to register there. An attractive recruitment lecture is a feature of the office. Employers should call Circle 4-5244.
