Plan for Wider Membership Up for Vote by State Assn.

ALBANY, June 25—A special meeting of Chapter delegates, Executive Committee members and Special Representatives of the Association of State Civil Service Employees, of the State of New York, Inc., convened at the De Witt Clinton Hotel to consider the all-important question of extending membership eligibility in the Association to all State civil service employees. The potential membership available if the extension is adopted would total some 350,000.

The special meeting of the Association's Executive Board was held in the Council Chamber in City Hall. Representatives of the city, towns, villages and village districts of the State and employees of the Federal civil service, with a year or more of tenure, to be paid full annuities. Only one amendment was added to the bill. It allowed no employee who had voluntarily separated from service to receive the annuity.

Further support for the DPalco pension bill was given by a vote of 15 to 1, the UWFA favorably reported the Postal retirement bill to permit retired employees of the Federal civil service, with a year or more of tenure, to be paid full annuities.

WASHINGTON, June 25—To an exclusive interview with The Leader, Jesse M. Donaldson, First Assistant Postmaster General, said that now that the Substitute Postal-Clerk Carrier exams have been opened it would be necessary to establish a register for Railway Mail Clerk before long, and possibly later, for other Postal positions.

A Civil Service Commission spokesman estimated that the Railway Mail Clerk examination, another of the popular Federal tests, would be opened in about two months.

Mr. Donaldson said that he expected plenty of jobs to be filled from the current Substitute Clerk-Carrier test in the NYC area, with a minimum of 8,000. He added that the present number of war-service appointees in the city could not be used as a basis because the drop of overseas mail might reduce the volume of work in NYC.

In other parts of the country than NYC, filing has been reported low and additional time was allowed for filing in several regions.

The secret mail ballot, which had been ordered by a special meeting of the Firemen on May 11, had been reversed in favor of better State service conditions. Employees' hopes of more pay were stimulated by his observation of understaffing, because of recruitment difficulty.

The Governor indicated that the new centralized program of food handling and management would include "education and training of personnel to develop skilled dietitians and cooks."

Dr. Frederick MacCurdy, Commissioner of Mental Hygiene, told the Governor that a training program for skilled dietitians and cooks was needed, and that the Governor that a training course would start soon.

The Congressman said that veteran preference was being made into farce by this action.

WASHINGTON, June 25—Representative Rees (R., Kan.) charged in the House that the Civil Service Commission's Circular 549, Sec. 11-9, provides that a person still in the armed forces may file for any examination for probational appointment which closed while he was in the military service.

In an apparent move to force the U.S. Civil Service Commission to reverse its stand, he demanded that examinations for the various grades be separate.

Examinations for CAP-2 and CAP-3 examinations are now given together. He said: "It is apparent that there is a wide discrepancy between them."

The Congressman said that veteran preference was being made into farce by this action.

The closing date is Wednesday, June 19, veterans may still apply. They have until 120 days after their discharge to do so.

New School to Blaze Trail In Training Delinquent Boys

ALBANY, June 25.—Pointing out that the nation's training-school superintendents and other authorities agree that a small percentage of court-committed children do not profit from the programs of even the best types of institutions, State Welfare Commissioner Robert T. Hamlett said today: "New York State is about to experiment in this difficult field, and hopes to find a practical solution for this nation-wide problem.

The new unit will train boys who have serious personality problems, grave emotional disturbances, and backgrounds of character-distorting experiences not usually found in persons of their chronological age.

Big, New Project

The State is setting up a new public institution, a specialized training unit for delinquent boys who do not benefit from the treatment given in the State's present two training schools for boys. The new unit, the first of its kind in the nation, will operate directly to the new unit by the New York State Reformatory, also located at New Hampton. Only boys will be admitted.

Boys will be transferred to the security unit of New Hampton from the New York State Training School for Boys at Warwick, and the State Artistic and Training School for Boys at Industry, Monroe County. The New York State Commissioner of Institutions will conduct a careful study and report by the Psychologists of the New Hampton school, recommendation by the case committee of the school, and approval by the Department. Commissioner Hamlett explained that boys will not be committed directly to the new unit by local authorities.

The new unit will train boys who have serious personality problems, grave emotional disturbances, and backgrounds of character-distorting experiences not usually found in persons of their chronological age.

The public training school must accept and deal with the minority problem as best it can," said Mr. Hamlett. "Only a small number of boys of this description have been known to the State of New York, and State Welfare Commissioner Robert T. Hamlett has been unprepared to make even a substantial attempt.

In the new unit, boys who have already received every attention and service known to modern delinquency treatment and who are to be redirected along normal paths of life. At New Hampton, they will receive, as usual, social, medical and educational aid of the kind they have received in the education and vocational training in the classroom, indoor and outdoor recreation, and, of course, spiritual guidance as well."

Work and Industry

At present there are 1,219 boys under the care of the training school at Industry, 831 of whom are under 16 years of age. Only those boys are under supervision, with 187 boys on parole, Industry receives boys under 18 from all sections of the State outside of the NYC Reformatories, also located at New Hampton. Only boys will be admitted.

Musician Finds Exams That Test Wrong Factors

HARTFORD, Conn.—June 25—Auditioning for State Civil Service Employees, at the State Board of Civil Service Examination, gave a talk on the rear

parade, and other tests. For example, examinations for Typists should consist of a written test, a performance test in typing, and an evaluation of training and experience. In an examination for Patrolman and Fireman, there should be a test for physical agility.

Poor Choice Tests

"As a result of the wrong choice of tests, may I call a recent examination for Sanitation Men, given by one of the cities of N.Y., the most

flelled," he said. "It may consist of the duties of the position to be filled, and the ability to answer the questions of a written test, oral test, a test of physical agility, or performance, and other tests. For example, examination for Typists should consist of a written test, a performance test in typing, and an evaluation of training and experience. In an examination for Patrolman and Fireman, there should be a test for physical agility.

"How often are payroll checks made?"

Obviously, questions such as these can be answered by persons who have previously worked in the Water Department. "No matter how good the examination, in the real test, it is the performance of the employee on the job that is the true test. An examination must enable us to observe the employee under actual working conditions and weed out those which fail to perform the duties. The preliminary portion of the examination should be considered a part of the real test, and not just the preliminary to the real test."

Vote on Greater Assn. Decides a Vital Issue

The principal argument in favor of broadening the base of membership in the Association of State Civil Service Employees is that the combined strength would open possibilities. The Association has agreed to achieve benefits for its members and other employees covered by the State Civil Service Law. Under the canopy of that law are town, county and other employees, just as they are state employees. The argument is that those in a common fold should present a united front.

While there may be points where the various groups to be included may diverge, those are considered to be matters of detail that will come up as these lines are being written, recognizing the potency of the delegates of the Association voting as they may obtain payment of the additional

GRADUATE NURSES RECLASSIFIED TO FULL PROFESSIONAL LEVEL

WASHINGTON, June 25—Reclassification of Graduate Nurse positions in Federal agencies from the subprofessional to the professional service marks first step toward upgrading nurses' status under a new Federal Personnel Act, according to a statement from the U. S. Civil Service Commission. These positions are currently filled by paid hospital staff nurses.

Under the new order, the subprofessional service and the professional service are two separate groups of the Federal service, each consisting of the various grades which are subject to the classification described in the Act.

As a result of the reclassification, Graduate Nurses entering the Federal service will be assigned to the lowest professional service grade at a salary of $8,000 a year, whereas they have previously entered the service at Grade 5 of the subprofessional service, salary $2,100.

Questions and Answers on the New Order

I DON'T INTEND to go back to the hospital after this. I'm going to go back to college, I plan to go back to school. Why haven't I been allowed to go back to school? Not that the work was so interesting but I was interested in making money and I enjoyed the freedom of not being there. We were having a good time. The boys coming back do you think they will have the same kind of freedom that we have? No. The boys coming back do think they will have the same kind of freedom that we had? No. The boys coming back will have more freedom than we did.

No official word concerning the decision by the Court of Appeals has been released by Police Commissioner Frank J. Quayle up to now. He did, however, intimate the question to Corporation Counsel John F. Quinlan a few hours after reading the decision. "I can wait to get an expression of opinion from the Corporation Counsel," said Commissioner Quayle. "I spoke to him about it. He is an objective person and I expect the opinion of the counsel." The question is one for the Corporation Counsel and the Police Commission," said Commissioner Quinlan. The differences unappealed under the method now invalidated can be continued, for present and future use, in an eligibility list and at their present pay as members of the organization committee.

The court's decision will require changes in the civil service, and will probably improperly promoted, "other civil service employees similarly improperly promoted, Fire Captains," said H. Eliot Kap- lan. He is counsel to the Civil Service Reform Association, which brought the test case that resulted in the court decision.

The decision, brought in the name of Richard Welling, President of the Association, was argued twice before the court. The decision, said Mr. Kap- lan, "will prevent manipulation of budgetary positions in attempting to make eleven-hour promotions of favored employees to the exclu- sion of others entitled to oppor- tunities for competing in pro- motion examinations."

The court's decision will require that any changes in budgetary positions hereafter will be made with the approval of the Board of Examiners, the Budget Director or at the instance of a member who takes upon himself to make important changes in the budget voted by the Charter in the Board of Esti- mate and the City Council.

"The decision will serve to in- terdiplomat the provisions of the court's decision which are similar to that of the Court of Appeals on its appeal from the decision of the Civil Service Reform Association of the NYC Department of Welfare, and will be held tomorrow in the Irving Plaza Hall, 13 Irving Plaza, New York, to hear the final arguments of the organization committee."

With "The Youngling" completed and ready for release, Gregory Peck will leave Hollywood for the first time in July for New England where he will appear in a series of summer plays with Cape Cod stock companies.

On Wednesday, Andy Russell will return to the stage of his successful debut two years ago. Russell will defend his new "in-person" show at the Paramount Theatre, assisted by the well-known comedian Alan Carter, that immediately followed the very able Pid Pipers and Raymond Scott. Russell has already had some interesting work with his exciting new 1946 band. The Mike Eight at "Where Blows the Wind." This show is just purchased by Paramount and has expressed the hope that Clark Gable will stand the leading role in an excellent choice.

M-G-M is planning another musical extravaganza. This time it's Eugene O'Neill's "Ah, Wilderness!" set to tap, re-titled "Hunter's Holiday" and supplied with a star load including Mickey Rooney (in his first post-war film), Walter Huston, Gloria DeHaven, Marilyn Maxwell, and thatquip impresario "Bunch" Jenkins.

**NEWS**

The Theatre Guild's "Curious" winner of this season's New York Drama Critics Award, announced its first seasonal at the Majestic Theatre on Friday. **ANOTHER GREAT PARAMOUNT FOR 2 SHOWN**

HAL WAILLS

The producer of "CABARETTA," "DOVE ISLE." PERRY MASON, was present at the Paramount Theatre, assisted by the well-known comedian Alan Carter, that immediately followed the very able Pid Pipers and Raymond Scott. Russell has already had some interesting work with his exciting new 1946 band. The Mike Eight at "Where Blows the Wind." This show is just purchased by Paramount and has expressed the hope that Clark Gable will stand the leading role in an excellent choice.

M-G-M is planning another musical extravaganza. This time it's Eugene O'Neill's "Ah, Wilderness!" set to tap, re-titled "Hunter's Holiday" and supplied with a star load including Mickey Rooney (in his first post-war film), Walter Huston, Gloria DeHaven, Marilyn Maxwell, and thatquip impresario "Bunch" Jenkins.

Finance Officers Back Tax-Free Pensions

The resolution follows: "WHEREAS, the Congress and Treasury of the United States continues to tax at full rates the pensions paid to so many of the six million employees of the Government of the United States and of our States, Counties, Municipalities, Districts and Courts as survive to receive pensions, and WHEREAS, such inconsistent taxation constitutes a gross, unwarranted and unjustifiable discrimination against the public service and its six million employees, and WHEREAS, exemption from taxation of pensions of Governmental employees was not included in the General Tax Bills enacted by Congress during the past two years, and WHEREAS, pensions generally are frozen while wages increase, the pensioners suffer through decreased purchasing power, and the Federal income tax cuts partially, if at all, non-included, reduced, defected, unpredictable and fixed income of such pensioners, pensions in most cases are their sole means of support; therefore, by virtue of the above facts, and of the General Authority and powers established and created by law, the Committee on Public Employee Retirement Administration of the Municipal Finance Officers Association of the United States and Canada, and the Association, in regard to the annual conference now being held in Richmond, Virginia, this 13th day of June, 1946, respectfully petition the Congress of the United States to amend the Federal Income Tax law so that it will provide that there shall be excluded from gross income, for the purpose of income tax computation, all annuity, pension or retirement income up to $1,440 in any year, in excess of regularly provided exemptions, which any participant or beneficiary, or dependent shall receive through a legally created and established retirement pension or annuity system, or fund, or by any combination thereof, and "BE IT FURTHER RESOLVED, that the Executive Director of this Association be and he hereby is requested to forward a copy of said resolution to the Chairman and each member of the Committee on Finance of the United States Senate, and to the Chairman and each member of the Committee on Human Relations and Means of the House of Representatives of the United States, to the end that they may initiate or support proper legislation to carry into effect the purpose and intent of this resolution."

N. Y. Notables Present

Among the New York notables present were State Comptroller Edwin B. Kenngott, NYC Police Commissioner William J. Powell, Assistant Commissioner William J. Geoghan, former District Attorney George B. Buck, Actuary of that system. The Board adopted a resolution recommending the raising of the present level of the pay equal for service. The Board was also impressed by the number of persons, many applied to all the civil service. The Board was interested in the specific recognition and standardization as a major objective of the Commission.
