Administration Pay Raise Proposal Delayed...talks Slated to Start This Week

BY MAXWELL LEHMAN

ALBANY, Jan. 29—The state salary picture as it looks now:

1. The budget message delivered last week to the Legislature will not contain any recommendation for an increase. The Governor states that the current pay structure, designed to prevent a repetition of the 1949-50 battle, is still in effect.

2. The salary study prepared by the Civil Service Commission, on whose recommendation the Governor’s direction has been based, contained the same word that it is not yet in force because the action of the legislature is a simple, clear basis for new salary stabilization.

Negotiations This Week

3. Negotiations between the administration and the Civil Service Employees Association, which began last month and were several times continued, are expected to get under way by the middle of this week. The action of the legislature makes it likely that any such negotiation would be the recommendation of new salary stabilization.

4. The Democrats have been advised by the Governor in a statement issued by Senator Quinn and Assemblyman Aschkenas last week.

Two Measures

5. Two major measures for the state pay raise bills have been introduced in Congress this week: the Smith amendment, introduced the first $4,000 of salary; from this resolution as a minimum acceptable consideration.

Salary Statement Issued

by Minority Legislative
Leaders Quinn, Steingut

ALBANY, Jan. 29—Passage of legislation to provide a cost-of-living increase in salaries paid to State employees who were called to duty by Senate Democrats, Senator Elmer F. Quinn and Assemblyman Irwin Steingut, to bring the pay of those who served in the Civil Service last week. The State Senate has scheduled a vote on a $2,000 increase across-the-board pay increase, and a second vote will be taken on an increase of $5 across-the-board pay increase. The first resolution provides: 15 percent increase on the first $4,000 of salary; from this resolution as a minimum acceptable consideration.

Accumulated Leave Extension Adopted

ALBANY, Jan. 29 — The State Civil Service Commission adopted a resolution, and sent it to Governor Dewey, extending the time limit for accumulation of annual leave from March 31 to September 30, 1951. The extension was granted because of the backlog of work in State departments and agencies. On signature by the Governor the extension becomes effective.

Want to Understand Opposite Sex Better?

ALBANY, Jan. 30—Civil service employees in Albany are invited to attend a "down-to-earth course for your own personal adjustments whether you are engaged or recently married or whether you simply want to have a better understanding of the opposite sex." The course will be given at the Training School for Marriage License Clerks of the Albany YMCA and YWCA. The lectures will be given on Wednesdays beginning at 7:15 p.m., from Feb. 15 through March 15, at 423 State Street. Each session will consist of discussion followed by questions. The whole course costs $5 for non-members of the Y.S $1 for members.

Subjects to be discussed: "How to Have Happiness," "How to Budget the Family Income," "The Guys and Girls of Marriage," "Where Does Religion Come In?," "The Family, Money and Sex." Lecturers are a group of distinguished psychologists, psychiatrists, and marriage advisers.

Additional information may be obtained from Miss Sally Cheney, Education Dept., State Museum, Albany, or James Hole, YMCA, 423 State Street.

County Division Raises Next Big Goal of Assn.

ALBANY, Jan. 30—As soon as the state salary situation is cleared up the Civil Service Employees Association will concentrate on salary to obtain raises for county and other local employees. Henry T. Vandeveer, president of the association, and already has assembled some data to support pay drives in the County Division of the association, he informed the association's executive committee, which consists of representatives of both State and County division chapters.

The County Division representatives at their meeting held a general discussion of the activities of county chapters with reference to obtaining approval by appropriate agencies of the various counties, cities, and villages Board of employee requests for salary adjustments. It was pointed out that the present inflationary period constitutes the most serious situation faced in recent years. The association's salary book is scheduled for the Association's settling forth in detail and complete changes with reference to the appeal of the State employees could be used to good effect in presenting a new appeal. The need for a complete picture of the salary changes in the national and county chapters was recognized.

Each County representative was asked to receive a report from which to note the salary changes since 1940.

State Steno Acclaimed as Fine Artist

Mrs. Esther Shomitz, senior biographer for the State Division of Housing, who has been a member of the association 26 years in civil service, has held an exhibition of 25 of her paintings at the home of Mr. and Mrs. Samuel Feldman, 304 Riverside Drive, Manhattan. The exhibit is under the auspices of the New York Housing Club, of which she is a long-time member.

Mrs. Shomitz is an amateur with less than five years experience as a painter, whose work has been called "primitive." Her work, however, has been more than occasional lessons at the Brooklyn Museum and other art schools.

She paints for her own enjoyment, mostly in oils, and has given away many of her paintings, most of them now hanging in the offices of the State Housing Commissioners. Among her students are the judges of the New York Housing Commission.

Mrs. Shomitz has been offered money for her canvases but refuses to sell.

Office Workers in Industry
Get 20% Wage Increase—Far Ahead of State Clerks

BY SAMUEL CHAIT
Member of Salary Committee
Civil Service Employees Association

WIDESPREAD publicity is usually given to wage increases granted factory workers, particularly in the past year, because of the large number of employees involved and the greater public interest in unionization. It is of extreme interest, therefore, to note that office workers in manufacturing in New York State, have fared even better than their factory co-workers according to a special survey conducted by the Bureau of Research and Statistics of DVFU.

Using average weekly earnings during October 1947 as a base, the Index for October of each of the three succeeding years, shows the following:

<table>
<thead>
<tr>
<th>Month</th>
<th>October 1947</th>
<th>October 1948</th>
<th>October 1949</th>
</tr>
</thead>
<tbody>
<tr>
<td>Supervisors</td>
<td>166.1</td>
<td>205.2</td>
<td>210.3</td>
</tr>
<tr>
<td>Non-Supervisors</td>
<td>100.0</td>
<td>132.3</td>
<td>137.1</td>
</tr>
</tbody>
</table>

Both supervisory and non-supervisory workers have received salary increases approaching 20 per cent, as against the 13 per cent granted factory workers. It is significant, moreover, that the percent has been greater for office workers in supervisory capacities. Furthermore, in each instance the increase has been over the three-year interval for each type of work engaged in during the past year.

State workers, therefore, who take pride in their employment in public service, April 1948, can look to their office counterparts in the industry for substantiation of their request for an increase in their compensation. An additional cost-of-living adjustment. This is all the more true because of the increases known to have occurred since October 1948 and not represented, of course, in the figures cited above.

February 15 Deadline for Assn. Dinner Tickets

ALBANY, Jan. 29 — Expecting a huge turnout for the 41st annual dinner of the Civil Service Employees Association, members requested, Thursday, March 1, President Methe stated the need for early reservations. He pointed out that the Crystal Ballroom of the DeWitt Clinton Hotel is reserved by the Conference resolution committee which will present skits and entertainment.

Mr. McFarland said that reservations are expected to be as follows:

- 20 tickets for department heads
- 40 tickets for department heads who include department heads
- 20 tickets for all other members

The problem of lack of accommodations, Mr. McFarland said, "is a matter of simple but sad arithmetic. We have six chapters, one chapter takes two tickets, the other four, and we have only 88. The remaining 90 tickets will be filled as we do this early in the spring.

The Dead Sea King

YU may have heard of the Dead Sea Kings. These ancient rulers were known for their power and influence over the region. The Jordan River flows through the Dead Sea basin, providing important resources for agriculture and hydroelectric power. The sea itself is a unique ecosystem with unique characteristics.

The Statehood of the Dead Sea

The Dead Sea is a significant body of water located between Israel and Jordan. It is the lowest point on Earth, which makes it an interesting area for study. The sea is fed by the Jordan River, which carries water from the mountains of Lebanon, Syria, and Turkey. The water then flows into the Dead Sea, where it evaporates, leaving behind minerals and salts that make the sea a unique environment.

The Dead Sea is important because it is the source of many minerals, including potassium and magnesium. These minerals are used in various industries, such as agriculture and medicine. The Dead Sea is also important for its role in the development of new technologies, such as the use of the sea's salt to produce solar panels.

The Dead Sea is a popular tourist destination, with many visitors coming to enjoy its beaches and natural beauty. The sea also plays a role in the region's economy, with many businesses and industries relying on the sea's resources.

The Dead Sea is a fascinating and unique body of water, and its importance cannot be overstated. It is a place of great beauty and a source of many resources, and its future is a topic of much discussion and concern.

To THEONOE BECKER

If you have been given notice of leave with pay, can you be required to submit a medical certificate upon request? If so, in order to obtain reinstatement? What should you do if you have been ordered to take a medical examination? Can you, in the absence of your own consent, be coerced into taking a medical leave of absence without pay? If so, can your leave of absence be continued without your consent?

These questions were raised recently in a court case involving a state employee who was ordered to take a medical examination before her return to work. The question before the court was whether the employee was entitled to a hearing before the director of the department.

NEWS OF PUBLIC EXAMS
Exceptional opportunity for qualified girls

TO GET THE FINEST
PROFESSIONAL EDUCATION
IN THE WORLD!

Do you want a career
in your own town—or anywhere you
would like to go—that offers prestige,
opportunity for advancement, financial
security, personal satisfaction? Nursing
offers all these things—plus a splendid
professional education, a chance to meet
and work with some of the finest people
you'll ever know. This year a selected
group of young women will begin their
education for this proud profession. You
can be one of them—if you act now!

If you are a normal, healthy girl, a
high school graduate and over 18, you
can probably meet the entrance require-
ments for your local School of Nursing.
You will receive an education that will be
useful all your life.

NURSING—
A CAREER WITH A FUTURE FOR YOU!

As a graduate nurse, you will have your
choice of many different fields—hospital
service, doctors' offices, public health,
airlines, industry, foreign service, the
Federal services. And when you marry
and have a family, you will use your
knowledge of child care, nutrition and
psychology every day. Nursing is a pro-
fession which you can follow profitably
all your life or to which you can always
return. Your education will help you no
matter where you go or what you do.

Nursing is not for every girl. A nurse
must be loyal, faithful, sympathetic and
intelligent. She must be quick with her
hands, and gentle. She must love people
and want to understand and help them.
Nursing is a proud profession.

IF YOU ENROLL NOW—before classes are filled—you may enter
the school of your choice. Go to your local hospital and talk to the Director of Nurses.
She will be glad to answer your questions about nursing and tell you where to apply.

Like other American business firms, we believe that business
has a responsibility to contribute to the public welfare.

Florida Homes Offered At New Savings

Florida Homestees, Inc., developer of a 600-acre tract in Port Pierce, Florida, has opened a new home construction department that "will save its clients hundreds of dollars in building costs," according to Joseph Davis, president of the organization.

The foundation of the new department, which will be under the direct supervision of Charles L. Fisher, vice-president, was prompted by the continuing demand for small homes and subdivisions in the developers' Paradise Park, Tropical Acres and Harmony Heights sub-divisions, where over 1,000 plots ranging in size from 1/4 acre and in price from $500, have already been taken.

The new service, says Mr. Davis, will enable the elimination of middlemen. An example of the savings cited is the new ranch bungalow which the operator just opened in Harmony Heights. A fully tax-free unit, with four rooms and a bath, is being offered for $3,295.

GRAND OPENING

Blood Bank at VA

Employees of the Brooklyn Regional Office of the Veterans Administration crowded the Red Cross Blood Donor Center to give blood for wounded GI's in Korea. More than 150 turned out for the mass donation. Many of them, in the last World War, were blood donor recipients themselves. Ampules were among the blood donors.

More than a hundred employees of the Veterans Administration's Brooklyn Regional Office crowded the Red Cross Blood Donor Center at 97 Willowbys Street, Brooklyn, to give blood for wounded fighting men in Korea.

First two donors were Elizabeth E. Hiltner, a psychiatric nurse, who as an Army nurse during World War II, assisted in the administration of blood and plasma transfusions, and Seymour Gitlan, who lost his left leg after being wounded while private emergency aid to another GI during the battle for St. Lo. He received blood and plasma transfusions then.

Army doctors fought to save his life.

Another amputee was Jack Miller, who fought in the Vosges mountains in France and received Red Cross blood and plasma after he was wounded.

Management was represented among the donors by Charles W. MacElluen, manager of the Brooklyn Regional Office. Major Emile Fontey, chief of the training section, and father of a boy who recently died of leukemia after being born alive for many months by Red Cross blood donations, made by VA employees, organized the mass donation.

STENOGRAPHER-BOOKKEEPER
Firemen’s Association, is prepared to wage a formidable battle to the treasurers of the Uniformed Fire Service. The first charge is based on the allegations of the UFA on Thursday.

Meanwhile, Hogan’s office was processing orders and the purveyors were prepared to serve Purcell’s indictment. The state-sponsored witness, Alfred Scotti, prosecutor in charge of the investigation, said flatly that proof of the allegations is insufficient.

The UFA feels such evidence is insufficient. The case had turned over to the court. It is apparent there is no record in the office of the Clerk of the Supreme Court of the State of New York for the County of Bronx, of any judgment or decree of a like nature.

Real Candidates Sent Impersonators to 14 Tests

The inquiry by Investigation Commissioner James H. Shells into the New York Civil Service Commission has resulted in the uncov- ing of 14 impersonation cases, and has led to a wide-scope study of the workings of the Commission. The inquiry was set up in about two weeks. Commissioner Shells said he had personally participated in the hearing of 14 cases, all of which were handled as one group, according to the specific description of the charges.

The working platoon and the members of the "On coming platoon" in column 14 have been placed in column 14. The group should be regarded as a test case, where the results would be a test of the efficiency and effectiveness of the Commission's plan.

On receipt of the release signal: 4.6-6, members shall return to their respective groups in the Two Platoon 22 Group System.
