CIVIL SERVICE BEAUTIES No. 4. This is Miss Lehteen, who works for the State Department of Agriculture in Albany (19th floor, State Office Building, men), and lives in Troy. "Miss Lehteen," says a letter nominating her as a civil-service beauty, "has a pleasing personality and is a very popular girl." We're glad to add Miss Lehteen to our collection of fine-looking government girls. Further proof that when it comes to good looks, you'll find 'em in abundance among civil-service employees. We're collecting other examples, and the Editor will be glad (definitely!) to receive photos proving our point that government girls are a lovely lot. Address THE LEADER, 77 Duane Street, N. Y. C. 7

NEW WAY OF PICKING GOVERNMENT APPOINTEES

SOMETHING NEW in hiring government appointees is in a bill before Congress. Congressman Tom Murray proposes doing away with numerical grade/score higher-than other applicants. Instead, under a plan which was first enunciated by the House Commission, applicants would be grouped in one of three categories: outstanding, qualified, or not qualified. Appointment officers would then be allowed to hire any one they wanted from the "outstanding" group. After the "outstanding" names had been exhausted, the appointment officers would go to the "qualified" names. In other words, top-bracket job applicants would have a choice of one-out-of-five names from the eligible list. Now it's one out of three.

Production: Late of opposition.

The Federal Government without pay. This was an increase of 7,248 from the year before.

The new agencies created since January 1950 have added 43,551 new positions with less than 11 years of service. Of these, 23,350 workers are in civil service, where 28,000 persons are in current service, the beginning of the year. Many of the eligibles include the current 12,000 veterans who assist the homeless veterans.

The Selective Service System will be put into force on January 1, an increase of 11, over last year.

The combined increase for these two agencies was 7,416 during the six-month period.

BACK PAY FOR SUSPENDED UNEMPLOYED FEDERAL EMPLOYEES.

The non-veteran employees suspended on January 1, 1951, are those who, while on the payroll of the Federal government, were laid off or who have lost their jobs through no fault of their own. A letter from the Civil Service Commission, addressed to all eligible employees, was mailed to the veterans who are not employed and to the veterans who are employed at less than their full compensation.

The letter expresses appreciation for the employee's service until the time of suspension and offers it, in good faith, to re-enter the service, the employees are eligible to re-enter the service. The system will be put under a letter from the Civil Service Commission.

The Civil Service was established in 1870 to provide a system of employment that is fair, efficient, and economical. It has been the backbone of the government ever since.

Court Decision Awaited
On Industry’s Pay Rates
For Graded Employees

The Appellate Division, First Department, reserved decision after hearing argument in proceedings brought by Board of Transportation on behalf of the New York City Transit Authority to determine the rates of wages prevailing for the grades of employees, with the case consolidated on the appeal. The case will determine whether the complaint in this action, and to serve the co-plaintiff in this action, and to serve the complaint in the office of the Chief Medical Examiner. Appliance of the statute contained in the complaint, whether or not the defendant is entitled to the benefit, because their endowment or extra services are palliatives on their relative decedents. Candidates will be required to pass a qualifying medical test. As soon as enough applications are received a test will be held, and when a sufficient number is obtained another test will be given. Separate lists will be established as the result of each test and an earlier list will be canvassed before the next test is used. The application fee is $2.

Comptroller had no right to determine that the complaints were void, but that the Comptroller was not entitled to make more than six months after the filling of the complaints; that the grading was a substitute to avoid the payment of prevailing rates, and that the men were entitled to prevailing rates under the State Constitution. A decision is expected in a month. The case will determine whether graded employees in general are entitled to prevailing rates.

Jim McGrath argued that graded employees are not entitled to the benefits of the Labor Law, since the comparative salary was not made, and that the grading was not made, that the grading was a substitute to avoid the payment of prevailing rates, and that the men were entitled to prevailing rates under the State Constitution. A decision is expected in a month.

The contestations of the petitioners’ attorneys are that the Comptroller had no right to determine that the complaints were void, but that the Comptroller was not entitled to make more than six months after the filling of the complaints; that the grading was a substitute to avoid the payment of prevailing rates, and that the men were entitled to prevailing rates under the State Constitution. A decision is expected in a month.

The Finance Committee, which reviewed the bill, thought that the original suspension was based on a different, and possibly a different, reason.

It is expected that a similar bill will be introduced in the next session of the legislature.
