83 Exhibits Chosen for Association Art Show

ALBANY, Sept. 10 — An overall trend toward the modern techniques in painting marked the first Art Show sponsored by the Civil Service Employees Association, featuring the work of public ser-

vants. "Although these were examples of many individual styles, in my opinion the modern trend is defini-
tive," said one artist who saw the exhibit which had been sel-

lected by the judges. The exhibit represents a good cross-section of art work, show-

ing both conservatism and con-
temporary trends.

A few examples of abstract

paintings were selected by the judges, which add rich colors and form and geometrical design. Sometimes they might cause some bewilder-

ment to an uninitiated. But beauty is its own excuse for being, and need not be inter-

preted in terms of common de-
nominators," one of the artists added.

The world has always been moved by those who dared to defy forms and convention in the de-

votion to an idea, whether it be in politics, literature, art or mus-

ic.

Exhibits Number 83

Eighty-three exhibits will be shown. They were selected from about 300 entries. As was expected, the largest number of exhibits came from the City of Albany, yet a good representation came from the surrounding areas, Schenectady, Troy, Rensselaer, Waterford, Gloversville, Ballston Spa, Cohoes and other neighbor-

ing communities.

The preponderance of exhibits will be in oil and water color paintings. There will also be repre-

sentations of the techniques of ceramics, sculpture and batik work.

Charles B. Sheridan, Art Show committee chairman, is comment-

ing on the work of the judges, said: "The committee expresses its appreciation for the effort of the judges and work of the judi-

ces. We faced a real task in selecting the exhibits. The committee and the Association now have a show of very high quality and one in which the public servants can take real pride. I have heard some pro-

fessional critics express extreme admira-

tion which does the show credit.

"At first glance it might seem as if the judges were strict in their selections, but when you con-

sider that only 68 persons submitted entries, and each person was permitted to submit up to three, the number of rejections was not astonishing. It is hoped that those who were not fortunate enough to have had their entry selected will not be discouraged. I know the veteran artist will not."

"I may say in passing that the paintings of one of the most famous artists were rejected by the judges. This veteran artist was not pleased with the veteran judges, but when you know how to and are willing to make no negative judgment on his paintings or abilities, sometimes the very painting which is rejected in one show wins the first prize in another.

Mr. Sheridan stated that the names of the prize winners will be announced at the time of the opening of the show, September 18. The show will continue until October 7.

Loan Insurance Free

WILL it cost me anything if I sign up for the NYC Employee Retirement System insurance? By CARL RUGGEMORE

On the contrary the form that you fill out only gets you the insurance free but may require you to sign the NYC Employee Retirement Law. Members who are credited with service in the NYC Employee Retirement System will have their annuity altered to 3% interest on their annuity deposit. The members may have up to 3% interest credited to their account under the NYC Employee Retirement System.

Dilemma

SINCE I am a covered-em- ployee, one who has held an active continuous public service job in NYC and am now in the classification of your Union, I am curious to know as to whether the Court of Appeals will be taking up the question concerning the payment promotion exam means that I can't take a promotion exam. I never took a competitive exam for the position I now hold, and the Court seemed to feel that one had to do not apply that, to compete in a competitive promotion exam, but also that the exam originally taken must have been for a job involving the services required in the position. Isn't that right?

K. E. R.

The Court of Appeals did not discuss the relationship of its finding to the case of the covered-in employees. The Court, however, has stated that the dual purpose of the pension system is to promote the growth of the public service and to encourage the privilege of the competitive position.

L. E.

The Court of Appeals held that the Legislature should pass an act to eliminate the annual promotion exam. The Court has said that you are in the Competitive Class. If you are in the Competing Class, you are eligible for the promotion exam to take the exam.

W. A.

Within what period after receiving a certification of eligibility must an applicant act so that the provisions will be replaced?

The Commission's suggestion is that the three choices be cho-

sen for these jobs and that, in the future, the Commission will follow a different category method of selection. Under this plan, appointees would have to have served in the armed forces or served as civilians in the National Guard or Reserves.

The appointing officer would have to consider the appointment of veterans before non-veterans.

New Public Employee Labor Relations Plan Being Tested All Over the United States

While NYC is embroiled in a variety of public employee problems, with strikes and threats of strikes, the establishment of new labor organization alignments in the public service sector is underway. The State is experimenting with a permanent labor relations and arbitration system in the United States new efforts are going to day to day more directly with grievances in public service.

In Detroit, a recently-adopted state law permits labor relations and arbitration of labor disputes cannot be settled by collective bargaining, or by strike or lockout, to appoint two members to a board of five members to represent the employees. The board members then select three members to a board of five members.

This board is empowered to superintend, control, and direct the hearing of the board. The board will hear the grievances of the employees and the parties involved in the disputes.

States Give Advanced List of New Test Series

The State Department of Civil Service gave an advance listing of 18 exams that will open for receipt of applications on Wednesday, September 24. Do not apply before then. Friday, October 26 will be the last day to apply for the written tests.

For those there will be no written test. Candidates will be rated on their training and experience. The written tests for the 16 other exams will be held on Saturday, December 1.

Note of the exams, including one of the unwritten ones are open both to residents and non-residents of the State.

Pay the start and after five annual increments is given for State jobs. For the most part, legislative committees are made up of members of the State legislature. Generally, the councilors, and the councils meet periodically between sessions of the State legislature to consider various problems expected to be found in the next session. The councils have the power to make recommendations to the research staffs, and thus are able to develop comprehensive and impartial analyses of public issues. These recommendations are available to all the legislators for their consideration before the introduction of proposed legislation.
