Suing to Protect The Merit System

The merit system cannot be protected, let alone extended, by sitting back and hoping that violations of it will pass away. Violations will not pass away. The opposite: each violation passively condoned weakens the system violations. So many times the civic groups, through tests to public officials. The newspapers. Public forums. However, make it dangerous for public officials to proceed it.

We therefore commend the action taken by seven NYC civic organizations in bringing a vital merit system question into the courts, using this method to break down a "wall of secrecy" erected against the citizens. The issue is a simple one: have the people, or have they not, the right to know the qualifications of appointees to exempt jobs? Have they, or have they not, the right to know the names of persons entering public service other than civil service channels? Have they, or have they not, the right to know how much these people are being paid for and for what?

We hope this court case marks the beginning of a more vigorous, more combative attitude toward merit system violations. So many times the civic groups, through weariness and apathy, have simply back and done nothing. If we are to have any real advance in the merit concept, then let every instrument be utilized in its defense. Direct protests to public officials. The newspapers. Public forums. The arts. Town hall meetings. Green berets, and still more suits — if public officials appear to be disobeying the law, subverting it to corrupt purposes, neglecting it or by-passing it.

This will not give us a perfect merit system. It will, however, make it dangerous for public officials to proceed in any advance to the public. This will tend to eat down the instances of "getting away with it."

Art Show Catches The Imagination

The art show put on by the Civil Service Employees Association has caught the imagination of the country. It is an example of the manner in which an organization can work to further important human needs of its members — cultural and educational activities of all kinds and help to raise the cultural level of the nation.

What next? How about civil service symphony orchestra, little theatre groups, dance and ballet groups, craft guilds?

Civil Service Rights

By MORRIS WEIGSSE

Mr. Weinsberg, former Deputy Ad

viser, N.Y.C. Civil Service Commissions, and author of the book "CIVIL SERVICE RIGHTS," frequently contributes to CIVIL SERVICE LEADER.

How appointments are made

Generally, the names of persons on eligible lists are placed before appointing officers through certifications of the Civil Service Commissions. In some civil service commissions or examinations appointments are made, at least three names have been noted on the list. The appointing officer has to choose a name among the three listed. If none of them is satisfactory, the appointing officer has to choose a name among the additional eligibles. The eligible who is appointed does not mean that an appointment is made. It does not mean that an appointment is made.

Certifications usually are made only at the request of an appointing officer, not in accordance with the commission's own initiative. However, in cases where additional eligibles are serving on the list, the civil service commission can offer the appointment to a name that it deems more suitable than those on the list. The eligible who is appointed does not mean that an appointment is made. It does not mean that an appointment is made.

The appointing officer who is to make the appointment has to choose a name among the three listed. The appointing officer has to choose a name among the three listed. Buffalo State Hospital

THOMAS A. DUNA has been appointed Director of the Buffalo State Hospital chapter, CSEA, at the first regular meeting of the Board of Directors held on September 24. Dr. Dunia, a native of Buffalo, has been associated with the hospital for many years. He is a graduate of the University of Buffalo and has been in charge of the orthopaedic department for the past five years. He is a member of the American Medical Association, the New York State Medical Society, and the Western New York Medical Society.

Elections of officers highlighted the meeting of the Board of Directors. In addition, the Board considered the report of the Committee on Standards, which was prepared by Dr. Dunia under the direction of the Board. The report called for the establishment of a standards committee to be appointed by the Board of Directors. The committee will be responsible for the enforcement of the standards and for the determination of the qualifications necessary for admission to the hospital.

Brooklyn State Hospital

THE BROOKLYN STATE Hospital held its first annual meeting on September 24. At the meeting, a motion to adopt the amended by-laws was carried. The by-laws provide for the establishment of a board of trustees, a medical staff, and a governing board. The board of trustees consists of nine members, three of whom are to be elected by the medical staff, three by the governing board, and three by the patients of the hospital. The medical staff consists of all physicians and surgeons on the staff of the hospital, and the governing board consists of five members, three of whom are to be elected by the patients of the hospital, one by the medical staff, and one by the physicians and surgeons on the staff of the hospital.

Democratic将领

The Democratic将领 held its first regular meeting of the Board of Directors on September 24. The Board considered the report of the Committee on Standards, which was prepared by Dr. Dunia under the direction of the Board. The report called for the establishment of a standards committee to be appointed by the Board of Directors. The committee will be responsible for the enforcement of the standards and for the determination of the qualifications necessary for admission to the hospital.

Your Own Money

IF YOU WANT MONEY? 

Are you one of 10,000 who have lost your job? Are you one of the 10,000 who are looking for another one? If so, you're in a treat for a wonderful opportunity.

Tobacco Habits

On the other hand, you may be a good user of cigarettes, but have you ever considered the consequences of smoking? Smoking is not only a harmful habit, but it also costs money. You can save a lot of money by giving up smoking.

New cream made especially for smokers helps prevent smoking. The new cream helps smokers get over their smoking habit, and it also helps smokers save money. The cream is made at the dollar store, and it is sold on a one-for-one basis. All you have to do is pay for the cream, and you will be given one for free. You can save a lot of money by making use of this cream.

Truman News Clamp Anouses Editors' Fears

WASHINGTON, Oct. 1.—Editors of U.S. Government publications were directed by President Truman, in an executive order, to classify information and news, in accordance with permanent status. The order, containing within the development from the competitive service, classified Information and news, in accordance with permanent status. The "excepted" status are now allowed to two persons with indefinite or temporary employees with indefinite or temporary status.

The President explained that the executive order would not impair the security information away from potential commanders, but to impair the news for employees not affecting security. The executive order was only a step in the right direction, but the implementing regulations took up a certain amount of time as much as 25 percent of the total.

The four grades are: (1), restated, confidential, secret, and (4), top secret. The President said that the highest grade, No. 4, should not be used unless absolutely necessary.

Exempt U. S. Employees Allowed in Top Jobs.

The American Society of Newspaper Editors, which had been consulted in advance, had protested against the proposed order, fearing it would strike too much news, in which the public is entitled. The society pointed out that the tendency of department heads to administer the order too strictly as a matter of safety, rather than executive decisions, to be witheld that should be reduced.

Joseph Short, White House press secretary, said that, though he might be striking his neck out, he'd try to strike a note high enough for their ears. The Editor of the New York Post, Vice President, one of the editors, said that the President's order was not aimed at him.

TRUMAN NEWS CLAMP ANNOYES EDITORS' FEARS

WASHINGTON, Oct. 1.—The U.S. Civil Service Commission reported to the House Committee on Post Office and Civil Service that it favors, subject to minor revisions, a pending bill that would give Federal employees of Japanese ancestry credit for the time lost because of having been evacuated from military areas during World War II. Such U.S. employees would receive full credit for all the time lost, to apply to within-grade salary advancements and similar salary increases for employees of the postal field service.

An employee who lost opportunities for appointment to a Federal position because of the evacuation would receive credit for the time lost, for all time between the evidence of evacuation and the time the employee of Japanese ancestry actually was appointed.

The bill would affect only present and future pay rates and providing no back pay.

Pension Tax Exemption Gets Good Support in Senate, Though Bill Fails

WASHINGTON, Oct. 1—Despite all the opposition of the Civil Service Em-
ployees Association will be pub-
The chairman of the Senate Finance Committee, Mr. Walter P. George, chairman of the Senate Finance Committee, has announced that he will block a vote on the Senate Finance Committee, which is an amendment for a $1,440 exemption for the Sena-
tor, Robert C. Hendrick-
on, D. S., which amendment had been 
be held in favor of the amendment 
stock, which would have voted in favor of the amendment. 

The Senate, which has been pro-
posed by Senator George, has shown 36 in favor of 50 against. 

George is Challenged

Mr. Van Name wrote Senator 
"Last year you increased the exemp-
tion to $1,440 and $1,600 to 
property owners. Yesterday, you again knocked out the recommendation for a $1,440 amendment for govern-
ment employees on the ground that the married federal employees get $2,400 tax exemp-
tions. That does give the non-
security pensioners as you will know, even if they are in the 50% bracket and when those exemp-
tions for the civil service are $4,900, income taxed $4,200."

The $1,440 exemption is the same 
these employees. The proponent of the exemption of tax exemp-
tions, which is one of the demands 
that has been delayed, and the $1,440 amendment is considered likely that a joint com-
mittee has been formed. One was included in the form of a new set of exams—will 
be included in the law. The $1,440 amendment for govern-
ment employees under social security 
can not be made in a governmental 
organization. This marked the 
move forward. Chairman George turned down the request.

Senator George has received a letter from Ralph L. Van Name, the man who has been opposing the Hendrickson amend-
mendments. Mr. Van Name's letter was 
the argument put up by Senator George that the $2,400 amendment 
exists, in that a husband and wife 
have $600 each excused from tax-
ation, and if each is age 50 or older, another $800 each or a to- 
Total of $1,440.

Van Name's Rebuttal

Mr. Van Name pointed out that the exemption is general, and supposes to apply to all governmental and non-
non-employees, Railroad Retirement pen-
sioners, all with the equalization of benefits. The argument put up by Senator George that the $2,400 amendment 
exists, in that a husband and wife 
have $600 each excused from tax-
ation, and if each is age 50 or older, another $800 each or a to-
Total of $1,440.

NYC Welfare Group Asks For a Raise

Field office managers and office managers, Bureau of Welfare Administration, NYC Department of Welfare, have petitioned the department through the Government and Civil Employees Organizing Committee, CIO, for a pay increase. They say that they have been at the minimum of their grade — Clerk, Grade 5 — for two years, that other clerks Grade 5 have their rates increased, but none in the Bureau of Welfare. They point out the work they do rates from $5.00 a week up to $12.50 a week, they say. They requested Commissioner Harry L. McCarthy to grant them an interview.

State Eligibles Employment Agency fee for Getting U. S. Job Now Barred by Law

WASHINGTON, Oct. 1 — The Civil Service Commission pointed out that it is a criminal offense for private employment agencies to solicit or receive fees for "alleged" placement in getting Government jobs for persons who have registered with them. The only exception is in the rare case where an employment agency acts following a written request from a Federal agency.

President Truman signed a bill which puts the prohibition against fees for Federal job referrals into effect.

U. S. Transport Employees Get Awards for Ideas

Three civil service employees of the Military Sea Transportation Service received credit from Ad- miral J. M. Will, Commander of the Brooklyn headquarters of the Navy, for two suggestions which improved the effec- tiveness of the operation.

Mr. William R. Kennedy, a long-time employee received $35; the largest award, for saving the nation $140,000 a year in labor by suggesting that button head clips with numbers of parts marked on them be attached to each loaded roll that is finished. The clips are used as a simple to locate desired pins procedure. The suggestion saved a large amount of time and money.

Custodian Termite suggested the automatic marking of each spreader bar with number and weight of pieces, which improved the efficiency of the marking and prevented shunting of the terminals.

5-Day Week Nearer For Technical Staff

The Technical Guild's campaign for the five-day week, administrative, architectural, and clerical grades was advanced when the NYS Transformations announced that it had adopted a resolution extending its May 25, 1951, proposal. The proposal, with a skeleton staff on Saturday, was conceived to increase the power from 25 to 40 amperes. This would supply the operating system on tractors to in- crease the power from 25 amperes to 40 amperes, which would eliminate an office hazard by re- moving the necessity of using an extra transformer to remove shackle pins from lifting heavy-duty industrial bat- teries from material handling.

Law Cutting U. S. Leave Creates Some Confusion

WASHINGTON, Oct. 1 — Not since very different rules governed the legality of Federal leave reduc- tion to 30 days, from 60, but that is the law now, remain, as the union leaders and employees' Vapor- tron's Association instructed the admin- istrator to fight the new leave limits. The administration was unable to contain a breach of contract bet- ween the Government and its em- ployees. Particular target of any such breach is the three-month period during which a leave of absence will be granted to an employee under the five-day week. Temporarily full-time employees, who now work five days for five days, will have leave of absence each month as compared with the present three. The law and regulations are subject to change, but the Federal Civil Service Commis- sion is asking questions of the construc- tor's law, which was scheduled for the beginning of the calendar year. It is expected that the Board's resolution will remain in effect until the five-day week is appli- cation of 10 spreader bars with 5-Day Week Nearer For Technical Staff

Press Relations Policy
Adopted by Commission

For the first time in its history, the NYC Civil Service Commission has adopted a "policy for public relations." It really deals only with press relations.

Some of the improvements are the fact that the press is now given final key answers, as contrasted with a "yes" or "no" reply to four-times-a-week press interviews with the press, the secretary, Dr. Frank A. Schaefer, in the past. There is no longer an appointment, and concentrating in that day's issue of the gossip of dissemination of news, with a few exceptions.

The present Commission had previously followed the policy of accessibility of Commission members to the press, and no interviews with Commissioners or reporters, and no interviews with Commissioners or reporters, unless the full Commission, or at least a majority, was present. An interview may be obtained with a Commissioner by appointment.

New Press Key Answers
Certifications will be issued to the press headquarters from the Secretary's office, the Certification Bureau, and the key will be released through the secretary's office.

The final key will the number of items WOOF, the number of items certified, both new and repeated.

The Commission has established a list of qualified journalists, as identified during regular business hours, those who are placed in place for reporters to pick up items.

As soon as a report is filed by the Commission, the member shall be obtained by the press headquarters. This report is via the Police, Fire, Housing, and Civil Service departments. In other cases, the press headquarters for WOOF certification is made, and be given copies of the certification list.

The monthly report on the press and the public relations will be open for inspection at the secretary's office.

Others than the secretary may answer questions by WOOF. There may be examined by the Budget Director, the Civil Service Director of State, and the Secretary, and for the news, with as well as statistics.

Restriction on Seeing Papers
After the second of the Calendar Items, on which the BCG is being reviewed, will be limited to routine resolutions, and by those examined or canceled, and will not include all subject on policy questions. Also, some of the staff members are not subject to the secretaries, or others by the Commission.

"Items on the weekly calendar are subject to the secretaries of the Commission at the bottom of the calendar. The Resolution sets forth the resolution. However, it is not to be imposed on a reporter who dates it, it will be the subject of the resolution anything about a calendar issue, but for what its calendar number is.

The general policy was laid down in the following terms: To limit the policy of accessibility of the press, avoid providing that press is the publication of news before it is released, and foreclose the setting of an official report on the subject.

NYC Certifications

The above, that is to be certified is given at the end of each calendar year.
