Attention. Camera Fans—Don’t Miss ‘LEADER’ Offer

All thoughts seem to be turning to picture-taking. At least that’s the way it looks at The LEADER office where the response to the sensational camera-and-film offer ($33.95 value for only $3.95) announced in last week’s issue has been tremendous. We are now trying to assure ourselves of sufficient cameras so that no one will be disappointed.

Under the arrangements of the offer, a reader clips the reservation coupon found in the ad on page 9 and sends it in with $1, then clip coupons from this and two other issues of The LEADER and sends these in with the $1. If you want a gift offer, simply mark the box in the reservation coupon.

You will then receive the sensational Tynas vest-pocket camera plus four packages of film, plus coupons that can be redeemed for an additional 48 packages of film when each is enclosed with a package of film for developing.

Many of our readers have asked if they may get more than one camera-and-film offer, and the answer is Yes (and it makes a swell gift!), as long as they last, but there is a limit of three such offers to a customer. If you want a gift offer, simply mark the box in the reservation coupon.

It’s all very simple, as you will note from the details on page 9. Happy picture-taking days are ahead for you! But be sure you make your reservation today; don’t take a chance of losing out on this sensational offer.

ALBANY, May 19—Candidates for civil service examinations may soon have less time in which to prepare for tests, CSEA officials claimed. The State Civil Service Commission for the next 10 days will consider the feasibility of reducing both time periods as a further extension of procedures designed to speed the entire appeals machinery.

In response to requests from the Civil Service Employees Association, the Commission at its last session agreed on new procedures for handling appeals themselves since they were reviewed by the Department.

As described in last week’s LEADER, this new plan involves placing time limits by which examiners and reviewers must complete work and spelling out the route appeals travel through the department until they reach final action by the Commission on an appeal.

Now in Operation

A new Committee of three nominees, signed by acting administrative chief William Lochner, was sent to personnel concerned and the new procedure is now in operation.

In general it has the approval of the CSEA.

However, Association position on the new proposals has not been announced publicly.

Has 20 Days

As it now stands a candidate has 20 days from the time he received his examination result in which to request an examination of his case.

Once he is granted this request and sends in his examination fee, he has 20 other days in which to perfect his case and the time limit is extended.

While an unofficial survey of some top level CSEA members reveals little feeling one way or another on the matter of reducing time periods, the fact that the proposal may not be as easy to pass itsJCSEA members sometimes grants extensions of time of their own accord to suit the circumstances.

Among the disadvantages pointed out was the fact that appeals on some exams, particularly law and other professional level titles, requires rather extensive research and even now the Commissioners sometimes grant extensions of time due to the nature of the examinations.

Big Push Urged to Build Association Membership

ALBANY, May 19 — While all previous membership records have been exceeded, Civil Service Employees Association headquarters are still trying to assure themselves of sufficient membership so that no one will be disappointed.

Last Chance to Join 55-Yr. Retirement Plan

ALBANY, May 19 — Jesse B. McFarland, president of The Civil Service Employees Association, advised all civil servants contemplating changing to the 55-year retirement plan, to do so immediately.

"Governor Dewey," said President McFarland, "has signed a bill extending the time of changing to this plan to September 30, 1952. This is the second extension which the employees of the State have succeeded in obtaining through efforts of the Association. However, this may well be the last extension.

"Those eligible to participate in this plan have had ample time in the past few years to make the change. It is not reasonable to expect the Comptroller to keep open this opportunity for conversion for an unlimited period. Therefore, I strongly advise all those employees who wish to convert to this 55-year plan to do so by September 30, 1952. If they don’t do it, they may be sorry."

ALBANY, May 18—William R. Callahan, of Albany, has been named personnel director for the State Department of Mental Hygiene at a salary ranging from $7,800 to $9,394, Dr. Newton Bigelow, Mental Hygiene Commissioner, has announced.

Mr. Callahan placed third on a list of four successful candidates in a recent civil service examination for the post. He has been serving assistant director, but assumed his new title Friday.

Named to the assistant's job was George L. Wilson, a career employee of the Department of Civil Service Division of Classification and Compensation. His salary range will be from $6,600 to $8,231. Effective date is July 1.

Hills placed first in the examination for the director's job. As established by civil service, the exam could be taken by applicants for either or both positions.

As director of personnel for the State's largest department, Callahan succeeds Daniel Shea, of Albany, who held the post provisionally for the director's job. As assistant director, Shea succeeded Daniel Shea, of Albany, who held the post provisionally.

Last fall Shea was named to the assistant's job but will not be directly concerned with personnel activities, even though at a lower salary. Callahan continued in the junior spot.

The list established last month showed Hills and Killian again in the top two spots, with Callahan and David Price, another classification and Compensation career man, in fourth position. Shea failed the examination.

As a result of Dr. Bigelow's announcement, Callahan assumed the top spot almost immediately and Hills will enter his duties in July when he will have completed work on which he is currently engaged by Civil Service.

Governor Says 'No' To Special Legislation

SINCE the common custom is to slap down public officials for their actions which appear to violate the precepts of merit, it is a pleasure to record those deeds which advance the merit system.

Little noted in the vast accumulation of bills which the 1952 Legislature dropped on Governor Dewey's lap were a number which would freeze in certain jobs without the necessity of going through the rigors of civil service. Some of these measures would, no doubt, assist desiring political boys.

To Governor Dewey's credit, he vetoed the bills, appending vigorous statements condemning such special legislation.

One was a bill to provide permanent civil service status for certain favored employees of the City of Buffalo. Said the Governor: "Since the bill would 'freeze' into the competitive class temporary employees . . . it provides a standard other than merit and fitness for determining qualifications . . . ."

The other bills were put through to confer permanent competitive status on a confidential attendant to a State Supreme Court Justice. The Governor said: "Such competitive status is an attendant to a State special legislation violates the principles of the merit system."

Mr. Dewey took similar action with respect to the status of employees of temporary State commissions and boards.

Every year a number of such special bills are put into the Legislature and as regularly they are passed and sent to the chief executive. Prior to Governor Lehman's time it used to be easier to get measures like these enacted into law. But he started, and Governor Dewey has continued, the policy of standing up against such legislative tampering with the merit system.

Actions which help to strengthen civil service, ought not pass unrecorded. Governor Dewey deserves commendation for the forthrightness of his vetoes in this respect.

James S. Watson Will Be Sadly Missed

NYC has lost a valuable, conscientious public official in the death of James S. Watson, President of the Civil Service Commission.

A man of broad education, good judgment and rich personal charm, he guided the business-like manner in which the Commission conducted its hearings on qualifications, one of its most important functions. He himself admitted that the Commission functions best when he is present and able to be free of any pressure to make decisions, and is thus free to give careful consideration to the claims of applicants.

Mr. Watson devoted his life to public service, and as President, as he had done while a Municipal Court Justice and as special counsel in the NYC Law Department, he was appointed to the Commission a little less than two years ago and immediately elected President. He was widely respected.

He was 62 years old, Social Security was not of any real use to him, for he had already received a pension from his Civil Service work. However, when he died, some of the members of the legislature did not permit to the employees of the Director of Classification and Compensation Appeals Board which has the legal authority to fix the classification and compensation of employees covered by the Civil Service Law, to make the statements that the petitions' applicability for reclassification and promotion under the Civil Service Law is not a sufficient reason for the classification and compensation Board's action. And the petitioners' claims to be included in the regular competitive class because of their permanent employment insurance retirement, insurance and minor social security benefits.

Mr. Watson was active in the labor movement and was a member of the American Bar Association. He was also an active member of the National Association of Government Employees. He was highly respected by all who knew him.

President Watson not only had the wholehearted support of his staff, but their devotion as well. He was a man of integrity and honor, and his death will be greatly missed.

In this proceeding a would-be employee contests the denial of her application for a position with the NYC Civil Service Commission. Here's the answer: Yea. You would be governed by the present position of the NYC Civil Service Commission as of the date of filing your application for appointment. The present position of the NYC Civil Service Commission is to appoint an eligible with the approval of the Mayor, and the Administrator of the Civil Service Commission. Therefore, if an eligible is appointed to a position that is classed as permanent, and satisfactory completion of the probationary period is not to include the time the job is being filled by an eligible, then the eligible must be appointed to a job that is classed as permanent, and satisfactory completion of the probationary period is not to include the time the job is being filled by an eligible.

In probations to permanent vacancies in the department, and if you haven't applied for a professional job in your field by the end of your six months, you are automatically removed from the eligible lists.

In NYC temporary appointments are made which can not exceed six months. Eligible accepting such appointments are removed from the list for three months to permit possible promotions to permanent vacancies in the department, and if you haven't applied for a professional job in your field by the end of your six months, you are automatically removed from the eligible lists.

FIREMAN ART OF NYC

and Long List of Exams Coming

NYC has such a long list of exams to meet increasing difficulty in filling them that it is necessary to keep many of the exams open until the end of the fall. The Fireman exam, which opens next month, will meet another of the thousands of applicants who will be added to the List C grade 2 exam, one of the most important, which closed open until September, said Sam-uel S. Stryker, civil service commissioner.

This exam, open to both men and women, ages 18 to 65, is expected to produce a large number of applicants, about 5,000. The clerical grade 2 test in NYC in May was over 15,000.

Big Fall-Winter Schedule

This fall and winter, the Civil Service Commission has approved the requirements for 19 exams. This is only a part of the several more promotion tests. These, too, will be included in the schedule as soon as possible.

The Commission doesn’t want to open many exams in July and August, although this is soon unfair to do so because so many people are not available to test. Only in October, November and December are schedules to be certain opened.

In this schedule, minimum requirements follow:
