**INSURANCE FUND MEN ASSAILED FOR COMPLIANCE OF TERMS By Mary M. Mahoney v. Conway**

**Commenced January 15, 1952**

This case was instituted to re-
view the action of the Director of Civil Service and Commissioner of the State of New York in the certification of an insurance fund constituted by the defendants for the purpose of providing health and welfare benefits to employees of the defendants. The plaintiff, Mary M. Mahoney, was employed by the defendants and was a member of the insurance fund. She filed a complaint alleging that she was not entitled to certain benefits provided by the insurance fund, and that the defendants had violated certain provisions of the insurance fund's by-laws. The defendants moved to dismiss the complaint on the ground that the plaintiff was not a member of the insurance fund. The motion was denied, and the case proceeded to trial.

**Law Cases Pending Against Civil Service Commission Contain Ticklish Problems**

In August, 1949, the petitioner, an Assistant Claims Examiner, was suspended pending a disciplinary hearing. The hearing was held in February, 1950, and the petitioner was found guilty of misconduct. The petitioner appealed to the Appellate Division, which reversed the decision of the Board and ordered the petitioner's reinstatement. The respondent, the Civil Service Commission, appealed to the Court of Appeals, which reversed the decision of the Appellate Division and ordered the petitioner's removal from the service.

---

**REINSTATEMENT**

In connection with the suspension of the petitioner, the respondent, the Civil Service Commission, issued a notice of hearing and a notice of appeal, and the petitioner was scheduled to appear before the respondent on a date to be fixed. The petitioner failed to appear at the hearing, and the respondent ordered the petitioner's removal from the service.

Employee Airs DPUL Problems

Because of the untagged problems facing employees in the State Personnel Service, the DPUL has turned to the CSEA. The LEADER prints below a letter and a memorandum by the party in power.

We condemn the flagrant violation of the Civil Service merit system by the party in power.

We have a personnel program for the Federal career service comparable to the best practices of progressive private employers. Federal employees shall be selected under a strengthened and extended merit system. Civil servants of ability and integrity shall receive proper recognition.

The Civil Rights section of the Platform provides for the Federal career service comparable to the best practices of progressive private employers. Federal employees shall be selected under a strengthened and extended merit system. Civil servants of ability and integrity shall receive proper recognition.

Miss Sweeney met with groups of the same character, because they have Office to explain this proposal, and should not be subjected to the employment interview title. The U.S. Civil Service Employees Association considers as the Interviewer title, I firmly believe should not be penalized by the necessity of revising the qualifications. The Interviewer title. This is a concern that we have been through this before. What we need is to have frequent examinations to get sufficient numbers to cover the turnover. This is easier of acceptance by the people who are involved.

**Releasing a Flood Of Creative Energy**

MACHINERY has finally been set up to pay NYC employees in cash for their ideas and suggestions. The plan is excellent; The LEADER has been urging such an approach for years, and actually drafted legislation to put it into effect.

There was a time when many departments employee suggestions were frowned upon. This new plan will release a flood of creative energy, will result in brilliant new ideas that will provide more efficiency.

That has been the effect wherever such plans have been initiated.

However, an analysis of other suggestion plans prepared by the Division of Analysis of the NYC Budget Dept. indicates that an appropriation of $10,000 for employee awards might prove inadequate. In a single year, the Socony-Vacuum Company awarded $27,725 to employees for good suggestions; the General Motors Company awarded $24,949. The S. Navy Department made awards totaling $270,668 to employees.

Incidentally, there need be no fear about appropriating a substantial amount for awards, because in a good suggestion plan pay is a portion of the consideration of acceptability. The New York State Merit Award program saves the State about $500,000 as a result of employee suggestions. The Navy's suggestion plan resulted in savings of almost $17,066,000 in two years.

We would like to see every possible encouragement given to employees. Awards should be large enough to spur wide thinking and activity about improvements in government service and consider it ought also to be given to other possible inducements, as well as cash; credit toward promotion, additional time off, and salary increases.

**A Poor Way To Encourage Morale**

This attack on public employees continues. In its last days Congress passed a vicious bill curtailting the use of vacation time by Federal employees. President Truman put it correctly when he said of this amendment: "Whittling away of employee rights is a poor way to encourage high morale and cooperation in the Federal service."

Civil service is indivisible. What happens to it in one place will affect what happens to it in another. Inexorably, you'll find narrow-thinking individuals seeking to cut down leave in other units of government, State and local, pointing to the precedent set by the Federal Government.

It is essential to battle for better civil service everywhere, and to resist attacks upon the public employee wherever they may occur, and from whatever source.
