Attendance Rules Changes Announced

ALBANY, Feb. 27—Proposed changes in the State Civil Service Attendance Rules have been announced by Alexander A. Fisk, President of the State Civil Service Commission.

The changes cover working hours, attendance standards, overtime, leave with and without pay and vacations.

The members of the State Civil Service Employees Association's Special Committee on Attendance Rules, which held its first meeting on Mr. Fisk's suggested program today, Mar- garet Fenk, of Utica State Hos- pital, is committee chairman.

Mr. Fisk has asked for the comments of department heads and personnel representatives as well as the employees for a change in the current rules.

If agreement is reached on the new rules, they may not be effective until April 1, 1956. The final rules must be approved by the three-member Civil Service Commission and by the Gover- nor.

Mr. Fisk said the purpose of the new rules is "to insure equitable treatment of employees and to provide uniformity in matters of attendance and leave insofar as practicable and consistent with the efficient conduct of the State's business."

He said that all of the suggested revisions of the current rules are changes in the State Civil Service Attendance Rules are the result of "careful study and serious consideration of all suggestions made by administrators, employee groups and employees them- selves."

Among major changes pro- posed are the following: One set of attendance rules for both experimental and institu- tional employees. Formally there were separate rules.

A 40-hour basic work week. Employees who now work less than 40 hours in most offices (the work week is 37 '/2 hours) will not have their hours in- creased.

Change in vacation allowances for future employees, in line with similar practice in private industry. A new employee will have 14 days (or almost three weeks of vacation at the end of one year. This will increase yearly until at the end of seven years employment he will have 20 days or four weeks. Employees present now will receive four weeks vaca-

Changes in sick leave rules and in practices relating to time off for religious observance, visits to doctors and dentists and death in the family, to insure fair treatment for all employees and uniformity in charges against time attendance accounts.

Elimination of Election Day as a holiday and substitution of the Friday preceding a holiday which occurs on a Saturday. Em- ployees will be allowed two hours compensation for work longer than the basic work week, either in cash or time off. Overtime credits will not be lost when an employee is transferred or separated from State service.

State Salary Appeals Two-Thirds Finished

ALBANY, Feb. 27—More than two-thirds of all State employees salary appeals pending before the State Classification and Appeals Board have been acted upon. THE LEADER learned this week.

The five-member board has been meeting at least once a week under the chairmanship of William B. Volet of Brooklyn since Governor Harriman named Mr. Volet chairman last October. It was estimated at that time the backlog of appeals stood at around 700.

The appeals are based on pay rates established under the State's 1954 salary plan, but action was delayed until the Governor appointed members of the board.

Those appeals, which are granted by the board, will carry retroactive salary increases to April 1, 1954.

Mr. Volet, it was learned, has set March 31st as the target date for the board to complete work on the huge backlog of cases. He reported confident the deadlines will be met.

Under board policy, the result of individual appeals is not made public. Interim decisions are not made public; the board will dis-

ALBANY, Feb. 20—A "model" bill to combine the benefits of Social Security and the State Employees Retirement System has been introduced in the Legislature.

The measure, introduced by a Republican in the Assembly and Democratic in the Senate, is sponsored by the Civil Service Employees Association.

Known as "The Association bill," the measure offers State employees a choice of two plans for combining U. S. Social Se- curity payments with those of the State Employees System. Barrett and Gittleson Sponsors. As drawn, the measure also "fits to a T" the details of the two plans reported by the State Commission on Pensions. The Commission counsel is Mr. Elliot Kaplan, former Deputy Comptroller head of the State Retire- ment System office.

The bill was dropped in the hopper on the final day for in- troduction, Assemblyman Eliza- Barrett, Suffolk County Republican, and Senator Henry Gittles- son, Brooklyn's Democrat, are the sponsors.

The Two Choices Described

The two options, under the bill, are:

1) Employees may pay the additional cost of 2 per cent of pay on up to $4,200 a salary, or
2) Employees contribution could remain the same, with the per cent deducted from present annuity contribution.

Under either option, the em-

The State Aid and Medical Aid

For the past two years, the Association has been urging the necessity of a comprehensive hospitalization, medical-surgical and medical services program for state employees, with all or part of the cost to be borne by the state.

A few days after Governor Harriman was inaugurated the Association addressed him on this subject. During the past year, it has constantly been negotiating with the Administration, with the majority leaders and with insurance carriers to the end of the most comprehensive, beneficial plan for public employees, with the maximum benefits to employees and at the least cost to himself and to the state.

We are gratified that these efforts have born fruit. The majority party in the Legislature has introduced its program and the Administration has introduced its own bill. With the rapidly increasing costs of medicine, it is hoped that the Governor's bill will be of a kind of insurance which would help him meet the cost of prolonged and severe illness. A life's savings could disappear in one good bout with disease. Thus the proposal of a state-sponsored insurance plan in which the employer share the cost is welcomed.

Problem Long Realized By Industry

Industry has recognized the necessity for this type of insurance in theory and in practice. The state is now coming across with this long felt social need. However, we hope that whatever plan is adopted it should assure both full hospitalization coverage and medical-surgical treatment and also, that the adopted plan should provide insurance against long-term illness. Any plan less than this fail to meet the problem and does not add much to the coverage which the employee himself can now secure.

Javits Makes Major Changes

in Law Dept. Administration

ALBANY, Feb. 27—Attorney General Jacob J. Javits has announced a number of changes in the organization of the State Department of Law.

The changes, revealed in the 1956 annual report of the department, submitted to the Legislature last week, include the consolidation and centralization of all of the bureaus of the department and a program for hiring and training new attorneys.

Among the changes revealed were the consolidation of the Workers' Compensation Bureau and the Employment Bureau in the Monopoly Bureau at the Albany office and the Real Property and Rights of Way Bureau.

A new bureau, the Monopoly Bureau, has been established and an act giving it powers to work in the new unit, especially in the interest of small business and consumers, was signed by the Governor.

Young Lawyers Sought

With the cooperation of the State Capital Council of the Association, hundreds of young law students have been hired during 1955. It is expected, however, that the requirements of 1956 for such students will be a large portion of whom, it is hoped, will prove themselves capable of joining the department staff as assistant attorneys.

"During 1955," according to the report, "arrangements were concluded with the New York State Thruway Authority and the New York State Power Authority for placements of young lawyers with respect to acquisitions and appropriations, damage and contract matters. The cooperation of the Director of the Staff, the budget of the Department was expanded for this purpose and suitable compensation arranged to be paid to the New York State Bureau for these services."

Workshops for CSEA

Recruiters Are Proposed

ALBANY, Feb. 27—"Workshops for Recruiting CSEA Recruiters" were proposed at a recent meeting of the statewide membership committee. Mr. M. Williams, co-chairman for the County Division, pointed out that many of the Public Welfare department recruiters are doing the best possible selling job because they are not fully informed in the Association program.

At the training sessions, membership committee members could talk over their problems and be instructed on just how to sell membership, he said.

The statewide group may come up with a detailed plan at its next meeting.

Lawrence E. Gerosa has announced that municipal civil service employees overall figure which is still "very thirty-two different classifications served July 1st to December 31st, 1955 and for approximately $12,000,000 city employees. To him over $12,000,000 Governmental and non governmental employees who will much be paid in his office it was impossible to estimate the actual cost of the payroll officials involved. He stated the payroll is being processed as rapidly as possible. The distribution was fixed as the "most practical" after a conference with the city officials involved. "We moved the date as close to Easter as possible," he said.

"The differential payroll due as a result of various months and dates on which employees submitted their proper payrolls was fixed as the "most practical" after a conference with the city officials involved. "We moved the date as close to Easter as possible," he said.

The Board of Estimate adopted a resolution on February 7 that grades the quarters of employees of the Hospitals Department. Thus no longer will such employees be required to pay their quarterly installments. The Board has fixed those installments, and where necessary in the case of employees who were not able to pay for their differential payments due to illness or other emergency, the Board has authorized a time extension of one month for these employees. The new arrangement is expected to have a favorable effect on the work of the Department of Hospitals and on the employees who have been affected.

The Mayor was surprised to hear of such a deterioration of condition of City property, especially premises used for personal occupancy, and expressed his support of such an idea if made, and if improvements were necessary, they would be made without delay.

The Mayor also showed interest when the union asked that the effective salary of living-in employees be equalized with those who live out. The Board meeting was a large delegation of living-in employees from Sea View, Farm Colony, and other hospitals, as well as from departments of several local officials. The granting of a higher pay for the employees who live in does not in any way to pay for their salary.

The new arrangements are expected to compensate between New York City officials and representatives of the Civil Service Union, Transitors International.

This is the first time the City government has equalized the effective salaries of employees in the Department of Hospitals. The first move, the union says, the union is now in a position to present a proper, fair, and effective appeal on the basis of proper appointment of salaries and maintenance. The new arrangement is expected to have a favorable effect on the work of the Department of Hospitals and on the employees who have been affected.

State Employees Need Full Health Coverage

DIFFERENCES in benefits enjoyed by workers in private industry and those employed by the State have been a frequent topic of the press, in political circles and among public employees themselves.

Almost everyone knows that the private worker has long enjoyed “fringe” benefits, as they are called, such as hospitalization, a medical-surgical plan, Social Security, adequate provisions for accidents, etc.

The difference in wage levels, at this point, is too obvious to reiterate but it does bring up this argument in behalf of the State worker — if salaries are not being increased to equalize the fringe benefits. Hospitalization and medical-surgical coverage are no longer luxury items. They are necessary.

The State now has the opportunity to provide its employees with the medical protection that the State has already provided its workers.

In his column on the public employee in The LEADER, John F. Powers, president of the Civil Service Employees Association, states the case for full health insurance coverage. The argument he presented should be given serious attention by all those concerned with the establishment of a health insurance plan.

Those who have spoken out on behalf of the public employee have made the point that the State has already provided sufficient assurance that the State has admitted all workers need.

Education Inspectors See Schechter on Pay; Emerge Full of Hope

A delegation of City Employees Union members, led by Henry Feinstein, the union's president, met with Mayor Frank D. For- stel, according to a press statement. Mayor Forstel had previously met with Mr. Feinstein outside of the presence of the press. The union had been considering the establishment of an inspection staff for the New York City Department of Education, an idea that had been floated by Mr. Feinstein. A committee of the union had been formed to explore the feasibility of such a proposal. The meeting was the first of its kind and was seen as a positive step towards the establishment of an inspection staff. The union had been advocating for the establishment of such a staff for some time, and the meeting was a welcome development.

262 Young Women Needed for Club Jobs

The Department of the Army and the New York State Em- ployees' Retirement System have announced that they are operating in a special two-week drive to re- cruit 262 young women who wish to work as secretaries and clerical jobs in Germany, France, Japan, Korea, Okinawa, and the Philippines. The cities of New York City, with the cooperation of the government of the United States of America, are involved in this drive to recruit qualified personnel. The drive is aimed at filling openings in various governmental and private agencies in the cities mentioned.

AN URGENT MESSAGE FROM THE THIRD GRADE CLERICAL EMPLOYEES

The Committees of Third Grade Clerical Employees have been involved in the ongoing attempt to obtain a fair classification for Senior Clerks, Stenographers, and Typists. As soon as this goal is achieved, we shall disband.

WHY WE DESERVE SALARY GRADE NINE

The request for Salary Grade Nine is based on objective studies of the responsibilities and duties of the senior clerical in relation to other titles in the clerical service. The money is available to meet the just demands of these faithful employees, many of whom have served their City for a quarter of a century or more.

RESPONSIBLE EMPLOYER LEADERS FIGHTING FOR NINE

Responsible employers have, with substantial clerical mem- bership, described the salary grade as the sole purpose of obtaining a fair classification for Senior Clerks, Stenographers, and Typists. As soon as this goal is achieved, we shall disband.

Harriman Sends Message to Syracuse Unit Dinner

SYRACUSE, Feb. 27.—The annual dinner of the Syracuse chapter, Civil Service Employees Association of the State of New York, was held last night at the Captains Hotel in the downtown area.

During the past year I have had the pleasure of meeting many employees personally and I feel that I understand you better than I did before the year started. I have seen at first hand the excellent work being done by public employees throughout the state and have been impressed with the high standards of its civil servants.

My interest in all matters that pertain to the civil service is a year ago I was fortunate enough to be appointed by the Governor to serve on the committee to investigate the conditions of the civil service.

During last year I have been working hard to ensure that all permanent employees are treated fairly and equitably. Many of my recommendations have been adopted, and I hope that I can continue to make further improvements in the future.

I am happy to report that this year's dinner was a great success and I wish to extend my congratulations to the members of the Syracuse chapter for their efforts.

In closing, I want to say that I am proud to be associated with such a fine group of employees and that I am looking forward to seeing you all again next year.

Yours sincerely,

Harriman

GOVERNOR'S MESSAGE

The Governor introduced the following message from the members of the Civil Service Employees Association gathered in this room today.

During the past year I have had the pleasure of meeting many employees personally and I feel that I understand you better than I did before the year started.
