Govemor Expected to Sign Cop Pay Bill; Mandate Is Likely on Social Security

ALBANY, March 25—Governor Averell Harriman is expected to sign the $18,000,000 police payroll plan approved by the Legislature this week. The 1957 session of the Legislature is expected to end not later than Saturday morning.

In a switch of terms, Miss Krone was appointed as director of the State Civil Service Employees Association. The same has been to assure equitable benefits for all employees over the two-year period. In 1958 a flat increase was allowed, which means raises ranging from 14 per cent for those in Grade 1, to lowest classification, down to 1 per cent for employees in the highest grade.

The present proposal, considered in conjunction with last year's increases, means an average raise of 12.5 per cent, over the rate paid to all employees affected. The two-year over-all increase ranges from 18 per cent for the lowest salaried to 2 per cent for the highest salaried.

Although the increases would be effective April 1, it is estimated that three months would be required for complete adjustment of personnel in the pay procedure. Employees would be paid at normal salary rates until the first payday in July, at which time they would receive an extra check for their accumulated increases.

Reduction of Hours

The reduction of working hours for employees is estimated to lay off 44,000 employees in state institutions, whose work week would be cut from 40 hours to 35, with no loss of take home pay.

The state budget already approved for the current fiscal year would provide for some department and agency heads and employees in excess class positions. The two latter groups would be raised in the same proportion as would those in the classified service.

The bill pay bill has been "wholeheartedly" endorsed by the Civil Service Employees Association, which represents the major clients of the Government's programs. The bill led the fight for a salary increase in the state this year.

The Salary Plan

Almost all state employees would benefit by the Republican plan, including all classified workers in the State's 38 salary grades as defined by department and agency heads in employees in excess class positions. The two latter groups would be raised in the same proportion as would those in the classified service.

The plan is to be effective April 1, 1957. The bill has been held by Mr. Behringer, the Republican leader, who is chairman of the Labor Committee of the Senate. The plan is expected to be enacted by the end of the year.

The state's courts have ruled in the past that workers in non-policy-making posts have protection against job loss, even when changes in the state government's policies make them unnecessary.

TROOP K TO ADOPT A CONSTITUTION

TROOP K of the Division of Military and Naval Affairs is planning to go to Haiti to prevent any out of his $9,000,000 exempt state post.

The employees, Joe L. Behringer, district administrator for the Albany Office of the Board, has retained the Albany law firm of DeCarlo, Foy, Connolly and Holt-Harris. Mr. Pearson, who made the necessary arrangements for the meeting, is director of the Civil Service Employees Association.

The bill authorizes additional state employees to be paid at normal salary rates until the first payday in July, at which time they would receive an extra check for their accumulated increases.

Miss Krone Reappointed To Post

ALBANY, March 25—Miss Mary Goods Krone has been reappointed to the State Civil Service Employees Association.

In a switch of terms, Miss Krone was appointed to succeed William H. Morgan, who retired from the position in 1959. Mr. Morgan was then, in turn, appointed to position vacated by Miss Krone.

The political switching gives Mr. Morgan a new appointment for two years and Mr. Morgan a new five-year term.

The chairman of the 13-member board will continue to receive a salary of $17,000 a year.
Public Administration

If a city wants real enforcement of its housing or building code in the battle for maintaining decent community standards, an inspection team of experts drawn from various departments may be the answer. Chicago, Ill., and San Diego, Calif., the National Association of Housing and Redevelopment Officials, various cities have adopted this practice, and Minneapolis is considering it.

Chicago has enforcement of its new housing code under way with a team of eight. The team includes a senior sociologist, a housing bureau chief, two firemen, an electrical inspector, a health department representative and two attorneys from the office of the corporation counsel. The attorneys help prompt legal action against violators.

Housing needs of the aging were emphasized in legislative messages of the legislatures of New York, Iowa, Connecticut and Massachusetts, which does.

— a state now without a public housing law—asked for powers for cities to use federal public housing aid for the aging. The New York and Connecticut governors adopted the same funds for middle-income housing for the aging. Michigan's governor has recommended appropriations to enable the state to build pilot housing projects for the aged and for low-income families.

**Safety Device Brings $200 To Barge Canal Worker**

ALBANY, March 25 — A $200 suggestion award went to a State Barge Canal employee for the invention of a safety device to prevent the damaging of generator armature of the vertical generator water wheel units. The cost of repairing each armature damaged by oil is about $600 each. The suggestion award was presented to Vivian R. Wanei, 20 Plandreaux Avenue, Glen Falls, who is employed as a canal electrical supervisor and is a member of the Psychiatric Institute chapter.

A unique feature of the program will be a discussion and demonstration of group counseling methods in a prison setting. Norman Frison, Ph.D., deputy director of the Industry Recovery Board, will be the guest speaker at the Correctional Psychiatric Institute meeting.

**Bendet Speaker at Psychiatric Institute Meet**

ALBANY, March 25 — A joint meeting of the Correctional Psychiatric Institute and the Civil Service Employees Association was held on March 25 at the Commonwealth and Elmhurst Hospitals. The meeting was attended by 200 persons, including members of the civil service and the Psychiatric Institute chapter.

**Heard By Pay Report Employees**

Sol Bendet, president of the New York City chapter, Civil Service Employees Association, spoke on the proposed salary increase for State employees, Social Security and health insurance. He also introduced a bill to create a mental hygiene institute to study and treat mental hygiene problems. The new attendance rules were discussed at length by attending members.

**Mental Hygiene Service**

Full and part-time psychiatric services are provided to the Department of Correction by the Mental Hygiene Institute. At the present time, 24 psychiatrists and 19 psychologists, plus nursing, technical and clerical personnel, are serving the correction institutions. Full-time psychiatric services are also available to the officers of the New York Police Department, the New York City Fire Department, and other public officials. Other services are on a part-time basis.

 Prevailing Rates in Peril

I NSTEAD of public employees being deprived of their present benefits under the prevailing rate provision of the State Labor Law, as would occur if a bill before the Legislature is adopted, broader application of the law should be the rule.

The law now provides that workers, laborers and mechanics in construction or maintenance of public works shall be paid the rates prevailing in local private industry. Thus not only do such employees of private contractors working on construction and maintenance for New York City, for instance, receive such rates, but so do employees of the City itself. The bill would let the protection stand for employees of private contractors, but deprive City employees of the same benefit. An employee of a private contractor would be paid a different rate (a higher one, you may be sure) than the City employee who works beside him doing exactly the same tasks. This is discrimination with a vengeance. It is also a hardly consistent with a basic policy of equal pay for equal work.

The Larger Undertaking

Employees of New York City, Buffalo and other cities must amass a wealth of statistics before they can obtain the prevailing rates they seek, but, at least the information relative to the generally applicable proposals is:

State employees no doubt are entitled to the same benefit, but difficulty arises because State employees in those occupational groups often are assigned to one location after another. Thus varying prevailing rates, depending on location, would have to be researched, a more complex undertaking. However, given the means of ascertaining the rates here, there and everywhere application of the law to State employees would become practical, which some day may come true.

Bill Should Be Defeated

The accomplishment would involve a special project, and some expense. However, no large group of employees has benefited so much on such pay scales as those receiving the prevailing rates under the Labor Law or who, fortuitously, as a by-product of a longer, more involved bargaining position, have managed to acquire agreements—actually contracts—for annual wage, and waived rights under the Labor Law.

Not only would prevailing rates be imperilled for the future, but so would the employees’ bargaining position in contract negotiations should the bill be enacted. It must be defeated.

Time For Compliance

T HE New York City Administration now has enough decisions against it on the score of working members of the uniformed fire force out of title to see that the new budget provides for ending the practice. The quota of officers should be increased to the full extent necessary to effectuate this long-delayed act of justice not only to the fire officers and women but to the people of the City as well.

The latest form of judicial instruction on this point is the unanimous decision of the Appellate Division, First Department, affirming Special Term of the Supreme Court that held the practice to be illegal. The Court of Appeals had held it to be illegal. In the latest case firemen assigned to lieutenant duty were not even on the lieutenant eligible list, so that had not qualified, even by written examination, for lieutenant duty.

The more decisions against the City on this point, the more indefensible the City’s persistence. Now it has become more than a mere matter of administrative policy, for it is one respect of law.

Urban League Drive

Mayor Robert P. Wagner proclaimed the week of March 18 as Urban League Week, officially recognizing March as Urban League Month. A meeting sponsored by City civil service employees was held recently at 30 Centre Street, Manhattan. Prin- cipal speakers were Attorney Bruce McWright and Special Sessions Judge Myles A. Paige.

The Urban League, constitutes a non-political, Interracial civic organization which seeks equality of opportunity for minority groups. Former U.S. Senator Herbert H. Lehman is honorary chairman.

Puerto Rican Assn, Expands Its Activities

Thirty members were added by the Puerto Rican Civic Service Association in its membership drive. A new meeting of the association, Eddie Martinez, the newly elected president, replying to a question of "Dia de la Amistad," or Friendship Day.

The forum of the University of Puerto Rico gave a concert at Carnegie Hall under Augusto Arias.

The educational committee, under the direction of Juan Trujols, announced that several members were materialized in the New York University School of Police Administration for federal employees and that Federico Robles, one of the students on a course, will be a member to all members.

PUBLICITE COMMITTEE REPORTS

The publicity committee reported that the Puerto Rican Heritage, Committee, an international one, is planning a festival for a tribute to Adela Martinez García, a Puerto Rican born during Independence Week by the Jewish Forum and the Institute of Puerto Rican as the symbol of Hispanic charitable heritage.

Anna Cruzdor and Joseph Rodriguez, the committee's prime minister, have prepared a program for the rite of recognition.

The committee, at a meeting with Lourdes Marin Garcia, Commander of Puerto Rico, and Augusto Arias, National Secretary in New York City on April 15, in connection with the Puerto Rican Association.

Spelling to Office

Antonio Ramos, a supervisor in the New York post office for 10 years, was transferred to the Regional District Office in Puerto Rico as the secretary in charge of the association.

An organization represented by the Educational Association is collaborating with the Rev. J. W. Wilson on behalf of the students, to attend the beer of Saint John the Baptist, from a quarter of Puerto Rico. Cardinal Spellman is on the faculty of the school.

Many notable from Puerto Rico brought the suit, who are to be present.

The committee to greet Luis M. Llarranaga, President of Puerto Rico, and to have Ambassador to India, who are the place of the踦 of the League of Industrial Democracy, Puerto Rico, in connection with the ceremony.

HARRIMAN COMMENDS ROCHESTER STATE STAFF

By A. J. COCCARO
How To Bake Without Dough

Just ask any housewife if one can bake without dough and the answer will be: "No!"

Equally important is the amount of dough used in making a pie, a cake or a loaf of bread. How much dough is used in making a half a loaf of bread? Did you ever try selling half a loaf of bread?

Our skilled employees in the kitchen of this institution, where many skilled workers in industry could miss 16 weeks' work or a tour of Europe, do not get enough dough (8) for the bread, cakes and pies they are baking.

Their starting salaries are assistant baker, $35 per week and baker, $45 per week. Compare this with bakers in organized private shops who earn in the $1,000 and hand bakers, $100 per week, and packers and porters $75 per week.

All skilled workers in our institutions earn less than those in private employment in related research areas. Where many skilled workers in industry could miss 16 weeks' work or a tour of Europe, we do not get enough dough for the bread, cakes and pies they are baking.
