Ensuring Upgraded For Institution Patrolmen

ALBANY, Nov. 11.—State Correction Commissioner Thomas McHugh has recommended that institution parolees at Matteawan State Hospital, Albion State Institution Patrolmen, and Wan State Hospital, Albion State Hospital, should be removed from the parolee lists. The last Wednesday, the leader had learned.

His recommendation to State Director of Correction and Training Compensation Earl J. Kirby supports an earlier recommendation made by the State Police Association on such reallocations.

This is the second such upward reallocation sought by Commissioner McHugh for institutional parolees. Last week, the leader reported the Correction chief asked that Correction Officials be upgraded.

Also asked that mates be replaced at the beginning of the year, the leader noted the upgrade for the CBED.

Unpaid Researcher

Leaving U.S. Service; Trainee, Had Failed

BY PETER ALLISON

Sputtering over Sputnik goes on in every field, with every agency in every field. The same sentiment of a 48-hour week is one of the objectives of the State Police.

Mr. McHugh has recommended that parolees at Matteawan State Hospital, Albion State Institution Patrolmen, and Wan State Hospital be removed from the parolee lists. The last Wednesday, the leader had learned.

His recommendation to State Director of Correction and Training Compensation Earl J. Kirby supports an earlier recommendation made by the State Police Association on such reallocations.

This is the second such upward reallocation sought by Commissioner McHugh for institutional parolees. Last week, the leader reported the Correction chief asked that Correction Officials be upgraded.

Also asked that mates be replaced at the beginning of the year, the leader noted the upgrade for the CBED.
A Disappointed Group

Many of the men and women who carry on government research and development today are the remains of a corps of government scientists who just couldn't afford to leave their jobs. They are a demoralized, underpaid, overworked, harried group of men who started during the war years with a great enthusiasm for working for Uncle Sam and now wish they hadn't. Nine out of 10 engineers for Uncle Sam and now wish they hadn't. Nine out of 10 engineers for Uncle Sam and now wish they hadn't. Nine out of 10 engineers for Uncle Sam and now wish they hadn't. Rockland Halloween Costumes Tell Plight of Civil Servant

The eerie "other world" atmosphere created by the imaginatively costumed guests at the annual Halloween masquerade party given by the 25-Year Service Club at Rockland State Hospital gave way to a real world reality after the costume judging, when masks were doffed, the people behind them were recognized, and a variety of realistic costumes were stared at in amazement.

One of the most original costume worn by couples went to Lillian Ward and Mary Roby, a live cow and calf. "If the bull gets too friendly," one of the guests commented, "we'll just kick him back into shape with the cow's hoof!"

Community of Retired Civil Service Employees Planned by Developers

A community of retired civil service employees is being planned in a private community named Port Charlotte, located north of Miami. It is being developed by the state of Florida, and is to be ready for occupancy by 1959. The community will be named after the late Senator F. E. P. Frankel, who was a prominent member of the Florida legislature. The development is being financed by the Florida Development Corporation, and is to be located on the west coast of Florida, near the city of Bradenton.

The community will be designed to accommodate a large number of retired civil service employees, and will provide a range of facilities, including housing, recreational facilities, and educational programs. The development will be located on a 500-acre site, and will provide a total of 1000 units of housing.

The community will be managed by a board of directors, which will be responsible for the overall operation and management of the community. The board will be composed of representatives from the Florida Development Corporation, the Florida Retirement System, and the Florida Department of Housing and Community Development.

The community will be open to all retired civil service employees who meet the eligibility requirements, which include having worked for a minimum of 20 years in the civil service and having accumulated a sufficient number of pension credits. The community will provide a range of services to its members, including a retirement planning center, a health clinic, and a recreational center.

The development is expected to be completed by 1959, and will provide a unique opportunity for retired civil service employees to enjoy a retirement lifestyle in a safe and secure environment.
**The Pound-Foolish Policy**

**GOVERNMENT** by personnel ceilings has always proved a fiasco, and the present is no exception. By that method a certain limit is put on the number of employees on the payroll, regardless of the needs of public service.

The public is demanding more and more service of government, better and better protection, and stricter safety measures. All these factors, and others, combine to make government grow. War greatly expands the Federal government, but the Secretary of State would not have to admit that the Russian genius level, the type that constitutes the bulk of not only government employees but of people everywhere.

Secretary of State. His pay to the required level, is to reopen examinations, which are cases in point. It does not get a satisfactory answer.

The beginning salary may now be $1,200? J.J.

How can I be sure that the company I plan to join will withhold Social Security coverage? I have been with the company for more than two years, and my earnings do not exceed $1,200. My wife's annual income is $2,000. Must the company withhold Social Security tax on my earnings? P.V.O.T.

The employer is required to pay the tax regardless of your year. Your employer deducts the Social Security tax out of your pay and sends it to the Social Security Administration, Baltimore, Md. A statement of your Social Security benefits will be mailed directly to you. If you discover an error, contact your nearest Social Security district office.

I worked for a secretary, who was told by a Social Security examiner that I owed the government $1,000. My husband was the only person employed in the office. How can I correct this error? ERANGES EMINENT DOMAIN

Instead of putting as much money into a project as it deserves and commands, the government too often sees fit to exercise what it seems to feel is its peculiar right to make a point of voting. The effect is negligible, the effect of an overwhelming affirmative vote important.

The beginning of Social Security benefits to those of the respective retirement systems is a big advantage to my ages. While the coverage will require them to pay tax, including tax for the refractory period, they should not forget that the employer will pay an equal amount. In this instance it can be truthfully said that the employee learned in the liberal direction.

Federal Employees Cited

Examples of what is happening in the Federal government will be found in the special article appearing on page 2 of this week's Leader. While the citizens of the United States have emphasized the status of the Federal government, it is important to remember that the Federal government is doing the same thing now concerning examination. It does not get a satisfactory answer.

How to Compute Your Social Security Benefits

The amount of Social Security retirement benefits payable to you is determined by the average of your highest 3 of 5 years of earnings which are taxed by Social Security during the period to which you are entitled under the Federal law. The amount of Social Security retirement benefits payable to you is determined by the average of your highest 3 of 5 years of earnings which are taxed by Social Security during the period to which you are entitled under the Federal law.

Public Jobs That Require
No Experience At All

Examinations now open for re-
erctions. They are in two groups:
1, neither experience nor training is demanded ("qualified" being
herein "educational" education
2, training is acceptable in
Interchangeable with "educa-
tion"); 2, training is acceptable in

An example of the type of job
for which neither training nor
experience is required is bridge
and tunnel officer, New York City
Bridge and Tunnel Authority,
whose experience is considered
the top of the grade, attained
through annual increments. The
work is largely that of a toll
collector.

Education Factors

Where training is a require-
ment, even though no experience
is demanded, the minimum is
a grammar school graduation, a
rare inclusion, while a senior high
school diploma is becoming more
and more often a requirement for
other jobs, and of course a col-
lege degree is a standard require-
ment for various types of tech-
ical, professional or scientific
jobs. An equivalency diploma sat-
sifies the senior high school di-
ploma requirement in any case.

The Federal service examina-
tion for jobs starting mostly at
$3,500-$5,300, the lower Is the
status Is attained in the perma-
nent Job at $4,770, rising to $5,-
900 through annual increments.
The other jobs mentioned are

Albany Tax

Tuesday, October 29, 1957 was Tax Chapter night at the Polio Committee Community Center. Over 400 members and their friends at-
tended and believe it or not, it was free.

A name band with a girl singer, valuable door prizes, fortune telling, novelties, novelties, refreshments and other items of interest were the main events of the evening.

Bill Powers, President, Harry For, Treasurer, Frank Casey, Field Representative and old members and the Association were greeted and had a great time.

George Hayer, one of the insti-
gators of this affair unfortunately was ill and unable to attend, but kept in close touch with proceed-

ings during the night by telephone.

Field Representatives and other officers of the organization attended and had a great time.

Questions And Answers On Health Insurance

This week The Leader continued a column of questions and answers on how to aid State employees in understanding the new State health insurance plan and its options. Questions of general interest will be moved to the columns of this newspaper. Persons writing direct answers must enclose a self-addressed, stamped envelope. Mail all your questions to the "Health Insurance Editor, Civil Service Leader, 97 Duane St., New York 7, N.Y."

Questions and Answers

I am presently covered by Blue Cross and Blue Shield under a family plan. I elected GHI under the new State plan. However, my wife is now pregnant and I would like to know whether or not she will be covered under my old policy with Blue Cross and Blue Shield.

The GHI option includes the new Blue Cross coverage which will provide $75 toward the hospital expenses for maternity care. However, you have elected another option, no Blue Shield benefits from your old policy will be available to you after December 31 for this pregnancy.

The booklet we received referred to several "schedules" without printing any. Will you please give us these so that the insured may know what the allowances will be.

The current fee schedule may be inspected by any employee in his personal office at any time. These schedules include fees for surgery, doctors visits, anesthetics, radiation therapy, obstetrical care, X-rays, laboratory tests, etc.

Is surgical care rendered by the duly licensed podiatrist in his office covered under Blue Cross and Blue Shield?

The surgical care rendered by a duly licensed podiatrist in his or her office is covered under Blue Cross and Blue Shieldcoty

About 100 members of the Schenectady chapter of CSEA, attended a buffet supper and dance at the Elks Club, Schenectady. President Jerry Zink and Frank Casey, field representative of the CSEA, outlined the purpose and accomplishments of the CSEA, and the purpose and accomplishments of the Association. From left, Mark Delaney, past president of the chapter; Mr. Zink, Vernon A. Topper, 3rd vice president of the Association, and Mr. Casey.
Question, Please.

I am unhappy in the department as a cleaner on an annual basis. I want to transfer to another department or have medical leave. I would have to get the approval of the State Health Commissioner. The delay in determining a correct title has been chronic. Is the purpose of signing under protest? If any, what are the rights are usually considered in law as being waived.

HOSPITAL HEAD APPOINTED
ALBANY, Nov. 11 — Dr. Seymour S. Blumenstone has been named director of the State Reformatory for Women in recent years. Blumenstone was born in Geneva, N.Y., and has been teaching at the University of Vermont, where he has held various positions.

In its annual report on membership in the Civil Service Employees Association, Vito J. Ferro, executive secretary, and the membership committee, told delegates to the CSEA's annual meeting last month that the membership had surpassed its goal of 70,000 members for 1957.

Last year—over 28,000 members plus the sum of the allowances, Mr. Ferro said.

Report to Delegates

In his report to delegates Mr. Ferro declared:

"The total paid membership in the Civil Service Employees Association, Inc., as of September 9, 1957, was approximately 70,000. This includes 15,000 members on payroll deduction temporarily off the payroll, which is paid on the same date a pay increase is due—or an increase during the year of 17,769.

"In the State Division by payroll deduction totals $6,117, plus direct payments of $8,692, in addition to 47,000 members last year—an increase in the State Division of 17,769.

"Paid membership in the County Division for the year ending September 9, 1957, compared with 11,346 for last year—an increase of 412.

"Headquarters has polled State Division members who made direct payments for the year just closed and urged conversion to payroll deduction of dues and the response is very satisfactory. A high percentage of the members who paid direct last year will convert to the payroll deduction arrangements during the new year.

Active Committees Urged

"President Powers has urged all chapters to establish active, effective Membership Committees and Headquarters has recently furnished our membership with material for a complete membership canvass to secure the support of all eligible employees. Through use of machine accounting equipment recently installed at Headquarters, a more accurate record of State Division Chapters will be furnished with payroll deduction authorization. I will be happy to help each member-which will require only the signature of the employee to consummate CSEA membership.

"County Division membership renewal bills will be sent to all members except those in political subdivisions where payroll deduction billing is already arranged. Headquarters has furnished all chapters with information relative to the establishment of payroll deduction of dues arrangements in these various political subdivisions. Each chapter in securing a canvass of all eligible employees where payroll deduction is available should use material furnished by the State Division headquarters and establish complete material for the membership canvass. This has also been done in all County Chapters.

"The statewide Membership Committee met several times during the past year. Recommendations of the membership committee were made to each chapter president and have been published in the Civil Service Leader.

Personal Touch Needed

"Through years of experience, the only tried and proven method of increasing membership strength is through personal canvass of non-members and of delinquent members, bringing to their attention the membership program of CSEA. This personal canvass can only be thru a combination of the Chapter Membership Committee, composed of a member in each unit of the Chapter. Each member of such committee should be responsible for canvass of more than 40 members.

"As the last Annual Meeting this committee set a minimum goal of canvass of its membership by September 12, 1957. This goal was exceeded—in fact during the year growth exceeded 17,769 members. Progress has been good. In the State Division our Chapter Membership Committees will be relieved of the burden of membership renewal of those on payroll deduction, but they will continue to conduct canvass or, a total goal for the coming year of 100,000.

"Membership is Influrnce

"In our membership drive, so will CSEA influence and ability to gain fair and just improvements for the employees of the public employees our organization represents.

"The Membership Committee thanks our Chapter Officers, Membership Committees and Convention Officers for their efforts and cooperation, also our head- quarters staff—with their cooperation it is believed that our membership would not have grown to its present strength.

Two Top Health Dept. Posts Filled

ALBANY, Nov. 11—Two key appointments have been announced by the State Board of Health in this state.

Dr. Arnie M. Driscoll is acting commissioner of the Division of Materials and Child Health and Alexander Riph, Jr., as executive secretary of the Air Pollution Control Board.

Dr. Driscoll replaces Dr. Alfred Yankauer, who has been granted a leave of absence to serve with the World Health Organization as a medical officer in India. His salary will be $12,920 a year.

Mr. Riph has served as acting executive secretary of the agency since July 1957. He will receive a salary of $11,920 a year.

Dr. Driscoll will head the department bureau, which acts as advisor on health programs affecting mothers and children. He cooperates with local health departments and state agencies in establishing programs aimed at improving the health of mothers and children. Dr. Driscoll has served as assistant director of the bureau since 1956. He is a graduate of New York University College.

The Air Pollution Control Board was established by the Legislature in 1957 and is charged with the responsibility of safeguarding air resources of the state.

Mr. Riph first entered state service in 1929 when he was appointed a junior sanitary engineer by the Department of Health. He is a graduate of New York University.

HARRIMAN APPOINTMENTS

Harriman Nov. 11—Governor Harriman has announced the following appointments:

Mr. Charles A. Nonche on the Board of Trustees for the Dutchess County Community College and the City College is established. Complete material for the membership canvass has also been sent to all Chapter members.

"The statewide Membership Committee met several times during the past year. Recommendations of the membership committee were made to each chapter president and have been published in the Civil Service Leader.

Personal Touch Needed

"Through years of experience, the only tried and proven method of increasing membership strength is through personal canvass of non-members and of delinquent members, bringing to their attention the membership program of CSEA. Who Can Join CSEA?

Anybody At Anytime

Headquarters of the Civil Service Employees Association receives inquiries concerning who is eligible for membership in CSEA and as to when an employee can join.

Any employee of the State of New York, or any political subdivision thereof, including counties, cities, towns, villages, school districts, water districts, etc., are eligible for membership in CSEA.

THEY CAN JOIN CSEA ANYTIME.

Any State employee or political subdivision employee (where the payroll deduction system is in operation) can join CSEA, as the State of New York, or any political subdivision thereof, including counties, cities, towns, villages, school districts, water districts, etc., are eligible for membership in CSEA.

Join the Civil Service Employees Association, Inc., to secure these improvements in your career during the coming year. Work through your chapter for a better tomorrow.

40-hour Week with no loss in take home pay

A true increase in salary, in addition to Better retirement.

As the Association grows, so does your future. Last year, through the work of CSEA, public employees gained Social Security, health insurance and a reduction in work time. As the Association expands, so will the opportunities for CSEA members.

More than 75,000 public employees are now members of the CSEA. Join this army of workers to fight for the future.

Contact any member of a CSEA chapter in your institution and let him tell you how you can work for a better tomorrow for yourself, your family and your job for only 15 cents a week.
