CSE Special Mental Hygiene Committee Meets With Dr. Hoch On Institution Problems

The Special Mental Hygiene Committee of the Civil Service Employees Association met with an executive of Mental Hygiene Feb. 11 to discuss problems affecting the employees of the Department's mental institutions.

William Rossetter, chairman of the committee, was accompanied by members Jack Cotile of Pilgrim State Hospital, and John Cogswell of St. Lawrence State Hospital. Also representing the CSEA were Joseph Foley, first vice president, Homer Altschul, assistant counsel; Joseph Lochner, executive director, and P. Henry Baldwin, salary research analyst.

The Mental Hygiene Department was represented by Dr. Paul Hoch, Commissioner of Mental Hygiene; Dr. Arthur Pense, Deputy Commissioner; and Margaret Farrar, Deputy Commissioner of Personnel Administration; and Margaret Farrar, Director of Publications and Public Relations.

Progress on Agenda

The conference reported good progress was made on the following agenda: 1. Secure departmental support for more adequate promotion arrangement for attendant positions. 2. Cooperation between CSEA and Department on prevention of longer work week for institution teachers. 3. Increase in number of staff attendant positions. 4. Revision departmental support for more adequate staffing of wards which have become understaffed because of recruitment failure or lack of additional positions to establish the shorter work hours being done on a part-time basis. 5. Discuss possibility of creation of second charge position to enable adequate compensation for employees who relieve the supervisor. 6. Secure support of department on proposal for time and a half for overtime. 7. Creation of 5-day, 40-hour work week for employees of split shift where it exists. 8. Reconsideration of population status of particular wards in various institutions. 9. Pleading employees with gashes, cuts or bruises allowances for operation of their personally owned cars as necessary within the institution grounds in performance of duties. 10. Seek support of departments for the improvements of Attendance Rules as recommended by CSEA to the State Civil Service Commission. 11. Secure departmental support for permanent parking for employees of institution office personnel. 12. Secure departmental support for pay differential for evening and night work shifts. 13. Secure departmental support for Wards which have become understaffed due to a larger than anticipated staff retirement rate on 25-year retirement.

Subsidy or Rentals Seen As Solution to Capitol's Heavy Parking Problem

ALBANY, Feb. 17 — The Legislature has the alternatives, if it wants to solve the State employee parking situation on Capitol Hill. But the question is, can the Legislature solve the problem on Capitol Hill?

(1) To create a State Parking Authority to build and operate parking facilities on a self-sustaining basis. (2) Approve state—subsidized parking for employees. Both plans have been proposed before by the lawmakers by Assembliesmen John Noonan, as a part of their plan to reduce the State's rent and print number 482. Assembliesmen Robert O. Main, Franklin County Republican, is still in committee with this plan, as well as other police officers and other State employees do.

Advisory Board of the CSEA would necessitate a large increase in the number of State troopers. Mr. Main pointed out that such an increase has been called for by the Governor and the Legislature. He added: "The cry that there are not enough troopers to accomplish this is a farce."

State troopers now work more than 100 hours a week under normal conditions. All other State employees work a normal 40-hour week, except institutional employees, whose hours are expected to be reduced to 40 a week this year.

ALBANY Hearing Set On Retirement Bills

ALBANY, Feb. 17—Assemblyman Malcolm Wilson, chairman of the Joint Legislative Committee studying the Employees' Retirement System, announced today that a public hearing on the retirement bills sponsored by the committee, and bills introduced at the request of the New York State Employees Retirement System, and other bills in which the committee is interested will be held in the Assembly Parlor, on the third floor of the Capitol, on February 28 at 2 P.M. All persons interested are invited to attend.

Letter - Writing Campaign On Public Service

Public service employment throughout the State have begun pouring letters to legislators asking their support for better wages this year. The Leader has learned.

The Civil Service Employees Association has introduced a bill in the Legislature calling for a reduction in the rate of the automobile—take-home pay for all State employees. Senator Haskell and Assemblyman William Grenier are sponsors of the bill.

County employees also are writing urging the Governor's approval of a bill that would allow political subdivisions to pay employees for accumulated leave and overtime when leaving public service.

Gov. Harriman Gets Bill Allowing Subdivisions To Pay Aides For Unused Overtime and Vacation

ALBANY, Feb. 17 — A bill allowing political subdivisions to pay employees for accumulated leave and overtime upon separation from public service has been passed by both houses of the State Legislature and is before Gov. Averell Harriman for approval.

John T. DeGriff, counsel for the Civil Service Employees Association, which endorsed the legislation, has already written the Governor's office urging that the bill be approved. The bill was introduced by Senator Wise and Assemblyman Wilson.

Employers of the CSEA are continuing to push its program to improve the merit system and work conditions for local employees by a series of bills now before the Legislature.

Introductory in date are innumerable bills designed to establish salary schedules and a maximum 40-hour work week, create local preference machinery; obtain pay-

The New York State Employees' Retirement System has issued a condensed explanation of the new age-55 retirement plan and urges all employees, who have not taken advantage of it, to do so at once. The explanation is at pains to clear up points that have been bothering members of the system. Particularly stressed is the advantage gained after one reaches age 55, since under the new plan service after that age is creditable. Under the old age-55 plan it is not.

A significant benefit under the new plan is larger pension. Also to make the total retirement allowance larger, further contributions to annuity is made possible. This is an opportunity for the member, since with the employer-paid pensions increasing, the annuity, if possible, should be brought to par with it, to avoid dis-appointment with the amount of allowance at retirement time. This disappointment arises often from the mistaken notion that half-way retirement is assured by the employer. The pension part is assured by the employer, based on final salary and length of service, but the annuity part is the responsibility of the employee.

The extent to which the purchasing power of the annuity part of the pension grant is the so-called deficiency and arises from the fact that the final average salary, based on five years, is larger than the average salary for all the years of service which governs the annuity. As the explanation points out, the member should welcome the opportunity to reduce any deficiency; for he is thus saving the best available time by which he can make his retirement benefit even larger.

The amount of the retirement allowance is reduced by the ex-

ication of any option whereby the member does not seek protection for himself alone but "elects" to share it with beneficiaries. Such an "election" simply expresses a choice.

The Retirement System's explanation, issued at the direction of Commissioner Arthur Levitt, head of the system, follows:

The new 55-year plan (Section 611-a, which was added to the law in 1957) will be open to all present members of the System after March 31, 1958. While many members of the System have already filed their elections to be covered by the plan, a number of members have not availed themselves of this privilege. We urge all members, who have not yet taken advantage of this beneficial law, to do so at once. The employee will be required to have a year's service before age 55 under the new plan. The leader mentions what they are likely to begin their long-awaited long-expected retirement. It is expected to take several measures.

Move Starts in April

Hours of work for employees in the new building will be 8:30 A.M. to 4:45 P.M., with 45 minutes off for lunch.

Department officials report that if the schedule does not work out satisfactorily, it will be "open to change." A new canteen is being opened on the campus this week to serve State workers. Hot lunches will be served, priced from 40 cents to $1.

Campus Site Dedication Set For 75th Birthday Of Civil Service Law

The New York State Civil Service Department will hold a ceremony on March 22, 1958, marking the 75th anniversary of the signing of the first Civil Service Law, and celebration of the 75th anniversary of the first Civil Service Law will be held at an open house at the State's new Civil Service Department building here.

Accountant Bill an Insult

OUR attempts have failed, over the years, to discriminate against accountants and auditors employed by Federal, State or local government. The measures would provide for enrollment but exclude those who are not certified public accountants.

That unbroken record must not be taken as assurance that the present companion measures will die a natural death. If the measures are to be killed, the killing must be done through the efforts of public employees.

The Society of Municipal Accountants, consisting of employees of all three branches of government, is urging all its members to write to State legislators, strongly urging that they are being treated as second-class citizens. Either measure, if enacted, would deal them a worse blow. It would constitute an indictment of the skill and competence of accountants and auditors employed by any unit of government. A worse insult could hardly be imagined.

In legislative practice the time to kill a vicious law is before it is born.

THE MENTAL HYGIENE COMMITTEE

APPROVES UNITY FOR HIGHER PENSIONS

I was a member of the Civil Service Employees Association and retired about six years ago. I am also a member of the Fever Institute Retired Employees' Association. I would think that any pension is so low that it is impossible to live on. I am not as old as your writer says, and I think, if more of us write, you will find that we are kind of old for the "job."

I agree with Joseph Lewis who wrote in the Leader that we pensioners should organize so that we can get pensions large enough to meet the living costs of today. It is utterly impossible to live on what we receive. LEO C. NAHMIAS

SOCIAL SECURITY

Credit for Service in the Armed Forces

IF YOU PERFORM active duty for training as a member of the armed services of the United States after May 16, 1954, you will be entitled to count toward Social Security protection for you and your family. Your base pay for this duty will be added to your Social Security record in the same way as your other earnings from work covered by the Social Security Law.

Your share of the Social Security tax for your old-age, survivors, and disability insurance protection will be deducted from your military base pay just as in the Social Security tax of a civilian employee. The amount you pay as Social Security tax is the same as for any other income so that you are not made any less comfortable.

If you were on active duty in the military or naval forces of the United States during the World War II period September 17, 1941 to December 7, 1944, or the post-World War II period July 26, 1945 through December 31, 1950, you may be eligible for Social Security wage credits of $1,400 for each month of this active duty, provided your discharge or release was full or honorable and for unbroken service in the Armed Forces of the United States.

Ruthless Economizing Is a Vice, Too

THE ROUND of injunctions by chief executives against the filling of any jobs except when absolutely necessary has an air of the ludicrous. One would suppose that all these years government has been in the hands of the crooks.

President Eisenhower has told his aides spread such word throughout Federal departments, Mayor Robert F. Wagner has done the same in the New York City government. The fact is that Government, Avell Cornell Harris is not to be blamed because the needs of the service control the number and kind of employees required. Any off-the-cuff legislation could just as well affect the public service that it requires and is willing to pay for, as intent to economize.

First Resort Is to Be Arbitrary

The need to economize in government is ever present, but from recent attempts by chief executives one would think that it is in Business having fallen off a little, a time might appear ripe for getting catted. Even the highest public official in the land does not escape this way of thinking.

While all government projects have been manned, and all persons who favor few or enlarged activities are asking an increase in the number of employees, nobody has been heard to argue that government should hire more employees than it needs. Profligate government can get into financial difficulties just as readily as private enterprise, even though government has the taxing power.

Questions and Answers
On Health Insurance

I am employed by Westchester County and belong to Blue Cross and Blue Shield. I have just moved to another office within the office building. My health insurance policy covers the health services of the new office, but does the policy cover the services of the old office, except for one thing. I will not be receiving a check from any other benefits plan until I have exhausted my benefits. I have no information as to the procedures for filing a claim for the new office. Will the new office pay the premium for my care?

You will be paying the premium for your care at the new office. If you are employed by the Metropolitan Life Insurance Company as a health insurance employee, you will have to make arrangements to have the premium paid by your employer.

I have enrolled for family coverage under the Statewide Plan. Is it possible for my children to be covered under Blue Cross and Blue Shield?

Yes, the major medical coverage under the Statewide Plan is provided by the Metropolitan Life Insurance Company for you and your dependents.

I have been enrolled in the State Health Insurance Plan for 10 years. Can I now change to Blue Cross and Blue Shield?

In order to change from one insurance plan to another, you will have to make arrangements to have the premium paid by your employer. If you have a retirement plan, you will have to make arrangements to have the premium paid by your employer.

I am a State employee and covered individually under Group Health Insurance. My husband is covered by the Plan and I am covered under Blue Cross/Blue Shield. If I were to retire and my husband were to continue coverage under the Plan, would he be able to get Blue Cross/Blue Shield?

Yes, you may continue your coverage and your husband may continue his coverage under the Statewide Plan.

I have been enrolled for family coverage under the Statewide Plan. Can my husband be covered under Blue Cross and Blue Shield?

In order to change from one insurance plan to another, you will have to make arrangements to have the premium paid by your employer. If you have a retirement plan, you will have to make arrangements to have the premium paid by your employer.

I have been enrolled for family coverage under the Statewide Plan, and I have just received a card that does not show anything about my dependents. Can you tell me why?

This information may have been lost or may not have been properly entered on the computer tapes. You will be notified when your information is available.

Social Security Questions Answered

(Continued from Page 6)

In general, you do not get Social Security wage credits for one period simply because payments based in whole or in part on the same period are payable by a Federal agency (except for income payments made to a dependent of a deceased worker). Thus, if you have active military service after January 1, 1941, and you retire pay from your service department based on that service, credits for military service be- tween January 1, 1940, and January 1, 1941, will be based on wages in civilian employment during the intervening period. (This presumption has been made only for the benefit of the deceased worker and his dependents, and does not apply to you if you have not made payments in the same manner.)

The veterans' Administration. The World War II period and the post-World War II period are treated separately because the former does not fall within the period of 1940 and 1941. If you have active military service after January 1, 1941, and you earn wages in civilian employment during the same period, you will receive wage credits for both periods. If you have active military service after January 1, 1947, even though you are retired pay from your service department based on that service, credits for military service between January 1, 1940, and January 1, 1947, will be based on wages in civilian employment during the intervening period.

I do not get Social Security wage credits for one period because I am not a resident of the United States. If you are non-resident of the United States, you may receive Social Security wage credits for the period during which you have active military service if you are a resident of the United States at the time the military service is performed. If you are a resident of the United States at the time the military service is performed, you will receive Social Security wage credits for the period during which you have active military service if you are a resident of the United States at the time the military service is performed.

There are a number of other factors to consider when determining whether you are eligible for Social Security benefits. For more information, please consult the Social Security Administration's website or contact a representative directly.

The first suggestion submitted by Mr. M. Niles, Roswell Park Memorial Institute, Buffalo, won her an award of $75. Mrs. Niles, a secretary in the Department of Health, proposed a new procedure for keeping an accurate record of the State Employee Suggestion Program when she submitted her first suggestion.

Suggestion was to use a special suggestion form. She suggested the form be applied to the total price. The deposit price covers meals, accommodations, and membership in the European Society.
