Western Conference Hears Meacham Health Plans, Approves Officer Slate

An illuminating discussion of the Meacham health plans was given by Edward Meacham, director of personnel services for the Meacham Standard Group, at a meeting of the Western New York Conference of the Civil Service Employees Association.

Mr. Meacham addressed a large group of delegates attending the event which was held at Brockport State Teachers College, with the CSEA Brockport chapter as hosts.

The day-long session, decreed by the Department official was the need to retain all receipts of medical cases — such as hospitalization — in order to obtain reimbursements. Without such receipts, no payment can be made, Mr. Meacham warned.

He outlined various aspects of the plan and explained the guidelines by which insurance in case of injury while out of the State. Mr. Meacham later addressed the county sections of the meeting, pointing out that under recently signed legislation, political subdivisions were now able to provide employees with the same type of health insurance coverage enjoyed by State workers. He said there was no plan at present for retired county employees.

A slate of officers was submitted by Noel McDaniel, chairman of the Conference nominating committee, for the forthcoming Convention.

They are: Vito Ferris and Arnold Holzer, president; Albert C. Kilgour and William J. Nolan, first vice presidents; Melba Rinn and Irene Lavery, second vice presidents; Ernie Closs, treasurer, and Dolores Ripp and Irene Kohls, secretary.

Bill Will Aid State Chaplains

ALBANY, May 5—Chaplains in state service received added benefits under legislation signed by Governor Harriman. In signing the bill approved by the 1958 legislature, Mr. Harriman said:

"This bill was sponsored by the New York State Council of Churches. 40-Hour Police Supervisor Bill Vetted by Harriman

ALBANY, May 5—Efforts to provide a 40-hour week for police supervisory personnel have failed for 1958.

A bill, introduced by Assemblyman Frank Roberts, has been vetoed by Governor Harriman on the recommendation of Mayor Robert Wagner of New York City and the State Conference of Mayors.

Terminating the legislation impractical, Mr. Wagner urged a delay in the promotion of police officers who are required to work longer hours in coping with public catastrophes, serious crimes and other problems of public safety.

The bill would have amended the Highway Law deleting a requirement that a county superintendent of highways be appointed from the eligible list of the county.

Postals Exam Wins Popularity Contest

The substitute clerk examination being held by the New York City Department of Welfare, for which applications are being received continuously, sets a recent record, with applications totaling nearly 80,000 already. The last time any figure in that category was heard was in 1959, when 92,000 applied for New York City $65 sanitation-nurse exam. This was in the recession year.

Now the Brooklyn, Jamaica, and Long Island City post offices seek candidates for both substitute clerk and substitute carrier jobs. No doubt the response will be large, although even Brooklyn can not expect to attract as many candidates as the New York City Department of Welfare.

Dual Blessing

The experiment of having a local board of civil service examiners at the New York post offices proved so successful that the same kind of setup has been established in Brooklyn, with the result that the postal examinations isn't good policy, and the fast operation of the local boards, acting as adjuncts of the Regional Office, and supervised by that office, are proving a blessing to both the Federal government and the candidates.

Letters to the Editor

ASKED FOR PENSIONERS

Editor, The Leader:
The editorial on health insurance in your issue of April 29 states, "Two bills have been approved by Governor Averell Harriman .... " I am informed that 8,800 retired employees will be eligible on June 1 for coverage under the extended health insurance plan. This is good news, but the inland post office which I work in will not share the premium.

I propose that similar consideration be granted New York City employees who are now under the Health Insurance Plan, as that provision sets the benefit of one half payment of premium. Today such a pensioner must pay full premium. Today such a pensioner must pay full premium. Today such a pensioner must pay full premium.

The imminent worthiness of this project to City employees in the period of inflation when they receive the least income must be apparent.

OLD PAY CHECKS CAN NOW BE CASHED

A number of employees or their estates can now apply for payment.

IT IS POSSIBLE to receive an increase in an old-age insurance benefit. Yes. There can be an increase in a benefit provided specific requirements are met. The old-age insurance program is a way in which a benefit can be raised through higher earnings. The program works by considering all factors, including the time after filing.

The Social Security Administration will request the applicant to file for an increase. If it is brought to their attention. It is suggested that you contact your local district office. Your earnings are still greater than the years before you originally applied for benefits.
