Harriman, Rockefeller Get Query On View

Albany, Nov. 3 — On a resolution passed by delegates to the CSEA convention and those 80,000-member Civil Service Emplo- ees Association, President Harriman, and his opponent, Rockefeller, send their replies in full below.

Harriman Letter

Mr. Harriman, writing January 4, 1959, said:

"I appreciate your kind remarks about my visits to the employees of the State Thruway System. During the past few weeks I have had the pleasure of visiting two meetings in the City of Mount Vernon. One meeting was held by the Mount Vernon Composite City Employees Associa- tion, a unit which has no State affiliation. The members of this group were addressed by Mr. Schultz and Mr. Scher, chairman of the State Employees Association membership, and were assured that due consideration would be given by this group.

The second meeting was con- ducted by a present unit of the Western New York State District employees of the City of Mount Vernon. Mr. Scher and Mr. Scher, chairman of the State Employees Association of the City of Mount Vernon, were present and addressed the organization of their unit. On November 8th, 1958, Mr. Scher and Mr. Scher, chairman of the State Employees Association of the City of Mount Vernon, visited two meetings in the City of Mount Vernon, and were present at a meeting concerning participation in the Health Insurance Plan.

The Association president pointed out that the recom- mendation is advisory and that the actual upgrade must be approved by the Authority itself. The CSEA, in cooperation with Thruway Authority chapter, has pressed for the upgrading for two years. Mr. Powers said he hopes the Authority would act positively on the recommendation.

A recommendation that State Thruway toll collectors be rehired from Grade 7 to Grade 8 has been made by the State Thruway Toll Collectors Employees Association, an- nounced yesterday. The recommendation will go to the State Thruway Authority board, Mr. Powers said.
CHICAGO, Nov. 3 — Federal officials attending the annual conference of public personnel administrators expressed surprise at the fact that more and more states and municipal governments are encouraging employees to accumulate unused sick leave.

The Federal government has consistently opposed such policies, giving its employees an incentive to preserve their sick leave through assigning them time off instead of pay for extra days of vacation. This system was put into effect because it was feared that employees would start taking sick leave to prevent illness and incentives had to be offered for its preservation.

But some personnel experts here still are vigorously opposed to any compensation for unused sick leave. They fear some employees would come to work when they are ill and jeopardize their own health and that of their co-workers in order to gain credit for the sick leave later.

A. J. Hayes says:

“It is the desire for good health, rather than the outward appeal to insurance against the high costs of neglected health, that has impelled our New York members to change from a plan which gave them unlimited cash indemnity for limited medical expenses to a guarantee of broad medical service with an emphasis on prevention and early treatment... and that is the kind of service our members get from H.I.P.:...”

“You people (of cash-indemnity plans) may as well face up to this unpleasant truth: In the New York area, H.I.P. has been doing a better job for your subscribers than you have been doing. H.I.P. has been keeping its people out of hospitals. And that is the only way we are going to hold down rising hospital costs and rising rates for Blue Cross.”

Mr. Hayes’ remarks were based in part on recent research studies showing that:

• H.I.P. subscribers require hospitalization 20 per cent less often than subscribers insured by a cash-indemnity plan.

• There are fewer infants deaths and premature births among pregnant women in H.I.P. than among women in the general New York City population

*Except from a talk by the International President of the International Association of Machinists at a meeting of executive personnel of Blue Cross-Blue Shield in Chicago, September 17, 1958. Mr. Hayes was also a member of the President’s Commission on Health Needs of the Nation from 1951-1952.

5,000 On City's First Competitive Laborer List

The New York City eligible list for laborer, established from an open-competitive examination for which 9,470 candidates applied, contains 3,432 names. It marks the first time that a laborer competitive class list was established by New York City. Laborers were formerly in the labor class, though skilled laborers have been in the competitive class for years.

The list took more than a year to establish because of the precedent given in establishing the patrologue and sanitation men.

Senior Clerks to Sue For Higher Pay Slot

Jack Tkach, chairman of the Third Grade Clerical Committee, which consists of senior clerks, senior stenographers and senior typists, announced that a boycott action will be taken against the New York City Classification Appeals Board for refusal to reclassify the position to assistant supervising clerk, and reallocate the position to a higher salary slot.

After the Board by a 3-2 vote decided not to accept an application that was made for reconsideration, Anthony Russo and Jeremiah Sullivan, members of the Board who represent employees, requested the Board to reconsider its vote. Board Director Assistant Abraham D. Benin disagreed on the ground that the Board would be swamped with similar applications.

Russo and Sullivan cited previous action taken by the Board in the appeals of the following positions: senior stenographers, motor vehicle operators, and Samuel Resnicoff is counsel for the employee group.

More Big Jobs Needed

The Federal government has about 300 super-grade positions, the number recently increased to that by authority of Congress. The opportunity for competitive employees to fill key jobs is thereby increased, too, since more than half of the total are in the competitive class. These positions, left unfilled, generally are not to be reweighted with responsibilities that is to make the pay schedule much more than a tabulation on a sheet of paper. The Federal grade, GS-18, starts at $16,000 and rises to $27,500, but the jobs now being filled in the government's pay family of the size.

The New York State government is not without its comparable grades, 37 ($15,370-$18,286) and 38 ($14,800 up), but with only 16 out of 90,000 in the lower and 15 in the higher grade, New York City's grade 31 to $15,900, and grade 32 ($13,200, no number) are also not comparable. There are about 22 employees in New York City's grade 31, and about 42 in grade 32. As in the Federal and State instances there are also some vacancies. These two jurisdictions, as well as others, could well follow the Federal example of not making so much of an exception of providing budget lines whereby employees doing highly responsible administrative and executive tasks would be suitably rewarded.

Not Just Quantity, But Quality, Too

The idea of filing ranking positions on a competitive or closely related basis is in line with highest standards for the merit system. Many a hesitant person would apply for a public job at a much lower level if the prospect of getting into the comfortable pay brackets were not slim; also, present employees would be given an inspiring incentive, but the degree that employees of State and Federal grade, GS-18, start at $16,000 and rise to $27,500, but the jobs now being filled in the government's pay family also are not comparable. There are about 22 employees in New York City's grade 31, and about 42 in grade 32. As in the Federal and State instances there are also some vacancies. These two jurisdictions, as well as others, could well follow the Federal example of not making so much of an exception of providing budget lines whereby employees doing highly responsible administrative and executive tasks would be suitably rewarded.

The CIVIL SERVICE LEADER ("Looking Inside" column) wrote on May 6, 1958:

"** Public employee groups might well pass resolutions thanking Mr. Lefkowitz for his outspoken endorsement of premium rates for overtime, and the granting of vested pensions. When they have such a stout-hearted supporter they should be as alert in recognizing the fact as he is in recognizing their needs."

MALCOLM WILSON

the public employee's friend

During his 20 year legislative career, Malcolm Wilson has consistently sponsored legislation equitable to public employees. Most recently, he sponsored the bill to provide Social Security coverage for all public employees in New York State, which included retroactive coverage, coverage for policemen and firemen and coverage for employees not members of retirement systems.

This measure was praised by John F. Powers, President of the Civil Service Employees Association as "one of the greatest employee gains in Civil Service history."

Past performance is future promise.
