GOVERNOR-SELECT VINCENT A. ROCKFELLERURGED PEOPLE TO PROVIDE local wishes, and to get your fellow employees to join the SUFFOLK chapter, CSEA, and urge them to an adequate pay increase, the 100 percent membership card and dues refund check, if, due, will be transmitted with the membership appeal.

The Civil Service Employees Association has launched a statewide membership drive to increase its membership. The campaign slogan is — "EVERY MAN, GET A MEMBER!" Below is a letter which CSEA President, John F. Powers, in urging your Association members employed by the State who pay their CSEA dues by payroll deduction, are expected, the official 1095 membership card and dues refund check, if due, will be transmitted with the membership appeal.

"We urge you and your colleagues to take prompt action in this matter."

"You help yourself when you get your fellow employees to join CSEA. We would attain 100% membership in a short time if you, and your fellow members adopted and carried out the slogan "Every Member Gets A Member." The recognition accorded CSEA, and our effectiveness, will always depend on the strength of our membership.

The Civil Service Employees Association has offered to give local government to enforce the aceptance of the plan. Powers offered to lend any assistance possible to enhance the acceptance of the plan.

Mr. Powers wrote: "Our Association, composed of over 30,000 employees of the State and its political subdivisions, is the largest and most influential labor organization in the State under the Civil Service Employees Association. The program accepted thereon is attended by the United States Department of Health, Education and Welfare to be the most valuable way to secure any public employee group. Our efforts to make this plan available to employees of political subdivisions succeeded in the enactment of the necessary statute this year.

"We urge our associations to make the State Health Insurance Plan available to the employees of your political organization. The benefit of this action to your employees would be great in the end."

"Full information can be obtained from the State Health Insurance Board, State Campus Site, Albany, New York. Our Association is ready to give any assistance in the matter that you can."

Nassau County Chapter to Meet

The Nassau County chapter, CSEA, will hold a board of directors meeting on December 19 at the Hempstead Elks Club. The regular meeting will be held at 8 P.M. Health insurance plans will be discussed.
West Indies Cruise Attracts Travel-Minded Civil Servant

The ever-increasing choice of travel bargains for civil service workers has expanded again, this time along the direction of the tropics.

Low cost tours of Europe by boat and plane, sponsored by the Civil Service Employees Association, were enthusiastically received by Association members throughout the country. These travel-minded people soon began to seek information on a winter cruise and their heavy interest has prompted Specialized Tours, Inc.—operators of the European tours—to come up with a 13-day West Indies cruise at the height of the winter season.

The cruise will head southward on March 6 from New York City aboard the popular vessel "Acme Star." Leaving the gray, winter skies up north, the ship will set sail.
To provide employees of the Civil Service Employees Association with the same kind of insurance coverage the CSEA obtained for its members, the Association recently concluded negotiations to provide such private coverage. See here as contracts are signed to give staff members this valuable protection are CSEA President John F. Powers, seated, standing from left, John J. Kelly, Harold Jensen, Metropolitan Life Insurance Co.; Ralph Hommersmeier, Associated Hospital Service of the Capital District, and Joseph D. Locker, CSEA executive director.

Harlem Valley Honors Volunteer Workers

The director and staff of the Harlem Valley State Hospital, Wingdale, N.Y., entertained at a tea in their hall in honor of a group of men and women who have served as volunteer workers during the past year. Approximately forty persons from Pawling, Dover Plains, Beekman, and other communities in Dutchess and Westchester Counties were present and were welcomed by Dr. Leo P. O'Donnell, Hospital Director, Mrs. Madelyn Brennan, Director of Volunteer Workers, and other members of the staff. The hall was decorated in autumn theme by the Occupational Therapy Department. The festivities at the table were Mrs. Arthur Siddit, Harry Bittle, Mrs. Walter Kennedy, and Mrs. Samuel Cohen.

Dr. O'Donnell welcomed the group in an informal talk, expressing the deep appreciation of the entire staff toward these men and women who so generously share their busy lives with others who are so in need of their contact with the normal, outside world. He urged them to continue their good work and to make new friends to join them. Although the Volunteer Workers' program at Harlem Valley has been in operation only a short time, it is already filling a long-felt need. Many patients who have been hospitalized for extended periods or who have no families to visit them, look forward each week to the coming of the volunteers.

Interested persons residing in Dutchess County may telephone Miss Mary Tabor of Pawling, and those residing in Westchester County may telephone Mrs. Adolph Elwyn, 42 Wallace Avenue, White Plains, both of whom have been indefatigable workers on the Volunteer Workers' program. Further information may be obtained by writing to the Harlem Valley State Hospital, Wingdale, N.Y., for all chapters are urged to contact them as soon as possible, as the attendance is limited due to the size of the restaurant.

Health Plan for CSEA Staff Members

John F. Powers, President of the Civil Service Employees Association, announced that CSEA has arranged for Blue Cross hospitalization, Blue Shield medical-surgical protection, and major medical insurance equivalents to be provided under the State Health Insurance Plan for CSEA staff members.

This coverage on CSEA employees went into effect on October 20, 1952. The CSEA Plan is underwritten by the Associated Hospital Service of the Capital District and the Metropolitan Life Insurance Company. The Association shares the cost of the plan with its employees.

Ounonada

The regular monthly meeting of the Ounonada chapter of the Civil Service Employees Association was held at the New York State Health Department Office, 210 Main Street, Oononia, N.Y., on December 15, 1952. The president, Miss Marion Workin, presided.

Following a very brief business meeting of the chapter in which the membership and guests were welcomed by Rev. Richard Shay of the State Health Insurance Section of the Civil Service Department, the usual reports were made, and the question on the new health insurance program was discussed.

It was also announced at this meeting that plans had been made for a Christmas dinner to be held at Joe and Mary's Restaurant in Oononia, New York, for all chapter members and their guests on December 15, 1952. Chairmen for this event are Betty Moore of Home's Polo Hospital and Mildred Hardy of State Teachers College. Members who wish to attend are urged to contact them as soon as possible, as the attendance is limited due to the size of the restaurant.

ACTIVITIES OF EMPLOYEES IN STATE

Warwick

Many friends and staff members of the Warwick Branch of the CSEA gathered at home to receive Dr. Coehoorn on the occasion of his retirement. Mrs. Coehoorn donated 15 years of service to the New York State Health Department Service for Boys as bartender.

Father McConnell served as master of ceremonies. Mr. Coehoorn, superintendent, presented a nominal gift, donated by staff members. Mr. Wad, president of the Warwick Chapter of the CSEA, presented the Warwick Branch of the CSEA with a 15-year service pin to be worn by all war veterans who were extended by Mr. Gomes, director of the New York State Health Department Service for Boys as bar dancing.

The Warwick Branch of the CSEA gathered at the home of Reverend Father Coehoorn on the occasion of his retirement.

A Joint Dilemma

EMPLOYEES of the Federal government and the New York State and New York City governments have a personal as well as a professional interest in the budget difficulties of those jurisdictions.

The Federal government seeks to avoid a deficit budget, although it has the legal authority to have one. Both the State and the City governments are required by law to have balanced budgets, that is, must provide in advance for the revenue to meet the expenses.

The State is reported to need between $150,000,000 and $200,000,000 more and New York City at least $100,000,000 more. Governor Rockefeller is now engaged in studies that will help provide a balanced budget, but the Federal government needs no official seems to have the daring to predict numerically at this early stage.

Remedial Difficulty

Two proposed remedies for budget difficulties are economy in administration and the levying of new or high taxes. Everybody seems to know what anarchy would produce a 100 percent saving. Governor-elect Nelson Rockefeller also joined with the Citizens Budget Commission in the following statements:

"We believe, that the city faces serious financial problems. These may force demands by the City for new or more taxes. We think that such taxes may have a bad effect upon the welfare of the City and the New York (City) region. Before such taxes are imposed, we there-fore urge upon the City a program of drastic economy backed up with proof that the City has saved every tax dollar possible before asking for more revenue." It so happens that Robert F. Dowling, president of the Citizens Budget Commission, a private organization, is also chairman of the Mayor's committee studying possible legalization of off-track betting on horse races as an alternative to increasing sales taxes. The CBC has taken no stand on the off-track betting proposal. Mr. Dowling says that so far little opposition to the off-track betting plan has developed. No wonder. The State derives rich revenue from legal betting done at the racetracks, while bookmakers get all the off-track action, although unlawfully.

It is unusual for public employee organizations to participate in off-track betting controversy, because unions have no such taxes, and businesses even move from a tax area to a non-tax area, which is no good to the losing community in general and the employees of that community in particular.

The State and City employees who were denied a deserved salary increase under the current budget are striving for one in the next budget. Regarding State pay, Governor-elect Nelson Rockefeller has spoken about the possibility of a raise, while City employees took what consolation their claim from the statement by Mayor Robert F. Wagner that raises would be forthcoming for policeman, firemen, and others, if the money could be raised to provide them.

What Price 'Drastic Economy?'

Thirty-three New York City civic organizations have joined with the Citizens Budget Commission in the following statement:

"We believe that the city faces serious financial problems. These may force demands by the City for more or new taxes. We think that such taxes may have a bad effect upon the welfare of the City and the New York (City) region. Before such taxes are imposed, we therefore urge upon the City a program of drastic economy backed up with proof that the City has saved every tax dollar possible before asking for more revenue."

It so happens that Robert F. Dowling, president of the Citizens Budget Commission, a private organization, is also chairman of the Mayor's committee studying possible legalization of off-track betting on horse races as an alternative to increasing sales taxes. The CBC has taken no stand on the off-track betting proposal. Mr. Dowling says that so far little opposition to the off-track betting plan has developed. No wonder. The State derives rich revenue from legal betting done at the racetracks, while bookmakers get all the off-track action, although unlawfully.

It is unusual for public employee organizations to participate in off-track betting controversy, because unions have no such taxes, and businesses even move from a tax area to a non-tax area, which is no good to the losing community in general and the employees of that community in particular.

Government's need for additional revenue is undeniable, but is the need of government's employees for salary increases. This employer and employee are in the same boat at different ends. They share the same dilemma.

Helping Hand Needed

Public employees not only want to see that they don't get hurt but that they do get the gains to which they're entitled. As individuals, they should do all within their power to help solve a problem that concerns them so vitally. More of their organizations must rightfully set precedents of their own, by taking a stand on the revenue debate, though by tradition the problem of raising the money has been left to government, where it properly belongs.

In an emergency, and one certainly exists, reversal of prior practice may jibe with the proprieties.

Bernard Newman

He didudge shingly. He pointed out that this could only be accomplished through work—hard door-to-door political work by everyone on the team.

When the final City totals rolled in, they were second only to Democratic headquarters in the State, Newman made the bold prediction that Rockefeller would win the Governor's race. When he first took on the Mayoralty campaign back in 1941, Newman was last performed in a mayoralty campaign. Since that time, about 3 to 1 against a deep "bench" is the only advantage the Republicans have so far.

Newman's plan has been to start some of his candidates chances in that area. And it's been a team man, through and through his personal, business and political parties, "stresses Newman, who has always been a team man, through and through his personal, business and public life.

The first member to join the Newman-parade on "team" was a charming brunette. This happened twenty-six years ago when he married Kathleen Brown.

Newman's political base was always a strong team with his combination of shoeblack mixed with doorselling to face Rockefeller.

The Newman campaign back in 1941, Newman realized that a strong team with his combination of shoeblack mixed with doorselling to face Rockefeller could not be measured in the light of his next two assignments— to lead New York City from the Republican side of the Presidential tickets in '48 and '52.

The Job Ahead

To accomplish this first, which he did with dramatic effect in November, Newman had to win over the large number of voters to the Republican side of the Presidential tickets in '48 and '52.

Morehouse with the sincere, realiable group of New York City voters. The first member to join the Newman-parade on "team" was a charming brunette. This happened twenty-six years ago when he married Kathleen Brown. Newman's political base was always a strong team with his combination of shoeblack mixed with doorselling to face Rockefeller.

the inside. This keeps the party in control on its toes, prevents the sweeping of scandals under the political carpet and gives the public the impression that the party is fighting the good, honest government it is paying for and therefore deserves.

The problem of getting bright young men and women — the essential nucleus for a forward-looking organization — active in politics doesn't face Newman. As he sees it, "the job is just one of showing these future leaders the same kind of financial incentives, anticipations and rewards that are present in the political arena as well as in other fields.

Too often the lack of interest in politics by our young people stems from an inadequate knowledge of the value of political action. My plan is to make the Republican Party in New York County a party of action. We're going to sit in at the interviews of appointees; we're going to tell our speakers bureau, bulletins, and Rockefeller into politics is the best thing that has happened to the conception of a political leader. Modest. unpretentious in appearance and manner, with a droll sense of humor, this son of a grocer, native of New York City's lower East Side, Is the hero of a success story.

DeWitt Clinton High School, he went on to achieve a series of positions in the New York City Bar Association. He has lectured at the New York City Bar Association and at Columbia's Law School. Currently he is president of N.Y.U.'s Law Review Alumni.

His plan for GOP victories in the '90 and '91 campaigns is simple. Start immediately on the job of building a good organization of alert, responsible people; arouse the imagination of the voters by offering them candidates who have a proven record of public service; keep a sharp watch on the current City Hall administration; and get out and push those doorbells.

When the last Wagner plurality is mentioned, even in jest, Newman has one retort for skeptics: "Wall and sea," he says in a tone that smacks of a challenge.

ALBANY, Nov. 17 — "Two candidates have qualified for appointment as social worker for the Workmen's Compensation Board. The salary is $1,000 to $1,100 a year.

HIGHER TRAVEL ALLOWANCE

ASKED BY U.S. EMPLOYEES

WASHINGTON, Nov. 17 — Federal employee organizations have been putting pressure on the Administration to increase the expense allowances for government workers who travel on official business. But it appears doubtful that the White House will sponsor legislation to increase the allowance.

The present maximum general is $12 a day to cover hotel meals and other expenses. It was set in 1955. The previous maximum was $9 a day, and the same law that raised it also opened the maximum allowance for officials using their own vehicles on official business to 10 cents per mile.

TWO QUALIFY FOR POST

ALBANY, Nov. 17 — Two candidates have qualified for appointment as supervisor of occupational therapy for the state at a salary of $1,110 to $1,140 a year. They are Eleanor S. Kille, of New York, and Elizabeth Coombs, Holmes.

Research figures show that under H.I.P. Medical Group care, fewer pregnancies end in stillbirth and fewer infants die soon after birth than is true for other private maternity patients in the general New York City population.

It was found that women under the care of H.I.P. Medical Group obstetricians are less likely to have premature babies than pregnant women in the general population.

H.I.P. members are entitled to comprehensive medical, surgical, maternity, pediatric and other specialist care with extra charges beyond the premium (the only exception is a $2 charge for a home call requested and made between 10 P.M. and 7 A.M.)

Bulletin for Mental Hygiene Employees

Your All-Mental Hygiene Employees Association became organized in nineteen hundred and five. It is an organization of employees in the Department of Mental Hygiene who have banded together for the purpose of promoting those objectives which would insure better working conditions; adequate salaries; promotional opportunities; realistic personnel policies; resolution of problems and the general welfare of its members. Who, except an association of the employees themselves, is in the best position to know institutional problems and to have a keen interest in the solution of those problems?

How Does The Mental Hygiene Employees Association Gain Its Objectives?

Working closely with C.S.E.A.; and through its representative, this association prepares resolutions and promotes legislation for the welfare of Mental Hygiene employees.

The M.H.E.A. has several meetings each year with the Commissioner of Mental Hygiene and the Director of Personnel. At these meetings those problems are discussed which do not require legislation but may be solved by a directive from the Commissioner's office. This is a common meeting ground and sounding board for suggestions and recommendations for the benefit of the institution employees. Many pertinent questions have been satisfactorily answered at this conference.

The M.H.E.A. periodically meets with the Director of Classification—Department of Civil Service, in behalf of ALL titles. Emphasis should be noted for the clerical workers.

What Can I Do For The M.H.E.A.?

Through its power and prestige, as it composes the largest departmental group of employees in the State of New York; it therefore, can influence the realization of the following objectives:

1. A serious salary study to reflect the duties and responsibilities of each title.
2. A salary scale comparable with the current trend in industry, and in consideration of the present cost of living.
3. Correction of existing inequities in the salary structure.
4. Modernized pension system.
5. Vesting of retirement rights.
7. Encourage Civil Service as a career through its power and prestige, as it composes the largest departmental group of employees in the State of New York; it therefore, can influence the realization of the following objectives:
8. Differential in salary for evening and night duty.
9. 37-1/2 hour week for office workers.
10. Additional increment after 25 years of service.

What Can The M.H.E.A. Do For Me?

I can become a member; an active member, I can recruit members and in so doing I will help the M.H.E.A. to help me.

Doris Blust, Secretary
Mental Hygiene Employees Association
Marcy State Hospital

CSEA Accident-Health Plan Continues to Grow

Over 35,000 members of the Civil Service Employees Association have participated in the CSEA Accident-Health Insurance program.

Through the CSEA Plan, the members arrange low cost broad protection that covers them much more if purchased through ordinary insurance channels. They pay their premiums by payroll deduction.

The CSEA Accident-Health Insurance Plan can be obtained by any way with the State Health Insurance program. The CSEA Plan pays a cash benefit while the insured member is disabled due to sickness or injury.

The State Plan provides hospitalization and medical surgical benefits and pays medical-surgical bills to the extent provided under the plan. The purpose of the State plan is to replace part of earned income during disability and to assist State employees in obtaining the many additional costs experienced during disability periods.

Many Special Features

There are many special features under the CSEA Plan that are not provided under the ordinary individual accident-health insurance purchased through the ordinary insurance channels. For example, under the State plan no monies are paid under the CSEA Plan cannot be extended unless the member so desires. The CSEA Plan terminates, coverage under the State plan terminates, coverage under the State plan.

It is regular practice in the case of individual accident-health insur- ance purchased through ordinary insurance channels.
