"Half-Way is Not Enough,"
Says Powers as Governor Delivers Budget Message

By PAUL KYER

ALBANY, Feb. 2—Gov. Nelson A. Rockefeller delivered his budget message personally to the State Legislature today, and as was reported earlier, asked for $20 million for necessary salary adjustments for State employees..."

There is still no breakdown on how the money is to be distributed.

The Civil Service Employees Association, representing the majority of State employees, has let it be known that according to its figures, the Governor's budget item approaches that figure.

The Association, said that "the Association will not give up on this matter until some more satisfactory offer is made. Our goal is a 12 percent, $600 minimum, across-the-board pay increase for State worker. The Governor's budget item approaches that figure only halfway and half-way is not enough."

That Vote on Taxes
It would appear, however, that no one is talking about the spending of the $20 million or any increase in that amount, will be available until after the outcome of legislative action on Governor Rockefeller's numerous tax proposals.

Efforts by The Leader to sound out Governor Rockefeller's numerous tax proposals have resulted in the opinion that no one is going to talk about spending more money until they actually have it. This month the Governor himself is receiving just half the taxes he sets aside for State employees last year.

Staffs Available
"Again this year, the salary study of the State Department of Labor, and of civil service classification and compensation demonstrates the necessity of at least a 10 percent general salary adjustment to bring State salaries up to the minimum level a fair salary adjustment."

CSEA Argues Grievances
On Hours of All Office Workers in Institutions

An editorial in the New York Daily Mirror that termed the majority of civil service employees as "piggy-back riders" and "unproductive" workers has sparked considerable resentment among public employees.

In its January 23, 1959 issue, the Mirror began the broad editorial attack with a tirade against increased taxation and cited the ever-growing government employees force as the cause of "colossal erosion of your income, your wealth, your future security."

The editorial said that for every six people there was an "invisible guest — the non-producing government employee whose livelihood you are providing out of your own hard earned money."

"Police men, firemen, teachers, sanitation workers and members of the armed forces were excluded by the article."

The editorial said that "More and more people are riding piggy-back upon fewer and fewer who are producing the nation's wealth and serving its citizens."

Sharp Retaliation
John F. Powers, president of the Civil Service Employees Association, has called on the newspaper to render the hard-working civil servants of the country the apology they so richly deserve.

Individual employees have taken it upon themselves to write letters to the editor of the Mirror demanding retraction of the "false" on the entire civil service.

At this writing, the Mirror has not acknowledged any protests in its "Letter to the Editor" column.

A representative of The Leader has produced both by a personal telephone call and a letter to the editor. (For further Leader comment see editorial on Page 14).
Low Cost, High Quality
Make Conference Tours
Of Europe A Real Buy

Three Conferences of the Civil Service Employees Association are offering charters to tours of Europe this summer that are low in cost, high in quality. The Capital District, Metropolitan New York and Western Conferences are sponsoring the tours for which members, their families and parents are eligible. All three conferences have reserved the space on the charters and this extraordinary low price includes round trip air transportation, all hotel spaces and meals, and transportation in Europe, sightseeing tours, guides, baggage transfers, etc.

This bargain-priced vacation is possible because of the association membership and is limited strictly to CSEA members. Enrollments in the tours from each conference are limited because of space limitations on each charter. Each charter is equipped with one attendant per 100 members to whom the passengers are assigned.

Death Benefit After Retirement

There is an important bill which the Association has drafted and introduced in the present session which deserves attention and support from all legislators and public employees. It is not a glamorous bill — that is one calculated to stimulate a lot of pro and con discussion, nor is it one, like the salary bill, which would provide immediate benefits. This bill is designed for the future, especially for those who have made and plan to make their service to the State a lifetime career.

This bill will increase the ordinary death benefits now paid to the beneficiary of a member of the State Retirement System from two years if he shall have in excess of 38 years of total service. To two years if he shall have in excess of 38 years of total service.

Support from all legislators and public employees. It is not a glamorous bill — that is one calculated to stimulate a lot of pro and con discussion, nor is it one, like the salary bill, which would provide immediate benefits. This bill is designed for the future, especially for those who have made and plan to make their service to the State a lifetime career.

An Answer To Our Critics

This bill also answers those critics of the Association who continually state that our organization's existence solely depends upon its cheap group life insurance plan for its members and that the Association would never sponsor a life insurance program for all public employees. This carping is so much balderdash. One glance at the facts would eliminate the argument that the Association is primarily in business as an insurance agent. Only 48,000 of its 80,000 members belong to the Association's group life insurance plan.

We hope it receives the favorable legislative treatment public employees write with this outside carrier.

Medical Examination Not Necessary During Feb. To Join CSEA Group Life Plan

Physical examinations can be a bar to obtaining life insurance. Failure to pass such an examination can result in being unable to provide necessary life insurance protection for your family. For that reason, members of the Civil Service Employees Association who are under age 50 should act promptly to take advantage of this offer being made by the CSEA Group Life Insurance Plan wherein coverage may be obtained without conclusive physical examination at the expense of the insurance Company.

Applications 50 years or over will have to take the usual medical examination at the expense of the insurance Company.

Any employee of the State, or of the Counties of Westchester, St. Lawrence, Chemung, or the Cities of White Plains, Catskill, Poughkeepsie, Newburgh, Elba, who or who becomes member of CSEA, may apply for its low-cost Group Life Insurance.

Applications for this insurance can be secured from any CSEA Chapter or from CSEA Headquarter Offices at Albany or before February 28.

Low Cost

Under the CSEA Group Life Plan, an insured member 29 years or younger or younger gets $1,000 Term Life Insurance for 15c per $100 of coverage per month. This rate represents the cost of insurance to the Plan. Our group life plan offers superior group life insurance protection for the family of the member.

Syracuse Valentine Dance and Central Conference Meeting Is Joint Affair

One of the post popular winter events in the Civil Service Employees Association — the annual dinner dance of the Syracuse chapter, CSEA — will again be held in conjunction with the quarterly meeting of the CSEA Central Conference and CSEA Workshops.

Thomas Ranzer, president of the Syracuse chapter, announced that the dinner dance will be held on Valentine's Day, February 14, at 6:30 P.M. in the Hotel Roddona.

The Central Conference will begin its meeting that day with registration of delegates at 9 A.M. in the hotel. Mr. Graveline, Conference president, announced that county delegations will register at the same time.

The Conference meeting will conclude February 16, at 12:30 P.M. on the 17th. All county delegations should arrive at the Hotel Roddona by 12:30 P.M. on the 17th.

At 3:30 P.M., I. B. Hungerford, the administrative director of the State Retirement System, will address the joint meeting of State and county delegates.

Reservations for the dinner and dance are $4 per person must be made by February 7 and may be obtained by writing to Arsene H. Walter, Division of Public, 219 State Office Building, or to Peter B. Volme, Colleges of Forestry, Syracuse University, Syracuse.

The CSEA was sending every effort to obtain a fair and just salary increase this year. The Conference presented Miss Krone with a mounted copy of the "Code of the Civil Servant," and Miss Krone thanked the Conference and told the guests that if she finally has my own copy of this fine document and can now stop bashing the CSEA whenever I need to refer to it. Thank you all so very much."

Eisenhower Experiments

President Eisenhower has instituted an experimental grievance procedure that commands the attention of any public jurisdiction, including a police department that is bothered with this problem. He has created a board of appeals in the Panama Canal Zone that will include two empresarios.

The administration of the Zone is under the Army's jurisdiction, so if police forces in states and cities may be considered quasi-military, which is doubtful, the Canal Zone employees may be regarded with no less propriety.

The Canal Zone employees will have the right to appeal to a five-member board from adverse decisions made at supervisory or even the top departmental level. The Secretary of War will appoint the board membership, one of whom must be a nominee of the U. S. Civil Service Commission. Two employees of U. S. agencies in the Canal Zone are to be appointed with advice and consent of the Senate.

Could Be Far-Reaching

Not only in the Canal Zone but throughout the Federal service, there is dissatisfaction over appeals procedures. If the President's plan sensibly is tried out in a small area at first, works satisfactorily in the Canal Zone it might become almost universal in Federal service, and maybe even set an example for state and city police forces.

Police-Eye New Plans

The President's experiment is being watched closely by the New York City police because they are trying to obtain improved grievance procedures, in fact, contend that in reality they have no grievance procedures, since the right of appeal is absent. Police Commissioner Stephen F. Kenned, of the New York City Police Department, declares that grievance procedures must be final in the interest of discipline and the effective policing of the City. He objects to any "outsider" having authority to reverse departmental decisions in grievance cases.

The President's experimental procedure gives authority to review and even power to reverse grievances decisions, and even exercise appellate jurisdiction in disciplinary cases, which are technically something apart from grievance, but not in regard to police departments. However, if at all, the President's board could or would act in disciplinary cases is yet to be revealed.

The Point Is in the 'Joint'

The outstanding point in the President's plan is that authority is to be exercised jointly, not exclusively, hence contrast with Commissioner Kennedy's policy is marked. To be sure, the Zone employees are not police, though some of them exercise police functions. Commissioner Kennedy can say that no police department has the right to second-guess the Commissioner, as opposed to setting the pace. If no "outsider" like the City Police Commissioner has any authority over policing the City, also has sovereignty over labor relations.

By MEANS OF a leading editorial in its January 29 issue, the New York Daily Mirror has delivered a humiliating insult to the majority of public employees by terming them "Piggy-back riders" and "unproductive taxation but it soon settled down into putting all the blame on the Service Employees Association.

B. S. B. You should file a claim. If you can reasonably expect earnings in excess of $2,000, benefits will be suspended until the end of the year, at which time you will receive a report of your earnings. Good settlement will be made for the year rather than on a monthly-6 month hole.

Unfounded Attack

by J. B. NERNARD

Every U.S. citizen or alien living in the U.S. who had income of at least $600 in 1958 must file a Federal income tax return by April 15, 1959, except that persons over age 65 on December 31, 1958 will be entitled to a Personal Allowance of $1,200 or less. The same figures apply to a joint return of husband and wife as to an individual return by either, even though the income exceeds the $1,200 or less of the personal allowance.

The combined income is the basis of determination in a joint return. If the income of one of the spouses alone would fall within the no-tax class:

The refund has one primary object, to see that you pay or have paid the amount of tax due, no more, no less. Thus a refund is possible, or an additional payment.

Various Refund Reasons

The only way to get a refund is to ask for it. The only way to ask for it is by filing a return and claiming the refund, specifying the exact amount. State whether any refund is to be paid or credited, by checking the appropriate square on Page 1.

If your income was less than $600 you'd be entitled to a refund of the amount withheld from your pay. If you're 65 or over, if income was less than $1,200, you'd be similarly entitled. The reason for the $1,200 exclusion is that at age 65, one is entitled to two personal exemptions of $500 each for himself alone, not just one exemption.

The refund in the case of a dependent who earns less than $600 applies even though the supporter claims a deduction for the same person as a dependent. The same is true of many persons.

Also, a child under 19 at the end of the tax year may be claimed as a dependent, regardless of the amount of the child's income. Inability to file a return in time for a timely refund, possibility that income received will exceed $600, or even a justifiable fear that you may exceed the $4,500 maximum. FICA, Federal Insurance Contribution Act, mentioned on the form, refers to Social Security.

A check on the form is made on your behalf. If your income tax due is paid or paid. But getting back $88 money from the government applies only in cases of multiple employment.

Order of Procedure

If your income is less than $5,000, you have no choice save to compute the tax which you whether use the long form 1040 or the short form 1040-A.

Anybody except a nonresident alien may file a 1040. A definite step of procedure consists of completing the return:

2. First tackle page 2 of the 1040. This also will then contain (a) Deduct contributions to religious, charitable, or other recognized institutions.

(b) Deduct, in the case of salaries paid to State and Federal government employees or paid to employees of the Federal Government, contributions to retirement or pension programs.

(c) Deduct any itemized deductions from the amount of Social Security benefits received. This enables a person to retain more of his Social Security benefits. This is a refund of the tax paid on Social Security benefits. If there is no tax paid, there is no tax refund.

(d) The final step is to file the return. The refusal to file is a form of protest against the amount of taxes collected by the government.
Federal Income Tax

In 1958. What's left is called adjusted gross income.

If not a relative, living in the household is mandatory, but the rule's not necessary that the dependent live in the taxpayer's household.

Although a person is a dependent, he may still claim for himself, as a taxpayer, the $600 personal exemption.

Joint Returns

The benefit of a joint return is that the tax rate applicable is based on half the adjusted gross income, but applicable to the total adjusted gross income, hence the tax is at a lower rate but still applicable to the full amount of income. A very considerable saving is often afforded by filing a joint return.

Public employees get sick leave, and pay received during the period of absence because of illness or injury is called sick pay and is not taxable. The amount must be reported on page 1, and deducted from total income, provided the employer himself has not already omitted the sick pay from the taxable amount, which he often does, knowing it is not taxable.

H.I.P. members enjoy the advantage of fully prepaid medical service provided by family doctors and specialists working together as teams. Once they receive care from the medical group of their choice, they have no bother with claim forms, delayed reimbursement or extra charges.

They have no need to accumulate bills in order to qualify under a deductible policy, — no need to keep detailed records.

They have no need to discuss medical fees or family income with the doctor.

They have no need to worry lest a reimbursement fee schedule will fail to meet the doctor’s charges.

The H.I.P. patient is a paid-up private patient. 

*The only extra charge that may be made for a service given by an H.I.P. Medical Group is $2.00 for a home visit both requested and made between 10 P.M. and 7 A.M.

H.I.P. members are protected by preventive medicine.

Monteaux. (Twelfth Day). The morning free to shop and laze. Shortly after one o'clock we boarded the express for Milan. Lunch in the dining car. The afternoon watching the passing Alpine scene as the train climbs up to the spectacular tunnel through the Simplon Pass, and the gentle Italian landscape as it descends to the plain of Lombardy and reaches Milan. Here shortly after five o'clock, we change to the all-first-class train express, the Bernina, which covers the 236 miles to Rome in six hours and five minutes. Dinner in the restaurant car.

Tivoli and the unique gardens of the Villa d’Este. Dinner at the hotel.

Venice. (Seventeenth Day). Morning, a chance to attend any services in one of Venice’s great churches. Afternoon sightseeing on foot. Paisa San Marco, the Doge’s Palace, the Prisons, Bridge of Sighs, and the Rialto. Lunch at the hotel. Dinner at a typical Venetian restaurant.

Anatolia. (Eighteenth Day). Transfer by waterbus to railroad station for departure by first-class train via Padua, Verona, and Vicenza. Pass through Anatolia to Munich, capital of Bavaria. Luncheon in the dining car. Dinner at the hotel.

Germany. Munich. (Nineteenth Day). The morning is spent seeing Munich. Heavily bombed, the city has been rebuilt, but many of the old old facades are left standing, often with nothing behind them, though treasures can be seen in the limits of our time (it would take days to view them all). Afternoon excursion to Linderhof. Dinner at the hotel.

Munich. (Twentieth Day). Morning free. Lunch at the hotel. Afternoon free. Departure by first-class train via the Dolomites and the Brenner Pass through Austria to Munich, the capital of Bavaria. Luncheon in the dining car. Dinner at the hotel.

Heidelberg. (Twentieth Day). Morning free. Lunch at the hotel. Afternoon excursion to Nymphenburg Castle. Dinner at the hotel.

I HAVE HEARD the Social Security tax is going up in 1959. I have a full coverage Social Security that pays me $3,000 each year. I am self-employed on a part-time basis and make about $25,000 each year. What will my tax rate be? P. E. V.

In 1959 the Social Security tax on wages will be increased to 6% for the first $4,000 of earnings in a year. The tax on your wages will be $240. This contribution is only one part of your earnings tax. The Medicare tax is taxable, you will pay self-employment tax at the rate of $42.75 a year. The tax on your wages will be 75%, the tax on self-employment tax in 1959 will be 10%.

In 1960 the Social Security tax on wages will be $475. Social Security taxes are increased each year to offset the cost of living and to pay for Medicare.

I FILED application for a disability pension in 1955, but was turned down. My disability was not severe enough to keep me from doing any type of work. Did the 1948 amendments liberalize the requirement that a worker must be so severely disabled? P. J.

No. The 1955 amendments did not change the provisions regarding remarriage. Since a worker still must be so severely impaired that he cannot engage in any substantial gainful activity, the amendment did not change the requirements concerning remarriage. In 1939 regulations were changed so that I may now qualify for benefits. You did not qualify for benefits again. Is this true? P. V. J.

I WAS RECEIVING widow’s Social Security benefits from May to May, 1957. I remarried in June, 1957 and my checks were stopped. I heard the law was changed so that I may now qualify for benefits again. In this law, P. J.

The new amendments do not change the regulations regarding remarriage. You did not file your application for benefits within 30 days of your remarriage. I would have to enlarge the law for you to qualify for benefits again. You should contact your local Social Security office which will advise you if you are eligible under the new rules.

IF NECESSARY to obtain a doctor’s statement, but if I go to file for disability benefits? P. J.

No. Your Social Security office will furnish you with medical report forms to give or send to the physicians who have treated you.

Social Security Questions Answered

(Continued from Page 12)

WHAT IS the difference between disability retirement and filing for disability benefits?

A disability freeze serves to prevent an individual's benefit amount, and also his benefit rights in case he is disabled for a period longer than six months. Benefits are payable on a "frozen" application. Generally, the "freeze" applies in case of disability while the person is under 50 years of age. An application for disability benefits also protects one's right and benefit amount and it is also an application for disability insurance benefits for those 50 or over.

I HAVE BEEN totally disabled for four months. When should I apply for benefits? T.C.

If it appears that you will continue disabled indefinitely, you should report to your social security office for filing.

RECENTLY, I hired a part-time employee to help me in my home. I am paying her $30 a week. When I asked for her Social Security card she said she didn't need one as she is past age 65. Is she correct? C. V. J.

No. She needs a Social Security card and Social Security taxes must be paid on her case wages, regardless of her age. If I PAY a household worker less than $50 cash in a calendar quarter, do I have to pay tax for Social Security purposes? L. V. J.

If the total amount of cash paid in a quarter is less than $50, no Social Security tax is paid.

Graduated Pension Plan for U.S. Weighed

WASHINGTON, Feb. 2 — A "gradual" retirement system for postal and other civil service employees of the U.S. is under study by the Senate Post Office and Civil Service Committee.

A law would be able to retire before normal retirement and go back to work at any time after he qualified. While in retirement, he would be able to work during the summer, for example, and then go back to work on a part-time basis or early retirement. By working and lifting fewer and fewer hours, he would be able to go into full retirement.

MV List Soon To Be Established

The final part of the big competitive New York City motor vehicle operator exam was completed and the list will be ready soon. The last step, just completed was the qualifying medical physical exam, which began January 5. There will be over 3,000 names on this new list. The list is needed soon because as far back as December, 1957 there were 81 vacancies to be filled and now there are at least 173, all filled by provisional appointees. Starting pay for these jobs is now $1,750.

BODEN HEADS TRANSIT POLICE

The newly elected president of the Sergeant's Benevolent Association of the New York City Transit Police is Eugene V. Boden. It was announced recently.

Other elected include Carl Benaim, vice president; Eugene Moschella, second vice president; Henry R. Klein, secretary, and Isaac R. Laskoff, treasurer.

Inflation — The Unwanted Guest

"The process of inflation in this country started 10 years ago and its effects are being felt in every department of living. It is food away from the table. The Federal Government, by increasing social security benefits, has at least done something to ease this hardship for millions of people, but the problem is not solved. The State of New York should and must raise retirement benefits for these faithful employees who have retired from State service and, therefore, live on a pension."

Hardcore hit in this inflationary merry-go-round are the pensioners and government workers. To the people existing on a pension base of $1,800 to $2,600, every rise in the cost of living takes increased hospital and medical expenses, repairs, auto insurance, postage rates, public utilities, newspapers, magazines, etc., the trend continues.

Government is Expensive

The cost of government at all levels continues to rise. It is a sure thing that all-time peaks will be reached in Federal, State, City, and local spending. Higher taxes on gasoline, cigarettes. In-work week in their new contract this year. According to the Grocery Manufacturers' Association in 1967, 4 billion dollars higher than in 1957. Most of this rise can be attributed to higher prices.

Civics Servant Suffers

The worker in Civil Service is also a victim of this inflationary trend. Generally speaking, his pay is much lower than similar city workers. The pension, fringe benefits which are paid for by payroll deductions from the worker's check, the civil servant after years of service finds himself saddled with an unmoldable amount of debt. I personally know ofers in the N. Y. State Department of Correction who are forced to clothe their children with out-of-date clothing. The salary they receive is a hollow mockery of what is expected of them to do. The feeling of humiliation and shame that goes with this kind of living does not reflect great credit upon the State of New York. Many others now begin to think in terms of actions, to pay the price of food away from the table. The Federal Government, by increasing social security benefits, has at least done something to ease this hardship for millions of people, but the problem is not solved. The State of New York should and must raise retirement benefits for these faithful employees who have retired from State service and, therefore, live on a pension."

More Realistic Pay Request

The present salary range for this important job is $4,080-$5,050. A more realistic salary would be from $6,000-$7,500 per year.

The State Legislature is now in session. Governor Rockefeller has made a "salary increase" a "top priority." The civil servants in New York State are hoping that the Governor meets this salary problem in the same way he has tackled the tax problem.
