Bill Recalled Lowering Social Investigator Requirements; Substitute Measure To Be Permissive

ALBANY, Feb. 22 — The Bridges-Bronchek bill to lower educational requirements for Social Investigator licensing and employment was recalled this week. The measure was introduced by Assemblyman J. Luposello, Field Representative of the Civil Service Employees Association and it was withdrawn by the sponsor on the advice of the Acting Chairman. The measure was aimed at making it easier for individuals to qualify for the position of Social Investigator.

Pardon the Delay!

While the State Legislature is in session an unusual amount of space in The Leader is devoted to the heavy reporting of the legislative and employment programs of the Civil Service Employees Association. For this reason, your chapter news and photographs may be delayed but will appear as soon as possible. Please bear with us for awhile.—The Editor.

Legislature Gets Bills On 10 Per Cent Raise, Free Life Insurance

ALBANY, Feb. 22 — A bill to grant all State employees a 10 percent, $400 minimum, across-the-board raise has been drafted by the Civil Service Employees Association and introduced into the State Legislature for action.

Sponsors of the measure are Assemblymen Robert C. McElvain and Ernest I. Hatfield, Chairmen of the Finance Committees in the House and Senate, respectively. The hikes would be effective April 1, 1960. In addition, it has been drafted that a representative of the Association, as head of the retirement system, which would be more economical than a program administered by private life insurance firms.

At present, employees gain maximum service on the following dates but lose them upon retirement.

ALBANY, Feb. 22 — The position of Social Investigator in the State Civil Service Commission toward long-term provisionals has been spelled out in a memorandum.

The statement follows news reports published in the daily press that Rockefeller administration had freed 723 provisional employee in State service over the past six months. They held their jobs without qualifying by examination, for more than two years. There were reports, although not confirmed, that many of the provisionals had been replaced by appointees of the new administration.

Many of those dropped had already been hired during the former Martin administration.

Four Army Engineer Employees Get Awards

Four Army Engineer Employees have received Sustained Superior Performance Awards for their "fine records," Brigadier General Thomas H. Lipscomb, Division Engineer, announced. Presented the awards in his conference room at 90 Church St., Manhattan.

Herbert J. Oakes, assistant chief of the construction branch, received $250 for "displaying exceptional ability in solving the complex problems encountered in overseas construction."

Lang K. Gibbons of the travel section won $100 for consistently high quality work. He was cited for her cooperation in assisting fellow employees and for willingness to devote time after hours when necessary to complete a job.

Another $100 was awarded to Dock A. Heford for "constantly striving to improve and simplify methods of doing work assigned."

An assistant chief of the safety branch, Richard S. Rahte, was presented with a cash award of $250. He had been given a special assignment of instructing personnel in radiological monitoring. His concise outline and instructive manual has been adopted throughout the Corps of Engineers.

More Details on New Health Plan

It has been announced that all Federal employees will be given the option of four different plans, one underwritten by Blue Cross-Blue Shield and two by insurance companies, under the new health benefit program.

The insurance plan Option One provides in the first $30 of hospital and $12 for 120 days in a nonmember hospital; $2 for expenses other than hospital, full expenses paid in a member hospital and $6 per cent in a nonmember hospital; and $1.50 maximum for medications. A maximum of 150. Under both the insurance plan and the Blue Cross-Blue Shield Option One, the single employee would pay approximately $130 every two weeks and the family man would pay about $2.35. Under the number two plans, the single employee's cost is about $2.20 every two weeks and that for the employee with a family is $6.10.

Orders Prohibiting H.P.O. Coffee-Breaks

Following is a copy of the Post Office orders concerning mail unit personnel which was sent to The Leader with the letter on page seven by C. G. Williams, foreman of the Albany and Buffalo, H.P.O.:

All Mail Unit Personnel Leaving H.P.O. or H.P.O. to purchase food.

Effective immediately, on lines where the length of the run makes it necessary, that crew have a lunch break during advance, or at an intermediate point, instructions on allowing members of crew to leave car to purchase food will be:

1. In crews of 6 men or less, only 1 man will be allowed to leave car to purchase food for the crew.

2. In trains where there are more than 6 men in a crew, not more than 2 men in each crew will be allowed to leave for that purpose.

In H.P.O. points have been designated outside where the driver is allowed time to leave the vehicle to eat. These points have for the most part been selected due to volume of mail handling, required a luncheon stop. It is possible therefore, for the driver to eat while the clerks are handling the mail.

Instances have been brought to our attention where designated stop points are not being used by the driver, and that stops are made at un-scheduled points where driver and crew leave the vehicle to eat. This practice will be discontinued immediately. Crews of the H.P.O.'s are expected to eat enroute, without having to leave the vehicle.

M.A.O.'s in charge of H.P.O. service will give this matter their careful attention and take corrective action in all cases where current instructions are not complied with.

There is no objection to driver purchasing food for the crew, while on his lunch break and bringing it back to the vehicle. Failure to follow the above instructions, will result in disciplinary action against supervisors and crew members involved.

Time for Firemen and Cavanaugh to Patch Up For Sale of Pension

In the middle of a petition drive to get 2 million backers for a $6,000 to $7,000 wage scale, the two organizations representing New York City's uniformed firemen have become engaged in an unfortunate but bitter grievance dispute with their head man, Fire Commissioner Edward F. Cavanaugh, Jr., who may be fired.

The unfortunate timing of this dispute takes attention away from the petition drive, both in the minds of the men and the public whose support they seek.

The dispute arises from the firemen's charges of "pica-
yune tactics and petty harassment" and of union-busting and other anti-labor activities. Examples cited by U.F.A. officials are the management's charge of Staten Island companies for having dirty equipment when that equipment, to be inspected, must now go all the way to Welfare Island in order to be examined in its own station. It is argued that such equipment is bound to pick up dust, dirt, tar and mud enroute to Welfare Island inspections.

Another example cited was an inspection of equipment that had just returned from fighting a fire. The equipment was found dirty and charges were automatically preferred. The firemen have no dispute with good discipline and high standards, but they question the efficiency and fitness of their equipment, but on the contrary, they are very much in favor of both, because they realize their lives depend upon it.

When this group has stated that he was unwise in mindless "before some of these (officers of the U.F.A. and U.F.O.A.)

MARRASS POSTAL AIDES
Editor, The Leader:
I was interested in reading your
notes on the "Coffee-Break Win

Service News Letter, and am en-
claving a copy of a recent order
from Mr. Plummer, the Mobile Unit Manager, New York Region,
from the Postal Transportation Ser-

The order forbids clerks to leave
vehicles to even purchase a con-
fainer of cofTee (the driver is an
employee of the contractor that
furnishes the vehicle, so they can-
not refuse him a lunch period).

Since Mr. Summerfield has been
replaced as Postmaster General, the personnel of the Postal Transpor-

an eight-year nightmare.

SAYS FIREMAN’S LOT

A SERIES OF WAITS

Editor, The Leader:
To become a fireman for New York City one must go through a
waiting period. A would-be fire-
man must wait for the examina-
tion announcement and then fill
his application. Then he must
wait for the list to come out. Then
he must wait to be appointed. Af-
ter his appointment he must wait for his full maximum wage.

Following that, he waits and waits for a salary increase, while
economic conditions change and
the cost of living goes up.

Why does hospital care cost more today?

$2.50—that's today's average hospital bill! But you may have to pay $500—or even $5,000—the next time you're sick. Here's why:

Today's hospital is probably the most complex institution in the world—and one of the most expensive to run.

You'll find departments and services that weren't even dreamed of a few years ago. Cobalt therapy and phototherapy, provide hundreds of new services—expensive to be sure, but vital to quick, complete recovery.

An appendix case, for instance, may now take an electronic stethoscope that lets the doctor take an unborn child’s pulse! These are just a few new developments.

Miracle machines behind the scenes

"Incurably ill" is a diagnosis you don't hear as often these days—thanks, in part, to miraculous new lifesaving machines.

Imagine a device that pumps blood... and breathes! Machines like this can take over for a patient's own heart and lungs while the surgeon performs an intricate repair job inside the heart!

Imagine an automatic alarm that summons a nurse when the patient's blood pressure reaches a critical level—new 3-dimensional x-ray movies of the heart... an electronic stethoscope that lets the doctor take an unborn child's pulse! These are just a few new developments.

Miracle machines need people to run them

Of course, it takes people to run these machines and interpret their results... people who must have special skills and years of special training. Unlike a factory or a business where machines replace people—In a hospital, they call for more people.

For instance, the use of the artificial kidney for a single patient with uremia requires the services of eighteen doctors, nurses, and special technicians! No wonder that 70% of today's hospital bill is for human services.

All hospital costs up 12 years ago, your basket of groceries may have cost $1.00—but today, those same groceries cost you $1.75! And just like you, hospitals must pay more for groceries... and for linen, clothes, brooms, paper napkins, and literally thousands of other housekeeping items.

Along with prices, wage rates have gone up. In addition, today's average general hospital employs almost twice as many people as it did in 1946. And your hospital must pay more for business: 24 hours a day, 7 days a week, 365 days a year!

There's no doubt about it—modern medical care is saving lives and retarding people to health sooner. But it costs more money...for machines...for human services...for new life-saving medicines.

That's why...today... Blue Cross protection against rising costs of modern hospital care is needed more...and is worth more...than ever before.
Where to Apply For Public Jobs

The following directions tell where to apply for public jobs and how to reach destinations in New York City on the transit system.

New York City—The applications section of the New York City Department of Personnel is located at 26 Duane St., New York, N. Y. 7. You can take the IRT or IND subway to two blocks north of City Hall, just west of Broadway, across from the N.Y.C. Police Department.

Hours are 9 A.M. to 4 P.M., closed Saturdays except to answer inquiries.

Mail requests for application forms must include a stamped, self-addressed business-size envelope. Mail application forms must be sent to the Personnel Department, including the specified filing fee in the form of a check or money order. Mail forms five days before the closing date for filing of applications. This is to allow time for mailing and for the Department to contact the applicant in case his application is incomplete.

The Applications Section of the Personnel Department is near the Chambers Street subway stop on the main subway lines that go through the area. These are the IRT, IND, and IND 4th Avenue Line. The IRT Lexington Avenue Line stop is to the north, and the BMT Brighton Local's Chambers Street stop is to the south, and there are a few blocks from the Personnel Department.

STATE — First floor at 270 Broadway, New York 7, N. Y. Also: Office Building, 160 New Waverly Place, Room 212; Room 400 at 155 West Main St., Rochester: hours of these offices are 8:30 A.M. to 5 P.M., closed Saturdays.

Wednesdays only, from 9 to 3, at Watervliet, N. Y. Any of these addresses may be used in applying for county jobs, or for the job titles listed below.

The State of New York City office is a block south on Broadway from the City Personnel Department's Broadway entrance, so the same transportation directions apply. Mail applications need not include return envelopes.

Applications for State jobs may also be sent to the nearest State Employment Office, with a representative only, to local offices of the State Employment Service.

For more information, contact the Second U. S. Civil Service Region, 220 East 42nd St. (at 2nd Ave.), New York 17, N. Y. You can take the IND subway to the United Nations building. Take the Lexington Avenue Line to Grand Central, or take the shuttle from Times Square to Grand Central or the IND Fourth Avenue Line to any point on the line to the Grand Central stop. Hours are 8:30 A.M. to 5 P.M. Monday through Friday. Telephone number is BU 3-3388.

CSEA and Public Works Officials Meet On Numerous Major Employee Problems

Follows a meeting last month between representatives of the Civil Service Employees Association and J. Hurst McCormick, Superintendent of Public Works. The CSEA summarized the various matters discussed as a basis for a paper to be addressed to the Department of Public Works.

The letter, from Joseph F. Kelly, CSEA president, reads:

We accorded the opportunity of meeting with you and your staff to discuss from your point of view the various problems confronting the Department of Public Works and to seek your suggestions as to possible solutions to the problems.

As agreed in the meeting yesterday, we will transmit the various matters discussed, which were as follows:

1. We agreed an increase in the rate of pay for lumber employees of Public Works, the current rate being $1.53 per day for employees to an annual pay basis. In 40 hours of work per week the minimum will be $41.33 an hour. This rate is very competitive with the work of comparable industries and provides a livable wage and is far below the rates for lumber workers in the various regions and the rates which must be paid in order to attract and keep Public Works workmen.

2. Our agreement that your Department was in need of additional personnel and had recommended conversion to a time and a half basis for the instant that immediate steps should be taken to that end. The 7300 employees in your Department should be treated on a 40-hour work week, and many have 23 working days in a year and the conversion to the annual pay basis is logical and proper.

3. We requested Departmental authorisation that the work week of the Barge Canal employees be lengthened from 30 to 40 hours with no loss in take-home pay basis. The Barge Canal employees are the same treatment as that of the State Institutional employees during the past 17 years whereby employees worked regular 8 hours a day and the conversion to the same pay basis is logical and proper.

4. Our agreement that the work of the Department from the point of view of the CSEA to that of the Department who are in like employment engaged in the same work and that the employees have been advised by Budge Director Hart that a deficiency appropriation will be recommended in the 1960-61 Budget, to cover losses, and that the result of the appropriations will not only fully reimburse the employees for their time works, but also provide for further time works so that employees may be kept fully employed.

5. Our agreement that the compensation paid to engineers is discriminatory and that the report of the Division of Wage and Salary Survey should be followed in that the rate of pay for Canal employees. Up to this point all the overtime paid to engineers on operating engineers has been paid on a "regular" basis that it is paid to construction crews and that this arrangement was not reversed. We are of the opinion that this arrangement should receive further consideration.

6. Our agreement that the annual pay basis for Canal employees was placed on the pay roll on September 1, 1960, as a basis for receiving meal allowances for employees working under Chapter 98, Laws of 1959, and that these meal allowances are paid to employees in an amount of 25 cents, which is not in accordance with the prevailing local wages, which are well over 25 cents per hour. We hope there will be out loss in take-home pay during the year, and that the result of the appropriations will not only fully reimburse the employees for their time works, but also provide for further time works so that employees may be kept fully employed.

7. Our agreement that the workers engaged in emergency work In excess of 17 days a year should receive at least 10 cents per hour for overtime to engineers on operating engineers. Up to this point all the overtime paid to engineers on operating engineers has been paid on a "regular" basis that it is paid to construction crews and that this arrangement was not reversed. We are of the opinion that this arrangement should receive further consideration.

8. Our agreement that the various types and the present District Offices have had to as through our discussion, we understand that the CSEA and Public Works Officials were not interested in the canal. The patrols may be a legal question as to payment for overtime to engineers on operating engineers. Up to this point all the overtime paid to engineers on operating engineers has been paid on a "regular" basis that it is paid to construction crews and that this arrangement was not reversed. We are of the opinion that this arrangement should receive further consideration.

9. Our agreement that the workers engaged in emergency work In excess of 17 days a year should receive at least 10 cents an hour for overtime to engineers on operating engineers. Sen. Hatch Favors Use of Tax Surplus For State Pay Hike

State Sen. A. C. Hatch (R-Brooklyn) told a group of civil servants at the State Education Employees Association's Legislative Day program that the state government should use the $73 or $80 million in expected surplus tax revenues for a general salary increase this year.

The Governor, legislative leaders and members of the Legislature have proposed different ways of taking care of the estimated $40 million surplus. Proposals most frequently cited are: more money for education, keep the surplus as a nest egg, give the tax payer a $100 bonus on their state tax come tax returns, thereby raising the surplus tax revenues to 80.

Sen. Hatch said that this additional salary would be a modest pension and I would favor using the 25 or 46 million dollar surplus to give a general salary increase for State Employees. He promised his support in this direction.

A 10 percent salary increase with a minimum of $400 is the No. One resolution approved by the State Service Employees Association delegates at the annual meeting held last October in Albany. The cost of this 10% salary increase would be approximately $40 million dollars.

Governor Rockefeller says no salary increase this year for State Employees. He adds, however, that we deserve a salary increase this year and that the 4% salary increase of last year was not enough.

High inflation, spiralling costs of everything, low salaries, have the state employees backed against the wall. The average in-state worker in New York State earns more than $100 a week and the average salary of this group is $20 or 25 dollars less. And this is especially true for employees in the Department of Mental Hygiene. We too, favor more money for education, a pay as you go back, but we demand in the minds of state employees in justice and not more take home dollars.

All state employees are strongly urged to write, contact or visit their legislators and ask their support for legislation that will benefit the Civil servants.

Twenty-Five Years' Loyalty Service

Fifty-five dollars and forty-six cents is Ted Kelly's take home for the twenty-five years of satisfactory loyal service to the State of New York.

When Ted Kelly is 30 years old, will have been employed full time for 25 years of loyal and satisfactory service as a Clerk of the Civil Service Employees Association. Because of incomplete legislation this man finds that employees in the same title and salary grade as he, have served from 1 to 20 years of satisfactory service. He is paid and he ay he is 25 any one in the State can explain the justification of this salary inequity to him, we would be pleased to meet him.

Grass Roots Needed

It mystifies our hospital employees that a State so rich in revenues and administrative talent should permit a situation as mentioned above to exist for 25 years with only half-hearted attempts to rectify the situation.

In the last ten years, thousands upon thousands of dollars to study the employees pay problem, the salaries are still low and the inequities are many.

Governor Rockefeller will have the opportunity to study the pay disparities in the State institutions. The committee would be wise to start with the pay inequities of the Ted Kelly's in our hospitals throughout the State.

Activities of Employees in State

The officers are expected to be announced at the next meeting.

The following were elected as officers:
- Walter T., head of Beauchamp Branch Library and Miss, Nellie Johnson, head of the Taconic State Park Commission.

The following members were voted to prepare a Resolution to the Board of Education.

The officers are expected to be announced at the next meeting.

Mr. and Mrs. William Trebilco, a Catholic couple with four children, were married in a Catholic church in Utica. They were married in the presence of many friends.

To all the men and women of the Taconic State Park Commission, we are sending our best wishes for the future.

Winter is coming to an end and the Taconic State Park Commission, we are sending our best wishes for the future.
