City Police to Host 16-State Pistol Match Sept. 24

Law enforcement officers from 16 eastern states and various parts of Colombia were invited last week by New York City Police Commissioner Stephen P. Kennedy to compete in his Department's First Annual Pistol Match. The match will be held this Saturday, Sept. 24, at the Police Outdoor Pistol Range, Rodman's Neck, on the Bay Park Playground land in the Bronx. The all-day tournament will begin at 8 a.m.

The match is open to individual competitors and to one or more four-member teams from any organized police department or law enforcement agency. There will be no entry fee and it is expected that about 300 trophies will be awarded.

The competition will be broken down into five matches: number 1 for four-person teams; number 2 for two-person teams; number 3 and 4 for individuals; and 5 is the high aggregate championship match, including those contestants who, in matches 3 and 4, fired the highest aggregate score. Each match will include slow, fire, fine and rapid fire. All firing will be done from a single position.

Commissioner Kennedy urged these interested who are qualified to participate to file for entry by sending information as to their police affiliations to Sgt. Piank Cristalli, in care of the Police Public Relations Bureau, 280 Broadway, New York 6, N.Y. Entries close Aug. 17.

Custodians in Public Works Dept. Set 17th Annual Outing

The Custodians Association of the New York City Department of Public Works has set Aug. 17, for its 17th Annual Outing and Clam Bake. It will be held at Currie's Picnic Grove, Landown.

The feature attraction of the day, according to Mr. Lawrence, chairman, is the baseball game. The Middletown Fire Pies, secretary of the Association, will take the field. A fast pitch game as between custodians and Forest Hills custodians, with Public Works Commissioner Frederick H. Munz bringing in honorary umpires at home plate. Umpiring at first base will be "Big Joe" Basch, who recently retired after 35 years service.

Union Hocus Pocus

ALCHEMISTS searching for the "Philosopher's Stone" put centuries of investigation into the search in hopes of finding the magic rock that would turn base metals into gold.

As far as we know, the "stone" was never found but the other day we heard of a magic act almost as good—turning press releases into union contracts.

Jean Rockefeller, head of Council 50, AFSCME, met recently with J. Burch McMorran, Superintendent of State Public Works, as the result of union charges against the PW Department.

After the meeting, a "press release," of which we saw a copy, was sent out and was signed by McMorran and Mr. Couturier. In it, Mr. McMorran asked for substantiation of union charges and at the same time, advised the union chief of the Public Works personnel practices.

Now comes magic time. Mr. Couturier, on the same day of the meeting, issued a press release terming the original press release a "bill of rights for workers" and a "contract between the union and the State Department of Public Works."

Well, like all magical tricks, Mr. Couturier's was merely an illusion. The "bill of rights" he referred to are the present practices in force in the PW Department for years and Mr. Couturier's small band should be plenty annoyed with him for just now discovering their ordinary working privileges. They were contained in executive orders issued by Gov. Dewey and Gov. Hamilton and in the result of negotiations with the Civil Service Employees Assn. Gov. Rockefeller has continued these practices.

But there is one thing, it seems, is still a little old press release. The Public Works Department never heard of it.

In the meantime, back at the Civil Service Employees Association, the job of steady representation of Public Works employees continues, not with newspaper tricks but with year-arent attention to problems at hand.

Vadala Goes to New Commerce Dept. Post With Many Good Wishes

SYRACUSE Aug 23—Michael P. Vadala, newly appointed Regional Manager of the New York State Department of Commerce, left for Elmira, Aug. 20 at a testimonial dinner at Hotel Yates. The affair was sponsored by the regional offices of the Syracuse Chamber of Commerce and Finance as the result of union and legislative charges and in the result of negotiations with the Civil Service Employees Assn. Gov. Rockefeller has continued these practices.

Vadala is a graduate of Pompeii Church. For several years' of service.

Vadala was given by B. Beaver, William G. Peck, Chairman of the Syracuse Chapter, Rex Lamb, President of the State Commerce Dept. Post, Mr. E. E. Fett, State President of the Syracuse Chapter, and from the Syracuse Chapter offices: from J. E. Fett, State President of the Civil Service Employees Association: Honorable Charles Schenck, Majority Leader of the New York State Assembly and from the Syracuse Chapter, American Red Cross. The guest of honor was the recipient of a number of gifts.

Many Paid Tribute

Letters were read from Deputy Commissioner Ronald R. Peterson, Assistant Commissioner James T. Palamara, and Heads of all offices of: Commodities Distribution, James E. McCraith, Deputy Commissioner: Joseph E. Pelly, State President of the Civil Service Employees Association and from the Syracuse Chapter: Honorable Charles Schenck, Majority Leader of the New York State Assembly and from the Syracuse Chapter, American Red Cross. State Promotion Tests Offered for Positions In Many Departments

The State of New York has just released a long list of promotion examinations for jobs in many different categories, in various State departments and agencies. They are open only to employees of the department or promotion unit for which the tests are announced.

The list comprises tests for positions in the following departments:

1. Agriculture
2. Education
3. Finance
4. Health
5. Labor
6. Mines and Mining
7. Nursing
8. Public Works
9. Taxation
10. Welfare

The tests are designed to test the qualifications of candidates for positions in the State service.

The Civil Service Examination Board is responsible for the conduct of the examination.

Salary, Job and Study Plan for Assembly

(Syracuse) Sep 13—The survey is expected to be completed by Sept 1st and the new "merit" plan is slated to be instituted by the end of the year.

Mr. Carpenter said he would consider with several key people and with each of the Assembly department heads putting the salary plan into effect.

No employee is in danger of receiving a salary cut. The law was enacted, however, at a lower salary grade and any new appointee would start at the lower salary.

The job survey is also going on at the State Civil Service Employees Association, which has members among legislative employees.

The Carpenter law is more the first time, however, in legislative history, a survey to be undertaken to institute a classification plan for employees.

Rights for Non Competitives

(Continued from Page 1) Supervisors have been given various administrative responsibilities, including that of your own, with ideas that there may have been spontaneously submitted from our own membership, as the result of the "merit" plan for increased in take-home pay. Indeed the entire trend of the Civil Service Association are of this nature.

At this time we now request that the Civil Service Administration consider a program designed to enlarge the qualitative ability of the non-competitive class. In addition to personnel administration support a measure which we will sponsor in legislation this year, designed to restore political influence from the appointment and hiring before removal of all classes of State employees.

5 Years Sufficient Probation

Specifically, we recommend that employees who have given five years of service in the non-competitive class be placed on the list of employees entitled to be appointed from the vacancies of political life that is presently available.

We suggest that a "non-competitive" employee be appointed after a period of five years in the State, has served a suitable period for any administration, whether it be Republican or Democratic.

Accordingly we propose that an employee in the non-competitive class who has served for five years for the State he be appointed the protection of Personnel and Finance Law, guaranteeing that he receives a full and impartial hearing before removal from State service.

We believe that under all circumstances the situation is such that the changes in administration will make them eligible for appointment.

Employees in the State who are least responsible for political change by loss of job. We feel the impact of political change by loss of job. We feel the impact of political change by loss of job.

We believe that the whole composition of political activity is such that the people of our State now recognize that positions of political making are the ones that should be given to the people who are ready to vote, not the ones that are ready to vote.

The survey is now being taken to institute a classification plan for employees.

Jacobs Urged to Unfreeze Clerical Promotions in All City Hospitals Units

The commissioner of the New York City Department of Hospitals said that he was strongly urged last week to reevaluate his Department's clerical policies. The proposal was made by Richard S. Bausch, president of Terminal Employees Local 821, the leading employees organization among City clerical aides.

In a letter to Hospitals Commissioner Morris A. Jacobs, Mr. Bausch stated it was "time that the top brass looked around and saw the meager pay and unsatisfactory rates for nurses and nurse aides doing clerical work."

He cited the fact that no supervisory clerical promotions had been made for some time. He also cited the fact that, according to the Mayor's Commission on Health Services, while 627 registered nurses and aides in 12 hospitals are under the Department, only 124 are actually employed.

He said the report was submitted by Margaret Bausch, of the New York City Department of Hospitals, 96 Diem S., New York, N.Y. A, two block north of City Hall and just west of Broadway.

THERE IS, AMONG government officials, always much talk of extending the Merit System in the Civil Service. But like the weather, all this talk seldom brings any real change.

We would like to call to public attention, therefore, to some proposals by the New York State Civil Service Employees Association which, if acted upon, will be a sincere method of replacing talk with action. These proposals center to Merit System to employees in the non-competitive class.

City to Pay $2,285 for Employee Suggestions; 2 Transit Aides Get $500

The New York City Suggestion Award Program will pay off handsomely for 20 City employees, who will divide $5,588 in cash for their prize-winning ideas. The awards were announced by the chairman of the Suggestion Award Board, Acting Personnel Director Theodore H. Langer.

Two of the 29 winners will receive awards of $500 each, two will get $500, two more will receive $100 and the others will receive from $15 to $50.

The Award Board also amended the Manual of Policies and Procedures of the Employees Suggestion Program by increasing to $1,000 the maximum award possible for an employee to win for one suggestion. This action had already been approved by the Board of Estimate.

Joseph Battilion and Louis Marconi share the second $300 award. They jointly suggested a revision of the procedure used in presenting the recept of balance payments on real estate sold by the City at auction.

John H. Jackson, a Patrolman, is the recipient of a $100 award. His Idea pertained to the elimination of the printing and distribution of sales list for each borough.

Joseph Mazzuoli, an employee of the Fire Department, shared a $50 award with Michael Parenteau, a Fireman, for a suggestion improved the testing of the fire alarm systems.

Three Department of Real Estate employees share $600 in awards. Jack Goldsmith received an award of $250. His idea pertained to the elimination of the printing and distribution of sales lists for each borough.

One suggestion received $500 each, are Henry Becker, and John E. Jackson, both Transit Authority employees. Mr. Becker suggested a modification of the motorman's seat installation in the RMT subway cars now being refurbished. Mr. Jackson devised a grate which accurately checks the tension of the contact fingers of RMT subway cars in search of a commercially produced device for this task proved unsuccessful.

Five New York City police detectives were advanced in rank recently by Police Commissioner Stephen P. Kennedy. They were congratulated for the "persevering, intelligent and diligent investigations which resulted in an arrest of an innocent man on a murder charge, the arrests of two criminals and—in another case—the arrest of a man sought for murder in Newark, N.J."

Three detectives were advanced from second to first grade in connection with these events: Francis T. Smith, 86th Squad; Edward J. Dukler, Brooklyn East Homicide Squad; and Daniel N. Murphy, 17th Squad. Two others were advanced from third to second grade: Detectives Robert T. Yorke, 7th Squad, and John P. Dolan, 15th Squad.

Commissioner Kennedy also congratulated Deputy Chief Inspector Neil C. Winberry, in command of detectives in Brooklyn East; Lt. William Palmer, Brooklyn East; and Sergeant Neil C. Winberry, in command of detectives in Brooklyn East.

Detectives Murphy and Dolan were advanced in grade for the arrest of Gerald DeCarolis, 24, 103 Brookdale Avenue, Newark, who was wanted by Newark police for the killing of Louis Rupino, 36 Norwood, Newark, and the shooting of a second man. The detectives searched the midtown area and discovered DeCarolis at 357 Avenue and 50th Street and took him into custody for New Jersey authorities.

Commissioner Kennedy said that the work of the detectives in these two cases typifies the best type of professional police service. He praised particularly the diligence and perseverance of the Brooklyn detectives in pursuing an investigation even though it had apparently been "closed by arrest." Commissioner Kennedy said: "The work in this case was outstanding and emphasizes that the police role is not only one of apprehension of the guilty but—more even vital—one of constant protection of the innocent."

He added: "Pursuit of the truth has been the philosophy and goal of philosophers and scientists throughout the years. The pursuit of truth is also the philosophy and goal of the Detective Division of the Police Department of the City of New York, for that is also the policy of my administration. The question is not how many arrests and convictions did we obtain, but did we establish the truth? There is no such thing as a routine investigation, because the life or liberty of some person is at stake in every case."

Operators Needed for Office Machines in U.S. Agencies in City

An examination for office machine operators, open to both men and women and requiring from three months to two years of experience, is now being offered in the New York area.

High School education and pertinent training in machine operation may be substituted for all or part of the required experience. Applicants must be at least 18 years old at the time of filing, but there is no maximum age limit.

The Positions

The particular office machine operator positions covered by this examination are bookkeeping machine operators, calculating machine operators, card punch operators, tabulating machine operators, calculating machine operators, duplicating equipment operators, and office equipment operators.

These positions are in grades GS-2 and GS-3 with starting salaries of $3,500 and $3,700 a year respectively. Teletypist positions at grades GS-3 and GS-4, with starting salaries of $3,700 and $4,040 a year are also covered.

The Requirements

For GS-2 positions, three months of experience are required. For GS-3 positions, at least six months of experience are required. For telegraphist positions, at Grade GS-3, at least three months of experience must include the training of new employees and the setting and control of machines.

Three open competitive lists also will be included: mechanical engineering draftsman, 16 names; assistant hospital administrator, 3, and medical social worker ( Wellesley, 2).

The official lists may be inspected at the leader office, 97 Duane St., two blocks north of City Hall, just west of Broadway, from Wednesday, Aug. 24, through Wednesday Aug. 31.

Forms, contact the Second U.S. Civil Service Region, 229 East 42nd St., New York 17, N.Y. Applications will be accepted until further notice.

Lang & Beame Report to The Mayor on Career and Salary Plan's Progress

Acting New York City Personnel Director Theodore L. Lang and City Budget Director Abraham J. Beame last week released the Sixth Annual Report to the Mayor on the Career and Salary Plan, which was established by the City July 9, 1954.

The report is called for in the resolution of the Board which established the Plan. The second phase of the Career and Salary Plan, which was completed in 1955, established a classification of modern civil service titles and class specifications for the majority of City civil service positions involved.

The second phase, which is a continuing nature, requires desk audits for all positions covered by the Plan. The audits are done through the cooperation of the employees. The department head, a personnel examiner from the Department of Personnel, and an attorney from the Budget Bureau.

This year marks the completion of desk audits for all positions under the Plan, according to the report. The 16,000 audits made during the period classification and exam classification plan. It is our considered opinion that the rate of progress and the overall accomplishments thus far obtained have been highly satisfactory.
