Governor Hears:

Air Guard in No-Man's Land On Retirement

ALBANY, Dec. 18.—The Civil Service Employees Association petitioned Governor Rockefeller again last week to correct the injustice that has caused the state's Army and Air National Guard technicians to be placed in a no-man's land with regard to retirement benefits.

The situation which is depriving the guards of the opportunity to participate in either New York State's employee retirement system or that of the federal government is the result of the inability of the two entities to agree as to whether it is responsible for paying the employee's share of retirement plan costs.

Last September, through the efforts of the Association's Congressional representatives, legislation was approved enabling the federal government to contribute as much as 4.5 per cent of gross salary toward the individual technician's share of his retirement plan.

The present New York State contribution is approximately 10 per cent, however, and in order to make the National Guard technician eligible for retirement benefits, the Association has been petitioning the Governor to order that the state share of the retirement plan be increased.

Park Police Petition

ALBANY, Dec. 18.—The Commission has been petitioned to reconsider its rejection of a grievance by parkway police seeking to obtain vacation and more liberal personal leave privileges during summer months.

The benefits were denied at a hearing last January before C. R. Blackmon, executive secretary of the Commission.

The request for reconsideration was made in a letter from Joseph P. Feily, president of the Civil Service Employees Assn., and Stanley Goral, president of the Long Island State Park Police chapter, CSEA.

Present Policy

The present policy of the Commission prohibits vacations from the third week in May until the third of September, approximately a six-week period. The parkway police also stated that during this period the policy on granting personal leave is more strict than during the balance of the year.

As the result of the appearance of the parkway police, it was their hope that the Commission, "having considered the grievance, will cause a survey to be conducted to determine whether a redistribution of the work force is called for."

New Military Pay Exemption

Under a law enacted in November, 1961, military pay of up to $100 a month received by a New York State resident who has been called into active service in the Armed Forces of the United States is exempt from New York State income tax. This exemption applies to pay for full-time active military service received after September 1, 1961, and up to June 30, 1963, or to the date on which the reserve component to which he belongs is no longer on active Federal military duty, which ever occurs sooner.

A full month's exemption (up to $100) is allowed for each month during any part of which the serviceman was actually on active duty. If the serviceman has no permanent place of abode in New York State, assignment to duty outside the State does not change this New York residence. He must file his return and pay the tax due in the same manner as any other New York State resident, and the exemption must be claimed for the calendar year 1961.

A serviceman eligible for this exemption should complete Form IT-201-MS and attach to his income tax return.

Residence Status

If, at the time he entered military service, the legal address of the serviceman was in New York State, assignment to duty outside the State does not change his New York residence. He must file his return and pay the tax due in the same manner as any other New York State resident, and the exemption must be claimed for the calendar year 1961.

A serviceman eligible for this exemption should complete Form IT-201-MS and attach to his income tax return.

Status of Compensation

Taxable compensation is compensation received on or after January 1, 1962, by members of the Armed Forces who are residents of this State and subject to New York State income tax. However, no provision of law provides for any exemption for military pay up to $100 a month, effective October 1, 1961.

Nontaxable Benefits

Direct pay and other nontaxable benefits granted for the relief of injured or disabled veterans, as well as other benefits, are subject to the following reduction in the penalties and maximum exemption which may be claimed for the calendar year 1962.

To be claimed for the calendar year 1962.

The New York State Department of Veterans' Affairs will provide information to the Armed Forces concerning the application for benefits under the New York State Income Tax.

Executive Order Ignored By Kaplan, CSEA Charges

(Continued from Page 1) until the Association has time to study the situation.

The Association president said "we are still puzzled, however, at Mr. Kaplan's obvious reluctance to comply fully and immediately with the provisions of the 1961 Executive Order." Referring to a report for a booklet explaining state relevance to the grievance procedures, Mr. Felly reminded Mr. Kaplan that any request for a booklet . . . until we could review the document . . . has now been deferred." Mr. Felly said he again made it clear that the state should be willing to persuade Congress to provide the full state employees . . . to the state employees. Mr. Felly said it appears that every argument that can be advanced to persuade Congress to amend the federal law has been used without success. In a way we can understand the attitude of the federal government in view of the fact that the Federal National Council regulations state that only federal employees are termine to the state employees and it seems that the state has been operating under such regulations for many years. We believe that the state should be willing to meet this problem half way in cooperation with the federal government . . . so that remaining monies to allow state re-imbursement above the 7,000 level, would make the unions bargain for the employees. Mr. Felly had been reappointed to serve another term in the state legislature. Mrs. Kittelberger only the night before had attended a CSEA dinner. Her work for the CSEA had been praised at the meeting. Mrs. Kittelberger was a member of a club operated by her husband. Alfred Gates has now been named executive secretary of the State Education Chapter of the Civil Service Association of Alberta and Mrs. Kittelberger is Maria Meffert, Provincial executive member of the Civil Service Association of Alberta and on an international scale when the recent convention of the Ontario (Canada) Civil Service Association was held in Toronto, representing the CSEA President Joseph F. Felly has been reappointed to serve another term in the state legislature. It is understood that Guzzetta and Gates will give up their present positions to devote their time to the commiss. Three girls and one technici woman had to join the merger unit, and two girls are to be eliminated at a saving of $12,000. Increases for Guzzetta and Gates will amount to less than the saving. Democrats not only bitterly oppose the merger, but are expected to challenge it in court. In the November election, Democratic control of the City Administrative Board was returned control of the Monroe County Board of Supervisors, Vice President Gates, will be succeeded by a Democrat Jan. 1. Democratic Commissioner Franklin L. Ball called the merger "one of the most irresponsible actions. If not the most irresponsible action, I have seen since I have been on the Council." Mayor-designate Henry Gillette called the mergers "absurd and possibly" and said: "I didn't know people could lose in such a way. This is a sad day." Democrats have called this, for political maneuver and have argued it should be done in such a way. This is a sad day. The Long Wait

President Kennedy last week called for a greater public awareness of "the tremendous contributions which our public servants make to an effective and free society." The President referred to the Rockefeller Public Service Award winners, the occasion being the luncheon at the Sheraton Hotel in Washington, honoring the five outstanding public servants for their long and distinguished service in the Federal Government.

In his message, which was sent to the Luncheon, the President stressed the value and dedication of career civil servants, and observed that "many of our citizens have little understanding of their work."

The Gap Widens

The gap of misunderstanding between State employees and H. Elliot Kaplan continues to widen.

As president of the State Civil Service Commission, Mr. Kaplan is the spokesman for the Board of Estimate. As representatives of 98,000 public employees across the State, the Civil Service Employees Association and its leaders are spokesmen for these affected by Commission actions.

In the nature of things, the two should be in communication and understanding on all important issues affecting public employees.

The Employees Association is still awaiting an answer from Mr. Kaplan—an answer that makes sense—on reasons why the Commission is placing so many positions in the exempt or non-competitive classes. This, the CSEA charges, is an invasion of employee rights.

Not only has Mr. Kaplan not acquitted himself sensibly on these charges, but he also brought another serious accusation upon himself—financing his occupancy of an Executive Order dealing with changes in State Attendance Rules. The order establishing the rules instructs that no changes should be made without first consulting with employees and their representative associations.

What is the meaning of the obscenity in the rules? The CSEA considers the rules meaningless in light of the letter of the law allowing decisions of the Board of Estimate.

Other areas, Mr. Kaplan has proceeded to act unilaterally, as though any action of the Commission were nobody's business but the Commission's. It is precisely this attitude that is widening the gulf between Mr. Kaplan and, we should remind him, the people his office requires him to protect and serve.

ALBANY D.E. — Active participants in the recent meeting of the Albany Division of Employment chapter, Civil Service Employees Association, were, from left, Edward Harvey, vice-president; Robert Gaudette, former publicity chairman, and Harry A. Koolstron, vice-president of the CSEA Capital District Conference.

Buffalo Aides Honored

At a reception held recently in Andrews Hall at Buffalo State Hospital, employees of the hospital who have served for 25 years or more and retirees from the hospital were honored. Shown at the reception are, from left front row: Helen Ridley, Mrs. Eleanor Nussinski, Mrs. Elizabeth Locher and Mrs. Marianne Szwarc. In back, from left: Dr. Harry E. Eberts, president of the hospital's board of trustees; Dr. Leonard C. Lang, assistant director of the hospital and also a 25-year pin recipient; and Maximilian Gurbacki. Albany Sets Fuller Membership, Active Participation Goals

The Albany Division of Employment chapter, CSEA, met recently at O'Connors Restaurant in Albany. Guest speaker Harry A. Koolstron, vice-president of the Capital District Conference, advised that every chapter should have a representative at their district conference meetings so that they can work together to form a more active, cooperative and useful organization. He stressed that the individual members can gain the most by seeing members of the association with cooperation between the conference and chapter.

The Grievance Committee chairman, John Wolff, who is also a past president, gave a summary on the effect of electronic data processing on personnel that it is possible for workers to be reassigned without their consent. He also noted that anyone offering a grievance at the chapter should see his representative who will find out what can be done to maintain cooperation and good employee relations.

Robert Gaudette, president of the Albany Division of Employment chapter, thanked the attendance of members at future open meetings. He also noted that since some members of the chapter had questions on the increase of life insurance rates because of the additional coverage, Vice President Edward Harvey would be able to explain the change to members if they would have their representatives contact him. Mr. Gaudette also suggested that members should attend the 25-year dinner honoring employees of the division in order to get acquainted with other members of the Labor Dept.

Dorothy Honeywell, membership chairman and recent past president, should be contacted by all representatives of the chapter in order to enlarge the membership strength.

All non-members should be contacted.

Helen Larken social chairman described a lot of credit for the success of our fall clam bake. Helen is the planner for the chapter's Christmas party for the holiday enjoyment of the children of all D. of E. employees. The Christmas collection for the area homes for children will be taken again this year.

FOR 25 YEARS — These employees of Craig Colony and Hospital were recently recognized for 25 years of service with the State of New York. Front row, left to right: Mrs. Barbara Apolin, Mrs. Mary Haywood, Mrs. Louis Spach, and Mrs. Germaine Mannix. Mr. Gray announced that there would be no regular business meeting in December.
