Unequal Institution Salaries Abolished, Lt. Gov. Wilson Says

ALBANY, Jan. 8 — All salary inequities, resulting from establishment of a 40-hour week for institution employees, have been completely eliminated, according to a special survey by the State Civil Service Department. The report on the survey results has been made to Gov. Rockefeller by Li. Gov. Malcolm Wilson.

"It is with a great source of satisfaction and gratification that I am able to report to you the successful culmination of a long campaign for the elimination of these salary inequities, which affected so many of our employees," Lt. Gov. Wilson wrote. "Recently, the establishment of a 40-hour week for institution employees, by the State Civil Service Department, has been assured to work schedules in excess of 40-hours a week.

The Wilson letter pointed out that some 5,600 employees, primarily working in state institutions, had been assured to work schedules in excess of 40-hours a week. When legislation was passed to institute a 40-hour week, their rules of pay were not the same.

(The following letter was written by Joseph F. Feil, president of the Civil Service Employees Association. It is addressed to all members of the Division of State Police.)

"Because I have assured you of the desire of this Association to ease any war we may ever encounter, the delegates last October and calling for the immediate reduction of the work-week of the State Police, I wish to report that on Monday, Jan. 2, I met once again with the secretary to Governor Rockefeller, Dr. William Ramm, in order, as forcefully as I was capable, to bring to the attention of this Administration this very important problem.

"It has been assured by Dr. Ramm that the Governor is keenly aware of the problem and it is to be hoped that I shall have some definite information to advise our members of the immediate future."

Subject: Welfare Work

To the Editor, Social Security

I have never written a letter of this sort before but it makes my blood boil. I have heard that Mayor Wagner can get himself a $100.00 raise in pay

If we need a Welfare Patrolmen who works at the Men’s Shelter, I’m terrified when he goes on to describe the mayhem brought about by people and derecites there. For, the privilege of working there, he’s paid.

With four children to support, I think it is inexcusable than a disgrace, and, in the absence of the whole duties and hazards of a city patrolman should be paid so miserly.

If the mayor is interested in his employees and in their morale, he will cancel.

A family of six is better off with being on Welfare than working for him. I think that a man who wants to work should be paid equal pay for equal work.

Below are questions on Social Security problems sent in by our readers. We hope this series of questions and answers will be helpful in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N.Y.

My wife is 40 years of age and we have three children under age 18. She had to quit her job in a department store a few years ago because of a complaint of back trouble. She has been employed twelve years. Would she have to wait until she turns 65 to receive any Social Security benefits or could she be entitled to disability benefits? My disability protection claim for disability benefits before December 1, 1961, she may become entitled to monthly benefits as far back as November 1960. Also, your children under age 18 may qualify for benefits payable over the same period.

Do you have anything that tells how a 62-year-old man can draw social security benefits?

Employers’ Liability Law

This is the name, the “Employers’ Liability Law.” Had you ever heard of it? Does it ever apply?

The fact is that it is a very old law. It became part of the Labor Law way back in 1909. That was the old form of the Compensation Law. The modern Law was cast aside and set up separately in the Consolidated Laws. In 1955, the law was amended again.

The law now stands. From June 1, 1955, when Carmine De Sipio, the Secretary of State, authenticated it, to May 10, 1961, when Caroline H. Simon, the Secretary of State, authenticated it, there was only one decision under it, an appeal from the Nassau County District Court, in which the law was not even mentioned. Kopeit v. Bierman, no official report, 207 N.Y. S.2d 540, in 1960. Imagine, six and a half years under an “Employers’ Liability Law,” and only one decision under it, an appeal from a District Court.

I do not say that this law is unnecessary. It is, in fact, very necessary. I say that documentation should be used to kick it out and rephrasing it. There is hardly a decision in it less than twenty or thirty years old.

However, this is not the effect of this law on the Civil Service. We will see about that in a minute.

Does it affect CE employment?

This Law, from its origins in 1909, was intended to apply to the civil service. There is not a single specific exemption as to the civil service to it. Yet, in every case, raised in it, based on civil service principles. It was held not to apply.

There is one major limitation as to civil service. It excludes certain employees who get Workmen’s Compensation Law benefits. Section 17 provides that, “nothing contained in this chapter shall be deemed to make any person exempt from the provisions of any workmen’s compensation law.”

The provision in Section 17 takes care of a lot of civil service employees. However, what is the situation with respect to the many who do not come within the language of Section 17, exempting them, as indicated above?

We believe that they are exempt under another provision of law emuncted in Miller v. City of Albany, 138 Misc. 570, aff’d 247 App. Div. 486, 1925.

About twenty-five years ago, there was a very sad case in the City of Albany in which two trucks of the fire department, answering an alarm, collided on a highway and killed and some were badly hurt. Miller v. City of Albany, 138 Misc. 720, aff’d 247 App. Div., 486, 1925. The plaintiffs brought an action against the City in which they urged the applicability of the Employers’ Liability Law, among other things. The Judge wrote an opinion for the Appellate Division in which he stated: “The case and not a public officer’s case. I have found none of them applicable to public employees. I would not under the old law. I have an idea that the authorities cited above which conclusively indicate that the Employers’ Liability Law has, to a great extent, been rendered obsolete by the Workmen’s Compensation Law, which provides an exclusive remedy for the injury or death of an employee while employed in any employment enumerated in section 3 of the latter act. The liability imposed by this chapter would, therefore, seem to be restricted to employees in occupations not embraced by section 3 of the Workmen’s Compensation Law.”

The question is whether the Employers’ Liability Law can apply to public employees. I would not try to answer that question. The court seems to have answered it “no” in workmen’s compensation cases and in public officers’ cases. Still there seems to be a minimum in the law which covers the employees of the government, but not in the case of public employees. I have found none of them applicable to this law and I therefore leave the question open.

Workers’ Compensation

For benefits under the social security disability provisions. This should be made than he had under the old law.

If I work at a department store for only six weeks during the Christmas season, must I get a social security card and must social security taxes be paid on my wages?

Yes, anyone working in a business must have a social security number and pay social security taxes no matter how short a time he works.

I had a social security card many years ago before I was married. Can I apply for a replacement card — not for a new number. You keep the same number all your life. This is true for anyone — even if she changes her name.
Private Nursing Care?

Covered!

Over 150,000 employees of New York State, counties, of towns, of villages, and of school districts are protected under the health insurance plan made available by the State of New York.

The combination of Blue Cross, Blue Shield, and Major Medical (Option I) is known as the Statewide Plan. In certain counties of the eastern portion of New York State, Option II or III can be purchased in lieu of the combination of Blue Cross and Major Medical. Blue Cross coverage is the same throughout the State.

During the months of January and February 1962, eligible employees covered under the New York State health insurance plan will have the opportunity to change from one option to another.

The Statewide Plan includes the combination of Blue Cross, Blue Shield, and Major Medical. This plan offers the most liberal benefits at the lowest possible cost. This means those employees who are eligible can now transfer to the Statewide Plan.

For Your Health's Sake - Employees enrolled through New York State Health Plan

Please Choose Carefully

**THE GHI OPTION** STILL PROVIDES:

**COVERAGE FROM THE FIRST VISIT:** Under the GHI Option, your insurance starts with the first dollar. There is no "deductible" that you must pay before your benefits begin. You also are not required, under the GHI Option, to pay any percentage of doctor bills (co-insurance amount), which might discourage you from seeking prompt diagnosis and early treatment.

**PAID-IN-FULL BENEFITS:** GHI "Service Benefits" apply without regard to your income or that of your family. Over 10,000 participating doctors have agreed to limit their charges for covered services to GHI's allowances when the simple GHI paid-in-full rules are followed.

**FREE CHOICE OF DOCTOR:** Under the GHI Option, the same GHI payments are made no matter what doctor you choose. When paid-in-full benefits apply, GHI pays the doctor directly. If a non-participating doctor is chosen, you receive the check.

**HOSPITAL BENEFITS** - Like all New York State Civil Service employees, subscribers under the GHI OPTION are covered by the 120-Day Blue Cross Plan.

**OUTLINE OF YOUR GHI OPTION BENEFITS**

In June of 1961, the GHI Family Doctor Plan was expanded to improve the benefits provided for the almost 70,000 persons then covered under the New York State Program. Under this Expanded Plan, NEW BENEFITS not previously provided were added, and many other parts of the program were IMPROVED by increasing the schedule of allowances paid. In other cases, benefits were CONTINUED at the existing levels. In no case were benefits reduced.

During the transfer period from Jan. 1st to Feb. 28th, employees enrolled in the other two options may switch to the GHI Option.

### New Director of Syracuse State School Appointed

**MHEA To Meet On Jan. 22**

John O’Hara, president of the Medical Hygiene Employees Association, has called a workshop and meeting on January 22. The first session will be held at 8 p.m. Jan. 22, in the Hotel Wellington, Albany.

Promotion of pertinent topics and resolutions affecting Medical Hygiene Employees will highlight this meeting. Representation will be present from the 23 institutions.

### Fewer Grievances

(Continued from Page 1) because salary and job classification have remained the same as those provided by the other State agency. This is merely to avoid duplication of effort, he said.

The Board is now unjustifiably refusing to hear cases which it is expected to hear under the CSEA grievance procedure. He said that under the 1955 executive order establishing the Board, it is empowered to hear, the CSEA grievance procedure, provided they do not result in very little salary adjustment. The Board is not responsible for its administrative work. It is the attitude of the present administration.

In his letter to Mr. Kaplan, the Association head said that “what is wrong with the present grievance procedure is the manner in which it is being administered. To be perfectly candid, it is not merely the grievance machinery itself which makes the grievance procedure work. It is the attitude of those responsible on the part of the State for its administration.”

Mr. Peithy noted that since Mr. Kaplan took office in 1955, 20 of the 21 cases submitted to the Board were rejected as not meritorious. He said the significance of these rejections is that the 21 pertinent grievances were left without any remedy whatsoever.
