McGinnis Gives Full Backing to Correction Officer Title Appeal

ALBANY, May 7—A hearing before the State Civil Service Commission on an appeal
by the Civil Service Employees Association for reclassification of correction officer titles
was held last week by the assurance of Correction Commissioner Paul McGinnis that
he unequivocally endorses the
CSEA bid.

The hearing was scheduled for
today at 6:30 P.M. at the State
Commission, Albany. It was the result
of a denial in February by J. Earl
Kelly, Director of Classification
and Compensation, of an applica-
tion for higher allocation of the
positions of correction officer, cor-
rection hospital attendant, ward-
ens, medical office assistant, and
correction youth camp officer from
Grade 11 to Grade 13.

Feily, On Buffalo TV, Urges City To Act At Once Toward Just Pay
BUFFALO, May 7—Mayor Chester Kowal and the
Buffalo City Council have been urged to take immediate
to provide equitable salaries for all City employees.

The action was proposed by Joseph F. Feily, president of
the 100,000-member Civil Service Employees Assn.,
during television appearances here last week.

Feily, in Buffalo to arrange for the annual full
meeting of the Employees Association next October,
learned that the new City budget made no provision
for raises for City employees.

Feily, in Buffalo to arrange for the annual full
meeting of the Employees Association next October,
learned that the new City budget made no provision
for raises for City employees.

He declared "equitable" raises based on duties and responsi-
bilities of positions should be set up to bring all
Buffalo City employees to par with their counter-
parts in private industry.

The CSEA chapter, which
represents large numbers of public employees in the
City and the County, has entered a strong case
for raising City salaries, not based on any favored group.

The CSEA president said it seemed advisable
that a survey of all City positions intended by a
reputable organization. Feily suggested the recently
completed Bartington study of Erie County positions
could provide the road to proper salary treatment for
Buffalo aides.

CSEA Members Get Full Backing to Correction Officer Title Appeal

ALBANY, May 7—Noting the validity of the Civil Service
Employees Association's argument for disapproval, Governor
Rockefeller last week vetoed legislation that would have
authorized counties and cities to enter into joint-pension agreemen-
to the New York State Employees' Retirement System for the construction and use of
municipal office buildings.

In opposing the measure, the
Association said it was concerned
that the new measure would not
include the common use of the
same fund for the benefit of the
employees in one city and the
other. The Association further
said that the new City budget was
"so defeatist" the employees of
the City and the County should
not be left to their own resources
for better compensation.

In a message "strongly urging
the Governor veto this bill," the
Association said:
"There are many lofty pur-
poses of unquestionable value
which these trust funds might
be used for. However, the responsi-

Govemor Agrees With CSEA, Investments Should Serve Aides

ALBANY, May 7—Joseph F. Feily, president of the Civil
Service Employees Association, said today that Governor
Rockefeller had accomplished a much-needed service for
loyal civil servants and for the state and local governments
as employers by approving legislation that removes the "death
gamble" facing some members of the State Retirement
System.

"Until the passage of this
measure," Feily said, "many em-
ployees who stayed on in service
beyond the minimum retirement
date to the benefit of their em-
oployers-exposed their surviving
in the event of death, to the
reduction of benefit they had
earned.

In some instances, an em-
ployee's "initial reserves account" in the Retirement System might be
greater than his ordinary death
benefit combined with the return of his accumulated contributions.

CSEA Drafted Bill
Prior to the new legislation, if
the employee were to die during
the waiting period, his beneficiary
automatically received the death
benefit and accumulated contrib-
tutions, even though the "initial
reserves" might be greater.

The new bill, proposed by the Governor, provides that the
employee, who is required to stay on in service beyond his
minimum retirement age, is given the option to choose
between the "initial reserves account" and the death benefit,
whichever is greater.

This legislation drafted and sponsored by the CSEA, was
introduced for the Association by
Joseph F. Feily, Assemblyman (R-Odessa) and Assemblyman Guy
L. Marvin (R-Oceanside). It is a
one-year bill.

CSEA Executive Unit Will Dine, Install, May 17

The new Executive Chapter of the Civil Service Employees Association in Utica met in Utica on April 17th.

Peter Ball and Nancy Burns of the Social Committee announced plans for a dinner-meeting and installation of officers to be held on May 17th at Robert's Restaurant. Music will be provided by "The Hallidays."

Members may bring guests and agerald invitation is extended to all employees of Executive Chapter.

A large turnout is expected and it is anticipated that a delightful evening will be had by all who attend.

College Grad Gets Top Priority In Onondaga Pay

(From Leader Correspondent)

STILLWATER, May 7 — The Onondaga County Executive has issued some bad news for County college-trained personnel as any pay increases in the 1963 budget will go to professional personnel.

It was announced that only "career employees" are county employees who have college degrees.

Mr. Folger said the reason for giving college trained personnel top priority for pay increases is that he has found that salaries of these employees in Onondaga County are below those of other counties in the state.

Clerical workers in county offices, he said in a memorandum to area town and city clerks, are receiving comparable pay with other counties.

The county executive said he is instituting a study to determine if such funds will be available next year. He expects to be able to report the findings by May 18.

Oneida Discusses Civil Defense

(From Leader Correspondent)

UTICA, May 7 — The Oneida County Chapter, CSEA, sponsored a meeting aimed at setting Civil Defense.

Speakers were Daniel Webster, CD director for the county; James Carroll, Utica CD director, and Edward Taylor, the director in Rome.

Richard Bickha, deputy county welfare director, CD, was the moderator.

Webster and Carroll discussed the current and service programs and Tyler discussed cooperative services at the federal, state, county and city levels.

WATERFORD, May 7 — Sen. John Gordon said The Leader this week he was confident the State Senate bill which he sponsored, will strengthen the "headquarters operation of the State Police."

Commenting on Governor Rockefeller's approval of the bill, he said: "Under the new law, the State Police will have a framework in which to make such necessary adjustment in activities and organization to meet current conditions and to discharge their responsibilities to the Governor and to the citizens of the State."

He added: "I am confident this bill will implement the recommendation program of Superintendent Cornelius and provide the State Police with a salary schedule in line with their responsibilities."

State Will Aid Lackawanna In Salary Survey

(From Leader Correspondent)

LACKAWANNA, May 7 — The State Civil Service Commission has informed the Common Council of this city, second largest in Erie County, that the State will aid in a long-awaited wage survey.

Joseph Silverman, representing the state, has told the council that the commission will provide technical services in such a survey, but purely on a consensual basis.

He told the city legislators in a private meeting that if the city initiates such a survey and pleads ombudsmen to some of its findings — it could be completed in mid-September.

The state official, it was reliably reported, was insistent that the Common Council indicate it will adopt uniform rules and regulations governing sick leave, absences, and the like and designate ombudsmen to enforce those regulations.

Pay Raises May Be Due For Watertown Aides

(From Leader Correspondent)

WATERTOWN, May 7 — The Watertown city council, in the throes of its annual budget study, is unofficially considering a five per cent pay boost for municipal employees.

The council has two similar requests formally before it from police and fire department organizations. These groups seek pay schedule revisions to rectify what they describe as inequalities. In addition they seek a longevity pay plan to supplement the present city salary schedule, plus hospitalization as a fringe benefit.

The present municipal pay plan, heralded in 1958 as one of the state's finest for municipal workers, is now said to be outdated in some respects and needs overhauling. The plan established base salaries and hourly pay for laborers with mandated increases over a six-year span.

In recent private discussions, members of the council have formally discussed pay boost possibilities for employees on either a general percentage increase or an across-the-board boost. Neither plan has been decided.

If the council acts, it must do so before the council's reorganization and city budget approval, June 1. The new city budget becomes operative July 1.

Thoughts While Shaving

TOO BAD IT had to take an embarrassing situation to make public officials realize that an unpopular law will be disobeyed eventually. The Voluntary Act was such a law, ignored and violated by most law abiding citizens until it was abolished as unenforceable. When a law is ignored and violated by both the enforcer and violator, some other law will be born to replace it. Legislation and the law. Deleges of C.G.E.A. have tried for years to eradicate the Conform-Willing Act as an instrument with penalties too severe to enforce.

Today, the civil service organizations have no strike clauses in their charters because of their firm belief that their employment is a dedicated field, but public employees as people need an effective machinery that will make labor just for bargaining procedures. Overhauling of the present law to provide such effectiveness may be the answer our public officials are seeking as a way to keep public employment.

DO NOT BE SURPRISED if the Democratic state convention in September is held at the Concord Hotel, stamping around of the de-Southern Chichester.

DID YOU KNOW that a Correction Officer can increase his salary quicker by serving three years in a prison as a C.C.O. than through the regular route in county service? The regular route takes examination grades for grade 12 and 13, and, later, taking the Serpent's grade. 15.

The appointment of ten to the plan of the Committee for Reorganization of State Government to place the Division of Parole under the Department of Corrections. Law enforcement agencies, such as the EMPA, will receive their first increase under the delayed 5% raise on August 15, thereby losing one day's pay for the entire pay period.

THE IMPACT OF AUTOMATION REPORTED AT CAPITAL DISTRICT'S SEMINAR

ALBANY, May 7 - The impact of automation on New York State Government and its employees, the dilemmas it presents and the human factors involved were the main ingredients of the annual workshop of the Capital District Conference, Civil Service Employees Association, held last week. In Albany.

The conclusion of a three-man panel, which discussed "The Aspects of Automation" at the workshop in the afternoon, and "Tax and Finance" Commissioner Joseph Murphy, speaking to the discussion of that evening, was that through the planning and foresight. Electronic Data Processing (EDP) systems in state government can accomplish hoped-for efficiencies and economies without undue hardships on employees.

The panel discussion, attended by more than 100 persons, included talks by Irving Weinstock, assistant director of personnel for the Division of Employment; Donald Axelrod, chief examiner of the administrative management unit, Division of the Budget; and John Shanklin, executive assistant to the Commissioner of General Services.

What Has Occurred

Weinstock said the Division of Employment began thinking of EDP systems 10 years ago and by 1959 had undertaken evaluation of the impact of EDP on staffing. It was a question of how, as at first, appeared to be impossible.

However, through cooperation with the comptroller, and other state agencies for help in transferring Division of Employment's data into the EDP, and through other means, the new data system in his agency would, he said, be used by the Executive Chamber in its work. The EDP system, therefore, cannot be replaced by machines.

1. Government is obligated to produce a way to make the least possible cost to the people of the state, therefore, machines must replace people.

2. Employees have vested rights in their jobs, therefore, cannot be replaced by machines.

From all indications and state government must be held to a fair compromise of the two sides and "New York State Government is doing just that.

A number of things, such as EDP re-training, advancing planning, and providing new opportunities help make the transition to EDP easier, he said.

A question and answer period followed the panel.

Tax Commissioner Reports

At the dinner, Commissioner Murphy outlined the background and present status of EDP in his department and discussed the impact of proposed automation of tax records.

Murphy, public relations director of the Department of Agriculture and Markets, was the second speaker and Lawrence E. Brown, associate commissioner of personnel, served as toastmaster of the dinner.

As chairman of the affair were Deborah G. Nelson, president of the conference, and Harry A. Klobosz, vice president.

Levitt Backed CSEA 'Death Gamble' Bill

ALBANY, May 7 - Among those who backed the "death gamble" bill, bipartisan, Incorcorated by the CSEA (Civil Service Employees Association) is Edward Levitt, executive director.

Levitt, as head of the State Retirement System, has been on record that the benefits for the EDP system are a more effective, more efficient, and more economical.

Levitt said that the present state of automation is "the constitutional question of the day." He said that the "Constitution of this state, as to be sure, has changed."

The inclusion of a Civil Service Commissioner on the advisory council to the pay study group was explained as an effort to bring the experience of this member, who recently participated in similar work in the Civil Service Commission.

The Commission member is O. Glenn Stahl. Some military men have testified to his inclusion on the panel.

Army to Cut 475

Units Across Country

The National Guard Bureau of the Federal Government has announced the elimination of some 475 Army Guard units in the 50 states.

The cutback is a part of a plan to reduce Reserve and Guard strength by 50,000 and to eliminate the National Guard in 11 states.

The First Army area, which includes New York, New Jersey and New England, will lose 475 units. New York will lose 28, New Jersey 25, Rhode Island 4, Connecticut 31, Massachusetts 156, and Vermont 18.

10,000 Six-Months

Punished for Evading Drill Obligations

The Government has punished some 10,000 service who chose to go into the Army under the six-month reserve training program by suspending two years of active duty, and who have failed to fulfill their weekly drill obligations.

Of the number, 8,400 in the Reserve were called back to the Army for a 45-day "special period," and 5,071 men who finished the program were asked to report to the Reserve. Some 8,000 service were asked to serve as "special inductees."

Congress, in 1935, adopted the scheme to reduce Reserve and Guard strength. Since that time, some 55,000 have been called to active duty, and some 5,000 have been ordered to active duty with signed promises to fulfill drill obligations in the reserve.

Reserve and Guard

Units Release Set

Invitation to Trouble

TWO actions of Mayor Wagner in recent days give pause for serious reflection. One concerns his singling out of one City employee group for special attention and the other relates to his statements concerning fund sources—or lack of them—for improving wages and benefits for all employees.

Of the several pension measures affecting City employees that were before Governor Rockefeller, Mayor Wagner urged passage of a special law for sanitation and health employees for $15,000 a year. The rest of his explanation was that there just wasn’t any more money available and it was even suggested that if City employees could get the taxpayers enthusiastic about higher taxes all problems would be solved. Not only did the Mayor neglect the real problem of that of the civil service employee, Bondson on Wagner’s part would produce the funds, Instead, it has taken pressures, some of which were justified, not to set. Other employee groups have resisted the temptation.

We feel that Mayor Wagner is inviting further such pressures, however, by this open display of favoritism, refusal to seek more revenue, and concession to the implied threat of strike.

Vetoes Important, Too

HERE is more to a successful Legislature than passing of desirable civil service measures. Frequently, bills are passed which, on close analysis, are found to hold potential or obvious disadvantages for the public employee.

The Civil Service Employees Association showed its awareness of this facet of legislative activity by proposing vetoes for two measures which held no good for civil servants.

The first measure, which had been approved by both house of the Legislature, would have made it possible for State Police to retire at age 60. CSEA struck out at this measure on two scores: first, that it could impair the constitutionally guaranteed pension rights of these employees, and, second, that mandatory retirement at such an early age was contrary to the thinking of both Governor Rockefeller and President Kennedy in this area.

A second measure would have allowed the State Retirement System to loan public subdivisions pension funds for building purposes at a lower rate of interest than could be secured through other sources. CSEA vetoed this veto, The Employees Association pointed out that it was the duty of the Retirement System to invest its funds, part of which belonged to the State or local governments, best advantage of the employees. Lending pension funds for less interest than conventionally would be received would certainly not be in the interest of these employees.

Gov. Rockefeller rightly vetoed both bills.

Social Security Questions

I became disabled in 1947. In 1960 I began receiving monthly social security disability benefits. My doctor has now advised me that I might be able to do some light work. Will my social security disability benefits stop if I go back to work?

A trial work period is provided, during which you can attempt to work, even though still disabled. This period lasts nine months. If your earnings are within prescribed limits, you need not report them to the Social Security Administration. Of course, the trial work period does not apply to an individual whose disability condition had improved so that he

I know I can earn as much as $2,000 a month in wages. Is this correct?

Since then your quarterly earnings have been reported about twenty times. It is possible that you may have obtained a check for an amount above this amount, your total annual earnings would be reduced by $1 for each $2 earned above $1,700. If you earned over $1,700 but not $2,000, your benefits would be reduced by $1. If you earned over $2,000, benefits would be reduced by $2 for each $200 earned above $2,000.

Since it is impossible to determine the amount of work done by an individual. For social security purposes, the amount of work done by you cannot be determined by you. It is difficult to determine the amount of work done by an individual. For social security purposes, the amount of work done by you cannot be determined by you. The employees of this Department, under the direction of Commissioner Don J. Wickham, are charged with a wide range of responsibilities. These include, among others, close watch over the supply, quality and distribution of dairy and farm products, manufactured foods and other activities directly or indirectly related to food and food products offered for sale to New York State residents. The Department, through its many Divisions and Bureaus, serves as a watchdog to protect the consumers of New York State.

One of its more glamorous activities is the operation of the New York State Exposition at Syracuse, one of the outstanding fairs of its kind in the nation.

THE STATEWIDE PLAN ... a combination of Blue Cross, Blue Shield and Major Medical — provides security and protection for most of the employees of the Department of Agriculture and Markets against the cost of hospital and medical care. This three-part program offers realistic coverage for all New York State employees, active and retired.

Wherever you go, at home or abroad, you can be secure in the knowledge that the STATEWIDE PLAN and its benefits travel with you. This is just one reason why it provides the most liberal benefits at the lowest possible cost.

Get all the facts about the STATEWIDE PLAN from your Payroll or Personnel Officer. Do it now.

Ordinarily, the length of decisions on title appeals to the Department of Compensation and Classification creates too much pressure on available columns to permit reporting the full text.

The Leader this week makes an exception in the case of the reallocation appeal of Correction Officers because of two factors.

First, the appeal involves a reallocation of the above-mentioned classifications filed in support of the petitioners that Grade II is too low in relation to the other classes. The petitioners that Grade II is too low in relation to the other classes, preferably in comparison with other States.

The principal reasons advanced in this instance. These reasons are a few classes which may be unreliable for comparative purposes. In this instance, the first class is Park Patroli. the second class is Traffic and Park Officers, Grade 11, Traffic and Park Officers, Grade II, Warrant and Transfer Officers are responsible for investigation and the screening of applicants for the purpose of the classification of personnel. In the density population of New York City, the city traffic is unusually heavy. The work is carried on by officers of the city, in all other areas of the State. This is true for the Park Patroli. in Grade II, Warrant and Transfer Officers are responsible for the protection of the public, the maintenance of public order, the transportation from the place of arrest to the nearest State or city correction institutions. They control this area in which the majority of the matters having to do with the control of the park and the roads responsible for the custody and care of the prisoners and inmates and responsible for the protection of the general public.

In the comparison of the above-mentioned classifications the salary rates of this sort, we find a disparity in the State's salary structure.

Obviously, the State is not equipped to handle the number of prisoners and inmates as prescribed. Many do not have a higher salary rate for correction. 11 and parkway, for the purpose of this classification of personnel.

The reasons set forth in a six-page decision are too low in relation to the other classes. The petitioners advanced two major reasons as the basis for their request. Firstly, the majority of the Correction Officers at New York City are not only paid to the Grade II level. Considering the performance of their salary rates, the majority of the Correction Officers at New York City are not only paid to the Grade II level. Considering the performance of duties below the Grade II level. The percentage of those candidates that passed the physical test and the like are only 153 employees who were paid at the Grade II level. The petitioners asserted that this is because of the New York State and New York City. The petitioners asserted that this is because of the New York State and New York City.

The nominees, chosen by the nominating committee headed by Mr. Martin, are for: first vice president, Robert Field; second vice president, Ray Margollus; Tax and Finance; first vice president, Leo Bernardo; Secretary, Tax and Finance. Laborer Exam
To Open In July:
$4,920 To Start

Filing will open within
the next few months for jobs as laborers for various New
York City Departments. No
Department of Personnel have
Although only 1,273 persons
have thus far been employed
from an eligible list of 5,492, a
new list is required because the
current list expires on October
29.

There is no competitive written examination for these jobs which pay
$4,920 to start. Additional
compensation is granted for
specialized duties.

Maximum age for filing for this
position is 45 years on the first
day of filing. Disabled and non-
disabled veterans are not bound
by the age requirements. Other
persons who engaged in military
duty as defined in Section 243 of
the Military Law may begin the
period of service from their actual
age.

The duties of the position in-
clude common laboring work
which requires little skill or train-
ing. A high degree of physical
strength is essential. A physical
examination will be used to de-
termine placement on the eligible
list.

Candidates taking the physical
test will do so at their own risk
and at their own expense.

Utica Mayor Declares Aides Will Be Paid Despite Opposition

(From Leader Correspondent)

Syracuse, May 7—Mayor Frank M. Dulan said last week that the Municipal Civil Service Commission would not be able to withhold the pay of city employees.

"All city employees are going to get paid no matter what," the commission says," Dulan said.

He made the pledge in the wake of a formal inquiry by Mr. R.W. DePerno, chairman of the commission to refuse certification of city payroll unless the DePerno administration followed hiring policies set down by the commission. Aides Will Be Paid

The chapter's membership drive set For May 19

The next pay for city workers is May 13. Firemen are scheduled to be paid on May 15.

That day, Dulan is planning to replace DePerno on the Com-

pany's Board of Directors. He has offered to resign his position so that he may be appointed to the board.

The chapter was given the request by the commission to issue a formal inquiry into the feasibility of a city payroll unless the DePerno administration followed hiring policies set down by the commission.
